NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Hamilton Beach Brands, Inc. Pension Plan (the "Plan") provides only general information. Reference should be made to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is sponsored by Hamilton Beach Brands, Inc. (the "Company") and is a defined benefit pension plan subject to provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") (as amended).

Prior to October 2, 2015, the assets of the Plan were invested in the NACCO Industries, Inc. Defined Benefit Master Trust (the "Master Trust"). The Company is a wholly-owned subsidiary of NACCO Industries, Inc. (the "Parent Company"). The Master Trust was sponsored by the Parent Company. Effective October 2, 2015, the Master Trust was terminated and the Plan's assets were transferred to a separate trust sponsored by the Company.

The Company established the Plan effective January 1, 2013. The Plan was formed by a spin-off of the net assets and obligations of The Combined Defined Benefit Plan for NACCO Industries, Inc. and Its Subsidiaries (the "Combined Plan") which were attributable to participants and beneficiaries of the Company who were covered under Part II of the Combined Plan.

The Plan is frozen for purposes of eligibility and benefit accruals, except for interest credits on theoretical cash balances.

Plan Administration: The Company is the Plan sponsor and Plan administrator. Vanguard Fiduciary Trust Company ("Trustee") is the trustee of the Plan and the separate trust, and was the trustee of the Master Trust prior to its termination. Investment decisions are made by the NACCO Industries, Inc. Retirement Funds Investment Committee.

Vesting: All Plan participants are 100% vested in their benefits under the Plan.

Contributions: The Company intends to contribute, at a minimum, amounts necessary to provide the Plan with sufficient assets to meet or exceed the minimum funding requirement under ERISA. No Company contributions were required for the plan years ended December 31, 2016 and 2015 to meet the ERISA minimum funding requirements.

Benefits: Plan benefits are equal to the sum of prior plan benefits plus cash balance pension benefits. Under the cash balance formula, a separate account was established for each participant in the Plan. The interest credited to the cash balance accounts is indexed to the one-year constant maturity yield published by the Federal Reserve as in effect on the last business day of the preceding plan year, subject to a 12% maximum. Various minimum benefits and prior plan benefits also apply. The Plan permits early retirement with reduced benefits at age 55 with 5 or more years of service.

Various pre-retirement and post-retirement death benefits are payable under the Plan. In the event of a participant's death prior to distribution of such benefits, such benefits are distributed, as provided by the Plan, to the participant's beneficiary. In general, benefits are distributed in the form of monthly or lump sum payments.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Allocation of Contributions, Investment Income, and Gains and Losses in Master Trust: The trust assets attributable to each of the plans participating in the Master Trust were maintained by the Trustee. Employer contributions received and benefits paid to participants were tracked by specific plan in the Master Trust. Investment income, gains, and losses of the Master Trust were allocated to the individual plans based on the beginning of the month plan balances. Effective October 2, 2015, the Master Trust was terminated. All assets were transferred into separate trusts for the participating plans.

Expenses: Certain expenses of administering the Plan, principally actuarial fees, accounting fees and some investment management fees, are paid by the Plan. These costs are reflected on the accompanying financial statements. Other administrative expenses, such as legal fees and miscellaneous costs, are paid by the Company and are not reflected in the accompanying financial statements. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Therefore, it is reasonably possible that a significant change may occur in the near term for the estimate of the actuarial present value of accumulated plan benefits.

Benefit Payments: Benefits are recorded when paid.

Risk and Uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair value is defined as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following presents the valuation methods and assumptions used by the Plan to estimate the fair values of investments.

Mutual Funds: The fair values of mutual funds are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. Investments measured at fair value on a recurring basis as of December 31, 2016 and 2015 are summarized below.

	Fair Value Measurements at December 31, 2016 Using Quoted Prices in Active Markets for Identical Assets (Level 1)	Fair Value Measurements at December 31, 2015 Using Quoted Prices in Active Markets for Identical Assets (Level 1)

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present eligible employees or their beneficiaries. Benefits under the Plan are based on the accumulation of the cash balance account as well as frozen prior plan benefits. Benefits payable under all circumstances (retirement, death, full and permanent disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by actuaries from Towers Watson, the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, full and permanent disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The more significant actuarial assumptions used by the Plan's actuaries to arrive at the valuation of the Plan's accumulated plan benefit obligation as of December 31, 2015 and 2014 are as follows:

Assumed rate of return – 2015	7.50%
Assumed rate of return – 2014	7.75%
Mortality basis – 2015	RP-2014/MP-2015
Mortality basis – 2014	RP/MP-2014
Retirement age	Rates vary by age, ranging from 3% (age 55) to 100% (age 65+)
Cash balance crediting rate	2.50%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The \$64,266 decrease in the present value of accumulated plan benefits in 2015 that is due to the change in actuarial assumptions was attributable to a change to the mortality improvement scale to MP-2015 and the change in the assumed rate of return to 7.50% in 2015 from 7.75% in 2014.

The \$122,760 increase in the present value of accumulated plan benefits in 2014 that is due to the change in actuarial assumptions was attributable to a change in the segment rates used to value lump sum payments.

NOTE 4 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS

Substantially all information pertaining to the Plan's investments included in the financial statements, including the associated investment income (loss), was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Vanguard Fiduciary Trust Company, the Trustee of the Plan. This information has not been audited by independent accountants.

NOTE 5 - MASTER TRUST – (UNAUDITED)

Prior to October 2, 2015, certain investments of the Plan, along with investments of other defined benefit plans sponsored by the Parent Company and its subsidiaries, were invested in the Master Trust. Each participating plan had an undivided interest in the underlying assets of the Master Trust. Effective October 2, 2015, the Master Trust was terminated, and each participating defined benefit plan's interest in the Master Trust was transferred into a separate trust with the Trustee.

The following are changes in net assets for the Master Trust for the period from January 1, 2015 to October 2, 2015:

	<u>2015</u>
Changes in net assets:	
Net appreciation (depreciation) in fair value of investments	\$ (4,767,905)
Interest and dividend income	<u>2,299,343</u>
Net investment income (loss)	(2,468,562)

Administrative expenses	<u>(151,421)</u>
Net increase/(decrease)	(211,794,924)
Net assets available for benefits	
Beginning of year	<u>211,794,924</u>
End of year	<u>\$ -</u>

NOTE 6 - INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated May 13, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Subsequent to the receipt of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan as amended is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan is subject to federal income tax examinations for all periods subsequent to its inception.

NOTE 7 - PLAN TERMINATION

The Company has the right to terminate the Plan at any time within the constraints of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed in the Plan document and by ERISA and its related regulations. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. However, benefit improvements attributable to plan amendments may not be fully guaranteed by the PBGC. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. Certain investments held by the Plan are shares of mutual funds managed by Vanguard Group, Inc. Vanguard Fiduciary Trust Company is a wholly-owned subsidiary of the Vanguard Group, Inc. Vanguard Fiduciary Trust Company is the Trustee, as defined by the Plan, therefore, these investments and investment transactions qualify as party-in-interest transactions. Amounts paid by the Plan to parties-in-interest included fees for investment management, actuarial, audit and trustee services. However, these investments and transactions are not considered prohibited transactions.

NOTE 9 - SUBSEQUENT EVENTS

On September 29, 2017, NACCO Industries, Inc. completed the spinoff of Hamilton Beach Brands Holding Company. As an independent public company, Hamilton Beach Brands Holding Company will own and operate Hamilton Beach Brands, Inc. Hamilton Beach Brands, Inc. will remain the Plan Sponsor, and there will be no changes to the population covered by the Plan. Management is not aware of any other impact to the Plan at this time.

Plan management has evaluated subsequent events for recognition and disclosure through October 10, 2017, which is the date the financial statements were available to be issued.

2016 Form 5500

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Form of payment	100% single lump sum distribution.
Percent married	85% of males; 50% of females.
Spouse age	Wife three years younger than husband.
Administrative expenses	Return on asset assumption is net of expenses paid by the trust; \$198,788 is included in the target normal cost for the 2016 plan year.
Timing of benefit payments	Lump sum payments are payable on date of decrement.
Funding policy	NACCO's funding policy is to contribute an amount equal to the minimum required contribution. NACCO considers each year whether to contribute additional amounts (e.g., to reach certain funded status thresholds to avoid benefit restrictions, at-risk status, ERISA 4010 filings or other requirements).

Methods

Valuation date	January 1.
Funding target	Present value of accrued benefits.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year (based on actual expenses paid in previous year; \$198,788 for the 2016 plan year).
Actuarial value of assets	The fair market value of assets on the valuation date, including contributions receivable.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued except for disability benefits which are determined to be immaterial. Willis Towers Watson has reviewed the plan provisions with NACCO and, based on that review, is not aware of any significant benefits required to be valued that were not.
Data sources	Willis Towers Watson used asset data supplied by the trustee. NACCO furnished participant data as of the valuation date. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the company, assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	Administrative expenses are estimated as the actual expenses paid from the trust the preceding year.
Cash balance interest crediting rate	The plan credits interest to cash balance accounts using the sum of 1% plus one-year constant maturity yield published by the Federal Reserve as in effect on the last business day of the preceding plan year. NACCO has selected an expected future one-year constant maturity yield of 1.50%. After examining historical variability in this rate, we believe that the selected assumption does not significantly conflict with what would be reasonable based on a combination of market conditions at the measurement date and future expectations consistent with other economic assumptions used, other than the discount rate.
IRC §417(e) form of payment conversion rate	As required by IRC §430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions were selected by the plan sponsor from among choices prescribed by law and represent a best estimate of future experience.
Disabled Mortality	Assumptions were selected by the plan sponsor from among choices prescribed by law and represent a best estimate of future experience.
Retirement	Assumed retirement rates differ by age because of expected differences in retirement rates by age.
Forms of payment	The percentage of retiring participants assumed to take lump sums is based on recent observed experience and anticipated future experience.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law,” as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
-----------------	--

Changes in Assumptions and Methods

Changes in assumptions since prior valuation	The segment interest rates used to calculate the funding target were updated to the current valuation date as required by IRC §430.
--	---

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430.

Assumed plan-related expenses of \$198,788 were added to the normal cost (as compared to \$199,822 for plan year 2015).

Change in methods since prior valuation	
---	--

The valuation software used to produce the actuarial information in this report has been changed and such modification may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under IRC §430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore, the change in funding method due to a change in valuation software receives automatic approval under IRS Announcement 2010-3.

Summary of plan provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was adopted September 3, 2013 and effective January 1, 2014.

Covered Employees	All regular, full-time employees on the U.S. payroll hired prior to January 1, 1997.
Participation Date	The January 1 coinciding with or next following the date of becoming a covered employee.

Definitions

Participant	An employee eligible to participate in the plan or a former employee receiving or eligible to receive a benefit under the plan.
Vesting service	One year for each 12-month period of employment.
Pensionable pay	Base pay, bonuses, overtime, shift differentials, commissions, vacation and holiday pay and pre-tax contributions for other benefits.
Frozen accrued benefit	Benefit accrued under plan provisions prior to the December 31, 1991, merger and plan change.
Normal Retirement date (NRD)	First of month coinciding with or next following the attainment of age 65.
Account balance	The account balance consists of automatic retirement contributions and profit sharing retirement contributions accumulated with interest until December 31, 1996, when the plan was frozen. The automatic retirement contribution percentage was age-based according to the following table:

Age	Percentage of Compensation	Percentage of Compensation Exceeding Social Security Wage Base
34 & under	2.00%	2.00%
35-39	2.33	2.33
40-44	2.83	2.83

60 & over	6.33	5.70

The profit sharing retirement contribution percentage is age-based and will vary from year to year.

Interest will be credited for each plan year up to the benefit commencement date. The interest credited will be based on the one year U.S. Treasury Bill "ask yield" rate as of the last business day of the prior plan year plus 1%, subject to a maximum of 12%.

Monthly pension benefit	The account balance converted to an annuity plus the frozen accrued benefit.
Monthly preretirement death benefit	The actuarial equivalence of the account balance at participant's death plus the frozen accrued benefit determined as if the participant quit work on the earlier of his or her date of death or date of determination and elected a 50% joint and survivor option.

Early retirement	Retirement before NRD and on or after both attaining age 55 and completing five years of vesting service.
Postponed retirement	Retirement after NRD.
Vested termination	Termination for reasons other than death or retirement after completing five years of Vesting Service.

Preretirement death	Monthly preretirement spouse benefit is payable.

Other Plan Provisions

Forms of payment	The normal form of retirement benefits provides for a life annuity for unmarried participants and, on an actuarially reduced basis, a 50% joint and survivor for married participants. Optional forms are a 75% or 100% joint and survivor annuity, ten-year certain and life annuity, lump sum or (for married participants) a life annuity.
Conversion factors for optional forms of payment	For the cash balance portion and for prior plan benefits paid as lump sums, the applicable interest rate(s) and mortality table. For the prior plan benefit paid as annuities, 7.50% or, with respect to benefits accrued prior to October 1, 1993, 6.00% (whichever produced the greater benefit) and the 1971 Group Annuity Mortality Table for males set back six years for beneficiaries.

Schedule SB, Line 25 – Change in Methods

The valuation software used to produce the actuarial information in this report has been changed and such modification may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under IRC §430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore, the change in funding method due to a change in valuation software receives automatic approval under IRS Announcement 2010-3.
