NOTES TO FINANCIAL STATEMENTS

Paradigm Metals, Inc. 401 (K) P/S Plan
Notes to Financial Statements
December 31, 2016 and 2015

NOTE 1-DESCRIPTION OF PLAN

The following description of the Paradigm Metals, Inc. 401(k) P/S Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company, except non-resident aliens and collective bargaining (union) employees, who have one year of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The entry date will be the first day of the Plan Year or the first day of the seventh month of the Plan Year next following the date the employee satisfies the eligibility requirements. The plan assets are invested in a group annuity contract with Sentry Life Insurance Company (SLIC) that allows contributions to be allocated among investment options which include the Guaranteed Fund and Separate Accounts at the discretion of the participant. The Plan's Administrator is Paradigm Metals, Inc., which is responsible for the day-to-day administration and operation of the Plan.

Contributions

Each year, participants may elect to reduce their compensation by a specific percentage or dollar amount and have that amount contributed to the Plan on a pre-tax basis as an elective deferral. Total deferrals in any taxable year may not exceed the limit set by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make a discretionary matching contribution equal to a uniform percentage or dollar amount of the participant's deferral each payroll period. Each year, the Company will determine the formula for the discretionary matching contribution. For the 2016 Plan year, the Company matched 25% of the first 4% of base compensation that a participant contributes to the Plan.

Participant Accounts

Participants are able to direct the investment of their entire interest in the Plan. If investment elections are not made, then the Participant's accounts are invested in accordance with the default investment alternatives established under the Plan.

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution and, (b) Plan earnings (losses), and charged with an allocation of any administrative expenses paid by the plan. Allocations are based on Participant's account balance or may be charged equally to each Participant. In addition, some types of expenses may be charged only to some Participants based upon their use of a Plan feature or receipt of a plan distribution. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1-DESCRIPTION OF PLAN-Continued

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on the below 6-year graded vesting schedule.

Vesting Schedule Nonelective/ Matching Contributions	
Years of Service	**Percentage**
Less than 2	**0%**
2	**20%**
3	**40%**
4	**60%**
5	**80%**
6	**100%**

To earn a year of service, participants must be credited with at least 1,000 hours of employment during a Plan year.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The notes are secured by the balance in the participant's account and bear interest at rates ranging from 5% to 5.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

NOTE 1-DESCRIPTION OF PLAN-Continued

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant whose vested account balance does not exceed $5,000 may only be distributed in a single-lump sum payment in cash as soon as administratively feasible. If the vested account balance does exceed $5,000, then a participant may elect to receive a lump-sum, installments, Ad-Hoc distributions, or select from various annuity options available from Sentry Life Insurance Company in the amount equal to the value of the Participant's vested interest in his or her account. Hardship withdrawals are also available for active employees subject to certain limitations.

Forfeited Accounts

At December 31, 2016 and 2015, forfeited nonvested accounts totaled $82 and $624, respectively. These accounts will be used to reduce future plan expenses and employer contributions. In 2016, plan administrative fees were reduced by $82 from forfeited nonvested accounts.

NOTE 2-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sells of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2-DESCRIPTION OF PLAN-Continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2016 and 2015, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant’s accounts and included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

Subsequent events were evaluated through October 12, 2017, which is the date the financial statements were available to be issued.

NOTE 3-FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The levels of the fair value hierarchy are described below:

Level 1- inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority.

NOTE 3-FAIR VALUE MEASUREMENTS-Continued

Level 2- inputs consist of observable inputs other than quoted prices for identical assets.

- *Pooled Separate Accounts (PSA)*-The Plan's assets are invested in a Group Annuity Contract with Sentry Life Insurance Company that allows contributions to be allocated to a Pooled Separate Accounts at the discretion of the plan sponsor. Investments in pooled separate accounts represent ownership of units of participation (Units), rather than ownership of specific assets. The value of any one pooled separate account is determined by aggregating the value of all of the Units held by the Plan. The balance of a single Unit is the total value of the pooled separate accounts underlying investments plus other assets less liabilities divided by the number of Units outstanding. Investments in the pooled separate accounts are valued at fair value which is generally determined by the quoted market price of the underlying investments.

Level 3- inputs are unobservable and have the lowest priority.

A brief description of each category's stated investment option and objective follows:

Pooled Separate Accounts: Fixed Income- This asset class is a conservative investment. These investments pursue income through bonds. As a fixed income investor, you are loaning your money to a person, business, or a government entity, who is expected to pay interest on the loan and repay the loan amount in full when it is due.

Pooled Separate Accounts: Target Retirement- This asset class is more risky than fixed income accounts but less risky than equity accounts. These investments pursue growth and income generally by dividing dollars into a mix of bonds for income and common stocks for growth. Target date accounts are designed and managed around an approximate retirement year. (e.g. 2025) As an investor grows older, the account automatically becomes more conservative by increasingly allocating assets to pursue income.

Pooled Separate Accounts: Equity/Income Blended- This asset class is more risky than fixed income options but less risky than equity options. These investments pursue growth and income generally by dividing dollars into a mix of bonds for income and common stocks for growth. Some equity/income blended investments may simply own dividend-paying common stocks, thereby pursuing both income (from dividends earned) and growth (from stock when they grow in value).

Pooled Separate Accounts: Equity Funds- This asset class has the highest degree of investment risk. These investments pursue growth through common stocks, which represent ownership in a business. The investment will achieve growth only as that business grows and the value of its stock increases.

NOTE 3-FAIR VALUE MEASUREMENTS- Continued

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015:

		Fair Value Measurements at the End of the Reporting Period Using:		
December 31, 2016	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)

December 31, 2015	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)

Fixed Income	28,903	-	28,903	-
Total Assets at Fair Value	$ 1,068,558	$ -	$ 1,068,558	$ -

NOTE 4-GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2016, the Plan entered into a fully benefit-responsive guaranteed investment contract with Sentry Life Insurance Company (SLIC). The Plan's asset is not the underlying assets in the Guaranteed Fund, but rather, the contract. Therefore, the Plan does not own such underlying assets, but rather owns a series of promises or guarantees that are embedded in the contract. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the most reasonable estimate of fair value for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by SLIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the guaranteed investment for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2016 and 2015, was $378,535 and $455,739, respectively. The crediting interest rate is not based directly on the actual performance of the underlying securities in the Guaranteed Fund, but rather determined in the contract. Crediting interest rates are reviewed at least as frequently as on annually basis for resetting. The underlying risks of the Guaranteed Fund are assumed by Sentry who is obligated to support the interest guarantees. The only risks passed on to the client are: (1) Sentry's discretion to set the guaranteed rate of return and (2) Enforcement of surrender charges or market value charges that may be triggered if funds are withdrawn. The contract allows for withdrawals for benefit payments under the Company's pension plan without penalty.

NOTE 5-RELATED PARTY TRANSACTIONS

The Plan assets are invested in a group annuity contract with Sentry Life Insurance Company (SLIC) that allows contributions to be allocated among investment options which include the Guaranteed Fund and Separate Accounts at the discretion of the participant. As a result, SLIC qualifies as a party-in-interest to the Plan with respect to transactions related to these investments. The fair market value of investments held by the Plan at the end of the year totaled $1,690,435 as of December 31, 2016, and $1,514,297 as of December 31, 2015. Fees paid by the Plan for the investment management services amounted to $1,952. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA

NOTE 6-PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 7-TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated October, 31, 2011, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2013.

NOTE 8-RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
