INDEPENDENT AUDITORS' REPORT

Plan Administrator and Administrative Committee
Sanoh America, Inc. Pension Plan for Hourly Employees

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Sanoh America, Inc. Pension Plan for Hourly Employees (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note E, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that Principal Life Insurance Company holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2016 and 2015, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter—Supplemental Schedules

The supplemental schedules listed in the table of contents as of and for the year ended December 31, 2016, are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SANOH AMERICA, INC. PENSION PLAN FOR HOURLY EMPLOYEES

Notes to the Financial Statements

December 31, 2016 and 2015

A - DESCRIPTION OF PLAN

The following description of the Sanoh America, Inc. Pension Plan for Hourly Employees (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General: The Plan, effective on January 1, 2003, is a defined benefit pension plan sponsored by Sanoh America, Inc. (the "Company" or "Plan Sponsor"). All Sanoh America, Inc. hourly employees are eligible to participate upon the later of age 21 or upon completion of one year of continuous service. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* ("ERISA"). Principal Life Insurance Company (Principal) serves as the custodian, recordkeeper and actuary of the Plan.

Funding Policy: The Company has agreed to voluntarily contribute such additional amounts that are necessary to provide assets sufficient to meet the benefits to be paid to Plan members. The Company's funding policy is to make contributions to the Plan in amounts as determined by the Plan's independent actuary. The Plan has met the minimum funding requirements established by the federal government.

Pension Benefits: Participants are eligible for monthly benefit payments upon reaching age 65. The normal monthly benefit payments are determined by multiplication of a benefit rate by the total number of years of credited service. A participant is 100% vested after five years of service. Prior to that time, the participant is not vested.

Employees are eligible to receive early retirement benefits between the ages of 55 and 65 upon the completion of 10 years of continuous service. Early retirement benefits are computed in a manner similar to normal retirement at age 65, except that they are reduced by certain factors, as outlined in the Plan document, for each month that the early retirement date precedes the normal retirement date. Accrued benefits are payable as an annuity over the participant's lifetime or as a survivorship life annuity with survivorship percentages of 50, 75 or 100.

Death and Disability Benefit: A married employee who is a vested participant is automatically covered by the pre-retirement death benefit option, which will provide a benefit for the surviving spouse upon death prior to retirement, unless coverage is waived. The benefit would be equal to the benefit the spouse would have received had the employee retired on the date of death, computed under the normal form of payment and subject to certain limitations.

An employee, who has attained age 50, has completed 10 years of continuous service and who becomes totally and permanently disabled is eligible to receive a disability retirement benefit. The amount of the benefit is computed, as it would be for normal retirement based on the employee's years of credited service as of the date of disability reduced by the amount of company provided public disability benefit.

SANOH AMERICA, INC. PENSION PLAN FOR HOURLY EMPLOYEES
Notes to the Financial Statements
December 31, 2016 and 2015

A - DESCRIPTION OF PLAN (continued)

Vesting: Upon completion of five years of vesting service but prior to becoming eligible for a normal retirement benefit, a participant is entitled to a deferred vested termination benefit equal to a percentage of their accrued retirement benefit. Eligible employees are fully vested upon completion of five years of vesting service.

B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities at the date of the financial statements, and the actuarial present value of accumulated plan benefits at the benefit information dates. Actual results could differ from those estimates.

Investments and Income Recognition: The Plan's investments are presented at fair value. The Plan's investments consist of pooled separate accounts (PSA) which are sponsored by Principal. Principal determines the value of each pooled separate account at the close of each business day based on market value and is expressed in dollars. The unit value is the dollar value of one unit and is determined by dividing the value of the entire account by the total number of units in the account.

Purchases of sales and securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefit payments to participants are recorded upon distribution.

Administrative Expenses: Plan administrative service expenses of the Plan are paid by the Plan. The Plan Sponsor provides accounting and other administrative services to the Plan at no charge.

Financial Statement Disclosures: Beginning in 2015, the Plan adopted the simplification for benefit plan financial reporting which: 1) simplifies the disclosures for investments measured using the net asset value per share; 2) simplifies the level of disaggregation for investments measured using fair value; and 3) no longer requires disclosure of individual investments with a value equal to or greater than 5% of net assets available for benefits. The change was applied retrospectively.

Subsequent events: The Plan has evaluated all subsequent events through October 13, 2017, the date the financial statements were available to be issued.

Notes to the Financial Statements

December 31, 2016 and 2015

C - ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions for service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. Normal monthly benefit payments are determined by multiplication of a benefit rate by the total number of years of credited service preceding the valuation date. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuary report of the present value of accumulated plan benefits and the change in the present value of accumulated plan benefits as of January 1, 2016 and 2015 and the years then ended were prepared by the Principal Financial Group. Actuarial valuation assumptions and methods used in the January 1, 2016 and 2015, are updated each year for assumption and method changes as prescribed by law such as changes in the maximum compensation and benefit limits and the prescribed mortality table. The IRS Prescribed Mortality - Static Annuitant, male and female table was used with the mortality assumption being updated to the Principal Interim Mortality Recommendation with 10-year convergence. The RP-2014 Disabled Mortality Table without an improvement scale was assumed after a participant becomes disabled.

The actuarial present value of accumulated plan benefits as of January 1, 2016 and 2015 is as follows:

	2016	2015
Vested Benefits:		
Participants in pay status	\$ 669,660	\$ 542,804

C - ACCUMULATED PLAN BENEFITS (continued)

The changes in the actuarial present value of the Plan's accumulated plan benefits for the years ended January 1, 2016 and 2015, are as follows:

	2016	2015
Actuarial present value of accumulated plan benefits at January 1, 2015 and 2014	\$ 3,883,137	\$ 3,138,256
Increase (decrease) during the year attributable to:		
Interest due to the decrease in the discount period	278,948	232,741
Benefits paid	(72,421)	(71,373)
Benefits accumulated and plan experience	401,028	339,142
Change in assumptions	<u>169,300</u>	<u>244,371</u>
Actuarial present value of accumulated plan benefits at January 1, 2016 and 2015	<u>\$ 4,659,992</u>	<u>\$ 3,883,137</u>

The significant actuarial assumptions used in the January 1, 2016 and 2015 valuation were

Rate of return

on investments: 7.75% per annum at January 1, 2016 and 2015

Mortality: IRS Prescribed Mortality-Static Annuitant, Male and Female

Expenses: An estimate of administrative expenses is included in normal cost

Retirement age: Age 65 is normal retirement age as defined in Plan provisions

Asset valuation: Asset valuation method, which allows for smoothing of gains/losses over multiple years

Discount rate: 7.00% and 7.25% per annum at January 1, 2016 and 2015, respectively

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

D - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations discussed below.
3. Vested benefits not insured by the PBGC.
4. All nonvested benefits.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefits obligations and may depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

E - INFORMATION CERTIFIED BY THE CUSTODIAN

Investments as certified by Principal held as of December 31, 2016 and 2015, and net investment income for the years then ended are as follows:

	2016	2015
Investments:		
Pooled separate accounts, at estimated fair value	<u>\$ 5,022,755</u>	<u>\$ 4,468,857</u>
Net investment income:		
Net appreciation in fair value of investments	<u>\$ 221,749</u>	<u>\$ 39,774</u>

In addition, the following unaudited information is also certified by the trustee:

a) Supplemental Schedules: All investment balances and information included in the schedules.

F - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2** Inputs to the valuation methodology include
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

F - FAIR VALUE MEASUREMENTS (continued)

The following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation methodologies used at December 31, 2016 and 2015. The Plan has no liabilities measured at fair value.

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. The Plan has no Level 1 investments. The pooled separate accounts are valued at net asset value (NAV) of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liability. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The new accounting standards allow the practical expedient.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets at Fair Value as of December 31, 2016				
Investments measured at NAV	\$ -	\$ -	\$ -	\$ 5,022,755
Assets at Fair Value as of December 31, 2015				
Investments measured at NAV	\$ -	\$ -	\$ -	\$ 4,468,857

The following table summarizes investments for which fair value is measured using the net asset value (NAVs) per share practical expedient as of December 31, 2016 and 2015, respectively:

	<u>Fair Value</u>	<u>Unfunded Commitment</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Redemption Notice Period</u>

G - RISKS AND UNCERTAINTIES

The unallocated insurance contracts (pooled separate accounts) utilize various investment instruments including U.S. government securities, corporate debt instruments, limited partnerships, joint ventures, common collective trusts and corporate stocks. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Plan's financial statements.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

H - PARTY-IN-INTEREST TRANSACTIONS

At December 31, 2016 and 2015, Plan investments were held in funds managed by Principal. Principal is the custodian and recordkeeper. Administrative expenses paid to Principal amounted to \$41,247 and \$39,207 for 2016 and 2015, respectively. Certain administrative functions are performed by officers and employees of the Company (who may also be a participant in the Plan) at no cost to the Plan.

These transactions are not deemed prohibited party-in-interest transactions because they are covered by the statutory administrative exemptions from the Internal Revenue Code's and ERISA's rules on prohibited transactions.

I - FEDERAL INCOME TAX STATUS

The Plan Sponsor adopted the Plan on January 1, 2003. The Internal Revenue Service has determined and informed the Company by a letter dated January 6, 2006, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been restated since receiving the initial determination letter and received an additional determination letter dated January 27, 2016. The determination letter expires on January 31, 2020. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirement of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan administrator believes it is no longer subject to income tax examinations for the years prior to 2013.

Expected Expense	The expected expense included in Target Normal Cost is an estimate based on prior year expenses paid from plan assets. This is the best estimate available of upcoming year's expenses.

Withdrawal	2003 Society of Actuaries Small Plan Age Table, multiplied by 1.25. We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.25 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.
Form of Benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement ages. This assumption is based on the results of recent experience analysis and anticipated future experience.
Methods Prescribed by Law	
Liability Measure	Funding target is the present value of the benefits accrued on the valuation date. Target Normal Cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Benefit Accrual	All benefits paid at decrement are considered in total and then split to determine how much is included in Funding Target. The following pieces are included in the Funding Target. • The portion based on the plan's definition of accrued benefit. • The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement. The benefits included in Target Normal Cost are calculated similarly, by splitting the benefits. The Target Normal Cost is based on the difference between the amount included in Funding Target and an amount calculated assuming the participant accrues service through the end of the plan year.
Methods Selected by Plan Sponsor	
Asset Method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the Maximum Allowable Rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

	When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.															
Segment Rates	24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.															
PBGC Premium Basis	Variable Rate Premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for Annual Cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2009 plan year and this method must be used for five years before a change can be made.															
Methods Elected by Actuary																
Retirees	Assets and liabilities for current and future retirees are included.															
Vested Benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant’s vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the Survivor Annuity Death Benefit and post retirement death benefits for non-retired participants except as noted in the Plan Provisions.

Interest Rate Used to Value Liabilities	7.00%			
	The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. See Long-Term Capital Market Assumptions 2014 .

Schedule SB, Line 2a - Explanation of Assets

SANOH AMERICA, INC. PENSION PLAN FOR HOURLY EMPLOYEES

EIN 38-2694169 Plan No. 002

The market value of assets on line 2a does not equal assets shown on Schedule H, Schedule I or Form 5500-SF. Schedule H, Schedule I and Form 5500-SF use the full value of contributions received after plan year end. Line 2a includes the value of \$155,732 contributions received after the plan year end with a discounted value of \$153,770.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
 SANOH AMERICA, INC. PENSION PLAN FOR HOURLY EMPLOYEES
 EIN 38-2694169 Plan No. 002

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

(1) Age	(2) Expected Active Headcount	(3) Retirement Rate	(4) Expected Retirements (2)*(3)	(5) Weighted Age (1)*(4)

Schedule SB, Line 25 – Change in Method
SANOH AMERICA, INC. PENSION PLAN FOR HOURLY EMPLOYEES
EIN 38-2694169 Plan No. 002

The Employee Retirement Income Security Act of 1974, Section 103(c)(4), requires the plan administrator to furnish an explanation of a change in the enrolled actuary as part of the annual report. There was a change in enrolled actuaries since last year. The actuarial valuation work continues to be done by Principal Life Insurance Company. However, the individual involved with this plan as the enrolled actuary has changed due to a change in the plan assignment among enrolled actuaries at Principal Life Insurance Company.
