NOTE 1 - DESCRIPTION OF PLAN

The following description of MBB Auto LLC (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In the beginning of 2016, the Company acquired MBF Auto LLC and Long Island Auto Group, Inc. Effective May 1, 2016, the Globe Motor Car Company 401(k) Plan and Long Island Auto Group, Inc. 401(k) Plan was merged into the Plan, at which time $11,884,127 of participant account balances and loans were transferred into the Plan, including $1,125,982 of participant account balances and loans from the prior MBB Auto LLC 401(k) Plan.

Contributions

For 2016 and 2015, participants could contribute up to $18,000 or 100 percent of pre-tax annual compensation, as defined in the Plan. Participants may modify salary deferrals quarterly.

Elective deferrals cannot exceed the dollar limitations contained in Internal Revenue Code Section 402 (g) in effect for such taxable year.

Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions up to $6,000. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment options daily. The Company may make discretionary matching contributions to the Plan equal to a percentage of each participant's defined compensation, the exact percentage to be determined each year by the employer. Additionally, the Company may make a profit sharing contribution as of the end of the year based upon profits up to a maximum of $3,000 per employee.

Investment Options

Participants direct the investment of their contribution into various investment options offered by the Plan.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the Company's contribution and Plan earnings (losses) and charged with an allocation of administrative expenses. Allocations are based on participant's earnings or account balances, as defined. Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their balance, dependent upon the value of the vested account balance. If the vested account balance is over $100,000, a participant can borrow up to $50,000. If the vested account balance is less than $100,000, a participant can borrow up to 50% of the balance. The minimum loan allowed is $1,000. Loan transactions are treated as a transfer from the investment fund to the participants' loan fund. The loans bear interest at the prime interest rate plus 1%. Principal and interest are paid ratably through payroll deductions.

Payments of Benefits

On termination of service due to termination of employment, death, disability or retirement, a participant may elect either of the following forms of payment: (1) a lump sum distribution equal to the value of the participant's vested interest in his or her account, or (2) a qualified joint and 50% survivor annuity. However, if the participant's account is not more than $5,000, the benefits will be distributed in a single payment of cash.

Administrative Expenses

The Plan Sponsor absorbs the administrative costs of the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review of Subsequent Events

Subsequent events were evaluated through October 2, 2017, which is the date the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting. Investments are reported at fair value except for fully benefit-responsive investment contracts, which are reported at contract value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. At December 31, 2016 and 2015, the Plan had no investments in any investment contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid accrued interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account are included in administrative expenses when incurred. As of December 31, 2016 and 2015, no allowance for credit losses had been recorded. If a participant does not make loan repayments and the Plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the term of the Plan document.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

All Plan assets were transferred to the MBB Auto LLC 401(k) Plan before the close of business on May 10, 2016.

Expenses

All operating expenses of the Plan are paid by the Company and are therefore excluded from these financial statements.

Payments of Benefits

Benefits are recorded when paid.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820) - Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2015-07"). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value ("NAV") per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Investments that calculate NAV per share (or its equivalent), but for which the practical expedient is not applied will continue to be included in the fair value hierarchy along with the related required disclosures.

ASU 2015-07 is effective for all entities for fiscal years beginning after December 15, 2015, and is to be applied retrospectively, with early adoption permitted.

In July 2015, the FASB released ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960) Defined Contribution Pension Plans (Topic 962) Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* ("ASU 2015-12"). This amendment removes the requirement to report fully benefit-responsive investment contracts at fair value with an adjustment to contract value. Under the amendment, fully benefit-responsive investment contracts are measured, presented, and disclosed only at contract value.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

New Accounting Pronouncements (continued)

In addition, this amendment simplifies the investment disclosures required for employee benefit plans, including eliminating the requirements to disclose: (a) individual investments that represent 5% or more of net assets available for benefits, (b) net appreciation (depreciation) by individual investment type, and (c) investment information disaggregated based on the nature, characteristics and risks. The requirement to disaggregate participant-directed investments within a self-directed brokerage account has also been eliminated. Self-directed brokerage accounts should be reported as a single type of investment. The amendment also allows plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. ASU 2015-12 is effective for nonpublic entities for fiscal years beginning after December 15, 2016, with early adoption permitted. Parts I and II should be applied retrospectively, while Part III should be applied prospectively.

The Plan elected to early adopt ASU 2015-07 and the applicable parts of ASU 2015-12. Accordingly, the Plan's statements of net assets available for benefits and notes to the financial statements reflect the amended disclosure requirements on a retrospective basis.

NOTE 3 – UNAUDITED INFORMATION CERTIFIED BY THE PLAN TRUSTEE

The December 31, 2016, Statements of Net Assets Available for Benefits, the investment activities included on the Statements of Changes in Net Assets Available for Benefits for the year then ended, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by Reliance Trust Company in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Disclosure under the Employee Retirement Income Security Act of 1974. The information certified for the year ended December 31, 2016 includes total investments of $12,133,667 and related total investment income of $780,907.

NOTE 4 - FAIR VALUE MEASUREMENTS AND INVESTMENTS

FASB ASC Topic 820, *Fair Value Measurements*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

NOTE 4 - FAIR VALUE MEASUREMENTS AND INVESTMENTS (continued)

FASB ASC Topic 820, *Fair Value Measurements*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that that Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 inputs must be observable inputs for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used or assets measured at fair value.

		Fair Value Measurements at Reporting Date Using:		
December 31, 2016	Level 1	Level 2	Level 3	Total
Registered Investment Companies	$ 7,392,334	$ -	$ -	$ 7,392,334
Investments at NAV	-	-	-	4,741,333
Total investments	$ 7,392,334	$ -	$ -	$12,133,667

NOTE 4 - FAIR VALUE MEASUREMENTS AND INVESTMENTS (continued)

During 2016, the Plan adopted ASU No. 2015-07 "Fair Value Measurement (Topic 820): Disclosures in Certain Entities that Calculate Net Asset Value per Share (or its equivalent)", which removed the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per as a practical expedient.

Registered investment companies

These investments are valued at the daily closing price as reported by the fund. Registered investment companies (mutual funds) held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission ("SEC"). The mutual funds held by the Plan are deemed to be actively traded.

Investments at NAV

For the common collective trust funds where a NAV is not publicly quoted, the NAV per share is used as a practical expedient and is based on the quoted market prices of the underlying net assets of the fund as reported daily by the fund managers. In accordance with ASU 2015-07, funds valued based on NAV per share as a practical expedient are not categorized within the fair value hierarchy.

The following table summarizes investments measured at fair value based on net asset value per share as of December 31, 2016.

December 31, 2016

Investment	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trust funds	$4,741,333	None	Daily	None

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The fair values of receivables approximate their carrying values.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contribution at any time and to terminate the Plan, subject to the provision of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 8 - TAX STATUS

The Internal Revenue Service has determined and informed the Company that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.
