MACAULAY-BROWN, INC. 401(k) PLAN

Notes to Financial Statements
December 31, 2016 and 2015

(1) Description of Plan

The following description of the MacAulay-Brown, Inc. (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of the Company. To be eligible for participation in the Plan, employees must have attained the age of 21 and not (1) be covered by a collective bargaining agreement for which retirement benefits have been the subject of good faith negotiations and such agreement excludes participation in the Plan; or (2) be nonresident aliens who do not receive earned income from the employer that constitutes U.S. source income; or (3) be employees of related companies that do not adopt this plan; or (4) be a leased employee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Board of Trustees is responsible for the oversight of the Plan, determine the appropriateness of the Plan's investment offerings and monitor investment performance.

The Plan was amended and restated as of January 1, 2016 to bring the Plan into compliance with the Pension Protection Act of 2006 (PPA) and other regulatory changes.

Contributions

Each year, participants may contribute a percentage of their pretax annual compensation, as defined by the Plan, subject to a maximum of \$18,000 for the 2016 plan year. Participants may also make deferrals to the Plan on an after-tax basis in accordance with the Roth 401(k) provisions of the Economic Growth and Tax Reconciliation Act of 2001. Participants who have attained age 50 before the end of the plan year may contribute a "catch-up" contribution of an additional \$6,000 in accordance with the provisions of the Internal Revenue Code (IRC). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The employer match for the employees of the Technical Services Division of the Company is 50% of the first 4% of participants' compensation contributed to the Plan. For each employee of the Management Services Division of the Company, the employer match is 100% of the first 5% of participants' compensation contributed to the Plan. Additionally, the employer may elect to make a discretionary match.

For former employees of Gray Research, Inc., the employer match is 100% of the first 3% and 50% of the next 2% of employee deferrals. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested as directed by each individual participant.

MACAULAY-BROWN, INC. 401(k) PLAN

Notes to Financial Statements December 31, 2016 and 2015

(1) Description of Plan, Continued

Contributions, Continued

The Company may also elect to make an annual discretionary profit sharing contribution on behalf of eligible active participants. Any such contribution is allocated to participants based on each eligible active participant's compensation compared to the total compensation paid to all eligible active participants. Eligible active participants must (1) have at least 501 hours of service during the plan year; or (2) be employed on the last day of the plan year; or (3) have died, become disabled, or retired during the plan year.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and plan earnings, and charged with an allocation of administrative expenses including loan origination and processing fees. Allocations are based on participant compensation or account balances, as defined in the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and employer matching and discretionary contributions plus earnings thereon. For former employees of Gray Research, Inc., a participant is 100% vested in the discretionary profit sharing contributions after five years of service based on a step vesting schedule.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 less the highest outstanding loan balance over the preceding twelve-month period, or 50% of their vested account balance, whichever is less. Loan terms range from one to five years unless the loan qualifies for the purchase of a principal residence. The term of a loan for the purchase of a principal residence is a period mutually agreeable to the participant and the plan administrator. Loans are secured by the balance in the participant's account and bear interest at a rate determined by the plan administrator. Interest rates on outstanding loans as of December 31, 2016 range from 4.25% to 5.25%. Principal and interest are paid ratably through payroll deductions. Upon termination of employment, the outstanding principal and interest balance is immediately payable.

MACAULAY-BROWN, INC. 401(k) PLAN

Notes to Financial Statements December 31, 2016 and 2015

(1) Description of Plan, Continued

Payment of Benefits

Upon retirement, death, disability or termination of service, participants or their beneficiaries may elect to receive benefit payments in the form of installment payments or a single lump-sum payment equal to the value of the participant's vested interest in his or her account.

Forfeitures

At December 31, 2016 and 2015, forfeited nonvested accounts totaled \$137,438 and \$34,777, respectively. This balance will be used to offset future employer contributions. During 2016, employer contributions were reduced by \$75,000 from forfeited nonvested accounts.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment adviser and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes to Financial Statements December 31, 2016 and 2015

(2) Summary of Significant Accounting Policies, Continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. Delinquent notes receivable from participants are treated as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of monitoring the Plan are paid directly by the Company and are excluded from the financial statements. Loan origination and processing costs and other administrative fees of \$132,171 were charged to participant accounts for the year ended December 31, 2016. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 12, 2017, the date the financial statements were available to be issued.

(3) Investment Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Fidelity Management Trust Company (Fidelity), except for comparing such information certified by Fidelity to information included in the Plan's financial statements and supplemental schedule. The following information was certified by Fidelity:

- The investments at fair value at December 31, 2016 and 2015.
- Notes receivable from participants at December 31, 2016 and 2015.
- Net appreciation in fair value of investments for the year ended December 31, 2016.

(3) Investment Information Certified by the Trustee, Continued

- Interest, dividends, and other income for the year ended December 31, 2016.
- Interest income on notes receivable from participants for the year ended December 31, 2016.

(4) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(4) Fair Value Measurements, Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Money market fund and registered investment companies: Valued at the daily closing price as reported by the fund. Funds held by the Plan are open ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 129,839,810	\$ -	\$ -	\$ 129,839,810
Money market accounts	13,337,318	-	-	13,337,318
Investments at fair value	\$ 143,177,128	\$ -	\$ -	\$ 143,177,128

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 127,523,183	\$ -	\$ -	\$ 127,523,183
Money market accounts	13,706,538	-	-	13,706,538
Investments at fair value	\$ 141,229,721	\$ -	\$ -	\$ 141,229,721

There were no significant transfers among investment levels during the years ended December 31, 2016 and 2015.

Notes to Financial Statements December 31, 2016 and 2015

(5) Excess Contribution Payable

In order to satisfy nondiscrimination test, certain participants were required to receive a refund of excess contributions and investment income earned thereon from their participant accounts. Excess contributions payable of \$1,109 were recorded as liabilities on the statement of net assets available for benefits at December 31, 2015. The excess contributions payable was refunded in 2016.

(6) Related Party Transactions and Party-In-Interest Transactions

Certain plan investments are managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Fees incurred by the Plan for the investment management services are included in net appreciation in the fair value of investments.

Under an agreement negotiated with Fidelity, the Plan is a beneficiary of a reduction of a portion of the Plan's mutual fund management fees, which are rebated to the Plan. The allowance is deposited in a Revenue Credit Program Account maintained by the Plan. During 2016, the rebate income received by the Plan amounted to \$85,500. During 2016, the Plan used \$97,235 to pay plan expenses as permitted by the plan document. The administrator may 1) use the amounts to reimburse the employer for fees and/or expenses associated with the Plan, or 2) the funds may be allocated to participants.

(7) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate or amend the Plan subject to the provisions of ERISA. In the event of termination or partial termination, participants would become fully vested in their account balances.

(8) Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter, dated May 31, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore, believes that the Plan is qualified and the related trust is tax exempt.

(8) Tax Status, Continued

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(9) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(10) Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2016	2015
Net assets available for benefits per the financial statements	\$ 144,350,663	\$ 142,164,597
Excess contributions payable	-	1,109
Net assets available for benefits per Form 5500	\$ 144,350,663	\$ 142,165,706

The following is a reconciliation of the net increase in net assets available for benefits before transfers per the financial statements to net income per the Form 5500 for the year ended December 31, 2016:

Increase in net assets available for benefits before transfers per the financial statements	\$ 2,182,565
Prior year excess contributions payable	(1,109)
Net income per Form 5500	\$ 2,181,456

MACAULAY-BROWN, INC. 401(k) PLAN

Notes to Financial Statements
December 31, 2016 and 2015

(1) Description of Plan

The following description of the MacAulay-Brown, Inc. (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of the Company. To be eligible for participation in the Plan, employees must have attained the age of 21 and not (1) be covered by a collective bargaining agreement for which retirement benefits have been the subject of good faith negotiations and such agreement excludes participation in the Plan; or (2) be nonresident aliens who do not receive earned income from the employer that constitutes U.S. source income; or (3) be employees of related companies that do not adopt this plan; or (4) be a leased employee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Board of Trustees is responsible for the oversight of the Plan, determine the appropriateness of the Plan's investment offerings and monitor investment performance.

The Plan was amended and restated as of January 1, 2016 to bring the Plan into compliance with the Pension Protection Act of 2006 (PPA) and other regulatory changes.

Contributions

Each year, participants may contribute a percentage of their pretax annual compensation, as defined by the Plan, subject to a maximum of \$18,000 for the 2016 plan year. Participants may also make deferrals to the Plan on an after-tax basis in accordance with the Roth 401(k) provisions of the Economic Growth and Tax Reconciliation Act of 2001. Participants who have attained age 50 before the end of the plan year may contribute a "catch-up" contribution of an additional \$6,000 in accordance with the provisions of the Internal Revenue Code (IRC). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The employer match for the employees of the Technical Services Division of the Company is 50% of the first 4% of participants' compensation contributed to the Plan. For each employee of the Management Services Division of the Company, the employer match is 100% of the first 5% of participants' compensation contributed to the Plan. Additionally, the employer may elect to make a discretionary match.

For former employees of Gray Research, Inc., the employer match is 100% of the first 3% and 50% of the next 2% of employee deferrals. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested as directed by each individual participant.

Notes to Financial Statements December 31, 2016 and 2015

(1) Description of Plan, Continued

Contributions, Continued

The Company may also elect to make an annual discretionary profit sharing contribution on behalf of eligible active participants. Any such contribution is allocated to participants based on each eligible active participant's compensation compared to the total compensation paid to all eligible active participants. Eligible active participants must (1) have at least 501 hours of service during the plan year; or (2) be employed on the last day of the plan year; or (3) have died, become disabled, or retired during the plan year.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and plan earnings, and charged with an allocation of administrative expenses including loan origination and processing fees. Allocations are based on participant compensation or account balances, as defined in the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and employer matching and discretionary contributions plus earnings thereon. For former employees of Gray Research, Inc., a participant is 100% vested in the discretionary profit sharing contributions after five years of service based on a step vesting schedule.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 less the highest outstanding loan balance over the preceding twelve-month period, or 50% of their vested account balance, whichever is less. Loan terms range from one to five years unless the loan qualifies for the purchase of a principal residence. The term of a loan for the purchase of a principal residence is a period mutually agreeable to the participant and the plan administrator. Loans are secured by the balance in the participant's account and bear interest at a rate determined by the plan administrator. Interest rates on outstanding loans as of December 31, 2016 range from 4.25% to 5.25%. Principal and interest are paid ratably through payroll deductions. Upon termination of employment, the outstanding principal and interest balance is immediately payable.

(1) Description of Plan, Continued

Payment of Benefits

Upon retirement, death, disability or termination of service, participants or their beneficiaries may elect to receive benefit payments in the form of installment payments or a single lump-sum payment equal to the value of the participant's vested interest in his or her account.

Forfeitures

At December 31, 2016 and 2015, forfeited nonvested accounts totaled \$137,438 and \$34,777, respectively. This balance will be used to offset future employer contributions. During 2016, employer contributions were reduced by \$75,000 from forfeited nonvested accounts.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment adviser and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(2) Summary of Significant Accounting Policies, Continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. Delinquent notes receivable from participants are treated as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of monitoring the Plan are paid directly by the Company and are excluded from the financial statements. Loan origination and processing costs and other administrative fees of \$132,171 were charged to participant accounts for the year ended December 31, 2016. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 12, 2017, the date the financial statements were available to be issued.

(3) Investment Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Fidelity Management Trust Company (Fidelity), except for comparing such information certified by Fidelity to information included in the Plan's financial statements and supplemental schedule. The following information was certified by Fidelity:

- The investments at fair value at December 31, 2016 and 2015.
- Notes receivable from participants at December 31, 2016 and 2015.
- Net appreciation in fair value of investments for the year ended December 31, 2016.

(4) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements December 31, 2016 and 2015

(4) Fair Value Measurements, Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Money market fund and registered investment companies: Valued at the daily closing price as reported by the fund. Funds held by the Plan are open ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total

Notes to Financial Statements December 31, 2016 and 2015

(5) Excess Contribution Payable

In order to satisfy nondiscrimination test, certain participants were required to receive a refund of excess contributions and investment income earned thereon from their participant accounts. Excess contributions payable of \$1,109 were recorded as liabilities on the statement of net assets available for benefits at December 31, 2015. The excess contributions payable was refunded in 2016.

(6) Related Party Transactions and Party-In-Interest Transactions

Certain plan investments are managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Fees incurred by the Plan for the investment management services are included in net appreciation in the fair value of investments.

Under an agreement negotiated with Fidelity, the Plan is a beneficiary of a reduction of a portion of the Plan's mutual fund management fees, which are rebated to the Plan. The allowance is deposited in a Revenue Credit Program Account maintained by the Plan. During 2016, the rebate income received by the Plan amounted to \$85,500. During 2016, the Plan used \$97,235 to pay plan expenses as permitted by the plan document. The administrator may 1) use the amounts to reimburse the employer for fees and/or expenses associated with the Plan, or 2) the funds may be allocated to participants.

(7) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate or amend the Plan subject to the provisions of ERISA. In the event of termination or partial termination, participants would become fully vested in their account balances.

(8) Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter, dated May 31, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore, believes that the Plan is qualified and the related trust is tax exempt.

(8) Tax Status, Continued

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(9) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
