Vrable Healthcare, Inc. 401(k) Savings Plan

Notes to the Financial Statements
For the Years Ended December 31, 2016 and 2015

Note A - Description of Plan

The following description of the Vrable Healthcare, Inc. 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all non-union employees of Vrable Healthcare, Inc. (the Company) who have completed one year and attained age 21. The entry date of the Plan is semiannual on the first day of the first and seventh months of the Plan year. Employees of Vrable Healthcare, Inc. and related entities are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Please refer to the Company's Plan document for more information.

Contributions

Each year, participants may contribute up to the maximum allowed by law of pretax annual compensation as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions in accordance with Internal Revenue Code Section 414(v). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make matching or additional contributions on a discretionary basis as determined by management. For the years ended December 31, 2016 and 2015 the employer elected not to make a matching contribution. Contributions are subject to certain limits. Contributions are reported on a cash basis.

Participant Accounts

Each participant's account is credited with the participant's own contribution and an allocation of the Company's contribution and plan earnings. Allocations are based on participant earnings, participant contributions or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary and rollover contributions plus actual earnings thereon. Vesting in the remainder of their account plus earnings thereon is based on years of credited service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants

The Plan provides that participants can borrow from the Plan. These loans are secured by 50% of the vested balance in the participant's account and bear interest at rates which are commensurate with rates available for similar loans from commercial lending institutions and are determined periodically by the administrator. These loans are limited to the lesser of \$50,000 or 50% of the participant's vested account balance with a minimum of \$500. Loan principal and interest payments are made in accordance with the note's amortization schedule and are made via payroll withholding.

Forfeitures

Forfeitures of terminated participants' non-vested account balances may first be used to offset plan expenses. Any remaining forfeitures may be used to reduce the employer's matching contribution. As of December 31, 2016 and 2015, forfeited amounts of \$0 and \$174 were available, respectively. During 2016 and 2015, \$684 and \$818 of forfeitures were used to pay administrative expenses, respectively.

Payment of Benefits

On termination of service due to death, disability, retirement, or due to other reasons, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The Plan allows required minimum distributions to be paid in installments only if the participant is required to receive lifetime required minimum distributions.

Notes to the Financial Statements For the Years Ended December 31, 2016 and 2015

Note A - Description of Plan (continued)

Investment Options

Participants may direct investments of their account into a range of investment options under the terms of the Plan. Participants can change the investment of their funds on a daily basis.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the modified cash basis. The modified cash basis differs from generally accepted accounting principles in that it recognizes contribution income and expenses when received or paid instead of when earned or incurred. The effects of this difference have not been determined.

Accounting Changes

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using asset value per share as a practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with early adoption permitted, and is to be applied retrospectively. The Plan has elected to adopt early ASU 2015-07 for the years ended December 31, 2016 and 2015. Plan management does not believe the adoption of the ASU had a material impact on the financial statements.

Also, for the Plan years ended December 31, 2016 and 2015, the Plan changed its method of accounting and reporting to comply with the provisions of ASU 2015-12 issued by the Financial Accounting Standards Board. ASU 2015-12 eliminates the requirements to disclose individual investments that represent 5 percent or more of the net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. ASU 2015-12 also simplifies the level of disaggregation of investments that are measured using fair value. The Plan will continue to disaggregate investments that are measured using fair value by general type, however, the Plan no longer is required to also disaggregate by nature characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of Plan asset.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2016 and 2015.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Notes to the Financial Statements
For the Years Ended December 31, 2016 and 2015

Note B - Summary of Significant Accounting Policies (continued)

Administrative Expenses

All expenses of maintaining the Plan are paid by the Plan.

Subsequent Events

Subsequent events were evaluated through October 9, 2017, which is the date the financial statements were available to be issued.

Note C - Unaudited Information Prepared and Certified by Custodian

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete by the custodian.

	December 31, 2016	December 31, 2015
Investments, at fair value:		
Mutual funds	\$ 994,209	\$ 868,079
Notes receivable from participants	28,539	36,696
Dividend income	25,573	38,315
Investment income	33,310	(39,589)
Interest income on notes receivable from participants	1,394	1,459

Note D - Fair Value Measurements

FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are delivered principally from or corroborated by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Vrable Healthcare, Inc. 401(k) Savings Plan

Notes to the Financial Statements
For the Years Ended December 31, 2016 and 2015

Note D - Fair Value Measurements (continued)

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used to maximize the use of observable inputs and minimize the use of unobservable measurements.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding method described may produce fair value calculations that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015.

Fair Value Measurements at Reporting Date Using:				
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
<u>December 31, 2016</u>				
Mutual Funds	\$ 994,209	\$ 994,209	\$ -	\$ -
<u>December 31, 2015</u>				
Mutual Funds	\$ 868,079	\$ 868,079	\$ -	\$ -
