1. Description of Plan

The following description of the Applied Card Systems, Inc. 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, originally adopted April 1, 1998 and since amended, is a defined contribution plan covering all employees of Applied Card Systems, Inc., Applied Card Systems of Pennsylvania, Inc., Applied Bank, Backroom Services, Inc., Roch Capital Inc., and J'S MVP 2200 Concord Pike, LLC (collectively, the "Company") who have completed one month of service and are age 18 or older. Entry into the Plan is limited to the first day of each calendar month during the Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Effective March 24, 2015, through a Resolution of the Plan's Board of Trustees, the Plan replaced certain investments offered by the Plan with funds that have similar investment objectives. Effective with this change, the Vanguard LifeStrategy Growth Inv replaced the Great-West Aggressive Profile II Fund I and the Great-West Mod Aggr Profile II Fund I; the Vanguard 500 Index Admiral replaced the Great-West S&P 500 Index Fund I, the T. Rowe Price Equity Income R, and the Wells Fargo Advantage Prem Lg Co Gr Adm; the Vanguard LifeStrategy Cnsrv Gr Inv replaced the Great-West Conserv Profile II Fund I and the Great-West Mod Conserv Profile II Fund I; the Vanguard LifeStrategy Moderate Growth replaced the Great-West Moderate Profile II Fund I; the JPMorgan Core Plus Bond R6 replaced the Great-West Loomis Sayles Bond Fund I and the PIMCO Total Return Admin; and the Vanguard Mid Cap Index Fund - Admiral replaced the JPMorgan Mid Cap Value A Fund. Participants were provided notices of the fund changes, as required.

The Plan was amended and restated effective January 28, 2015 for the Pension Protection Act of 2006.

Contributions

Each year, participants may contribute an amount of pretax annual compensation, as defined by the Plan, up to the maximum limits of the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company may make a discretionary contribution to the profit-sharing component of the Plan. This contribution is allocated to each participant in the ratio of that participant's compensation to the total of all participants' compensation and is vested in the same manner as matching contributions. There were no discretionary contributions made during the Plan year ended December 31, 2016.

Participants direct the investment of all contributions offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution, if any, and investment earnings, and is charged with withdrawals and an allocation of investment income and administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant vests in the Company's discretionary contribution based on the years of service as follows:

Years of Service	Vesting %
1 or less	0%
2	25%
3	50%
4	100%

Forfeited Accounts

At December 31, 2016 and 2015, forfeited non-vested accounts totaled $19 and $2,689, respectively. Forfeitures may be used to satisfy Plan related administrative expenses, reduce future Company contributions, or be allocated to participant accounts at the Company's discretion. In 2016, administrative expenses were reduced by $2,694 from forfeited non-vested accounts. No forfeited non-vested accounts were allocated to participant accounts for the year ended December 31, 2016.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participants' accounts and bear interest at 1% above the prime rate at the date of origination. Interest rates are fixed at 4.75% at December 31, 2016 and ranged from 4.25% to 4.5% at December 31, 2016. Participants may not have more than two outstanding notes at any one time. Principal and interest are paid ratably through bi-weekly payroll deductions. Note terms range from one to five years, or greater for the purpose of acquiring a principal residence.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant is entitled to receive the value of his or her account in a lump-sum distribution, annuity or annual installments. A participant who is otherwise terminated is entitled to receive his or her vested accrued benefit. A terminated participant whose accrued benefit is not greater than $5,000 shall receive his or her payment in a lump sum. Those with an accrued benefit greater than $5,000 may choose to receive payment in either a lump sum or in monthly installments. Participants who reach age 59½ or who are disabled may withdraw all or a portion of their salary deferral contributions. Hardship withdrawals from a participant's deferral and rollover contribution accounts are permitted when certain criteria are met. The participant's deferral contributions are suspended for a period of six months following a hardship distributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, as well as disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments, with the exception of the fully benefit-responsive investment contract, are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines valuation policies utilizing information provided by the custodians. See Note 4 for discussion of fair value measurements.

The fully benefit-responsive investment contract is valued at contract value (Note 5). Contract value equals the accumulated cash contributions and interest credited to the Plan's contracts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administration of Plan Assets

The Plan's assets are administered by Great-West Trust Company, LLC and Great-West Life & Annuity Insurance Company, the custodians of the Plan. The custodians invest funds received from contributions, investment sales, interest and dividend income and make distribution payments to participants.

Expenses paid by the Plan relate to originating and administering notes receivable from participants and administering benefits paid to participants.

Administrative Expenses

Certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying Statement of Changes in Net Assets Available for Benefits.

3. Investments and Information Certified By Custodians

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great West Trust Company, LLC and Great-West Life & Annuity Insurance Company, the custodians, have certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Fully benefit-responsive investment contract, at contract value, all other investments at fair value, and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2016 and 2015.

- Investment income, including dividends and net realized capital gains, and interest income on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2016.

- Schedule H, Line 4(i) - schedule of assets (held at end of year) as of December 31, 2016.

The Plan's independent certified public accountants did not perform auditing procedures with respect to information certified by the custodians, except for comparing such information to the related information included in the above named financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methods used for assets measured at fair value. There have been no changes in the methods used at December 31, 2016 and 2015.

Mutual funds: Valued at the quoted NAV of shares held by the Plan at year end. NAV is the price used to sell the investment on the open market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methods or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 12,766,380	$ -	$ -	$ 12,766,380
Total Investments	$ 12,766,380	$ -	$ -	$ 12,766,380

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 12,407,404	$ -	$ -	$ 12,407,404
Total Investments	$ 12,407,404	$ -	$ -	$ 12,407,404

Unrealized gains and losses included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2016 and 2015, there were no transfers in or out of levels 1, 2 or 3.

5. Investment Contract With Insurance Company

The Plan has entered into a benefit-responsive investment contract with Great-West (the "Issuer"). The Issuer maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals, losses on underlying investments and administrative expenses. The Issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. As described in Note 2, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan, represents contributions made under the contract, plus or minus earnings (losses), less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Fair value approximates contract value at December 31, 2016 and 2015.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly. The crediting rate was 1.10% as of December 31, 2016 and 2015. The average yield was 1.16% and 1.20% for the years ended December 31, 2016 and 2015, respectively.

Certain events limit the ability of the Plan to transact at contract value with the Issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial plan termination or merger with another plan), (2) bankruptcy of the Company or other Company events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (3) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their Company contributions and earnings thereon.

7. Tax Status

The underlying prototype plan has received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014 stating that the form of the Plan is qualified under Section 401 of the Internal Revenue Code ("IRC") and, therefore, the related trust is tax exempt. The Plan Administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan, as amended and restated, is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Party-In-Interest Transactions

Included in the Plan's investments is a guaranteed annuity contract and mutual funds managed by an affiliate of Great-West, a custodian, as defined by the Plan. Additionally, the Plan issues notes to its participants which are secured by the participants' account balances. These transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

10. Reconciliation to Form 5500

The following is a reconciliation of the Plan's net assets available for benefits per the financial statements to the Form 5500 at December 31, 2016 and 2015:

	2016	2015

Net assets available for benefits per the Form 5500	$ 13,762,849	$ 13,571,389

The following is a reconciliation of the net increase in net assets available for benefits on the Statement of Changes in Net Assets Available for Benefits per the financial statements to the net increase per the Form 5500 for the year ended December 31, 2016:

Net increase in net assets per the Statement of Changes in Net Assets Available for Benefits	$ 237,870
Less 2016 deemed distributed loans	(45,410)
Less 2016 change in accrued expenses	(1,000)
Net increase per Form 5500	$ 191,460

11. Subsequent Events

The Plan evaluated subsequent events for recognition or disclosure through October 12, 2017, the date the financial statements were available to be issued.
