BBR PARTNERS, LLC RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

1. Description of the plan

The following description of the BBR Partners, LLC Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and Eligibility

The Plan is a defined contribution plan covering all full-time, nonunion employees of BBR Partners, LLC (the "Company" or "Employer") who have completed 500 hours of service within 6 consecutive months of employment and attained the age of 21. The assets of the Plan were maintained by Charles Schwab Bank (the "Custodian"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may elect to make contributions of pre- or post-tax annual compensation, up to the legal maximum allowable amount as defined by the Internal Revenue Code ("IRC"). In 2016, participants could contribute up to a maximum of $18,000 with an additional $6,000 catch-up contribution for employees over 50 years old. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Employer has elected to make a contribution equal to 3% of a participants' compensation as part of a Safe Harbor Nonelective Contribution, as defined in the Plan agreement. Highly compensated employees, generally more than 5% owners or individuals receiving wages in excess of certain amounts established by law, are excluded from the safe harbor contribution. This contribution is 100% vested. In addition, the Employer, at its discretion, may make additional profit-sharing contributions to the Plan, subject to limitations. To be eligible for either Employer contribution, a participant must meet the eligibility requirements of the Plan. Participants direct the investment of participant and employer contributions. The Employer made contributions of approximately $646,000 for the year ended December 31, 2016.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) Employer contributions, if any, (b) Plan earnings (losses), and (c) administrative expenses. Allocations are based on participant earnings (losses) or account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings (losses) thereon. Vesting in the Company's discretionary contributions is based on years of continuous service. A participant is 100% vested after six years of credited service according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

1. Description of the plan (continued)

Notes Receivable from Participant

Notes receivable from participant are measured at the unpaid principal balance, plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of (1) $50,000 reduced by the highest outstanding loan balance during the one-year period on the day before the new loan is made or (2) 50% of the fair market value of the participant's vested account balance reduced by any outstanding loan balance on the date the new loan is made. All loans shall bear a reasonable rate of interest as determined by the Plan administrator, which was the prime rate (3.50% at December 31, 2016) plus 1%, and must be repaid in five years, unless the loan is for the purchase of a principal residence, then the term will be determined by the Plan administrator. Principal and interest are paid ratably through semi-monthly payroll deductions. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Upon termination of employment due to retirement, death or disability, a participant will receive a lump-sum distribution in the amount equal to the value of the participant's vested interest in his or her account, or may elect to have the entire distribution rolled into an IRA or a new employer's qualified plan if it accepts rollover contributions. Participants may withdraw their contributions upon demonstrating a hardship or attaining age 59 ½.

2. Summary of significant accounting policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared in compliance with the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA and the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

These financial statements were approved by management and available for issuance on October 11, 2017. Subsequent events have been evaluated through this date.

Valuation of Investments

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements. Purchases and sales of securities are recorded on the trade date. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

The Plan is responsible for administrative fees and related expenses. The Company has assumed some of these expenses on behalf of the Plan.

2. Summary of significant accounting policies (continued)

Income Taxes

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor or the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain tax positions taken or expected to be taken that would require recognition of a tax liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Use of Estimates

The preparation of financial statements in conformity with GAAP and the DOL's Rules and Regulations for Reporting and Disclosure under ERISA requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein at the date of the financial statements and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2015-07 ("ASU 2015-07"), Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), an amendment to Fair Value Measurement Topic 820. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. For non-public business entities, ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years, with early application permitted. The Plan elected to adopt ASU 2015-07 as of and for the year ended December 31, 2016. Accordingly, investments measured using the net asset value per share practical expedient have not been categorized within the fair value hierarchy. The amendment has been applied retrospectively to all periods presented.

In July 2015, the FASB issued Accounting Standards Update No. 2015-12 ("ASU 2015-12"), *(Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient*, amendments to Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965). ASU 2015-12 (i) designates contract value as the only required measure for fully benefit-responsive investment contracts, (ii) simplifies investment disclosure requirements, and (iii) allows an employee benefit plan with a fiscal year end that does not coincide with the end of a calendar month to measure its investments using the month end closest to its fiscal year end. The amendments are effective for fiscal years beginning after December 15, 2015. The Plan adopted ASU 2015-12 as of and for the year ended December 31, 2016. The applicable amendments of ASU 2015-12 have been retrospectively applied to all periods presented.

2. Summary of significant accounting policies (continued)

Fair Value

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In determining fair value, the Plan uses various valuation techniques. A fair value hierarchy for inputs is used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs are to be used when available. Valuation techniques that are consistent with the market or income approach are used to measure fair value. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 - Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2 - Valuations based on inputs, other than quoted prices included in Level 1, that are observable either directly or indirectly.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

Fair value is a market-based measure, based on assumptions of prices and inputs considered from the perspective of a market participant that are current as of the measurement date, rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Plan's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date.

The availability of valuation techniques and observable inputs can vary from investment to investment and are affected by a wide variety of factors, including the type of investment, whether the investment is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the investments existed. Accordingly, the degree of judgment exercised by the Plan in determining fair value is greatest for investments categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Participant directed investments – Accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices.

2. Summary of significant accounting policies (continued)

Fair Value (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

	(Level 1)	(Level 2)	(Level 3)	Balances as of December 31, 2016
Mutual funds	$ 6,542,918	$ -	$ -	$ 6,542,918

3. Information prepared and certified by Charles Schwab Bank

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Charles Schwab Bank has certified to the completeness and accuracy of all investments and related investment activity and notes receivable from participants and related activity in the accompanying statements of net assets available for benefits as of December 31, 2016 and 2015, the statement of changes in net assets available for benefits for the year ended December 31, 2016 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2016.

4. Tax status

The Plan has adopted a Volume Submitter Plan sponsored by Sungard Business Systems LLC. On March 31, 2014, the Internal Revenue Service ("IRS") stated in an advisory letter that the Volume Submitter adopted by the Plan, as then designed, was in compliance with applicable requirements of the IRC and therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified and the related trust is tax-exempt.

5. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants are 100% vested in their accounts.

6. Related-party and party-in-interest transactions

Certain investments are shares of mutual funds managed by Charles Schwab Bank. Charles Schwab Bank is the Plan custodian; therefore, transactions related to these investments qualify as party-in-interest transactions.

7. Risks and uncertainties

In the normal course of business, all of the Plan's assets are transacted with and held by Charles Schwab Bank. The Plan is subject to credit risk to the extent Charles Schwab Bank is unable to fulfill contractual obligations on their behalf. The Company has not experienced and does not anticipate any losses from this arrangement.

The Plan invests in various investments. Investments are exposed to various risks such as interest rates, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan's exposure to a concentration of credit risk is limited by the diversification of investments across participant-directed fund elections. Additionally, the investments within each participant-directed fund are further diversified into varied instruments.

Volatility in the financial markets may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2016 may not necessarily be indicative of amounts that could be realized in a current market exchange.

8. Mutual fund fees

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940. These annual fees are used to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.
