Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of SPX US Pension Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2016 and 2015 and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by JPMorgan Chase Bank, N.A. (the "Trustee"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes related transactions. The plan administrator has obtained certifications from the Trustee as of and for the years ended December 31, 2016 and 2015 that the information provided to the plan administrator by the Trustee is complete and accurate.

SPX US Pension Plan

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of assets held as of December 31, 2016 and reportable transactions for the year ended December 31, 2016 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

SPX US Pension Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 1 - Plan Description

The following description of the SPX US Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Effective August 31, 2015, the Plan was amended and the accrued benefits of all participants were frozen, except individuals whose participation in the Plan is governed by a collective bargaining agreement. The impact of this amendment is reflected in the actuarial present value of accumulated plan benefits as of December 31, 2015 as disclosed in Note 5.

Effective December 31, 2017, the accrued benefits of participants governed by the Weil McLain union will be frozen. The impact of this amendment is not expected to be significant and is not reflected in the actuarial present value of accumulated plan benefits as of December 31, 2015.

General - The Plan is a defined benefit plan that provides for retirement, death, and disability benefits for eligible employees of SPX Corporation (the "Company") and those of its subsidiaries that adopt the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Operations - Under a trust agreement, JPMorgan Chase Bank, N.A. (the "Trustee") was appointed trustee of the Plan. In accordance with the powers and duties of the Trustee, as designated by the Company, the Trustee administers the Plan in accordance with the orders of the SPX Corporation Retirement and Welfare Plan Administrative Committee and invests the Plan's assets and the income therefrom as directed by the Plan's investment manager. Administrative fees incurred in administering the Plan are paid from the assets of the Plan.

Eligibility and Vesting - As noted above, the Plan is frozen to new participants and no further benefits are accrued for certain participants. Salaried and nonunion hourly employees became fully vested upon the completion of three years of service and individuals hired on or after January 1, 2001 are not eligible to participate. Employees governed by a collective bargaining agreement became fully vested upon the completion of five years of service and individuals hired on or after December 31, 2010 are not eligible to participate.

Pension Benefits - The Plan provides for payment of normal retirement, early retirement, disability retirement, and death benefits to its participants, as calculated under the provisions of the Plan.

Note 1 - Plan Description (Continued)

Under terms of the Plan, effective July 1, 1997, benefits for the former IARP Plan's general salaried and management employees of the Company are governed under a cash balance plan. In addition, former employees of General Signal Corporation, which merged into the Plan on December 31, 1998, are also governed by this cash balance plan. The cash balance account consists of any initial account balance at July 1, 1997 or December 31, 1998, as applicable, employer contribution credits, interest credits, and any applicable transition credits. Employer contribution credits are equal to 4 percent of the participants' compensation, as defined by the Plan, for each calendar year. Interest credits are based on the participants' cash balance accounts at December 31 of the prior calendar year multiplied by the five-year U.S. Treasury rate on the last business day of November of the prior calendar year. Transitional credits are available to participants who meet certain requirements, as defined in the Plan.

Eligible employees governed under terms of the former Bargaining Unit Plan are entitled to normal annual pension benefits beginning at the participant's normal retirement age of 65, as described in the Plan. For these employees, the individual pension benefit is equal to credited service multiplied by the monthly pension basic benefit in effect on the date the employee terminates service as set forth in the Plan and union agreements. Special provisions for retirement at other than the normal retirement age are described in the Plan and union agreements.

Funding - Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. There were no required contributions in 2016 and 2015.

Termination - Should the Plan terminate at some future time, its net assets generally will not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - If available, quoted market prices are used to value investments. When quoted market prices are not available, various valuation techniques are utilized and observable inputs are prioritized to determine fair value. The insurance contracts are valued at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

Notes to Financial Statements December 31, 2016 and 2015

Note 2 - Summary of Significant Accounting Policies (Continued)

The common/collective trusts are valued at the net asset value per share (NAV) (or its equivalent), which is based on the fair value of the trusts' underlying assets. Government securities and corporate debt securities are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. Investments in partnership interests and hedge funds are valued at NAV per share (or its equivalent) of the funds based on audited financial statements, where available, with adjustments to account for fund activity and other applicable valuation adjustments. For investments valued at NAV, there are no redemption restrictions or unfunded commitments. All other investments, including short-term investments consisting primarily of a money market mutual fund, are valued based on quoted market prices. See Note 7 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to:

- a. Retired or terminated employees or their beneficiaries
- b. Beneficiaries of employees who have died
- c. Present employees or their beneficiaries

Benefits are calculated based on the specific provisions outlined in the plan agreement.

Actuarial Assumptions - The significant actuarial assumptions used in the valuation of the Plan at December 31, 2015 are summarized as follows:

Actuarial cost method	- Unit credit cost method
Assumed rate of return	- 5.00 percent
Mortality and disability basis	- RP-2014 Mortality Tables for males and females adjusted by 11.7 percent for actual experience projected using the generational MP-2015 improvement scale

Note 2 - Summary of Significant Accounting Policies (Continued)

- | | |
|------------------|--|
| Retirement basis | - The participants will retire upon becoming eligible for normal retirement |
| Retirement age | - A scale ranging from 2.5 percent between the ages of 55 and 59 and 100 percent at age 67 |

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the statement of net assets available for benefits.

Reclassification - Certain prior year amounts have been reclassified to conform to the current year presentation.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including August 16, 2017, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

The Trustee holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedules of assets held at end of year and reportable transactions are based solely on information provided by the Trustee. Additionally, the Plan invests in certain investments managed by the Trustee.

SPX US Pension Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 4 - Securities Lending

On December 6, 2006, the SPX Corporation Retirement and Welfare Plan administrative committee entered into a separate agreement with the Trustee. The agreement authorizes the Trustee to lend securities held in the Plan's accounts to third parties (the "Borrower"). Under the terms of the agreement, the Trustee must obtain collateral from the Borrower, generally cash or acceptable securities, having a market value of 102 percent of the loaned securities for U.S. securities and 105 percent of the loaned securities for non-U.S. securities. Both the collateral and the securities loaned are marked-to-market on a daily basis, with additional collateral obtained or refunded as necessary. The agreement term is indefinite; however, in the event that the loaned securities are not returned by the Borrower, the Trustee will, at its own expense, either replace the loaned securities or, if unable to purchase those securities on the open market, credit the Plan's accounts with cash equal to the fair value of the loaned securities. Investment income, excluding any realized or unrealized gains or losses from securities lent, was approximately \$10,000 and \$17,000 during the years ended December 31, 2016 and 2015, respectively.

The collateral received pursuant to securities lending transactions is reflected as a liability in the statement of net assets available for benefits at December 31, 2016 and 2015. There was no noncash collateral received as of December 31, 2016 and insignificant noncash collateral received as of December 31, 2015. To the extent that a loan of securities is secured by collateral, such collateral is invested in pooled investments managed by the Trustee. At December 31, 2016 and 2015, these pooled investments were primarily invested in short-term investments including money market mutual funds and interest-bearing cash valued at outstanding balances. The Plan bears the risk of loss (reward of gain) with respect to unfavorable (favorable) changes in the fair value of the invested collateral. If applicable, this difference in value of the investments purchased with the cash collateral received and the amount due to the Borrower upon return of securities on loan is recorded as an unrealized gain (loss) and is included in the statement of changes in net assets available for benefits in net realized and unrealized gains (losses) on investments from collateral held under securities loan agreements for 2016 and 2015.

SPX US Pension Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 4 - Securities Lending (Continued)

Although the Plan's securities lending activities are collateralized as described above, and although the terms of the securities lending agreement with the Trustee require the Trustee to comply with government rules and regulations related to the lending of securities held by ERISA plans, the securities lending program involves both market and credit risk. In this context, market risk refers to the possibility that the Borrower of the securities will be unable to collateralize the loan upon a sudden material change in the fair value of the loaned securities or the collateral, or that the Plan's investment of collateral received from the Borrower of the Plan's securities may be subject to unfavorable market fluctuations. Credit risk refers to the possibility that counterparties involved in the securities lending program may fail to perform in accordance with the terms of their contracts.

Note 5 - Benefit Obligations

The actuarial present value of accumulated plan benefits is determined by consulting actuaries from Willis Towers Watson. The calculations of the estimated present value of accumulated plan benefits attributable to participants in the Plan as of and for the year ended December 31, 2015 are as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefit payments	\$ 55,025,953
Other vested participants	<u>213,545,884</u>
Total vested benefits	268,571,837

Nonvested benefits	<u>327,206</u>

Total actuarial present value of accumulated plan benefits	<u>\$ 268,899,043</u>
--	-----------------------

Actuarial Present Value of Accumulated Plan Benefits -

Beginning of year	\$ 218,528,102
Increase (decrease) during the year attributable to:	
Benefits accumulated	1,667,955
Actuarial gains	(563,771)
Interest due to the decrease in the discount period	13,993,516
Change in actuarial and other assumptions	37,597,345
Benefits paid	(11,159,468)
Plan amendments	<u>8,835,364</u>
Net increase	<u>50,370,941</u>

Actuarial Present Value of Accumulated Plan Benefits -

End of year	<u>\$ 268,899,043</u>
-------------	-----------------------

SPX US Pension Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 5 - Benefit Obligations (Continued)

For the year ended December 31, 2015, the change in actuarial and other assumptions was primarily due in part to the change in the discount rate from 6.50 percent in 2014 to 5.00 percent and the change in the mortality table MP-2014 to MP-2015 in 2015.

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 7 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2016 and 2015.

Note 7 - Fair Value Measurements (Continued)

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no transfers between levels of the fair value hierarchy during 2016 and 2015.

Due to a reevaluation of the significance of the inputs used in the valuation of the mutual funds, it was determined that the investment previously classified as Level 1 should have been classified as Level 2 based on the fair value hierarchy. Accordingly, the 2015 fair value disclosure has been updated to reflect this change.

Assumed Cost of Living Adjustments

None

Inclusion Date

The valuation date coincident with or next following the date on which the employee becomes a participant.

Plan-related Expenses

The amount included for this year for plan-related expenses is \$3,100,000. This amount is based on projected non-investment fees for the current year including the expected PBGC premiums due in the current plan year.

Mortality

For all participants: The prescribed mortality assumption under Section 430(h)(3)(A) of the Internal Revenue Code using static tables with separate mortality rates for annuitants and non-annuitants.

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age and gender are shown below.

Attained Age	Unisex Rates	Attained Age	Unisex Rates
55	2.50	62	20.00
56	2.50	63	15.00

Disability Rates (per 1,000 employees)

The rates at which participants become disabled by age and gender are shown below:

Percentage becoming disabled during the year		
Age	Males	Females
20	.30	.30
25	.30	.30
30	.30	.40
35	.40	.70
40	.80	1.30
45	1.60	2.40
50	3.30	4.00
55	6.90	6.40
60	11.50	9.00

Future Increases in Social Security

For purposes of determining the target normal cost and the additional funding target for maximum deductible contribution purposes, Social Security benefits are assumed to increase in the future due to increases in the national average wage index of 2.75% per year and due to increases in the cost of living of 2.25% per year compounded annually.

Cash Balance Interest Crediting Rate

The actual known interest rate in the first year of valuation (1.65% in 2016) and the 5-year average of actual rates in the second year and thereafter (1.22% in 2017 and beyond).

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC Section 415. Plan compensation is limited to the maximum presently allowed under IRC Section 401(a)(17). No provision is made for future increase in the maximum annual benefit or compensation limit.

Calculation of Lump Sum

100% of participants in the main IARP (cash balance plan with grandfathered benefits) are assumed to elect a lump sum when eligible. Lump sums were valued using the PPA valuation interest rates and mortality tables.

Asset Method

Under this method, the valuation assets are equal to the average of four values, the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The four values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of 8 months prior to the valuation date, the adjusted market value of assets as of 16 months prior to the valuation date, and the adjusted market value of assets as of 24 months prior to the valuation date. The adjusted market value as of a relevant determination date is equal to the market value of assets as of that date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date.

The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 6.50%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 6.50%, and the applicable limitation for the plan year, equal to 6.81%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 6.99%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 7.00%, and the applicable limitation for the plan year, equal to 6.99%. For periods that span two plan years, the assumed rate of return on assets is the lower of the assumed rates of return for each year (pursuant to IRS Notice 2009-22). Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash balance interest crediting rate	The plan credits interest to cash balance accounts using the actual known interest rate in the first year of valuation and the 5-year average of actual rates in the second year and thereafter. Our long term estimate of the 30-year Treasury rate is 1.22%, based on a combination of current conditions, past history, including relationships to other assumptions such as CPI, and future economic expectations.
Lump sum conversion rate	<p>Lump sum benefits are valued using a long term assumption for the plan's lump sum conversion rate that is not significantly inconsistent with what would be reasonable and consistent with other economic assumptions used, other than the discount rate.</p> <p>Lump sum benefits are valued assuming that the current lump sum conversion rate remains unchanged in the future.</p>
Rates of increase in:	
■ Compensation	<p>Assumed compensation increases are based on a combination of assumed future (i) cost-of-living increases (CPI), (ii) productivity increases and (iii) promotional increases. CPI increases assumed are as described below. Productivity increases are consistent with the assumed real increases in NAW described below (i.e., increases in assumed NAW less increases in assumed CPI). Promotional increases were based on plan sponsor expectations.</p> <p>The resulting salary increase assumption is a composite rate that reflects both current conditions and future expectations.</p> <p>The future CPI and productivity/NAW increases assumed are consistent with those used in the cash balance interest crediting rate.</p>

- **National average wages (NAW) (e.g., Social Security wage bases)**

The assumed NAW is based on assumed CPI as shown below, plus assumed increases in real wages (the portion of GDP increases that becomes part of wages). Such assumed future increases in real wages are based on a combination of historical averages and an expectation that the future rates will be consistent with historical averages.
- **Increases in statutory limits (CPI)**

The assumed CPI is based on a combination of current conditions, and future forecasts by economists. The final assumption represents a composite of current rates and long term expected rates.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	<p>Termination rates were based on a published pension table for a population believed to have similar characteristics to the plan's population, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Assumed termination rates differ by group (i.e. bargaining versus non-bargaining) due to expected differences in termination rates between these groups.</p>
Disability	Disability rates were based on a published pension table for a population believed to have similar characteristics to the plan's population, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Retirement	<p>Retirement rates were based on a published pension table for a population believed to have similar characteristics to the plan's population, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Assumed retirement rates differ by group (i.e. executive versus non-executive) because of expected differences in retirement rates between these groups.</p>

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC 430.

The assumed plan-related expenses added to the target normal cost were changed from \$3,200,000 for the prior valuation to \$3,100,000 for the current valuation to account for lower expected expenses to be paid from the trust

1. USPP - Former Bargaining Plan

Summary of Principal Plan Provisions – Waukesha Goldsboro

Effective Date and Most Recent Amendment

The plan was originally effective January 1, 1969. The last amendment reflected herein was effective October 31, 2015.

Coverage and Participation

Hourly employees in the bargaining units represented by the Communications Workers of America, Local 3676-Waukesha, Goldsboro, NC. Participation begins the first day of employment for employees hired before August 1, 2004. Participation is closed to new participants as of August 1, 2004.

In addition, there are inactive participants at various other locations (terminated vested and retirees) who are covered by this plan.

Credited Service

Credited Service is used to determine benefit amounts under the plan. For each calendar year of employment, if a participant works at least 1,750 hours, one year of credited service is granted. For a year in which less than 1,750 hours are worked, a partial year of credited service is granted as follows:

Hours	Credited Service
1,750 or more	1.0
1,575 to 1,749	0.9
1,400 to 1,574	0.8
1,225 to 1,300	0.7
1,050 to 1,224	0.6
875 to 1,049	0.5
700 to 874	0.4
525 to 699	0.3
350 to 524	0.2
Less than 350	0.0

Except for military leave and certain leaves for union business, credited service does not accrue during unpaid leaves of absence.

Credited service is frozen as of October 31, 2015.

A one-time pension enhancement was provided to Goldsboro active participants who were accruing benefits on August 31, 2015. The benefit enhancement includes extra benefit service accruals through 2017. All participants in this group were granted full service accruals through 2017 for purposes of this enhancement.

Vesting (Continuous) Service

Elapsed time. Continuous service is used to determine eligibility for benefits under the plan. It is measured from date of hire to date of termination. Participants that terminate and are rehired within 12 months have the period of absence recognized as continuous service.

Normal Retirement Benefit

Normal Retirement Date: First of the month coinciding with or next following 65th birthday.

Benefit Formula: The monthly benefit is determined by multiplying the Credited Service by the benefit rate according to the following schedule for terminating retirements prior to August 1, 2001:

- \$12.00 for years of Credited Service prior to January 1, 1999.
- \$14.00 for years of Credited Service after January 1, 1999.

For terminations and retirements on or after August 1, 2001:

- \$15.00 for years of Credited Service prior to January 1, 1999.
- \$18.00 for years of Credited Service after January 1, 1999 (if retire prior to July 1, 2010)
- \$20.00 for years of Credited Service after January 1, 1999 (if retire on or after July 1, 2010)
- \$21.00 for years of Credited Service after January 1, 1999 (if retire on or after July 31, 2014)

Normal Form of Benefit: Life annuity if unmarried. 50% joint & surviving spouse, if married.

Late Retirement Benefit

The greater of the accrued benefit to actual retirement date and the accrued benefit at normal retirement actuarially increased to late retirement date. If a vested deferred participant applies after normal retirement date, retroactive annuity start date rules apply.

Early Retirement Benefit

Eligibility: Age 55 and 15 years of Continuous Service.

Benefit: Normal Retirement benefit calculated based on Benefit Rate and Credited Service at early retirement. Reduced $\frac{1}{2}$ of 1% per month for commencement before age 65.

Summary of Principal Plan Provisions – Main IARP

Effective Date

The plan was originally effective July 1, 1997. The last amendment reflected herein is effective August 31, 2015.

Coverage and Participation

Salary, nonunion hourly employees and union Waukesha employees, except those employed as wage employees at Contech or Acutex, of SPX Corporation. Employees hired after December 31, 2000 are not covered by this plan.

An employee shall become eligible to participate on his date of hire if he is employed as of the first anniversary of employment or date of coverage under this plan if later.

Credited Service

A participant is granted Credited Service equal to continuous service as a salaried employee based on complete years and days divided by 365 rounded up to the nearest one hundredth of a percent. After June 30, 1997 additional Credited Service will accrue only for Grandfathered participants. Certain acquisitions may have granted service for periods with a prior employer. This must be by amendment.

Credit service was frozen as of August 31, 2015.

Vesting (Continuous) Service

An employee shall be granted one year of Continuous Service for each complete year of employment with the Company from date of hire. For partial years, days are divided by 365 and rounded up to the nearest one hundredth of a percent. Certain acquisitions may have granted service for periods with a prior employer. This must be by amendment.

Compensation

Cash Balance compensation includes regular earnings, vacation, holiday, overtime pay and certain bonuses paid the year before termination. It also includes amounts contributed to the 401(k) plan and the cafeteria plan. It does not include severance pay, fringe and welfare benefits, moving expenses, deferred compensation and certain bonuses paid in the year in which termination occurs.

Normal Retirement Benefit

Normal Retirement Eligibility: Age 65 with 5 years of Vesting Service

Benefit Formula: For all active participants on July 1, 1997 (December 31, 1998 for the General Signal Corporate or Hourly Plan), the Accrued Benefit was converted to an initial pension account balance. The plan will update this cash balance account each December 31:

- With interest at 5-year treasuries as of the last business day of November preceding the plan year; and
- With principal credits equal to 4% of pay up to the wage base and 8% of pay over the wage base.
- With additional principal credits for certain key employees.

Grandfathered or participants with transition benefits are entitled to receive at least the minimum benefit as described under the individual plan agreements.

A one-time pension enhancement was provided to active participants who were accruing benefits on August 31, 2015 and were not participants in the Top Management Plan. The benefit enhancement was equal to the participant's expected pay credits for cash balance participants or expected service for Grandfathered Plan participants through 2017. No pay increases are included.

Normal Form of Benefit: The standard form of payment is a Life Annuity if unmarried and a 50% Joint & Survivor Annuity, if married. The 50% Joint & Survivor Annuity is the Life Annuity actuarially reduced.

Late Retirement Benefit

The greater of the accrued benefit to actual retirement date and the accrued benefit at normal retirement actuarially increased to late retirement date. If a vested deferred participant applies after normal retirement date, retroactive annuity start date rules apply.

Accrued Benefits

The Accrued Benefit is the Account Balance as of the date of determination and the actuarial equivalence of this Account Balance in the form of a monthly benefit payable immediately. The Grandfathered Accrued Benefit is the benefit determined under the various Grandfathered and transition benefit provisions as of the date of determination payable at the Normal Retirement Age.

Grandfathered Minimum Accrued Benefits

Benefits accrued prior to conversion to a cash balance plan are protected. SPX participants with 10 years of service and 50 age-plus-service points on June 30, 1997 will receive the greater of their cash balance benefit or the benefit formula in effect at conversion.

General Signal participants on January 1, 1999 who had completed 5 years of Vesting Service and attained age 45 by that date are eligible for the Transition Benefit if retirement occurs at or after age 55.

The Transition Benefit shall be an alternate benefit, determined as follows:

- A. The Participant's Transition Account Balance at Early Retirement Age, which is at or after age 55, shall be converted to an Actuarially Equivalent annuity, payable at Normal Retirement Age. The Participant's Transition Account Balance is the same as the regular cash balance account, with the exception that effective January 1, 1999, certain employees are entitled to Special Transition Principal Credits equal to 7% of pay up to the wage base and 11% of pay over the wage base.
- B. The monthly amount payable (determined above) to the Participant at Normal Retirement Age shall be reduced by $\frac{1}{4}$ percent per month for each month prior to the participant's 62nd birthday that the participant's Early Retirement Date occurs.
- C. The Participant may request payment of his/her benefit in any optional form otherwise available under the Plan. The amount of any optional form of benefit shall be the Actuarial Equivalent of the amount determined above, expressed as a single life annuity. If the Participant requests a lump sum payment, the Actuarial Equivalent of the amount payable at the Participant's Early Retirement Age shall be determined and, if larger than the Participant's Account Balance, shall be paid instead of the account balance.

Early Retirement Benefit

Eligibility: Age 55 with 10 years of Credited Service for participants with a prior SPX Grandfathered benefit at June 30, 1997. Age 55 with 5 years of Vesting Service for former General Signal employees who were participants in a prior plan as of December 31, 1998, and eligible for transition benefit.

Benefit: The actuarial equivalent of the Account Balance is available as an annuity at early retirement.

SPX Grandfathered Benefits: If retirement is within three years of the SSURA, 100% of the accrued Normal Retirement Benefit. If retirement is more than three years before the SSURA, the Normal Retirement Benefit accrued at the Early Retirement Age is reduced by 5/10 of 1% for each month in excess of 36 by which commencement of benefits precedes the SSURA.

OTC Grandfathered Benefits: The reduction is 5/9 of 1% for each month of the first 60 months and 5/18 of 1% per month for each of the following months preceding SSURA.

Automotive Diagnostics Division Grandfathered Benefits: The reduction is ½% for each month prior to age 65.

General Signal Frozen December 31, 1998 Benefits: The early retirement reductions were generally ¼% for each month prior to age 62.

Disability Benefit

Eligibility: Upon permanent and Total Disability as defined under the company's Long-Term Disability plan.

Benefit: Normal retirement benefit payable at Normal Retirement Age based on pay at disability date but Credited Service continuing for two years from date of disability, or Account Balance credited with Principal Credits for two years from date of disability based on compensation at date of disability plus interest credits.

Vested Benefits upon Termination of Service

Vesting: 3 years of Vesting Service. Participants terminating prior to January 1, 2008, 5 years of Vesting Service.

Termination Benefit: Normal Retirement Benefit based on Accrued Benefit at date of termination. The benefit will be reduced by 5/10 of 1% times the number of months by which payments commence prior to SSURA. For Automotive Diagnostics Division only, the reduction is 1/2 of 1% for each month by which commencement precedes age 65.

Accrued Benefits Prior to Cash Balance Conversion

For employees of SPX on July 1, 1997: The monthly benefit is the sum of A, B and C with a minimum monthly benefit of \$13 times Credited Service (no minimum for Automotive Diagnostics Division):

- A. 1% (0.85% for Automotive Diagnostics Division) of pay up to Covered Compensation times Credited Service up to 30 years.
- B. 1.5% (1.35% for Automotive Diagnostics Division) of pay over Covered Compensation times Credited Service up to 30 years.
- C. 0.75% (0.375% for OTC, 0.6% for Automotive Diagnostics Division) of pay times Credited Service in excess of 30 but not over 40 years.
