Note 1. Description of Plan

The following description of Texas Champion Bank 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was amended and restated effective January 1, 2016.

General: The Plan is a defined contribution plan that covers all employees of Texas Champion Bank and Agrow Credit Corporation, a wholly-owned subsidiary of Texas Champion Bank (collectively, the Company or Plan Sponsor), with the exception of union employees and nonresident aliens, who have reached 18 years of age and completed six months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees may enter the Plan immediately after meeting eligibility requirements.

Contributions: The Company's matching and profit sharing contributions are discretionary and are allocated to those participants who make contributions during the year, provide 1,000 hours of service and are employed on the last day of the Plan year. For the year ended December 31, 2016, the Company made a matching contribution of 100 percent of the first 3 percent of compensation, as defined by the Plan document. Contributions are subject to certain limitations. Participants may elect to change their investment options any time throughout the year.

Participants may elect to contribute up to 100 percent of eligible compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit plans.

Participant accounts: Participants direct the investment of their contributions into various investment options offered by the Plan. Each participant's account is credited with the participant's contribution, allocations of the Company's contributions, if any, and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions and actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Company matching contributions and Company profit sharing contributions have a five-year graded vesting period as follows:

Completed Years of Service	Vested Percentage
Less than 1 year	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Note terms shall be no more than five years, except when the proceeds of a loan are used to acquire a dwelling to be used for a principal residence, then the Plan Administrator may permit a longer repayment period. The notes are secured by the balance in the participant's account and bear interest, as determined by the Plan Administrator. Principal and interest are paid through payroll deductions.

Note 1. Description of Plan (Continued)

Payment of benefits: On termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Any balance under $1,000 is automatically paid out as soon as administratively possible. Hardship withdrawals are also available subject to certain limitations as defined in the Plan agreement.

Forfeitures: Participant forfeitures of nonvested balances will be used to reduce future employer contributions and pay the expenses of the Plan. During 2016, no forfeitures were utilized. At December 31, 2016 and 2015, unallocated forfeitures totaled $36,992 and $29,440, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustee determines the Plan's valuation policies, utilizing information provided by the investment advisors and custodian. See Note 4 for disclosure of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, Line 4i—schedule of assets (held at end of year).

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefits paid to participants are charged directly to the participant's account and are included in administration expenses. Investment-related expenses are included in net appreciation in fair value of investments.

Note 2. Summary of Significant Accounting Policies (Continued)

Recent accounting pronouncement: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU No. 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of net assets available for benefits. ASU No. 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Upon adoption, ASU No. 2015-07 shall be applied retrospectively to all periods presented. The Plan adopted ASU No. 2015-07 for the year ended December 31, 2016, and retrospectively applied it to the Plan year ended December 31, 2015. Prior-year disclosures in Notes 3 and 4 have been revised to reflect the retrospective application.

Subsequent events: The Plan has evaluated subsequent events through September 28, 2017, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Administrative Agent for the Custodian

The following is a summary of the Plan's asset information as of December 31, 2016 and 2015, and for the year ended December 31, 2016, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the administrative agent for the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the administrative agent on behalf of the custodian that the information provided to the Plan Administrator by the agent on behalf of the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and the supplemental schedule related to the assets below:

	December 31	
	2016	2015
Investments, at fair value—pooled separate accounts	$ 3,085,408	$ 2,778,586
Investments, at contract value—guaranteed investment contract	458,392	282,377
Notes receivable from participants	121,285	94,636

The agent on behalf of the custodian also certified to the completeness and accuracy of $250,943 of net appreciation in fair value of investments and $4,291 of interest income on notes receivable from participants for the year ended December 31, 2016.

Note 4. Fair Value Measurements

FASB Accounting Standards Codification (ASC), Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC, Fair Value Measurements and Disclosures, are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices for the asset or liability that are observable
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques that are used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2016 and 2015.

Pooled separate accounts: Pooled separate accounts are valued at the NAV of units held by the Plan at year-end as a practical expedient. The NAV of these accounts is based on the market value of its underlying investments divided by the number of units outstanding, as determined by the custodian.

The method above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share as a practical expedient as of December 31, 2016 and 2015:

Investment	Fair Value at December 31 2016	Fair Value at December 31 2015	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	$ 3,085,408	$ 2,778,586	Immediate	None

In accordance with ASC Topic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the items presented in the statements of net assets available for benefits.

Investments in this category can be redeemed daily at the current NAV per share based on the fair value of the underlying assets.

Note 5. Guaranteed Investment Contract

The Plan offers as an investment option a benefit-responsive guaranteed investment contract. The custodian maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by the agent on behalf of the custodian, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants are probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 6. Related-Party and Party-in-Interest Transactions

Certain Plan investments are shares of pooled separate accounts and a guaranteed investment contract managed by Hartford Life Insurance Company, the custodian and Massachusetts Mutual Life Insurance Company, as administrative agent for Hartford Life Insurance Company. Therefore, these investments qualify as party-in-interest transactions. The Plan's management has approved these activities and transactions.

Note 6. Related-Party and Party-in-Interest Transactions (Continued)

Fees paid by the Plan to the administrative agent for the custodian for the daily operational services of the Plan totaled $2,090 for the year ended December 31, 2016. Notes receivable from participants also qualify as party-in-interest transactions.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Plan Sponsor contributions.

Note 8. Tax Status

Effective January 1, 1996, the Plan adopted a nonstandardized form of a prototype plan. The Plan has received a determination letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and tax counsel of the Plan believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, currently no audits for any tax periods are in progress.

Note 9. Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Nonexempt Transactions

During 2015, the Plan Sponsor inadvertently failed to include employee bonuses as eligible compensation subject to deferral and employer match. The Plan Sponsor reimbursed the Plan for the missed deferral opportunity and lost earnings. The Plan Sponsor submitted a voluntary compliance filing and made a qualified nonelective contribution in 2016.

Note 11. Subsequent Event

Effective January 1, 2017, the Plan was amended and restated to make the Plan a safe-harbor plan exempt from most testing. The employer can now make a safe harbor matching contribution to the participants' accounts in an amount equal to 100 percent of the matched employee contribution that is not in excess of 3 percent of the compensation plus 50 percent of the amount of the matched employee contributions that exceed 3 percent of the compensation but that do not exceed 5 percent of the compensation.
