XYLEM BELL & GOSSETT SAVINGS PLAN FOR HOURLY EMPLOYEES
2016 PLAN YEAR

The Xylem Bell & Gossett Savings Plan for Hourly Employees provides retirement benefits to certain employees that are covered by certain collective bargaining agreements. On July 1, 2016, the accounts of 195 participants were transferred to the Xylem Retirement Savings Plan. The 195 participants ceased active participation in the Xylem Bell & Gossett Savings Plan for Hourly Employees by virtue of transferring to non-union employment status. Their accounts were transferred to the Xylem Retirement Savings Plan, which is the plan these participants began actively participating in following their transfer to non-union status. This allowed for consolidation of their account balances from the two plans into one plan. This was not due to a plan termination or severance of employment by an employer that resulted in the exclusion of a group of employees previously covered by the plan, nor did any plan amendment adversely affect the rights of employees to vest in benefits under the plan.

XYLEM BELL & GOSSETT SAVINGS PLAN FOR HOURLY EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of the Plan

The following description of the Xylem Bell & Gossett Savings Plan for Hourly Employees (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General — The Plan is a defined contribution plan sponsored by Xylem Inc. (the "Company" and "Plan Sponsor") covering the hourly employees of Fluid Handling, LLC ("Employer") who are members of the bargaining unit represented by Local 890 of the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America, U.A.W., as described by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan was established August 1, 1990 as the ITT Bell & Gossett Savings Plan for Hourly Employees. Effective October 31, 2011, The Xylem Inc. Retirement Savings Master Trust (the "Master Trust") was created by the Company to serve this and other Company savings plans.

The Company entered into a trust agreement with Fidelity Management Trust Company ("Fidelity"), effective July 1, 2016, to act as the Plan trustee, custodian and record keeper ("Trustee"). Certain participant account balances in the Plan belonged to participants of other plans sponsored by the Company. During the transition to Fidelity, those participants' balances of \$906,393 were transferred out of the Plan on July 1, 2016, including notes receivable from participants of \$34,204. A transfer in the amount of \$884,104 was made to the the Xylem Retirement Savings Plan, including notes receivable of \$34,204. A transfer in the amount of \$22,289 was made to the Xylem Standard Xchange Savings Plan for Hourly Employees.

Investments in the Master Trust at December 31, 2016, are shown on the Master Trust Schedule of Assets (Held at End of Year) as filed with the U.S. Department of Labor, Washington, D.C., under identification number 45-3304527. The Plan's share of the assets as of December 31, 2016 is also presented in that filing.

Effective March 1, 2015, the Plan's trust agreement was amended to reflect a change in trustee from JP Morgan Chase Bank, N.A. ("JP Morgan") to Great-West Trust Company, LLC ("GWTC"). GWTC served as the custodian for the Plan's assets with the exception of the Xylem Stock Fund until the change to Fidelity in July 2016.

Effective July 1, 2016, the Plan was restated in preparation for the transition to Fidelity as the new Trustee. Amendments to the Plan included the addition of an option for the participants to elect to contribute to Roth savings.

In January 2016, the Plan was restated to incorporate previous amendments in preparation for the Internal Revenue Service ("IRS") Cycle E filing for an updated determination letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan filed the request on January 29, 2016 within the normal Cycle E filing period.

Various plan amendments were executed during 2015 in order to perform administrative updates which had no material impact to the Plan.

Eligibility - Any regular full-time hourly person employed by the Employer who is a union member becomes eligible to participate in the Plan on the first day of the month immediately following one month of service with the Employer. Union members who are temporary or part-time employees are eligible upon completion of at least 1,000 hours of service in a 12 month period.

Contributions - Under the provisions of the Plan document, allowable contributions are outlined as follows:

Participant Contributions - A participant may generally elect to save 2% to 25% of base salary, as defined by the Plan document. A participant may designate savings as before-tax savings, after-tax savings, Roth savings or any combination of the three. A participant who is a highly compensated employee may be limited to less than 25% due to the operation of certain tests required under the Internal Revenue Code (the "Code").

Employer Contributions - The matching employer contribution for the Plan is 50% of the first 6% contributed by a participant. Participants have the option of investing the matching employer contributions in any available investment option. As a result of contract negotiations, the Company and Local 890 of the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America, U.A.W., have agreed in principle to a new labor agreement that was ratified on August 30, 2015. Effective January 1, 2016, the agreement created a core contribution ("Core" contribution) to be paid to employees ineligible to participate in the Xylem Bell & Gossett Pension Plan for Hourly Employees. The employer Core contribution of \$125 will be paid each quarter to those participant accounts belonging to employees hired after August 14, 2015 who are not eligible to participate in the pension plan (employee must be actively employed and eligible for the Plan on the last day of the quarter to received the Core contribution).

Participant Accounts - Each participant's account is credited with the participant's contribution, the matching employer contribution, and an allocation of the Plan's investment earnings, forfeitures of matching employer contributions, and charged with the participant's withdrawals, loans, and an allocation of the Plan's investment losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments - Participants designate the Plan funds in which their contributions and the matching employer contributions are to be invested. All investments are participant-directed. Participant contributions can be invested in any or all of the various investment funds available in the Plan. In addition, participants can elect to have all or a portion of their matching employer contributions invested in the Xylem Stock Fund held in the Master Trust (participant contributions may not be invested in the Xylem Stock Fund). Participants may elect to allocate contributions among these funds in multiples of one percent (1%).

Vesting - The participant's interest in their contributions is fully vested at all times. The Company contribution portion of the participant's account is vested based on their number of years of service. A year of service is any year in which the participant works 1,000 hours during a consecutive 12 month period starting from their date of hire or the anniversary of that date. With less than one year of service, the employee is 0% vested. With one year of service, the employee is 20% vested. With two years of service, the employee is 40% vested. With three years of service, the employee is 60% vested. With four years of service, the employee is 80% vested. With five or more years of service, the employee is 100% vested.

Benefits to Participants - Participants, or their surviving beneficiary, are entitled to the full vested value of their accounts following employment termination (including death, disability, or retirement) in a lump sum amount paid in cash or as a rollover to another qualified plan. In lieu of a lump sum payment, the participant can elect monthly, quarterly, semi-annual or annual installments, life expectancy installment payments, or partial distributions, as defined by the Plan document.

Participants are allowed to withdraw, at any time, any portion of after-tax participant contributions, and vested matching employer contributions, subject to Plan provisions.

Direct Rollover of Certain Distributions – With respect to an eligible rollover distribution, the participant may elect, at the time and in a manner as defined by the Plan document for such purpose, to have the Plan make a direct rollover of all or part of such withdrawal or distribution to an eligible retirement plan which accepts such rollover.

If a participant's account balance is greater than \$1,000 but does not exceed \$5,000 and the participant fails to make an affirmative election to either receive the lump sum payment or have it directly rolled over to

another qualified plan within the election period, the account balance will be automatically rolled over to an Individual Retirement Account ("IRA") established in the participant's name.

If a participant's account balance is \$1,000 or less and the participant fails to make an affirmative election to either receive the lump sum payment or have it directly rolled over to another qualified plan or an IRA within the election period, the account balance will be automatically paid out to the participant.

Forfeitures - Forfeitures result from termination of employment before full vesting has occurred. Forfeitures of matching employer contributions are used to offset future matching employer contributions or administrative expenses of the Plan. Total forfeited non-vested accounts at December 31, 2016 and 2015 were \$0 and \$3,961, respectively. During the year ended December 31, 2016 forfeited amounts totaling \$8,577 were used to reduce matching employer contributions.

Notes Receivable from Participants - Participants may borrow from their account balance (a "loan") in any whole dollar amount, which must be at a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of the participant's vested interest in their account, reduced by the highest outstanding loan balance, if any, during the prior 12-month period. General purpose loan terms range from one to 4.5 years. If the loan is used in the purchase of a primary residence, the loan term can be for a period of up to 14.5 years. Participants may have up to two loans outstanding at the same time. The loans are secured by the balance in the participant's account and bear interest. The interest rate charged by the Plan is a reasonable rate of interest for loans commensurate with the interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances, as determined by the Plan document, and generally remains the same throughout the term of the loan. Principal and interest are paid ratably through payroll deductions. The interest rate is determined at the time the loan is processed, and shall remain in effect for the term of the loan.

Administrative and Investment Management Expenses - Expenses reasonably expected to be incurred to administer the Plan, including the Plan's recordkeeping and trustee fees and loan origination fees associated with notes receivable from participants, are paid by the Employer.

The Plan Sponsor provides accounting and other administrative services to the Plan at no charge. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Investment management fees are charged to the Plan by the majority of the investment funds. These investment management fees are included in the net asset value ("NAV") of the fund calculated by the investment manager of the respective fund and are reflected by the Plan as a reduction of investment return for such investments.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Risks and Uncertainties - The Plan holds an interest in various investments held within the Master Trust including common stock, collective trusts, guaranteed investment contracts and mutual funds (registered investment companies). Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, liquidity risk, and overall market volatility. Due to the level of risk associated with certain

investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the values of participants' account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition - The Plan's investments are measured at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). A more detailed description of the individual types of investments held in the Master Trust and their valuation methods can be found in Note 3.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions Receivable - The Plan accrues contributions receivable based upon payroll deferrals during the Plan year but not yet deposited.

Benefits Paid to Participants - Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of participants who have elected to withdraw from the Plan but have not yet been paid as of December 31, 2016 and 2015. Additionally, for loans declared in default the principal and accrued interest are recorded as a distribution.

Notes Receivable from Participants - Notes receivable from participants are recorded at their unpaid principal balance, plus any accrued, but unpaid interest with no allowance for credit losses as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' accounts.

In the event that a participant fails to make repayment for three consecutive months, the loan is considered to be in default. In the event default is declared, the outstanding loan balance and any accrued interest may be treated as a withdrawal prior to termination of employment subject to the withdrawal provisions outlined in the Plan document and may be determined to be a fully taxable distribution from the Plan.

Note 3. Fair Value Measurement

We determine fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. We use a hierarchical structure to prioritize the inputs to valuation techniques used to measure fair value into three broad levels defined as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices (in non-active markets or in active markets for similar assets or liabilities), inputs other than quoted prices that are observable, and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 inputs are unobservable inputs for the assets or liabilities.

The fair value hierarchy is based on maximizing the use of observable inputs and minimizing the use of unobservable inputs when measuring fair value. Classification within the fair value hierarchy is based on the lowest level input that is significant to the fair value measurement.

NAV Practical Expedient is the measurement of fair value using the NAV per share (or its equivalent) as an alternative to the fair value hierarchy as discussed above.

The Plan's policy is to recognize significant transfers between levels at the beginning of the reporting period. There were no significant transfers between levels during 2016 and 2015.

The following are descriptions of the valuation methodologies and inputs used to measure fair value for major categories of investments.

- **Employer Common Stock** - Common stock is valued at the closing price reported on the major market on which the individual securities are traded at the measurement date. Xylem Inc. stock is traded on the New York Stock Exchange ("NYSE") under the ticker symbol XYL and is valued at the Plan's year-end date. These securities are classified in Level 1 of the fair value hierarchy.
- **Member-Directed Brokerage Accounts** - Securities held in BrokerageLink are valued at the closing price reported on the major market on which the individual securities are traded at the measurement date. These securities are classified in Level 1 of the fair value hierarchy.
- **Mutual Funds** - Mutual funds of registered investment companies are publicly traded in active markets and valued at the closing price reported on those major markets on the measurement date. Mutual funds are classified within Level 1 of the fair value hierarchy.
- **Collective Trusts ("CTs")** - CTs are valued at fair value at the Plan's year-end date using the NAV provided by the administrators of the CTs as a practical expedient. There are no unfunded commitments related to the CTs and investments in CTs can be redeemed on a daily basis. CTs are not classified in the fair value hierarchy but are included in the table below to assist in reconciling to the amount on the statement of net assets available for benefits.

While the Plan administrator believes that the valuation methods are appropriate and consistent with how other participants in the market value these types of investments, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used at December 31, 2016 and 2015.

The following table sets forth by level within the fair value hierarchy a summary of the Master Trust investments measured at fair value at December 31, 2016.

Note 4. Guaranteed Investment Contract

The Master Trust holds fully benefit-responsive investment contracts (guaranteed investment contract or "GIC") with New York Life Insurance Company ("NY Life"), also referred to as the Stable Value Accounts that are reported at contract value. NY Life manages these investments and maintains the contributions in its pooled separate account (branded as the "Anchor Account"). The assets of the Anchor Account are owned by NY Life. The Anchor Account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investments at contract value. The contract has no maturity date, but contract years begin on January 1 of each year.

Under the terms of the contracts, interest will accrue daily, be credited monthly and the rate cannot be less than zero percent. The daily rate fluctuates based on the underlying investments. Realized gains and losses are amortized over the target duration.

Restrictions - Participant-initiated transactions are those transactions allowed by the Plan, including withdrawals for benefits, loans, or transfers to noncompeting funds within a plan, but excluding withdrawals that are deemed to be caused by the actions of the Plan Sponsor. No direct transfers to competing investment options are permitted under the GIC. Any transfers out of the GIC must first go through a non-competing investment option and reside there for at least 90 days before transfer to a competing option, directed-brokerage account, or a mutual fund window. However, the GIC shall not be subject to a market value adjustment if the Plan provides at least 12 months advance written notice to NY Life. The following employer-initiated events may limit the ability of the Plan to transact at contract value:

- A failure of the Plan or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA;
- Any communication given to Plan participants designed to influence a participant not to invest in the GIC or to transfer assets out of the GIC;
- The establishment of a defined contribution plan that competes with the Plan for employee contributions; and
- Complete or partial termination of the Plan or its merger with another plan.

Plan management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

Note 5. Information Certified by the Trustee

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements as of December 31, 2016 and 2015, and for the year ended December 31, 2016, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the Plan administrator (as defined by the Plan document) and certified as complete and accurate by GWTC for the period from January 1, 2015 to June 30, 2016 and Fidelity for the period from July 1, 2016 to December 1, 2016. This information has not been audited by independent accountants.

Note 6. Master Trust - Unaudited

All of the Plan investments consist of an interest in an investment account of the Master Trust established by the Company and administered by JP Morgan up to February 28, 2015, then administered by GWTC for the ten months ended and as of December 31, 2015 and the six months ended June 30, 2016. The Master Trust was administered by Fidelity for the six months ended and as of December 31, 2016. Use of the Master Trust permits the commingling of trust assets with the assets of certain other Company savings plans for investment and administrative purposes. Although assets of participating plans are commingled in the Master Trust, supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans are maintained. The net assets of the Master Trust are allocated based on individual participant account balances in the respective plans. The daily net investment income of the investment assets is allocated by the Trustees to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans. There were no investment assets held outside the Master Trust at December 31, 2016 and 2015.

The following table presents the fair value of investments in the Master Trust at December 31, 2016 and 2015:

	2016	2015
Master Trust:		
Employer securities	\$ 19,346,372	\$ 1,445,185

Plan's interest in the Master Trust as percentage of total (Note a)	4.81%	46.85%

For the year ended December 31, 2016 the Master Trust's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2016
Master Trust	
Employer securities	\$ 2,200,032
Mutual funds	8,587,002

Total investment gain of the Master Trust	<u><u>\$ 18,322,181</u></u>
Plan's interest in Master Trust investment gain (Note a)	<u><u>\$ 1,249,129</u></u>

Note a: The Xylem Retirement Savings Plan was added to the Master Trust on July 1, 2016. Therefore, the Plan's portion of the master trust was reduced significantly as of December 31, 2016.

Note 7. Exempt Party-In-Interest Transactions

ERISA section 406(a) prohibits various types of transactions between a plan and parties in interest. Parties in interest are defined by the Department of Labor regulation as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. ERISA section 408(a) contains specific exemptions whereby plans may engage in certain transactions with parties in interest that are otherwise prohibited by law.

Effective July 1, 2016, Fidelity was the Trustee and custodian for all of the Master Trust's investments. Fidelity or one of its affiliates manages the Fidelity Government Money Market Fund.

There were administrative services fees paid to Fidelity or one of its affiliates during 2016.

JP Morgan was the Trustee for part of 2015 and remains custodian for certain investments as defined by the Plan document until July 2016. Certain Plan investments were funds issued by JP Morgan or one of its affiliates.

Record keepers, Empower Retirement ("Empower") for 2015 and up to July 2016, then Fidelity since July 2016, received revenue from mutual fund and collective trust fund service providers for services provided to the funds. This revenue was used to offset certain amounts owed to the record keepers for their administrative services to the Plan.

At December 31, 2016, the Master Trust held 390,617 shares of common stock of the Company with a cost basis of \$8.5 million. For the year ended December 31, 2016, the Master Trust recorded related net appreciation of \$2.2 million and dividends of \$0.1 million on Company stock.

Notes receivable from participants also qualify as exempt party-in-interest transactions and amounted to \$1,114,169 and \$1,156,316 at December 31, 2016 and 2015, respectively.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions set forth in ERISA. If the Plan is terminated for any reason, all accounts shall become fully vested and non-forfeitable.

Note 9. Federal Income Tax Status

The IRS has determined and informed the Plan administrator by a letter dated August 11, 2011, that the Plan is qualified and the Master Trust established under the Plan is tax-exempt, under the appropriate sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Company believes that the Plan and Master Trust continue to qualify under the applicable provisions of the IRC and, as a result, the Plan's net investment income is exempt from taxation. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Company to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Company has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

Note 10. Subsequent Events

The Company has evaluated subsequent events for recognition and disclosure through September 21, 2017, which is the date the financial statements were available to be issued. No significant events were noted except for the matters disclosed below.

A determination letter was received from the IRS dated July 14, 2017 indicating that the Plan and related trust are designed in accordance with applicable sections of the IRC.

On July 21, 2017 the Master Trust closed the Vanguard Target Retirement 2010 Fund and transferred the assets into the Vanguard Target Retirement Income Fund. On July 24, 2017 the Master Trust added the Vanguard Target Retirement 2065 Fund as an investment option.
