INDEPENDENT AUDITOR'S REPORT

To West Valley Pension Plan Investment Committee
West Valley Pension Plan
West Valley, New York

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of West Valley Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by State Street Bank and Trust Co., the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2016 and 2015, and for the years then ended, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules: (1) Schedule H, Line 4i - Schedule of assets (held at end of year) as of December 31, 2016; and (2) Schedule H, Line 4j - Schedule of reportable transactions for the year ended December 31, 2016, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purposes of additional analysis and are not a required part of the financial statements. These supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

WEST VALLEY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following description of West Valley Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan was established on August 31, 1998 and is a contributory defined benefit pension plan covering the employees of CH2M HILL BWXT West Valley, LLC (the Company) and former employees of West Valley Environmental Services, LLC (WVES) for the period September 1, 2007 to August 28, 2011 and prior to September 1, 2007, West Valley Nuclear Services Company LLC (WVNSC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the West Valley Pension Plan Committee (the Committee). The Committee has overall responsibility for the operation and administration of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

The Company, WVES and WVNSC were formed for the sole purpose of performing environmental cleanup at the West Valley Demonstration Project (WVDP) in Western New York State funded through a contract with the United States Department of Energy (DOE). The DOE contract for the cleanup of WVDP was held by WVNSC until September 1, 2007, when WVES was awarded the contract with the DOE and, as a result, the employees of WVNSC then became employees of WVES. In 2011, WVES' contract with the DOE expired and the contract for the next phase of the cleanup at the WVDP was awarded to the Company. As a result, the Company became the sponsor of the Plan and certain employees of WVES became employees of the Company effective August 29, 2011.

Effective August 28, 2011, the Plan was amended to freeze participation to employees hired or rehired after August 28, 2011, with the exception of participants covered by the collective bargaining agreement between the Company and the International Association of Machinists and Aerospace Workers, Local 2401 (IAM) who were on layoff, as defined by the Plan document, as of August 29, 2011 and are recalled to work within the eligible period. An IAM participant with less than two years of eligibility service as of the date of the IAM participant's layoff has an eligible period of twelve months from the date of the layoff. An IAM participant with two or more years of eligibility service as of the date of the IAM participant's layoff has an eligible period of sixty months from the date of layoff.

Eligibility:

All employees of the Company hired prior to August 29, 2011 are eligible to participate in the Plan. The Plan also covers retired and terminated vested employees of WVES and WVNSC. A participant's service at certain affiliates of WVES and WVNSC were considered eligible service. As a requirement of participation, participants are required to contribute to the Plan an amount equal to 1.5% of compensation, as defined.

WEST VALLEY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description (Continued)

Pension benefits:

Participants become fully vested after five years of service, as defined by the Plan. There is no partial vesting of benefits. A participant with less than five years of service is entitled to receive a benefit equal to the amount of his or her contributions and interest attributable to those contributions.

In 2011, in connection with the transition of the DOE contract from WVES to the Company, certain participants of the Plan that terminated employment with WVES between July 1, 2011 and August 28, 2011 were considered to be part of a partial termination. As a result, participants that terminated in that time period became fully vested in their benefits regardless of the number or years of service.

A participant's monthly normal retirement benefit, at age 65, is generally based on years of credited service and the career accumulation amount of 1/12 of two percent of compensation for each year of service. The Plan generally provides a reduced benefit for early retirement. Eligibility for early retirement is attained upon (1) completion of 10 years of eligibility service and attaining age 60, or (2) completion of 30 years of eligibility service and attaining age 58. Retirement benefits are paid to pensioners or beneficiaries in various forms consisting of annuities, lump-sum payments, or a combination of both.

Death benefits:

If an active employee dies, the spouse may be entitled to a spouse survivor benefit. Depending on the employee's age and/or eligible service at the time of death, the spouse may qualify for an immediate spouse survivor benefit or deferred spouse survivor benefit. The benefit payable to the spouse is equal to 55% of the employee's early retirement benefit, except that the benefit is reduced as if the employee retired at the date of death (subject to a maximum benefit reduction for early commencement) and assuming that a joint and survivor benefit and 55% form of payment had been elected. Benefit payments are guaranteed for 60 months and payable to the spouse's beneficiary, if necessary. If the employee was not married and dies before retirement, the named beneficiary will receive a refund of the employee's contributions to the Plan plus interest earned.

Administrative expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Expenses paid by the Plan include trustee and investment advisory fees, actuarial fees, Pension Benefit Guaranty Corporation (PBGC) premiums and certain other administrative costs. Investment expenses related to management of the funds that the Plan invests are included in net appreciation (depreciation) of fair value of investments.

WEST VALLEY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2. Significant Accounting Policies

Basis of accounting:

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment valuation and income recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by its investment advisors and the trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Actuarial present value of accumulated plan benefits:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. The accumulated plan benefits for active participants are based on their prior service and compensation. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are only included to the extent they are deemed attributable to service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and reflects actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and expected date of payment.

The significant actuarial assumptions used in the valuation are shown below:

Discount rate – 6.00% and 5.70% at December 31, 2016 and 2015, respectively.

Interest earned on employee contributions - 3.00%

Rate of pay increases – A 2.60% increase in 2015, a 3.00% in 2016 and a 3.30% increase for 2017 and beyond.

Mortality basis - Mortality tables as prescribed by the Internal Revenue Code (the Code) using static tables with separate mortality rates for annuitants and non-annuitants.

Average retirement age - Ranging from 5% at age 58 to 100% at age 70.

WEST VALLEY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2. Significant Accounting Policies (Continued)

Actuarial present value of accumulated plan benefits (continued):

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2016 and 2015. Had valuations been performed as of December 31, there would be no material differences.

Payment of benefits:

Benefit payments are recorded when paid.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Subsequent events:

Subsequent events have been evaluated through October 11, 2017, which is the date the financial statements were available to be issued.

Note 3. Plan Termination

In the event that the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its regulations, generally to provide the following benefits in the order indicated:

- a) Benefits attributable to employee contributions, taking into account those paid out before termination.
- b) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- c) Other vested benefits insured by the PBGC, a U.S. government agency, up to the applicable limitations.

WEST VALLEY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 3. Plan Termination (Continued)

- d) All other vested benefits (that is, vested benefits not insured by the PBGC).
- e) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

Note 4. Information Certified by the Plan's Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. State Street Bank and Trust Co. (State Street) certified to the completeness and accuracy of the fair value of investments in common trust funds of \$87,974,263 and \$83,726,384 and interest bearing cash of \$412,949 and \$418,721 at December 31, 2016 and 2015, respectively. State Street has also certified to the completeness and accuracy of net appreciation (depreciation) of \$6,825,501 and \$(1,652,068) for the years ended December 31, 2016 and 2015, and interest income of \$1,181 and \$129 for the years ended December 31, 2016 and 2015, respectively.

Note 5. Fair Value Measurements

Accounting principles generally accepted in the United States of America establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

WEST VALLEY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 5. Fair Value Measurements (Continued)

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Common trust funds: Valued at the (NAV) of units of the common trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Plan transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust fund, the fund manager reserves the right to temporarily delay withdrawal from the trust funds in order to ensure that securities liquidations will be carried out in an orderly business manner.

Interest bearing cash: Valued at the daily closing price as reported by the fund. The fund held by the Plan generally transacts at a stable \$1.00 unit price representing their estimated fair value. On a daily basis the fund's unit price is determined by the fund based on the amortized cost of the fund's underlying investments.

The following tables set forth by type and level, within the fair value hierarchy, the Plan's investments at fair value at December 31, 2016 and 2015. The classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	2016			
	Level 1	Level 2	Level 3	Total
Interest bearing cash	\$ -	\$ 412,949	\$ -	\$ 412,949
Common trust funds measured at NAV ^(a)				87,974,263
Investments at fair value				\$ 88,387,212

WEST VALLEY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 5. Fair Value Measurements (Continued)

	2015			
	Level 1	Level 2	Level 3	Total
Interest bearing cash	\$ -	\$ 418,721	\$ -	\$ 418,721
Common trust funds measured at NAV ^(a)				83,726,384
Investments at fair value				\$ 84,145,105

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

There were no unfunded commitments related to any investments held by the Plan at December 31, 2016 and 2015.

Note 6. Actuarial Present Value of Accumulated Plan Benefits

A summary of the actuarial present value of accumulated plan benefits as of December 31, 2016 and 2015 follows:

WEST VALLEY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 6. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The changes in the actuarial present value of accumulated plan benefits for the years ended December 31, 2016 and 2015 is summarized as follows:

	Unaudited 2016	2015
Actuarial present value of accumulated plan benefits at beginning of year	\$ 102,511,156	\$ 97,877,539
Increase (decrease) attributable to:		
Interest	5,830,598	5,752,830
Benefits accumulated	1,955,582	1,749,091
Actuarial losses	517,801	6,981
Change in assumptions	(4,994,307)	1,366,794
Benefits paid	(4,351,084)	(4,242,079)
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 101,469,746</u>	<u>\$ 102,511,156</u>

On September 30, 2017, the Company received an actuarial valuation report for the year ended December 31, 2016. The information has not been audited and is presented for informational purposes only.

The change in assumptions for the year ended December 31, 2016 is related to updating the mortality tables projection scales MP-2015 to the MP-2016 table; and increasing the discount rate assumption from 5.7% to 6.0%. The change in assumptions for the year ended December 31, 2015 is related to updating the mortality tables to the RP-2015 mortality tables with MP-2015 projection scales; increasing the salary rate assumption from 2.6% for 2015, 3.0% for 2016, and 3.3% for 2017 and beyond, and decreasing the discount rate assumption from 5.9% to 5.7%.

Note 7. Funding Policy

As a condition of participation, active participants are required to contribute 1.5% of their compensation, as defined, to the Plan. Total participant accumulated contributions for active participants, including interest credited at the annual rate of 120% of the federal mid-term interest rate for the first month of the prior Plan year (2.17% for 2016 and 2.10% for 2015), was \$4,494,128 and \$4,421,146 at December 31, 2016 and 2015, respectively. The Company contributes such amounts as are necessary (calculated on an actuarial basis), such that, when combined with participants' contributions, the Plan will have assets sufficient to meet the benefits requirements to be paid to participants and meet the minimum funding requirements of ERISA. The Company made contributions of \$3,028,423 and \$1,977,829 for the 2016 and 2015 Plan year, respectively. The Company's 2016 and 2015 contributions met the minimum requirements of ERISA.

WEST VALLEY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 7. Funding Policy (Continued)

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 8. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan by a letter dated August 23, 2017, that the Plan is qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the Code. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for the years prior to 2013.

Note 9. Party-in-Interest Transactions

A party-in-interest is defined under the Department of Labor's regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, certain participants, and others. The Plan's investments are shares of common trust funds held by State Street. State Street is the trustee as defined by the Plan and, therefore, transactions with these funds qualify as party-in-interest transactions. Fees recorded for trustee services amounted to \$32,808 and \$45,808 for the years ended December 31, 2016 and 2015, respectively. Investment advisory, actuarial services and recordkeeping are provided to the Plan by Mercer Global Investments, Inc., Willis Towers Watson and Milliman, Inc., respectively. As such, transactions with these service providers qualify as party-in-interest transactions. Fees recorded for these service providers amounted to \$240,808 and \$211,267 for the years ended December 31, 2016 and 2015, respectively.

WEST VALLEY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the investment values and the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The plan was originally effective August 31, 1998. It was amended and restated effective January 1, 2015. This valuation accounts for the plan as amended through the valuation date.

Covered Employees	<p>All Eligible Employees may participate in the Plan. Eligible Employees are those employed at non-Excluded Units of the CH2M Hill BWXT West Valley, LLC (formerly West Valley Environmental Services LLC and CH2M Hill B&W West Valley, LLC) who are either non-represented or represented by a collective bargaining unit that has a written agreement with the company regarding participation in the Plan.</p> <p>Effective August 28, 2011, the plan was amended to freeze participation to employees hired or rehired after August 28, 2011, with the exception of "IAM participants" (defined below) covered by collective bargaining who are on Layoff as of August 29, 2011 and are recalled to work within the eligible period. The eligible period of time is defined as follows: For an IAM Participant who has less than two years of Eligibility Service as of the date of the IAM Participant's Layoff, the eligible period of time is twelve months from the date of the Layoff. For an IAM Participant who has two or more years of Eligibility Service as of the date of the IAM Participant's Layoff, the eligible period of time is sixty months from the date of Layoff.</p> <p>"IAM participants" are defined as employees who are covered by the collective bargaining agreement between the Company and the International Association of Machinists and Aerospace Workers, Local 2401.</p>
Participation Date	Date of becoming a covered employee

Definitions

Credited Service	Generally, all service as a contributing participant in the Plan is used to determine pension benefit amounts. Prior to January 1, 1995, all service as an Employee of CBS Corporation was generally included as Credited Service. Service while employed with an Affiliated Entity or Excluded Unit is not included. Service is included while receiving benefits under the Company's salary continuance and extension program or short-term or long-term disability plan or after being determined to be "Totally Disabled", up to a maximum continuous period of two years.
Eligibility Service	All Credited Service, plus service that would be credited except that the Employee elects not to contribute to the Plan or is employed by an Affiliated Entity or an Excluded Unit.
Vesting Date	The date the Participant completes five years of Eligibility Service or reaches Normal Retirement Date.

Plan Compensation Generally, regular compensation paid to a participant inclusive of overtime, bonus and other additional compensation payments, except that only 50% of an annual incentive award payable under any management incentive program is included.

Normal Retirement Date (NRD) The first day of the month following the participant's 65th birthday.

Eligibility for Benefits

Normal Retirement Retirement on Normal Retirement Date

Early Retirement The first of any month following the date the Participant attains:
(i) age 58 with at least 30 years of Eligibility Service or
(ii) age 60 with at least 10 years of Eligibility Service.

Pre-Retirement Death Benefit Death while accruing Eligibility Service and after attainment of Early Retirement Eligibility or any of the following:

<u>Age</u>	<u>Eligibility Service</u>
any	25 years or more
60 or older	10 years or more
50 or older	15 years or more

Vested Death Benefit Death after vesting date and before pre-retirement death benefit eligibility.

Benefits Paid Upon the Following Events

Normal Retirement Generally, a monthly amount equal to the greater of (a) The Career Accumulation Method and (b) the Flat Rate Method.

- (a) Career Accumulation Method: the sum of (i) and (ii)
(i) the monthly amount accumulated to January 1, 1992
(ii) 1/12 of 2% of Compensation for each calendar year commencing on or after January 1, 1992 in which an Employee contributed. A minimum of \$15 per year of Credited Service applied for 1992, 1993, and 1994 regardless of an Employee's election to contribute to the Plan.
- (b) Flat Rate Method: the sum of (i) and (ii)
(i) \$31 for years of Credited Service while contributing to the Plan
(ii) \$13 for years of Credited Service prior to January 1, 1995 in which an Employee was eligible to contribute to the Plan but elected not to contribute.

Early Retirement

Employees Hired after December 31, 1994:

Determined as for Normal Retirement except that benefits are reduced by $\frac{1}{2}$ percent per month that Early Retirement Date precedes Participant's Normal Retirement Date.

Employees Hired before January 1, 1995:

If a Lump Sum form of payment is elected, the Participant will receive the sum of (i) and (ii), as follows:

- (i) A payment equal to the lump sum equivalent of the normal retirement benefit determined as of December 31, 1994. The lump sum equivalent will be calculated assuming benefits begin at Early Retirement Date. Benefits are reduced for early commencement by $\frac{1}{3}$ of 1% for each month that the Early Retirement Date precedes Normal Retirement Date, or, if the Participant has 30 or more years of Eligibility Service, by $\frac{1}{4}$ of 1% for each month that Early Retirement Date precedes the first of the month following the Participant's 60th birthday.
- (ii) An annuity equal to the difference between (a) the normal retirement benefit (based on total Credited Service) determined as of the Participant's Early Retirement Date and reduced by $\frac{1}{2}$ of 1% for each month that Early Retirement Date precedes Normal Retirement Date, and (b) the normal retirement benefit determined as of December 31, 1994, reduced for early commencement as described in (i) above.

If a participant has Eligible Service both prior to January 1, 1995 and after December 31, 1994 and an annuity form of payment is elected, the Participant's benefit is determined as for normal retirement except that benefits are reduced for early commencement by $\frac{1}{3}$ of 1% for each month that the Early Retirement Date precedes Normal Retirement Date, or, if the Participant has 30 or more years of Eligibility Service, by $\frac{1}{4}$ of 1% for each month that Early Retirement Date precedes the first of the month following the Participant's 60th birthday. Further, if the benefit payable on NRD using the Flat Rate Method produces a higher monthly benefit amount, then the unreduced Flat Rate benefit is payable upon Early Retirement.

Early Retirement Supplements

For Employees hired prior to January 1, 1995 who retire early and elect an annuity form of payment, a temporary monthly supplement is payable until age 62 equal to \$10 per year of Credited Service.

Deferred Retirement

An active Participant working beyond Normal Retirement Date may defer retirement after age 65 and continue to accrue benefits until the deferred retirement date.

Vested Termination

The benefit payable to a terminated vested Participant is the greater of the benefit determined as for normal retirement and an annuity that is the actuarial equivalent of the Participant's contributions with interest. A Participant who attains at least 30 years of Eligibility Service may elect to receive benefits beginning at age 58, and a Participant who attains at least 10 years of Eligibility Service may elect to receive benefits beginning at age 60. The benefits will be reduced by $\frac{1}{2}$ of 1% for each month that benefit commencement precedes Normal Retirement Date.

If the lump sum value of the benefit accrued after 12/31/1994 is less than \$10,000, a participant may receive the lump sum value of his entire benefit.
Pension Increases	None.
Plan Participants' Contributions	On and after January 1, 1995, employees must elect to contribute one and one-half percent (1½%) of Compensation in order to receive Credited Service and earn a pension.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.
Benefits not valued	<p>All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions and, based on that review, is not aware of any significant benefits required to be valued that were not.</p> <p>The plan pays small benefits (with a present value up to \$1,000 in a single lump sum payment). Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.</p>

Average age: 62

Participants with deferred benefits are assumed to commence their benefit payments at age 65.

Benefit Commencement Date

- In service death benefit Earliest of:
 - Immediately with 25 years of service
 - Age 50 with 15 years of service
 - Age 60 with 10 years of service
 - Age 65
- Deferred vested benefit Earliest retirement age for active participants who terminate. Age 65 for participants with deferred vested benefits as of the valuation date.
- Disability benefit Earliest retirement age
- Retirement benefit Upon termination of employment

Form of payment

Participants are assumed to elect the normal form except that 25% of active participants are assumed to elect a lump sum payment on benefits accrued through December 31, 1994.

Lump sums were valued using the substitution of annuity form under IRS Regulation §1.430(d)-1(f)(4) without application of generational mortality.

For ASC 960 (plan accounting), lump sums were valued using the September 2015 24-month average three-segment rates without regard to the HATFA corridors.

Percent married	For purposes of valuing the pre-retirement surviving spouse's benefit, 85% of eligible male participants and 65% of eligible female participants are assumed to be married.
Spouse age	Male spouses are assumed to be 3 years older than female spouses.
Covered pay	Compensation assumed paid in the current year beginning on the valuation date is the greater of the actual pay from the prior plan year adjusted by one-half year of the salary increase assumption and the current annual rate of pay.
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year less employee contributions expected to be made to the trust during the plan year, as required by regulations under IRC §430.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings of 5.90% and 6.50% for the 2015 and 2014 plan years respectively, (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)
Benefits Not Valued	<p>All benefits described in the Plan Provisions section of this report were valued. Towers Watson has reviewed the plan provisions and, based on that review, is not aware of any significant benefits required to be valued that were not.</p> <p>The plan pays small benefits (with a present value up to \$1,000 in a single lump sum payment). Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.</p>

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Expected return on assets	We have relied on the plan's investment consultants' estimate of expected return on assets. We understand that this assumption reflects the plan's investment consultants' estimate of future experience for trust asset returns, reflecting the plan's current asset allocation and any expected changes during the current plan year, current market conditions and the expectations for future market conditions.
Rates of increase in compensation	Assumed compensation increases reflect the plan sponsor's current conditions and future expectations. Assumed compensation increases are a combination of assumed future (i) cost-of-living increases (CPI), (ii) productivity increases and (iii) promotional increases. CPI increases of 2.0% per year are consistent with forecasts prepared by Willis Towers Watson Investment Services. Productivity and promotional increases are based on plan sponsor expectations.

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were reviewed as part of the May 2014 experience study (based on actual experience from 2008 to 2012) and remained unchanged from the prior assumption. As noted below, active vested participants who terminate are assumed to commence benefits at their earliest eligible date and receive a 6% per year reduction for benefits commencing before age 65. Because of the lack of substantial early retirement subsidies to terminated vested participants, the timing of benefit commencement does not have a significant impact on the plan's liability.
Retirement	Retirement rates are based on the May 2014 experience study (based on actual experience from 2008 to 2012). Participants are assumed to commence benefits immediately upon retirement. Participants hired after 1994 (about half of current active participants) receive a 6% per year reduction for benefits commencing before age 65. Those hired before

	<p>1995 and electing an annuity receive a 4% per year reduction for benefits commencing before age 65 (or at age 58 with 30 years of eligibility service, a 3% per year reduction prior to age 60). Since the accrued benefits are frozen and because substantial early retirement subsidies only impact some of the participants reaching retirement eligibility, the timing of retirement and benefit commencement has a diminished impact on the plan's liability.</p>
Benefit Commencement Date for Preretirement death benefit	<p>Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value.</p>
Benefit Commencement Date Deferred vested benefit	<p>For active participants who terminate, deferred vested benefits are assumed to commence at earliest retirement age. Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.</p> <p>Deferred vested participants are assumed to begin benefits at age 65 (or current age if later) because the plan's experience is not considered to be credible, but deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.</p>
Form of payment	<p>Participants may elect a lump sum on benefits accrued through December 31, 1994, and 25% of participants are assumed to do so. The election percent is based on average actual past elections for the five years prior to 2012 (rounded to the nearest quartile) for this plan and similar plans that were in the controlled group during a portion of that period.</p> <p>Otherwise, participants are assumed to elect the Joint and 55% Survivor Annuity with 60 payments guaranteed form of benefit which is the normal form for married participants and is an optional form of benefit for single participants. Election of alternate optional forms of benefit is not expected to cause a material change in liability.</p>

Source of Prescribed Methods

Funding methods	<p>The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.</p>

Change in Assumptions and Methods Since Prior Valuation

Change in Assumptions and Methods Since Prior Valuation

- The mortality tables used to determine funding target liability are the 2016 IRS prescribed static tables with separate mortality rates for annuitants and non-annuitants. For the January 1, 2015 valuation, the static tables prescribed for 2015 were used.
- The lump sum mortality assumption was updated to be the static optional combined unisex mortality table for 2016 as prescribed by the Pension Protection Act under IRS Regulation §1.430(d) – 1(f)(4) without application of generational mortality. For the January 1, 2015 valuation, the applicable mortality table for plan years beginning in 2015 was used.
- The funding and lump sum interest rates based on the three segment rates published four months prior to the valuation date were updated from the rates published in September 2014 to September 2015.

For the January 1, 2016 valuation, prior to reflecting the provisions of HATFA, the three segment rates are 1.34% for the first 5 years, 4.03% for years 6 through 20, and 5.06% thereafter, equivalent to a single effective rate of 4.41%.

For the January 1, 2016 valuation, after reflecting the provisions of HATFA, the three segment rates are 4.43% for the first 5 years, 5.91% for years 6 through 20, and 6.65% thereafter, equivalent to a single effective rate of 6.15%.

For the January 1, 2015 valuation, prior to reflecting the provisions of HATFA, the three segment rates are 1.15% for the first 5 years, 4.06% for years 6 through 20, and 5.15% thereafter, equivalent to a single effective rate of 4.48%.

For the January 1, 2015 valuation, after reflecting the provisions of HATFA, the three segment rates are 4.72% for the first 5 years, 6.11% for years 6 through 20, and 6.81% thereafter, equivalent to a single effective rate of 6.34%.

Other than the prescribed changes in the discount rate and mortality, the following other changes in assumptions were made as part of this valuation:

- The expected return on assets used to determine the actuarial value of assets was updated from 6.50% to 5.90% (applicable to 2015 asset return).

Change in
Assumptions and
Methods Since Prior
Valuation

(continued)

Although the methodology for estimating plan related expenses expected to be incurred during the current plan year did not change, the assumed plan-related expenses added to the target normal cost were updated from \$528,000 for 2015 to \$623,000 for 2016.

Changes to ASC 960 (plan accounting) assumptions:

- The discount rate used to determine the ASC 960 present value of accumulated benefits was changed from 5.90% to 5.70% along with change in the expected rate of return on plan assets as of the fiscal year beginning October 1, 2015 under ASC 715-30-35.
- The mortality tables used to determine the ASC 960 present value of accumulated benefits are the RP-2014 mortality tables with experience through 2006 and projected generationally with the MP-2015 projection scale thereafter for healthy lives. For disabled participants the RP-2014 disabled annuitant mortality table with experience through 2006 and projected generationally with the MP-2015 projection scale thereafter were used. For the January 1, 2014 valuation, RP-2014 mortality tables with MP-2014 projection scales were used for both healthy and disabled participants).
- The lump sum interest rates used to determine the ASC 960 present value of accumulated benefits were updated to the September 2015 24-month average three-segment rates without regard to the HATFA corridors. For the January 1, 2015 valuation, the September 2014 three-segment rates without reflecting the HATFA corridors were used.
