Metal Companies 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE A - PLAN DESCRIPTION

The following brief description of the Metal Companies 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Effective November 1, 2014, the Plan was created as a result of the merger between the Palisades Holdings, Inc. 401(k) Plan; Rolled Alloys 401(k) Plan; Cincinnati Thermal Spray, Inc. 401(k) Plan and Polymet Corporation 401(k) Plan into the existing Metal Companies 401(k) Plan. Each covered employee who was eligible to participate in the merged plan immediately prior to November 1, 2014, continues to be eligible to participate in the Plan.

The Plan is a defined contribution plan and benefits all eligible employees, including employees of Rolled Alloys Inc.; Cincinnati Thermal Spray, Inc.; Polymet Corporation; Sunshine Metals, Inc.; Payroll & Insurance Group, Inc.; Rolled Metal Products, Inc.; Palisades Holdings, Inc.; Double Eagle Alloys; CMI Inc. and TEK Stainless Piping Products Inc. (collectively referred to herein as the Companies). Employees are eligible to participate after completing three consecutive months of service and are at least 18 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

On January 1, 2017, assets from the Denison 401(k) Plan were merged into the Plan. See note K below for further details.

Contributions

Participants may make pretax salary deferral contributions of a percentage of their annual compensation, subject to Internal Revenue Service (IRS) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing transfers from other qualified defined contribution plans. The Plan allows for a safe harbor matching company contribution, which matches 100% of the first 3% of salary deferral plus 50% of contributions between 3% and 5% of participants' eligible compensation. In addition, the Plan makes a standard non-elective contribution if the participant has completed 1,000 hours of service.

Participant Accounts

Each participant's account is credited with the participant's contribution, the safe harbor matching company contribution, an allocation of the standard non-elective company contribution and Plan earnings. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The benefit to which a participant is entitled is the value of his or her vested account.

Vesting

Participants are immediately vested in their own contributions, rollovers and the safe harbor matching contribution, plus actual earnings thereon. Standard non-elective company contributions are subject to vesting at 20% per year of service up to 100% after five years of service. At December 31, 2016 and 2015, forfeited non-vested accounts totaled \$2,519 and \$-0- respectively. Forfeitures used to reduce employer contributions totaled \$58,986 in 2016.

NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2016 and 2015

Notes Receivable from Participants

Participants may borrow a minimum of \$1,000 up to a maximum of \$50,000, or 50%, of the vested portion of their account balance, whichever is less. A loan is collateralized by the balance in the participant's account and bears interest at a rate commensurate with market rates for similar loans. Principal and interest are paid ratably through payroll deductions. Repayment occurs over a period not to exceed five years, unless the loan is to acquire any dwelling unit that is or will be the principal residence of the participant, in which case the repayment period may be extended to 10 years. Participants can have no more than one loan outstanding at a time.

Benefit Payments

Participants may take withdrawals prior to termination of employment under a hardship withdrawal, rollover contributions or an age of 59-1/2 withdrawal whereby a participant may withdraw all or any portion of his or her account. Upon termination of service due to death, disability, retirement or other reasons, participants may receive the vested balance of their accounts. Vested balances greater than \$5,000 are distributed upon election by the participant. All amounts are distributed in a lump-sum payment. Distributions are subject to the applicable provisions of the Plan document.

Administrative Expenses

The Plan's administrative expenses are paid by the Plan, unless paid by the Companies.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in the orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits attributable to fully benefit-responsive contracts because contract value is the amount participants would normally receive if they were to initiate permitted transactions under the terms of the Plan. See note D for further discussion and disclosures related to fair value measurements.

Metal Companies 401(k) Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2016 and 2015

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based on the terms of the Plan document.

NOTE C - INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Prudential Bank & Trust, F.S.B. and Prudential Retirement Insurance and Annuity Company (collectively known as Prudential), the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2016 and 2015.
- Investment income and interest income on notes receivable from participants, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2016 .
- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2016.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in financial statements and supplemental schedule.

NOTE D - FAIR VALUE MEASUREMENTS

Accounting guidance issued by the Financial Accounting Standards Board establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Metal Companies 401(k) Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2016 and 2015

Level 2 - Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

However, the determination of what constitutes observable requires judgment by the Plan's management. Plan management considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by multiple, independent sources that are actively involved in the relevant market. Unobservable inputs are not based on independent sources but on Plan management's own assumptions based on the best information available in the circumstances.

The categorization of an investment within the fair value hierarchy is based on the pricing transparency of the investment and does not necessarily correspond to Plan management's perceived risk of that investment.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled separate accounts - Valued based on the net asset value (NAV) provided by the administrator of the fund. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the value of the underlying assets owned by the fund, minus liabilities, and then divided by the number of shares/units held by the Plan at year-end. The NAV is quoted on a private market and the underlying assets owned by the fund are traded on active markets. No restrictions apply to these funds and the investments may be redeemed daily.

Mutual funds - Valued at the quoted NAV of shares held by the Plan at year-end, which is obtained from an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan invests in a guaranteed income fund, issued by Prudential. This traditional investment contract meets the fully benefit-responsive investment contract criteria and; therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions, plus earnings, less participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and interest at a specified rate that is guaranteed to the Plan.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Examples of such events include (1) transfers of assets from the fund into a competing investment option and (2) when total distributions and transfers in the fund exceed certain levels. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

NOTE F - RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is

Metal Companies 401(k) Plan

at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE G - RELATED-PARTY TRANSACTIONS

Certain Plan investments are managed by an affiliated company of Prudential, which is the custodian as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions.

NOTE H - PLAN TERMINATION

Although it has not expressed any intention to do so, the Companies have the right to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE I - TAX STATUS

The underlying non-standardized prototype plan has received an opinion letter from the IRS dated March 31, 2008, stating that the Plan is qualified under the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in all material respects in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified and that the related trust is tax-exempt as of the financial statement dates.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
