Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Associated Construction and Engineering, Inc. 401(k) Profit Sharing Plan (Plan), which comprise the statements of net assets available for Plan benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for Plan benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatements, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Transamerica Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplementary schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2015 and 2014, that the information provided to the Plan administrator by the custodian is complete and accurate.

401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2015

Note 1: Description of Plan

The following description of Associated Construction and Engineering, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan under which each participant has a specific account balance. The Plan covers all employees of Associated Construction and Engineering, Inc. (the Company) and related companies who have attained the age eighteen and completed three months of service prior to becoming eligible. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute to the Plan through salary reductions. The Company may make a discretionary employer matching contribution. This contribution will be credited to eligible participant accounts based on a percentage of an eligible participant's salary deferrals. In most cases, participants receiving the discretionary employer matching contribution must have completed 1 hour of service during the Plan year. The Company also may make an employer non-elective contribution. The non-elective contribution may be in the form of a profit sharing contribution which is determined each year by the Company and could either be based on a percentage of compensation or dollar amount per participant. In addition, the employer may make a non-elective prevailing wage contribution which will reduce any other employer non-elective contribution received in a given Plan year.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) Company contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and Forfeitures

Participants are vested immediately in their contributions plus actual earnings thereon. Effective January 1, 2014, vesting in the company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service. The Plan allows for non-vested employer contributions to be used first to pay Plan expenses with any remaining to be used towards employer match. At December 31, 2015 and 2014 forfeited non-vested accounts totaled $11,379 and $42, respectively. Plan expenses paid during the year ended December 31, 2015 and 2014 using forfeitures totaled $0 respectively.

Note 1: Description of Plan (Continued)

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at prime plus 1%, as of the loan date. Principal and interest are paid through payroll deductions.

Payment of Benefits

Upon termination of service due to employment termination, disability, death or retirement, benefits may be paid in one of the following forms of payment, or in a combination: (1) single lump sum, or (2) any form acceptable to the participant and the Plan administrator.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accrual basis of accounting is used in preparation of information regarding net assets available for Plan benefits and related changes.

Notes Receivable from Participants

Notes receivables from participants are measured at their unpaid balances plus any accrued interest. Delinquent notes are treated as distributions based upon the terms of the Plan document.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Fair Value Measurement and Income Recognition

Investments are reported at fair value. If available, quoted market prices are used to value investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If available, quoted market prices are used to value investments. If quoted prices in an active market are not available, the investments are reported at estimated fair value. Many factors are

Note 2: Summary of Significant Accounting Policies (Continued)

considered in arriving at fair value. For example, corporate bonds could be valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Participant loans are valued at their outstanding balance, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on the investment bought and sold as well as held during the year.

Fair Value Measurements and Disclosures Topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) (the Topic), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the reporting date. The Topic also established a three-tier hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets and liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's and liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 2: Summary of Significant Accounting Policies (Continued)

The following are descriptions of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Valued at the net asset value of shares held by the Plan at year-end. Level 1 pooled separate accounts are valued using quoted prices in active markets for identical assets. Level 2 pooled separate accounts are valued based on pricing data provided by outside valuation service providers who use the mean bid and ask prices but may also use alternative observable pricing inputs.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Equity securities:				
Pooled separate accounts	$ 2,153,183	$ 1,042,990	$	$ 3,196,173
Total assets at fair value	$ 2,153,183	$ 1,042,990	$	$ 3,196,173

For the year ended December 31, 2015, net depreciation in fair value of Level 1 investments was $67,461, and net appreciation in fair value of Level 2 investments was $10,166.

The following sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Level 1	Level 2	Level 3	Total
Equity securities:				
Pooled separate accounts	$ 2,021,896	$ 980,058	$	$ 3,001,954
Total assets at fair value	$ 2,021,896	$ 980,058	$	$ 3,001,954

Payment of Benefits

Benefits are recorded when paid.

Note 2: Summary of Significant Accounting Policies (Continued)

Subsequent Events

Events subsequent to December 31, 2015 have been evaluated through September 28, 2017, the date the financial statements were available to be issued. Management did not identify any subsequent events requiring disclosure.

Plan Administration Expenses

Administrative expenses paid by the Plan were $22,864 for the year ended December 31, 2015.

Note 3: Information Prepared and Certified by Trustee

The Plan's asset information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included in the accompanying financial statements, and supplementary schedule was prepared or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that the information provided to the Plan Administrator from the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosures under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears through the financial statements and supplementary schedule.

The certification extends to the investment and investment income included in the statement of Plan net assets and Plan net assets available for benefits. Participant loans are included in the certification.

During the year ended December 31, 2015, the Plan's investments (including investments bought, sold, and held during the year) depreciated in value by $57,295. Earnings on investments (including interest income from notes receivable from participants) for the year ended December 31, 2015 was $6,466.

Note 4: Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 5: Additional Financial Statement Disclosures

Under ERISA, the Department of Labor and the Internal Revenue Service have the authority to issue regulations covering reporting and disclosure requirements, certain administrative responsibilities, and enforcement powers. The items enumerated below are required to be disclosed to meet ERISA guidelines.

1. The Plan received a favorable letter of determination from the Internal Revenue Service on March 31, 2008, regarding its qualified tax status for the Plan. However, the Plan was amended since receiving the letter. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

2. All reportable transactions have been disclosed in supplementary schedule of the annual report made available to the Plan participants.

Management evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2011.

Note 6: Related-Party Transactions

The Plan invests in pooled separate accounts and insurance company general account managed by Transamerica Life Insurance Company. Transamerica Life Insurance Company is the custodian of the Plan and, therefore these transactions qualify as party-in-interest transactions. Administrative fees paid by the Plan amounted to $22,864 for the year ended December 31, 2015.

Note 7: Investment in Fully Benefit-Responsive Contracts

The Plan has a fully benefit-responsive investment contract with TransAmerica Financial Life Insurance Company, which maintains the contributions in a separate account. These accounts are credited with earnings on the underlying investments and charged for participants' withdrawals and administrative expenses.

As these contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to these investments. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The investment contract issuer declares interest rates and backs the principal and interest. Any guarantees are subject to the claims paying ability of the issuer. Participants will receive the principal and accrued earnings credited to their accounts on

Note 7: Investment in Fully Benefit-Responsive Contracts (Continued)

withdrawal for allowable events under the Plan. These events include transfers to other Plan investment options, and payments because of retirement, termination of employment, disability, death and in-service withdrawals as permitted by the Plan.

Investments at contract value were $915,530 and $847,191 at December 31, 2015 and 2014, respectively, and included in pooled separate accounts on the financial statements.

Note 8: Recent Pronouncements

In July 2015, FASB issued Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date (Practical Expedient)*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted.

Management has elected to adopt Parts I and II. Accordingly, the amendments were retrospectively applied resulting in minimal impact on the financial statements. Part III is not applicable to this Plan.

In February 2017, the FASB issued ASU 2017-06, *Plan Accounting: Defined Benefit Pensions Plan (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*. This statement clarifies the presentation requirements for a plan's interest in a master trust and requires more detailed disclosures of the plan's interest in the master trust. The ASU is effective for fiscal years beginning after December 15, 2018. As the Plan does not hold an interest in a master trust, management has determined that the impact of this statement on its financial statements will be minimal.
