Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

To the Administrative Committee and the Investment Committee of the
Pension Plan for Employees of A&B Agricultural Companies:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Pension Plan for Employees of A&B Agricultural Companies (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by First Hawaiian Bank, the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2016 and 2015, and for the year ended December 31, 2016, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with Department of Labor Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Pension Plan for Employees of A&B Agricultural Companies

Notes to Financial Statements

December 31, 2016 and 2015

1. Plan Description

The following brief description of the Pension Plan for Employees of A&B Agricultural Companies (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

a. General

The Plan is a defined benefit pension plan for Salaried and Hourly Bargaining Unit Employees of Hawaiian Commercial & Sugar Co. (HC&S) and McBryde Hourly Bargaining Unit Employees of Alexander & Baldwin, Inc. (the Companies). The Administrative Committee of the Board of Directors of the Companies controls and manages the operation and administration of the Plan. The assets of the Plan, excluding receivables, are held in the Alexander & Baldwin Retirement and Pension Trust (Master Trust). First Hawaiian Bank (the Trustee) serves as the trustee of the Plan, and together with several investment managers, manages the Plan's investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

As of December 31, 2014, the KCC, Inc. Pension Plan for Salaried Bargaining Unit Employees, KCC, Inc., Pension Plan for Hourly Bargaining Unit Employees and KT&S Pension Plan for Bargaining Unit Employees, merged into the Plan. The merger of the plans does not impact participant benefits as the benefit provisions of the merged plans were incorporated in the Plan.

b. Pension Benefits

Employees become eligible to participate in the Plan after one year of service. Effective January 1, 1968, the Plan became noncontributory. Normal retirement age is 65 (62 using the stevedore formula). There are provisions for early and postponed retirement with relative adjustments in benefits. Normal retirement benefits are based on years of service and compensation with various maximum and minimum levels.

Salaried bargaining unit and hourly bargaining unit employees who were hired prior to June 1, 1995 were eligible to participate in the Plan after one year of service. Effective June 1, 1995, all newly hired KT&S, HC&S and McBryde bargaining unit employees are not eligible to participate in the Plan. Retirement benefits for bargaining unit employees is equal to the greater of a basic benefit formula or a minimum benefit formula, plus a supplemental monthly amount. Bargaining employees become fully vested after five years of service. If

employees terminate before they are fully vested, they forfeit the right to receive the portion of their accumulated Plan benefits.

Salaried employees hired on or after January 1, 2008, accrue benefits under the cash balance benefit pension formula. An account is maintained for each participant in which contributions are credited for the benefit of the individual.

Salaried employees hired prior to January 1, 2008, accrued benefits under the traditional defined benefit pension formula (traditional formula). On December 31, 2011, all accrued benefits were frozen under the traditional formula and replaced with the cash balance formula described below.

Salaried employees become fully vested after five years of service under the traditional formula or three years of service if any portion or the entire portion of accrued benefit under the Plan is a cash balance account benefit. If employees terminate before they are fully vested, they forfeit the right to receive a portion of their accumulated Plan benefits.

Retirement benefits for salaried employees under the cash balance pension formula are based on a fixed percentage (currently 5 percent) of employee eligible compensation, plus interest. The Plan's interest credit rate will vary from year-to-year based on the 10-year U.S. Treasury rate. Upon termination of employment, the vested account balance can be paid out in the form of a lump sum or as a monthly annuity.

Employee contributions made before the Plan become noncontributory are being credited annually with 5 percent interest since that date.

2. Summary of Significant Accounting Policies

a. Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

2. Summary of Significant Accounting Policies (continued)

b. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

c. Risks and Uncertainties

The Plan's investment in the Master Trust utilizes various investment securities, including common stocks, fixed-income securities, money market funds, limited partnership interests, exchange traded funds, and insurance contracts. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumption pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

d. Investment Valuation and Income Recognition

The Plan's investments in the Master Trust are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date of the Master Trust. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by investment advisors. See Note 6 for description of valuation methods.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Investment gain includes the Plan's gains and losses on investment bought and sold, as well as held during the year.

2. Summary of Significant Accounting Policies (continued)

e. Administrative Expenses

Administrative expenses of the Plan are paid by the Master Trust, as provided in the Plan document.

f. Payment of Benefits

Benefit payments to participants are recorded upon distribution.

g. Recently Issued Accounting Pronouncements

In February 2017, the FASB issued ASU No. 2017-06 *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Benefit Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*. The purpose of this update is to improve the usefulness of the information reported to users of employee benefit plan financial statements and to provide clarity to preparers and auditors. The ASU clarifies presentation requirements for a plan's interest in a master trust and require more detailed disclosures of the plan's interest in the master trust by 1) requiring that any changes in the plan's interest to be presented in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, 2) removing the requirement to disclose the percentage interest in the master trust for plans with divided interest and requiring plans to disclose the dollar amount of their interest in the investments held by the master trust, presented by general type, and 3) requiring the dollar amount of the master trust's other asset and liability balances to be disclosed, based on the plan's interest. ASU No. 2017-06 is effective for plans with fiscal years beginning after December 15, 2018. The amendments should be applied retrospectively to each period for which financial statements are presented. Early adoption is permitted. The Plan Administrator and the Plan Sponsor are currently evaluating the impact of adopting this new standard to the Plan.

h. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 9, 2017, the date on which the financial statements were available to be issued, and it was determined that all subsequent events have been properly accounted for.

Notes to Financial Statements
December 31, 2016 and 2015

3. Funding Policy

Contributions to provide benefits under the Plan are made solely by the Companies. The Companies' funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Companies contribution met the minimum funding requirements of ERISA for the year ended December 31, 2016.

4. Information Certified by Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified or provided by the Trustee, except for comparing such information certified by the Trustee to information included in the Plan's financial statements.

The Trustee certified to the completeness and accuracy of investment in the Master Trust at December 31, 2016 and 2015 of \$143,128,577 and \$146,207,363, respectively. The Trustee also certified the investment gain of the Master Trust of \$10,003,307 for the year ended December 31, 2016. The Plan's interest in the Master trust was \$97,148,710 and \$102,090,920, representing approximately 68 percent and 70 percent of the Master Trust's investments at December 31, 2016 and 2015, respectively. The Plan's investment gain from the Master Trust amounted to \$6,973,616, representing approximately 70 percent of the Master Trust's investment gain.

5. Investment in Master Trust

The Plan's investment assets are held in a trust account by the Trustee and consist of an undivided interest in an investment account of the Master Trust, a master trust established by the Companies and administered by the Trustee. Use of the Master Trust permits the commingling of trust assets with the assets of the Companies' various pension plans for investment and administrative purposes. Although assets of multiple plans are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

At December 31, 2016 and 2015, the Master Trust consisted of assets of the following plans:

- A&B Retirement Plan for Salaried Employees of Alexander & Baldwin, LLC
- Pension Plan for Employees of A&B Agricultural Companies

6. Fair Value Measurements

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under U.S. GAAP are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets in active markets; quoted prices for identical or similar assets in inactive markets; inputs other than quoted prices that are observable for the asset; and inputs that are derived principally from or can be corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

An asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

6. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Equity Securities - Domestic and international common stocks are valued by obtaining quoted prices on recognized and highly liquid exchanges.

Fixed-Income Securities - Corporate bonds and U.S. government treasury and agency securities are valued based upon the closing price reported in the active market in which the security is traded. Corporate asset-backed securities may utilize models, such as a matrix-pricing model, that incorporates other observable inputs, such as cash flow, security structure, or market information, when broker/dealer quotes are not available.

Exchange-Trade Funds (ETF) - ETF's are valued by obtaining quoted prices on recognized and highly liquid exchanges.

Money Market Mutual Funds - Valued based on quoted market prices of each fund, which represent the net asset value of shares held by the Plan at year end.

Insurance Contracts - Insurance contracts are invested in group annuity contracts, which are valued based on the present value of expected future payments.

Private Equity Partnerships - The fair value of private equity funds are determined by the issuer based on the unit values of the funds. Unit values are determined by dividing the fund's net assets, as recorded in the fund's audited financial statements, by the number of units outstanding at the valuation date. Fair value of underlying investments in private equity assets is determined based on information provided by the general partner taking into consideration the purchase price of the underlying securities, developments concerning the investee company subsequent to the acquisition of the investment, financial data and projections of the investee company provided to the general partner, and such other factors as the general partner deems relevant.

(a) In accordance with ASC Subtopic 820-10, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the tables above are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefit.

6. Fair Value Measurements (continued)

Transfers between Levels - The availability of observable market data are monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

For the years ended December 31, 2016 and 2015, there were no significant transfers in and out of Levels 1, 2, and 3.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements - In estimating fair value of insurance contract investments in Level 3, the Investment Committee uses a third-party pricing source. In substantiating the reasonableness of the pricing data provided by the third party, the Investment Committee evaluates a variety of factors, including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

Fair Value of Investments that Calculate Net Asset Value - Below is a summary of the Plan's Master Trust investments at December 31, 2016 and 2015 where fair value is estimated based on the net asset value:

Investment	Fair Value Estimated Using Net Asset Value per Share as of December 31, 2016			
	Fair Value	Unfunded Commitment	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Private equity partnerships (a)	\$ 132,380	\$ 55,148	N/A	N/A

6. Fair Value Measurements (continued)

Fair Value Estimated Using Net Asset Value per Share as of December 31, 2015				
Investment	Fair Value	Unfunded Commitment	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Private equity partnerships (a)	\$ 185,925	\$ 220,590	N/A	N/A

(a) This class includes private equity partnership interests that primarily invest in domestic technology companies. These investments cannot be redeemed. Instead, the nature of the investments in this class is that distributions are received through the liquidation of the underlying assets of the fund. The fair values of the investments in this class have been estimated using recent observable transaction information for similar investments, nonbinding bids received from potential buyers of the investments, developments concerning the investee company subsequent to the acquisition of the investment, financial data and projections of the investee company provided to the general partner, and such other factors as the general partner deems relevant. It is probable that all of the investments in this class will be sold at an amount different from the net asset value of the Plan's ownership interest.

7. Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their last five years of credited service. The accumulated plan benefits for active salaried employees are based on their average compensation during the five years (under the traditional formula) or 5 percent of employees' eligible compensation plus interest based on a 3-month average of the 10-year Treasury Constant Maturities rate (under the cash balance formula). The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

7. Accumulated Plan Benefits (continued)

The significant actuarial assumptions used in the December 31, 2016 valuations were as follows:

- Mortality: RP-2014 Mortality Table projected scale based on MP-2016 through 2006, with an ultimate rate of 1.20%, grading down to 0% at age 115 in a straight line
- Retirement age assumptions (representative annual rates of retirement were used)
- Inflation: 2.20 percent per annum
- Investment return: 6.80 percent per annum\

The significant actuarial assumptions used in the December 31, 2015 valuations were as follows:

- Mortality: RP-2014 Mortality Table projected scale based on MP-2014 through 2007, grading down over 10 years to an ultimate improvement rate of 0.75 percent per year
- Retirement age assumptions (representative annual rates of retirement were used)
- Inflation: 2.20 percent per annum
- Investment return: 7.10 percent per annum

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

8. Plan Termination

Although it has not expressed any intention to do so, the Companies have the right under the Plan, in certain circumstances, to discontinue their contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Notes to Financial Statements
December 31, 2016 and 2015

8. Plan Termination (continued)

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

During the plan year ended December 31, 2016, the Plan Sponsor ceased operations of the Hawaiian Commercial & Sugar Company division. The active participants in the Plan were reduced as a result of the shutdown beginning in 2016 and ending on December 30, 2016. The termination represented a partial termination of the Plan. As a result of the partial termination, all accumulated benefits of the affected employees were fully vested at the time of their termination.

9. Exempt Party-in-Interest Transactions

Certain investments in the Master Trust are invested in securities managed by the Trustee, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included as a reduction of the return on each fund.

10. Federal Income Tax Status

The Plan received a favorable tax determination letter on September 7, 2016, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan Administrator believes the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

10. Federal Income Tax Status (continued)

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management is not aware of any uncertain tax positions that would require the Plan to recognize a tax liability (or asset).

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Schedule SB, Part V — Summary of Plan Provisions**Normal retirement**

• Eligibility	Normal Retirement Date: First day of the month coincident with or next following the attainment of age 65.
• Benefit	The accrued benefit determined as on Normal Retirement Date.

Early retirement

• Eligibility	Retirement before Normal Retirement Date and on or after attaining age 55 and 5 years of vesting service.
• Benefit	<u>Traditional Pension Benefit:</u> The Normal Retirement Benefit for service to the Early Retirement Date multiplied by the following early retirement factor:

Benefit Commencement Age	If Terminated Before Age 55	If Terminated At or After Age 55
55	0.50	0.64
56	0.54	0.70
57	0.58	0.76
58	0.62	0.82
59	0.66	0.88
60	0.70	0.94
61	0.76	0.97
62	0.82	1.00
63	0.88	1.00
64	0.94	1.00

Cash Balance Account Benefit: Actuarially equivalent monthly annuity based on Cash Balance Account as of the last day of the month preceding participant's early retirement date.

Late retirement

• Eligibility	Retirement after Normal Retirement Date.
• Benefit	Participants continue to accrue benefits beyond Normal Retirement Date. Benefits earned in any non-suspendible month are subject to comparison between the actuarially increased normal retirement benefit and benefit accruals. Late retirement actuarial increase is based on Unisex Pension 1984 Mortality Table with ages set back two years for participant and seven years for contingent annuitants, and interest rate of 6.5% per year. Benefits commencing after the April 1 following the calendar year in which the participant attains age 70½ are actuarially increased.

Deferred vested

• Eligibility	5 years of vesting service (or 3 years of vesting service if any portion of accrued benefit is a Cash Balance Account Benefit).
• Benefit	The amount of Normal Retirement Benefit credited for service to the date of termination. The benefit will commence at age 65 or after age 55 if the participant is eligible to retire early.

Schedule SB, Part V — Summary of Plan Provisions**Disability**

- **Benefit** If an active participant eligible for Traditional Pension Benefits is disabled and receiving benefits under the employer's long term disability plan, he will continue to accrue pension benefits up through December 31, 2011 based upon his rate of compensation when he became disabled. Effective January 1, 2012, he will only continue to accrue credited vesting service until the earlier of the date he terminates employment or attains Normal Retirement Age.
If an active participant eligible for a Cash Balance Account Benefit is disabled and continuously receiving benefits under the employer's sickness benefits plan or long term disability plan, he will continue to accrue credited vesting service until the earlier of the date he terminates employment or attains his Normal Retirement Age.

Pre-retirement death – Traditional Pension benefit

- **Eligibility** Married at least 1 year, with a vested benefit or eligible for retirement.
- **Benefit** The spouse receives 1/2 of the reduced 50% Joint and Survivor benefit that would have been in effect had the participant terminated on the date of death and survived to the date payments commenced, and then died immediately thereafter. The benefit is reduced for early retirement if the requested commencement date is before the participant's normal retirement date.
If the participant's death occurs before the normal retirement date, this benefit is deferred until the date the participant would have reached age 65 (or if the participant had at least 5 years of service at death, at the spouse election, any time after the date the participant would have reached age 65).
- **Alternate benefit** If the participant has met the early retirement eligibility, the spouse receives an immediate monthly annuity equal to the following percentage of the Normal Retirement Benefit but not less than surviving spouse's benefit described above.

Surviving Spouse's Age at Participant's Date of Death	Percentage of Normal Retirement Benefit
53 and over	50%
45 through 52	45%
37 through 44	40%
30 through 36	35%
Under 30	30%

Schedule SB, Part V — Summary of Plan Provisions

Pre-retirement death

- **Eligibility** Married at least 1 year, with a vested benefit or eligible for retirement.
- **Benefit** The spouse receives 1/2 of the reduced 50% Joint and Survivor benefit that would have been in effect had the participant terminated on the date of death and survived to the date payments commenced, and then died immediately thereafter. The benefit is reduced for early retirement if the requested commencement date is before the participant's normal retirement date. If the participant's death occurs before the normal retirement date, this benefit is deferred until the date the participant would have reached age 65 (or if the participant had at least 5 years of service at death, at the spouse election, any time after the date the participant would have reached age 65).
- **Alternate benefit** If the participant has met the early retirement eligibility the spouse receives an immediate monthly annuity equal to the following percentage of the Normal Retirement Benefit but not less than surviving spouse's benefit described above:

Surviving Spouse's Age at Participant's Date of Death	Percentage of Normal Retirement Benefit
53 and over	50%
45 through 52	45%
37 through 44	40%
30 through 36	35%
Under 30	30%

Benefits Included or Excluded

Unless noted below, all benefits provided by the plans, as restated effective June 29, 2012, are included in this valuation.

- **Most recent plan amendments included:** This valuation reflects the provisions that include all the amendments made on and before December 31, 2015.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The plans provide benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation does not include any late retirement increases.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued using benefits provided by the plan administrator.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations. For 2015, the IRC Section 415 and 401(a)(17) limits are \$210,000 and \$265,000 respectively.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plans are not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Summary of Plan Provisions**Plan Provision Changes Since Prior Valuation**

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2015 to 2016.

The following amendments are effective January 1, 2015:

- Disability and incapacity benefits were renamed “Conditional retirement benefits” for certain employee groups in the A&B Agricultural Plan, this change has no impact on the valuation.
- Revised eligibility for HC&S Salaried Bargaining Unit, HC&S Hourly Bargaining Unit, and KT&S General Agreement participants in the A&B Agricultural Plan; this change has no impact to the valuation.
- Voluntary early retirement provisions for certain workforce reductions was added for HC&S Hourly BU and KT&S General Agreement participants in the A&B Agricultural Plan; this change has no impact on the valuation as A&B does not expect anyone affected by the HC&S shutdown to elect the enhanced early retirement benefit.

The following amendments for KT&S Bulk Sugar in the A&B Agricultural Plan are effective July 1, 2015:

- Minimum retirement benefits increase.
- Surviving spouse benefits increase.
- Retiree benefits increase.
- The Qualified Joint and Survivor Annuity has changed to a 75% joint and survivor annuity.

The following amendments are effective January 1, 2016; as discussed with the auditors, they will be reflected as actuarial gain/loss as the impact is small:

- The definition of equivalent actuarial value was changed for form of payment conversions for the A&B Agricultural Plan.

The definition of interest credit rate was changed for the A&B Agricultural Plan.

Actuarial Methods**Asset Methods**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

The method used to allocate Alexander & Baldwin, Inc. (A&B)'s retirement plans' Master Trust market value of assets is comprised of several steps:

1. Reconcile the master trust assets from the beginning of the plan year to the end of the plan year and identify the various receipts and disbursements items.
2. Identify which of those receipts and disbursements entries can be associated with a specific retirement plan. These entries include employer contributions paid to the Trust, benefit payments (including transfer of assets between retirement plans), PBGC premium payments, and fiduciary insurance premium payments that are paid from the Trust.
 - Mercer will receive a breakdown, by retirement plan, of all the non-purchased benefit payments paid during the year from John Hancock, Prudential and First Hawaiian Bank.
 - Employer contributions and PBGC premium payments are reported separately by retirement plan on the Trust statement.
 - The breakdown of fiduciary insurance premium payments by retirement plan will be provided by A&B.
3. The remaining receipts and disbursements, including investment expenses, and certain non-investment expenses and investment income earned (such as realized gains/losses, unrealized gains/losses, dividends and interest), that have not been associated with a particular retirement plan above are allocated in proportion to the "mean fund" using the following method:
 - i. Each plan's respective mean fund is calculated as the total of:
 - a. the prior year's year-end market value of assets (e.g., 12/31/2015 market value)
 - b. plus employer contributions paid to the plan during the year, weighted for the portion of the year after the date the contribution is made
 - c. minus any plan associated disbursements made during the year (such as lump sum payments, PBGC premium payments and fiduciary insurance premium payments), weighted for the portion of the year after the date the disbursement is made
 - d. minus any annuity payments made during the year, weighted for a ½ year (assumes on the average disbursements are made in the middle of the year)
 - ii. The mean fund for the individual plans are then totaled to produce a "total" mean fund.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- iii. Each plan's share of the receipts/disbursements not associated with a specific plan is determined by applying the ratio of (i) divided by (ii) to each such receipt/disbursement.

Once each receipt and disbursement has been assigned or allocated among all the plans, the determination of each plan's respective portion of the year-end market value of assets is calculated by totaling the respective plan's beginning-of-year market value of assets, associated receipts and disbursements, and allocated share of receipts and disbursements not associated with a specific plan.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, line 32 — Schedule of Amortization Bases

The total shortfall amortization charge is the sum of the individual shortfall amortization installment for each plan year covered under PPA. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than \$0.

Shortfall bases

2016	\$	2,719,622	7	\$ 449,345
Total	\$	2,719,622		\$ 449,345

Schedule SB, line 24 — Changes in Actuarial Assumptions

- The administrative expenses added to the normal cost were updated to include 2015 non-investment expenses and an estimated increase in PBGC premiums due in 2016 for each plan.
- Cash Balance interest accumulation rate was updated to 2016 actual interest credit rate of 2.14% from 2.41% in 2015.
- The inflation rate was updated from 2.50% to 2.20%.

Schedule SB, line 22 — Description of Weighted Average Retirement Age
