Ferrero U.S.A., Inc. and Subsidiaries
Profit Sharing and 401(k) Plan
Notes to Financial Statements
December 31, 2015 and 2014

1. Description of Plan

The following description of Ferrero U.S.A., Inc. and Subsidiaries Profit Sharing and 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plans' provisions.

General

The Plan was established on January 1, 1982 and subsequently amended and restated on January 1, 2010 and February 1, 2016. The Plan is a defined contribution plan covering all employees of Ferrero U.S.A., Inc. and Subsidiaries (the "Company" and "Plan Sponsor"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Employees of the Company are eligible to participate in the Plan upon the completion of one month of service and upon attainment of 21 years of age. Employees are eligible to receive employer discretionary contributions beginning on January 1 or July 1 after completion of the first twelve consecutive months of employment in which 1,000 hours of service have been completed.

Participant Contributions

The Plan provides each employee with an opportunity to make elective salary deferral contributions to the Plan, subject to the limitations of the Internal Revenue Code.

Employer Matching Contribution

The Company, at its discretion, may match a percentage of the participants' salary deferral contributions to the Plan, up to seven percent of base compensation. For the year ended December 31, 2015, no matching contributions were made to the Plan.

Employer Profit Sharing Contribution

The Company, at its discretion, may make a profit sharing contribution. All eligible, active participants who have worked at least 1,000 hours during the Plan year share in the contribution. For the year ended December 31, 2015, the profit sharing contribution was \$1,342,917.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, employer contributions, and the earnings thereon. Contributions to the Plan are invested by the custodian as directed by the participants. Each participant may elect from one or more of the investment vehicles offered pursuant to the provisions of the Plan.

Vesting

Participants are immediately vested in their elective salary deferral contributions and earnings thereon. For employer profit sharing and matching contributions, participants vest 20% after two years of service and an additional 20% each subsequent year until fully vested after completing six years of service.

Forfeitures

The portion of a participant's balance, which is not vested upon termination of employment, is forfeited and remains in the Plan. Plan participants' forfeitures are applied to reduce the Company's discretionary contributions for the plan year and, if applicable, any remaining amount shall be applied toward succeeding plan years until fully utilized. Forfeitures from employees for the year ended December 31, 2015 were \$45,536. Plan forfeitures of \$10,467 were applied in conjunction with the payment of the employer contribution for the year ended December 31, 2015. At December 31, 2015 and 2014, the forfeiture balance was \$55,216 and \$19,799, respectively, which was available to be applied towards future employer contributions.

Notes to Financial Statements

Participant Loans

Participants may borrow up to the lesser of \$50,000 or 50% of their vested account balance. A participant may have up to two loans outstanding at a time. Loan repayment terms are not to exceed five years; however, loans for the purchase of a primary residence can be repaid over a reasonable period of time that may be over five years. Loans are repaid through payroll deductions and are monitored by the plan administrator. Loans are measured at their unpaid principal balance plus any accrued but unpaid interest. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with the prevailing rate as determined by the plan administrator. As of December 31, 2015, the interest rates on the outstanding loans range from 5.25% to 6.0%.

Payment of Benefits

Upon termination, death, disability or retirement, vested plan benefits will be distributed to a participant or his/her beneficiary either in a lump-sum distribution or annuity payments. In addition, the Plan provides for participant withdrawals in the event of serious financial hardship.

Administrative Expenses

A portion of the expenses incurred in the administration of the Plan are paid by the Company.

2. Summary of Significant Accounting Policies

Change in Accounting Policy

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, Plan Accounting: Part I Fully Benefit-Responsive Investment Contracts, Part II Plan Investment Disclosures and Part III Measurement Date Practical Expedient. The three-part standard update is intended to simplify employee benefit plan reporting. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively and Part III should be applied prospectively, with early adoption permitted. Management has elected to early adopt Part I and II. Accordingly, the amendment was retrospectively applied to all periods presented. Part III is not applicable to the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The sales and purchases of investment securities, and gains and losses on the sale of investments, are recognized at the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through September 30, 2016, the date the financial statements were available for issuance. All subsequent events requiring recognition or disclosure have been incorporated in these financial statements.

3. Information Certified by the Plan Custodian

The following is a summary of the investment and notes receivable from participants information regarding the Plan as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included in the Plan's financial statements and supplemental schedule, that was prepared or derived from information provided by Massachusetts Mutual Life Insurance Company ("Mass Mutual"), the custodian of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the custodian that such information is complete and accurate.

Information related to assets held by the custodian at December 31, 2015 and 2014 is as follows:

	2015	2014
Investments at contract value	\$ 18,998,090	\$ 16,521,333
Investments at fair value	17,839,985	18,224,666
Participant loans	372,742	448,445
	<u>\$ 37,210,817</u>	<u>\$ 35,194,444</u>

The following was also certified by the custodian for the year ended December 31, 2015:

Net depreciation in fair value of investments	<u>\$ (63,045)</u>
Interest income	<u>\$ 535,166</u>
Interest on notes receivable from participants	<u>\$ 22,004</u>

Investment Contract with Insurance Company

The guaranteed interest account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by Mass Mutual. The contract is reflected in the financial statements at contract value (which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses), because it is fully benefits-responsive. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with Mass Mutual. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed interest account does not permit Mass Mutual to terminate the agreement prior to the scheduled maturity date.

4. Fair Value Measurements

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs. Valuation techniques used to measure fair value are defined as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Significant unobservable inputs, including the Company's own assumptions in determining the fair value of investments.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014:

- Pooled separate accounts are stated at the fair value based on the year end market value of each unit held, which is based upon the market value of the underlying assets of the funds less management fees. The pooled separate accounts do not have any unfunded commitments relating to its investments, or any significant restrictions or redemptions. Participant-directed redemptions can be made on any business day and do not have a redemption notice period.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments at fair value as of December 31, 2015 are as follows:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Investments at fair value				
Pooled separate investment accounts	\$ -	\$ 17,839,985	\$ -	\$ 17,839,985

Investments at fair value at December 31, 2014 are as follows:

	Level 1	Level 2	Level 3	Total
Investments at fair value				
Pooled separate investment accounts	\$ -	\$ 18,224,666	\$ -	\$ 18,224,666

5. Related Party Transactions

The Plan's investments are managed by Mass Mutual, the custodian of the Plan, therefore, these transactions qualify as party-in-interest transactions. Fees paid to Mass Mutual by the Plan for administrative services were \$1,560 for the year ended December 31, 2015.

6. Tax Status

On March 31, 2014, the Internal Revenue Service ("IRS") stated that the prototype plan adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

7. Risks and Uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.

8. Plan Termination

Although the Company has not expressed any intention to do so, it has the right to terminate the Plan in whole or in part at any time subject to the provisions set forth in the Employee Retirement Income Security Act of 1974 ("ERISA"). Upon termination, partial termination or complete discontinuance of contributions under the Plan, all participants become fully vested in their individual accounts.

9. Excess Participant Contributions Payable

The Plan failed to pass the Average Deferral Percentage (ADP) test for the years ended December 31, 2015 and 2014. The accompanying statements of net assets available for benefits include \$48,754 and \$13,910 as
