Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditors' Responsibility
Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Automatic Data Processing and Fidelity Management Trust Company, the custodians trustees of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that Fidelity Management Trust Company held the Plan's investment assets and executed investment transactions from October 1, 2016 to December 31, 2016, and that Automatic Data Processing held the Plan's investment assets and executed investment transactions as of December 31, 2015, and for the period January 1, 2016 to September 30, 2016. The plan administrator has obtained certifications from the trustees as of and for the years ended December 31, 2016 and 2015, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Notes to Financial Statements
Year Ended December 31, 2016

1. Description of Plan

The following description of Parkway Associates Profit Sharing Plan (the "Plan") provides only general information. For a more complete description of the Plan's provisions, refer to the agreement governing the Plan (the "Plan Agreement").

General
The Plan is a deferred contribution 401(k) and profit sharing plan – per adoption agreement effective January 1, 2010, covering eligible employees of Parkway Associates, LLC and other entities related by common ownership (the "Companies"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA).

Eligibility
Each employee of the Companies shall be eligible to participate in the Plan upon meeting all of the following requirements:

- not included in a unit of employees covered by a collective bargaining agreement, unless the agreement requires the employees to be included in the Plan;
- nonresident aliens who do not receive earned income from the Companies which constitute United States source income.
- have worked at least 1,000 hours during the year
- are actively employed through the end of the year

Participant Contributions
Participants may direct the Companies to deposit up to 90% of their annual compensation directly into their plan accounts on a before-tax basis. The amount deferred in any calendar year may not exceed the limits specified under the Internal Revenue Code.

Participants shall be permitted to irrevocably designate pursuant to Subsection 5.03(b) of the Basic Plan Document that a portion or all of the deferred contributions made are Roth 401(k) contributions that are includable in the participant's gross income at the time deferred.

Employer Contributions
The Companies have the right to make discretionary contributions based on a percentage of the annual compensation of eligible participants.

Participant Accounts
Each participant's account is credited with the participant's contribution, the Companies' discretionary contribution, plan earnings and forfeitures of terminated participants' non-vested accounts. Allocations are based on participant's earnings or account balances, as defined.

Participants can elect from several investment vehicles offered by the Plan, to which contributions on their behalf shall be directed. The plan trustee authorized the investments to be held by Fidelity Management Trust Company (the "Custodian").

Participant Loans
Participants may obtain loans against the value of their accounts. The minimum loan amount is $1,000. The maximum amount of the loan cannot exceed the lesser of a) $50,000 or b) 50% of the participant's vested account balance. The funds required to satisfy a loan request are withdrawn on a pro rata basis from the participant's account in the various investment funds.

The loans generally must be repaid within five years. Interest and principal repayments are credited directly to the borrower's respective account and are repaid by payroll deductions. The loans bear interest equal to the prime interest rate plus one percent at the time the loan is disbursed.

Vesting
All participants of the Plan are immediately 100% vested in their elective and rollover deferral contributions plus actual earnings thereon. Vesting, in employer contributions is based upon the following schedule:

Years of Service	Vesting Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of Benefits
The distribution to which a plan participant is entitled is the participant's vested account balance, including net realized and unrealized investment gains and losses. A distribution election may be made upon retirement, death or termination to be paid in a lump sum or an annuity.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Change in Accounting Policy
In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, Plan Accounting: Part I Fully Benefit-Responsive Investment Contracts, Part II Plan Investment Disclosures and Part III Measurement Date Practical Expedient. The three-part standard update is intended to simplify employee benefit plan reporting. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively and part III should be applied prospectively, with early adoption permitted. Management elected to early adopt Parts I and II. Accordingly, the amendment was retrospectively applied to all periods presented. Part III is not applicable to the Plan.

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement – Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent), which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. Reporting entities will be required to disclose the amount investments measured at net asset value (or its equivalent) using the practical expedient to reconcile total investments in the fair value hierarchy to total investments measured at fair value. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016 and should be applied retrospectively, with early adoption permitted. Management elected to early adopt ASU 2015-07. Accordingly, the amendment was retrospectively applied to all periods presented.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (See Note 3 for discussion of fair value measurement). Earnings are based on each account's proportionate share of the respective fund.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits Paid to Participants
Benefit payments to participants are recorded upon distribution.

Forfeited Accounts
At December 31, 2016, cumulative forfeited non-vested accounts totaled approximately $4,700.

3. Information Certified by The Plan's Custodian

The following is a summary of the investment and participant loans information regarding the Plan as of December 31, 2016 and 2015 and for the year ended December 31, 2016, included in the Plan's financial statements and supplemental schedule, that was prepared or derived from information provided by Fidelity Management Trust Company and Automatic Data Processing, Inc., the custodians of the Plan for the years ended December 31, 2016 and 2015, respectively, and furnished to the plan administrator. The plan administrator has obtained certifications from the custodians that such information is complete and accurate.

Information relating to investments and notes receivable from participants held by the custodians at December 31, 2016 and 2015 is as follows:

	2016	2015
Investments at fair value	$ 435,603	$ 377,464
Notes receivable from participants	12,743	16,276
	$ 448,346	$ 393,740

The following was also certified by the custodians for the year ended December 31, 2016.

Net appreciation in fair value of investments	$ 8,487
Other - forfietures	$ (19,670)
Divided income	$ 12,363
Interest income from notes receivable from participants	$ 966

4. Fair Value Measurements

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The asset or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs. Valuation techniques used to measure fair value are defined as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value:

- Money market fund: Money market funds are valued at cost plus accrued interest, which approximates fair value.

- Mutual fund accounts: Mutual funds are stated at fair value based on unadjusted quoted prices in an active market for each share held by the Plan.

- Common collective trust funds: Common collective trust funds are stated at fair value which is determined by the trustee of the common collective trust based on the underlying assets, which represent net asset value of units held by the trust. The net asset value is used as a practical expedient to estimate fair value. The practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. The common collective trust fund invests primarily in mutual funds. The common collective trusts do not have any unfunded commitments relating to its investment, or any significant restriction or redemptions. Participant-directed redemptions can be made on any business day and do not have a redemption notice period.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments at fair value as of December 31, 2016 are as follows:

	Level 1	Level 2	Level 3	Total
Money market fund	$ 13,495	$ -	$ -	$ 13,495
Mutual funds	422,108	-	-	422,108
Total investments at fair value	$ 435,603	$ -	$ -	$ 435,603

Investments at fair value as of December 31, 2015 are as follows:

	Level 1	Level 2	Level 3	Total
Money market fund	$ -	$ -	$ -	$ -
Mutual funds	329,793	-	-	329,793
Total investments in the fair value hierarchy	329,793	-	-	329,793
Common collective trust fund, measured at net asset value (a)				47,671
Total investments at fair value	$ 329,793	$ -	$ -	$ 377,464

a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient to fair value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items present in the statement of net assets available for benefits.

5. Plan Termination

Although it has not expressed any intention to do so, the Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants are entitled to the entire amount of their account.

6. Tax Status

The Company adopted a Prototype Non-Standardized Profit Sharing Plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Code ("IRC") on January 1, 2010, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The plan administrator believes that the plan amendments and the plan sponsor have operated the Plan in a manner that did not jeopardize its tax-exempt status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would be sustained upon examination by federal and state jurisdictions. The Company concluded that it has no material uncertain tax liabilities to be recognized at December 31, 2016. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan believes it is no longer subject to income tax examinations for years prior to 2013.

7. Form 5500

Form 5500 has been prepared on a cash basis. A reconciliation of the year end net assets available for plan benefits and net income from the financial statement to the 5500 is as follows:

	2016	2015
Net assets available for benefits per financial statement	$ 478,046	424,508
Accrual to cash conversion:		
Employer contributions -accrued in current year	(29,700)	(30,768)
Net assets available for benefits per Form 5500	$ 448,346	$ 393,740

Net income per financial statement	$ 53,538
Accrual to cash conversion:	
Employer contributions -accrued in 2016	(29,700)
Employer contributions -accrued in 2015	30,768
Net income per form 5500	$ 54,606

8. Related Party Transactions

The Custodians of the Plan manage certain plan investments, therefore these transactions qualify as party-in-interest transactions. Fees paid to the Custodian by the Plan for administrative services amounted to $3,009 for the year ended December 31, 2016.

9. Risks and Uncertainties

The Plan's investments are concentrated in mutual fund accounts and common collective trust funds that invest in marketable equity, debt and fixed income securities. Such securities are subject to various risks that determine the value of the funds. Due to the level of risks associated with certain securities and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.

10. Subsequent Events

The Plan has evaluated subsequent events through October 12, 2017, the date the financial statements were available for issuance. All subsequent events requiring recognition or disclosure as of December 31, 2016 have been incorporated in these financial statements.

Accordingly, the amendment was retrospectively applied to all periods presented.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (See Note 3 for discussion of fair value measurement). Earnings are based on each account's proportionate share of the respective fund.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits Paid to Participants
Benefit payments to participants are recorded upon distribution.

Forfeited Accounts
At December 31, 2016, cumulative forfeited non-vested accounts totaled approximately $4,700.

3. Information Certified by The Plan's Custodian

The following is a summary of the investment and participant loans information regarding the Plan as of December 31, 2016 and 2015 and for the year ended December 31, 2016, included in the Plan's financial statements and supplemental schedule, that was prepared or derived from information provided by Fidelity Management Trust Company and Automatic Data Processing, Inc., the custodians of the Plan for the years ended December 31, 2016 and 2015, respectively, and furnished to the plan administrator. The plan administrator has obtained certifications from the custodians that such information is complete and accurate.

Information relating to investments and notes receivable from participants held by the custodians at December 31, 2016 and 2015 is as follows:

	2016	2015
Investments at fair value	$ 435,603	$ 377,464
Notes receivable from participants	12,743	16,276
	$ 448,346	$ 393,740

The following was also certified by the custodians for the year ended December 31, 2016.

Net appreciation in fair value of investments	$ 8,487
Other - forfietures	$ (19,670)
Divided income	$ 12,363
Interest income from notes receivable from participants	$ 966

4. Fair Value Measurements

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The asset or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs. Valuation techniques used to measure fair value are defined as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value:

- Money market fund: Money market funds are valued at cost plus accrued interest, which approximates fair value.

- Mutual fund accounts: Mutual funds are stated at fair value based on unadjusted quoted prices in an active market for each share held by the Plan.

- Common collective trust funds: Common collective trust funds are stated at fair value which is determined by the trustee of the common collective trust based on the underlying assets, which represent net asset value of units held by the trust. The net asset value is used as a practical expedient to estimate fair value. The practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. The common collective trust fund invests primarily in mutual funds. The common collective trusts do not have any unfunded commitments relating to its investment, or any significant restriction or redemptions. Participant-directed redemptions can be made on any business day and do not have a redemption notice period.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments at fair value as of December 31, 2016 are as follows:

	Level 1	Level 2	Level 3	Total
Money market fund	$ 13,495	$ -	$ -	$ 13,495
Mutual funds	422,108	-	-	422,108
Total investments at fair value	$ 435,603	$ -	$ -	$ 435,603

Investments at fair value as of December 31, 2015 are as follows:

	Level 1	Level 2	Level 3	Total
Money market fund	$ -	$ -	$ -	$ -
Mutual funds	329,793	-	-	329,793
Total investments in the fair value hierarchy	329,793	-	-	329,793
Common collective trust fund, measured at net asset value (a)				47,671
Total investments at fair value	$ 329,793	$ -	$ -	$ 377,464

a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient to fair value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items present in the statement of net assets available for benefits.

5. Plan Termination

Although it has not expressed any intention to do so, the Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants are entitled to the entire amount of their account.

6. Tax Status

The Company adopted a Prototype Non-Standardized Profit Sharing Plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Code ("IRC") on January 1, 2010, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The plan administrator believes that the plan amendments and the plan sponsor have operated the Plan in a manner that did not jeopardize its tax-exempt status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would be sustained upon examination by federal and state jurisdictions. The Company concluded that it has no material uncertain tax liabilities to be recognized at December 31, 2016. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan believes it is no longer subject to income tax examinations for years prior to 2013.

7. Form 5500

Form 5500 has been prepared on a cash basis. A reconciliation of the year end net assets available for plan benefits and net income from the financial statement to the 5500 is as follows:

	2016	2015
Net assets available for benefits per financial statement	$ 478,046	424,508
Accrual to cash conversion:		
Employer contributions -accrued in current year	(29,700)	(30,768)
Net assets available for benefits per Form 5500	$ 448,346	$ 393,740

Net income per financial statement	$ 53,538
Accrual to cash conversion:	
Employer contributions -accrued in 2016	(29,700)
Employer contributions -accrued in 2015	30,768
Net income per form 5500	$ 54,606

8. Related Party Transactions

The Custodians of the Plan manage certain plan investments, therefore these transactions qualify as party-in-interest transactions. Fees paid to the Custodian by the Plan for administrative services amounted to $3,009 for the year ended December 31, 2016.

9. Risks and Uncertainties

The Plan's investments are concentrated in mutual fund accounts and common collective trust funds that invest in marketable equity, debt and fixed income securities. Such securities are subject to various risks that determine the value of the funds. Due to the level of risks associated with certain securities and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.

10. Subsequent Events

The Plan has evaluated subsequent events through October 12, 2017, the date the financial statements were available for issuance. All subsequent events requiring recognition or disclosure as of December 31, 2016 have been incorporated in these financial statements.
