INDEPENDENT AUDITORS' REPORT

To the Pension Committee and the Participants of the Continental NA Automotive Union Pension Plan (Huntsville):

We were engaged to audit the accompanying financial statements of the Continental NA Automotive Union Pension Plan (Huntsville) (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with generally accepted accounting principles in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with generally accepted auditing standards in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Bank and Trust Company and KeyBank National Association (collectively, the "Trustees of the Plan"), except for comparing the information with the related information included in the financial statements. The plan administrator has obtained certifications from the Trustees as of and for the years ended December 31, 2016 and 2015, that the information provided to the plan administrator by the Trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2016 is not a required part of the financial statements but is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Assumptions for January 1, 2016 Funding Valuation****Discount rate sponsor elections**

• Segment rates or full yield curve	Segment		
• Look-back months	4		
		<u>Stabilized</u>	<u>Nonstabilized</u>
• First 5 years		4.43%	1.34%
• Next 15 years		5.91%	4.03%
• Over 20 years		6.65%	5.06%

Mortality sponsor elections

• Healthy participants	Section 430(h)(3) prescribed separate static annuitant and non-annuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.
• Pre-1995 disabilities	Revenue Ruling 96-7 table for participants who became disabled before 1995.
• Post-1994 disabilities	Revenue Ruling 96-7 table for participants who became disabled after 1994 and are eligible for Social Security disability benefits.

Other economic assumptions

• Expected investment return	7.00% per year for calendar years 2013 and 2014. 6.50% per year for calendar years 2015 and 2016.
• Expenses	\$245,000 added to current year normal cost

Rationale for Significant Economic Assumptions

- Expected investment return – The expected rate of return on plan assets is based on a blend of the hypothetical past performance of the plan's current asset mix, adjusted for current market conditions, and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix. The expected return on assets assumption is net of an adjustment of 20 bps for investment expenses assumed to be paid from plan assets.
- Expenses – Equal to prior year's actual administrative expense rounded to nearest \$1,000, adjusted for increase in anticipated PBGC premiums.

Demographic assumptions

• Benefit commencement age for current vested deferred	62		
• Spouse assumptions		<u>Male participants</u>	<u>Female participants</u>
— Percentage married		75%	50%
— Spouse age difference		3 years younger	3 years older

Form of payment

	<u>Single life</u>
• Current vested deferred	100%

Schedule SB, Part V — Statement of Actuarial Assumptions/MethodsUnpredictable contingent event
assumptions

Not applicable

Rationale for Significant Demographic Assumptions

Form of payment and vested deferred commencement age assumptions are based on the experience study *Continental Automotive, Inc. Pension Plans Actuarial Assumptions Review* report dated December 21, 2015 using data from 2012 through 2014 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.

Actuarial Methods for Funding**Asset Methods**

The asset valuation method is an average of the adjusted market value for each month during the last 6 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all plan participants as of the valuation date.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, line 24 — Change in Actuarial Assumptions

The following assumption changes have occurred since the January 1, 2015 valuation.

- The expense component of normal cost increased from \$215,000 to \$245,000 to reflect our expectations for the current plan year.

• Eligibility	Eligibility occurs on death in active service after five years of vesting service.
• Benefit prior to retirement	50% of the Normal Retirement benefit that would have been payable to the participant as a single life annuity based on the years of Automotive Credited Service completed as of the date of death.
• Benefit after retirement	65% of the Normal Retirement benefit that would have been payable to the participant as a single life annuity based on the years of Automotive Credited Service completed as of the date of death.
Unpredictable contingent event benefits	
• Event	N/A
• Eligibility	N/A
• Benefit	N/A
Form of benefits	
• Automatic form for unmarried participants	Life annuity
• Automatic form for married participants	65% joint and survivor annuity.
• Optional forms	Joint and survivor annuity (100%, 75%, 65%, 50%)
• Optional form conversion factors	51GAM for males (five-year setback for females) and the applicable interest rate used by the PBGC as of the first day of the plan year preceding the determination date.
Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415 in effect when employment terminated and accrued benefits were determined.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2015, are included in this valuation:

- **Most recent plan amendments included:** There have been no amendments since the restatement effective January 1, 2015.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* Not applicable
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy

Schedule SB, Part V — Summary of Plan Provisions

due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

INDEPENDENT AUDITORS' REPORT

To the Pension Committee and the Participants of the Continental NA Automotive Union Pension Plan (Huntsville):

We were engaged to audit the accompanying financial statements of the Continental NA Automotive Union Pension Plan (Huntsville) (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with generally accepted accounting principles in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with generally accepted auditing standards in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Bank and Trust Company and KeyBank National Association (collectively, the "Trustees of the Plan"), except for comparing the information with the related information included in the financial statements. The plan administrator has obtained certifications from the Trustees as of and for the years ended December 31, 2016 and 2015, that the information provided to the plan administrator by the Trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2016 is not a required part of the financial statements but is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

CONTINENTAL NA AUTOMOTIVE UNION PENSION PLAN (HUNTSVILLE)

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

1. DESCRIPTION OF PLAN

The following description of the Continental NA Automotive Union Pension Plan (Huntsville) (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a noncontributory defined benefit plan sponsored by Continental Automotive, Inc. (the "Employer"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Master Trust - The assets of the Plan are maintained, for investment purposes only, on a commingled basis with the assets of the Pension Plan for Hourly-Paid Employees of Continental Automotive, Inc. and Certain Affiliated Companies, the Pension Plan for Salaried Employees of Continental Automotive, Inc. and Certain Affiliated Companies, the Continental NA Pension Plan, the Pension Plan for Hourly Employees of Continental NA Automotive and, effective January 1, 2016, the Veyance Technologies, Inc. Defined Benefit Plan (collectively, the "Participating Plans") in the Master Trust. These plans do not own specific assets of the Master Trust, but rather a proportionate beneficial interest or investment percentage. Accordingly, each plan's investment percentage changes regularly, based on daily transactions specific to each plan. Investment income for each fund is allocated to each plan based on the relationship of each plan's beneficial interest in the fund to the total beneficial interest of all plans in the fund.

Funding Policy - The Plan's funding policy is for the Employer to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. For the years ended December 31, 2016 and 2015, no Employer contributions were necessary to meet the minimum funding requirements of ERISA.

Pension Benefits - Participants with one or more years of credited service are entitled to monthly pension benefits beginning at the normal retirement age of 65. Participants who lose seniority under the labor agreement prior to age 65 and have 5 or more years of credited service (and are not eligible for early retirement or other plan benefits) or lose seniority after the later of age 65 or the fifth anniversary of their participation in the Plan are vested in a deferred pension service which was earned prior to April 1, 2004 and counted for vesting purposes. The monthly normal retirement benefit, payable for life, is based on a dollar amount that is assigned to the participant's benefit class code (as defined in the plan document) multiplied by the participant's number of years of credited service. Only service credited after March 31, 2004 is counted in calculating the monthly pension amount.

For a deferred pension benefit, the former employee can elect to start his or her benefit at the earlier of age 65 (computed using the normal retirement formula described above using the number of years of credited service as of the date he or she lost seniority), age 60 (computed using the benefit formula described above with a reduction equal to 5/9 of 1% multiplied by the number of months by which the participant is less the age of 65 at the date his/her pension commences), or at the attainment of ages 55 through 60 if the combined age and years of credited service add up to 85 or more (computed using the benefit formula described above multiplied by a percentage specified in the plan document which is based on the participant's age when his or her pension commences, and ranges from between 42.5% at age 55 to 66.7% at age 60).

The Plan provides an early retirement benefit to participants who are: (a) age 60 to 64 with 10 years or more years of credited service, (b) age 55 to 59 with a combined age and years of credited service adding up to 85 or more, or (c) less than age 55 with at least 30 years of credited service. Service accrued prior to April 1, 2004 is counted in determining eligibility for early retirement. Only service credited after March 31, 2004 is counted in computing the monthly pension amount. The early retirement benefit amount is the sum of: (i) a basic pension amount computed as the normal retirement benefit using credited service up to the participant's early retirement date multiplied by an early retirement percentage specified in the plan document (this percentage, which is based on the participant's age when his or her pension commences, ranges from between 21% at age 42 to 100% at age 62 or older). If the participant retires early with 30 or more years of credited service or 85 or more points, (i) the basic pension amount is recalculated after the participant attains age 62 and one month, with no reduction for commencing benefits prior to age 62 and one month), (ii) an early retirement supplement (which is paid to participants with 30 or more years of credited service prior to the attainment of age 62 and one month), and (iii) an interim supplement (which is paid to participants with less than 30 years of credited service and prior to the attainment of age 62 and one month). The early retirement supplement is calculated as the difference between the total monthly benefit amount specified in the plan document, which is based on the benefit commencement date and the basic pension amount computed in (i) above. The interim supplement amount is calculated by multiplying the number of months of credited service times the appropriate interim supplemental rate (specified in the plan document) divided by 12. The early retirement supplement or interim supplement amounts are reduced or eliminated if the participant is entitled to receive Social Security benefits, becomes reemployed by the Employer, or if the total monthly pension payments paid by the Plan would exceed 70% of the participant's final base pay.

Effective February 26, 2011, the Huntsville plant was closed. As a result of the plant closing all benefits in the Plan were frozen effective the closing date. Future benefit obligations will be paid according to the plan document as of the closing date.

Death and Disability Benefits - If a participant with five or more years of service dies at age 55 or older, an immediate benefit is payable to the participant's surviving spouse in the form of a 50% joint and survivor annuity. If the participant's death occurs prior to age 55, spousal benefits commence on the first day of the month following the 55th anniversary of the participant's birth date unless the lump sum present value of such benefits is less than \$5,000, in which case the spouse is entitled to an immediate lump sum payment in lieu of future monthly payments.

If an active participant with 10 or more years of service becomes permanently and totally disabled, at any age, unreduced retirement benefits are payable for life or until permanent and total disability ceases. Disability recipients may elect to receive benefits under one of several actuarially equivalent forms of payment.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Concentration of Credit Risk - As of December 31, 2016, the Master Trust and the Plan place their temporary cash and cash equivalents with high credit quality financial institutions. At times, such cash may be in excess of the Federal Depository Insurance Corporation insurance limit. The plan administrator believes these financial institutions have strong credit ratings and that credit risk related to these deposits is minimal.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. See Note 4 for disclosure of fair value measurements.

Investments, and the income therein, are allocated to the Participating Plans based on each plan's participation in investment options within the Master Trust. Accordingly, the Plan's investment income, includes its allocable share of the Master Trust's interest and dividend income and net appreciation in fair value of investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Administrative Expenses - The Plan's expenses are paid either by the Plan or by the Employer, as provided in the plan document. Expenses that are paid directly by the Employer are excluded from the accompanying financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are reflected as a reduction of the Plan's interest in the Master Trust's income in the accompanying statements of changes in net assets available for benefits.

Subsequent Events - In preparing the financial statements, the plan administrator has evaluated subsequent events through October 10, 2017, which is the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY TRUSTEES

The following is a summary of the Plan's investment information as of December 31, 2016 and 2015, and for the years then ended, included in the financial statements and supplemental schedule, that was prepared by, or derived from, information prepared by State Street Bank and Trust Company ("State Street") and KeyBank National Association (collectively, the Trustees of the Plan), and furnished to the plan administrator. The plan administrator has obtained certifications from the Trustees that such information is complete and accurate as of and for the years ended December 31, 2016 and 2015.

4. FAIR VALUE MEASUREMENTS

Generally accepted accounting principles in the United States of America provide the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under generally accepted accounting principles in the United States of America are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust and the Plan have the ability to access.
---------	---

Level 2

Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used as of December 31, 2016 and 2015.

Collective trust funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustees, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments as of December 31, 2016 and 2015.

Interest-bearing cash: Valued as of the ending cash balance plus any accrued interest held by the Plan as of year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan administrator believes the Master Trust's and the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016. The following table does not include the Plan's interest in the Master Trust because that information is presented in a separate table (Note 5).

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Interest-bearing cash	\$ 276,877	\$ -	\$ -	\$ 276,877

5. INTEREST IN MASTER TRUST

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. As of December 31, 2016 and 2015, the Plan's interest in the net assets of the Master Trust was approximately 2% and 3%, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon the amount of the time the Plan's assets were invested in the Master Trust.

The following is a summary of the net assets of the Master Trust as of December 31, 2016 and 2015, and for the years then ended, that was prepared by, or derived from, information prepared by State Street and furnished to the plan administrator. The plan administrator has obtained certifications from State Street that such information is complete and accurate as of and for the years ended December 31, 2016 and 2015.

6. RISKS AND UNCERTAINTIES

The Master Trust and the Plan's investments include funds which invest in various types of investment securities and in various companies within various markets. Investment securities are exposed to several risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

7. TAX STATUS

The IRS has determined and informed the Employer by a letter dated May 2, 2011, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel, believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Generally accepted accounting principles in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax period in progress.

8. PLAN TERMINATION

Although it has not expressed any intention to do so, the Employer has the right under the Plan, pending approval of applicable requirements under the collective bargaining agreements, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding the Plan's termination.
- Other vested benefits insured by the PBGC (a U.S. government agency) up to the applicable limitations.
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

Any funds remaining after the satisfaction of all liabilities under the Plan with respect to participants, transferred retirees or their beneficiaries shall be returned to the Employer. In the event of a partial termination of the Plan, the interests in the Plan of all participants affected by such partial termination shall be fully vested and non-forfeitable to the extent funded as of the date of such partial termination.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Employer and the level of benefits guaranteed by the PBGC.

9. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain investments of the Master Trust and the Plan are managed by the Trustees, as defined by the master trust agreement and plan document, and therefore, these transactions qualify as exempt party-in-interest transactions. The Trustees receive investment and administrative fees as a result of these activities. Certain other third party administrative expenses were paid by the Employer on behalf of the Plan. These transactions qualify as exempt party-in-interest transactions.

10. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2016. Had the valuation been performed as of December 31, 2015, there would be no material differences.

The significant actuarial assumptions used in the valuations as of December 31, 2015 were:

Discount rate	4.50%
Mortality basis after normal retirement age	RP-2014 separate annuitant/non-annuitant generational tables back projected to 2006 using MP-2014 with future improvement using the MP-2015 projection scale
Expected long-term return on assets	4.50%, net of expenses in the amount of \$128,899

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The total actuarial present value of accumulated plan benefits as of December 31, 2015, was as follows:

Vested benefits:	
Inactive participants receiving benefits	\$ 2,504,382
Inactive participants with deferred benefits	<u>23,620,771</u>
Total vested benefits	26,125,153
Nonvested benefits	-
Total actuarial present value of accumulated plan benefits	<u>\$ 26,125,153</u>

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2015, was as follows:

Actuarial present value of accumulated plan benefits as of beginning of year:	\$ 29,105,560
Increase (decrease) during the year attributable to:	
Increase for interest due to decrease in discount period	1,113,624
Change in actuarial assumptions	(1,881,991)
Benefits paid	(2,335,289)
Benefits accumulated and losses	<u>123,249</u>
Net decrease	<u>(2,980,407)</u>
Actuarial present value of accumulated plan benefits as of end of year:	<u>\$ 26,125,153</u>

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Assumptions for January 1, 2016 Funding Valuation****Discount rate sponsor elections**

• Segment rates or full yield curve	Segment		
• Look-back months	4		
		<u>Stabilized</u>	<u>Nonstabilized</u>
• First 5 years		4.43%	1.34%
• Next 15 years		5.91%	4.03%
• Over 20 years		6.65%	5.06%

Mortality sponsor elections

• Healthy participants	Section 430(h)(3) prescribed separate static annuitant and non-annuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.
• Pre-1995 disabilities	Revenue Ruling 96-7 table for participants who became disabled before 1995.
• Post-1994 disabilities	Revenue Ruling 96-7 table for participants who became disabled after 1994 and are eligible for Social Security disability benefits.

Other economic assumptions

• Expected investment return	7.00% per year for calendar years 2013 and 2014. 6.50% per year for calendar years 2015 and 2016.
• Expenses	\$245,000 added to current year normal cost

Rationale for Significant Economic Assumptions

- Expected investment return – The expected rate of return on plan assets is based on a blend of the hypothetical past performance of the plan's current asset mix, adjusted for current market conditions, and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix. The expected return on assets assumption is net of an adjustment of 20 bps for investment expenses assumed to be paid from plan assets.
- Expenses – Equal to prior year's actual administrative expense rounded to nearest \$1,000, adjusted for increase in anticipated PBGC premiums.

Demographic assumptions

• Benefit commencement age for current vested deferred	62		
• Spouse assumptions		<u>Male participants</u>	<u>Female participants</u>
— Percentage married		75%	50%
— Spouse age difference		3 years younger	3 years older

Form of payment

	<u>Single life</u>
• Current vested deferred	100%

Schedule SB, Part V — Statement of Actuarial Assumptions/MethodsUnpredictable contingent event
assumptions

Not applicable

Rationale for Significant Demographic Assumptions

Form of payment and vested deferred commencement age assumptions are based on the experience study *Continental Automotive, Inc. Pension Plans Actuarial Assumptions Review* report dated December 21, 2015 using data from 2012 through 2014 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.

Actuarial Methods for Funding**Asset Methods**

The asset valuation method is an average of the adjusted market value for each month during the last 6 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all plan participants as of the valuation date.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.
