NOTES TO FINANCIAL STATEMENTS

(1) DESCRIPTION OF THE PLAN

The following description of First Choice Medical Supply, LLC 401(k) Plan (hereafter referred to as the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of First Choice Medical Supply, LLC (hereafter referred to as the "Company") who are eighteen years of age and have completed 60 days of service. An employee may begin participation in the Plan on the first day of the month following the date on which the employee meets the requirements for eligibility. The Company's Board of Managers and the Plan Administrator control and manage the operation and administration of the Plan. Ascensus Trust Company (formerly Frontier Trust Company) served as the Trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company is a Richland, Mississippi, based distributor of medical supplies and equipment to the long-term care, home healthcare, and hospice industries throughout the United States of America. The Company operates warehouses and distribution centers in Richland, Mississippi; Mechanicsburg, Pennsylvania; Garland, Texas; Jacksonville, Florida; Olathe, Kansas; Phoenix, Arizona; Gresham, Oregon; Fresno, California; and Lexington, Kentucky.

Contributions

Participants may contribute up to 15 percent of their pre-tax annual salary, limited to \$18,000 for 2016 and 2015, as adjusted annually by the Secretary of the Treasury. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 and older can elect to make additional catch-up deferrals (limited to \$6,000 for 2016 and 2015). The Company contributes at the option of the Company's Board of Directors.

The Plan document allows participants to designate some or all of their deferral contribution as an after-tax Roth 401(k) deferral contribution. Once the election is made to designate amounts as Roth 401(k) deferral contributions, it is irrevocable.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and plan earnings. Allocations are based on participant earnings or account balances, as defined by the Plan document. Forfeited balances of terminated participants' non-vested accounts are used to reduce employer contributions for the year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(1) DESCRIPTION OF THE PLAN - Continued

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts, plus actual earnings thereon, is as follows:

<u>Completed Years of Service</u>	<u>Percentage</u>
Less than two years	0%
Two years	20%
Three years	40%
Four years	60%
Five years	80%
Six or more years	100%

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in any investment option allowed by the Plan. Participants may change their investment options daily.

Participant Loans

Loans are not permitted under the Plan.

Payment of Benefits

Upon termination of service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, to include participant rollover contributions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Forfeited Accounts

At December 31, 2016 and 2015, forfeited non-vested accounts totaled \$-0- and \$287, respectively. These accounts can be used to reduce future employer contributions or Plan administration expenses. As a result, in 2016 and 2015, forfeited amounts applied to Plan administration expenses were \$287 and \$2,393, respectively.

(1) DESCRIPTION OF THE PLAN - Continued

Administrative Expenses

During 2016 and 2015, administrative fees were incurred and paid by the Plan.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

New Accounting Pronouncements

The Plan adopted new accounting guidance and implemented the provisions of Financial Accounting Standards Board (FASB) Account Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965); (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures*. This accounting standard update eliminates the following two disclosures for investments: (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Employee and Employer Contributions

Employee deferrals and respective employer matching contributions are recognized as additions to net assets on the date on which such employee deferrals would otherwise have been payable to the participant. Employee rollover contributions are recognized as additions to net assets on the date transferred from other qualified plans. Employer's discretionary contributions are recognized as additions to net assets upon formal approval by the Plan Sponsor's Board of Directors.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Any unrealized appreciation or depreciation in fair value of investments for the year is reflected in the statement of changes in net assets available for benefits. See Note 4 for a discussion of fair value measurements.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Investment Valuation and Income Recognition - continued

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Risks and Uncertainties

The Plan invests primarily in various types of mutual fund investments. Mutual funds are exposed to various risks, such as interest rate and market risks. Due to the level of risk associated with certain mutual funds, it is at least reasonably possible that changes in the values of these mutual fund investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan invests in mutual funds which may include investments in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Subsequent Events

Subsequent events were evaluated by the Plan through October 3, 2017, which is the date the financial statements were available to be issued.

(3) INVESTMENTS CERTIFIED BY THE PLAN'S TRUSTEE

Pursuant to the provisions of 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan's independent accountants did not perform any auditing procedures with respect to the information certified by Ascensus Trust Company (formerly Frontier Trust Company), the Trustee, except for comparing the information to the related financial statements and supplemental schedule. All information included in the financial statements and the accompanying notes and supplemental schedule relating to investments, appreciation and depreciation of investments, and dividends was obtained from the Trustees' certifications and is unaudited.

(4) FAIR VALUE MEASUREMENTS

Accounting Standards Codification Topic 820, *Fair Value Measurements*, (formerly FASB Statement No. 157) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods may produce a fair value calculation that may not be indicative of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(4) FAIR VALUE MEASUREMENTS - Continued

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015.

Assets at Fair Value as of December 31, 2016

(5) INCOME TAX STATUS

Effective October 1, 2013, the Plan adopted a non-standardized form of a prototype plan sponsored by Ascensus Trust Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan recognizes interest and penalties, if any, related to unrecognized tax benefits as a component of income tax expense. The Plan is subject to routine audits by taxing jurisdictions for all periods since inception; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for the years prior to 2013.

(6) PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions for fiscal years 2016 and 2015 were investment administrative fees payable to the Trustee of \$17,246 and \$16,908, respectively. These fees were based on customary and reasonable rates for such services.

(7) RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

A reconciliation of the financial statements to U. S. Form 5500 for 2016 and 2015 follows:

	<u>2016</u>	<u>2015</u>

NOTES TO FINANCIAL STATEMENTS

(1) DESCRIPTION OF THE PLAN

The following description of First Choice Medical Supply, LLC 401(k) Plan (hereafter referred to as the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of First Choice Medical Supply, LLC (hereafter referred to as the "Company") who are eighteen years of age and have completed 60 days of service. An employee may begin participation in the Plan on the first day of the month following the date on which the employee meets the requirements for eligibility. The Company's Board of Managers and the Plan Administrator control and manage the operation and administration of the Plan. Ascensus Trust Company (formerly Frontier Trust Company) served as the Trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company is a Richland, Mississippi, based distributor of medical supplies and equipment to the long-term care, home healthcare, and hospice industries throughout the United States of America. The Company operates warehouses and distribution centers in Richland, Mississippi; Mechanicsburg, Pennsylvania; Garland, Texas; Jacksonville, Florida; Olathe, Kansas; Phoenix, Arizona; Gresham, Oregon; Fresno, California; and Lexington, Kentucky.

Contributions

Participants may contribute up to 15 percent of their pre-tax annual salary, limited to \$18,000 for 2016 and 2015, as adjusted annually by the Secretary of the Treasury. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 and older can elect to make additional catch-up deferrals (limited to \$6,000 for 2016 and 2015). The Company contributes at the option of the Company's Board of Directors.

The Plan document allows participants to designate some or all of their deferral contribution as an after-tax Roth 401(k) deferral contribution. Once the election is made to designate amounts as Roth 401(k) deferral contributions, it is irrevocable.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and plan earnings. Allocations are based on participant earnings or account balances, as defined by the Plan document. Forfeited balances of terminated participants' non-vested accounts are used to reduce employer contributions for the year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(1) DESCRIPTION OF THE PLAN - Continued

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts, plus actual earnings thereon, is as follows:

<u>Completed Years of Service</u>	<u>Percentage</u>
Less than two years	0%
Two years	20%
Three years	40%
Four years	60%
Five years	80%
Six or more years	100%

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in any investment option allowed by the Plan. Participants may change their investment options daily.

Participant Loans

Loans are not permitted under the Plan.

Payment of Benefits

Upon termination of service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, to include participant rollover contributions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Forfeited Accounts

At December 31, 2016 and 2015, forfeited non-vested accounts totaled \$-0- and \$287, respectively. These accounts can be used to reduce future employer contributions or Plan administration expenses. As a result, in 2016 and 2015, forfeited amounts applied to Plan administration expenses were \$287 and \$2,393, respectively.

(1) DESCRIPTION OF THE PLAN - Continued

Administrative Expenses

During 2016 and 2015, administrative fees were incurred and paid by the Plan.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

New Accounting Pronouncements

The Plan adopted new accounting guidance and implemented the provisions of Financial Accounting Standards Board (FASB) Account Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965); (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures*. This accounting standard update eliminates the following two disclosures for investments: (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Employee and Employer Contributions

Employee deferrals and respective employer matching contributions are recognized as additions to net assets on the date on which such employee deferrals would otherwise have been payable to the participant. Employee rollover contributions are recognized as additions to net assets on the date transferred from other qualified plans. Employer's discretionary contributions are recognized as additions to net assets upon formal approval by the Plan Sponsor's Board of Directors.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Any unrealized appreciation or depreciation in fair value of investments for the year is reflected in the statement of changes in net assets available for benefits. See Note 4 for a discussion of fair value measurements.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Investment Valuation and Income Recognition - continued

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Risks and Uncertainties

The Plan invests primarily in various types of mutual fund investments. Mutual funds are exposed to various risks, such as interest rate and market risks. Due to the level of risk associated with certain mutual funds, it is at least reasonably possible that changes in the values of these mutual fund investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan invests in mutual funds which may include investments in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Subsequent Events

Subsequent events were evaluated by the Plan through October 3, 2017, which is the date the financial statements were available to be issued.

(3) INVESTMENTS CERTIFIED BY THE PLAN'S TRUSTEE

Pursuant to the provisions of 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan's independent accountants did not perform any auditing procedures with respect to the information certified by Ascensus Trust Company (formerly Frontier Trust Company), the Trustee, except for comparing the information to the related financial statements and supplemental schedule. All information included in the financial statements and the accompanying notes and supplemental schedule relating to investments, appreciation and depreciation of investments, and dividends was obtained from the Trustees' certifications and is unaudited.

(4) FAIR VALUE MEASUREMENTS

Accounting Standards Codification Topic 820, *Fair Value Measurements*, (formerly FASB Statement No. 157) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods may produce a fair value calculation that may not be indicative of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(4) FAIR VALUE MEASUREMENTS - Continued

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015.

Assets at Fair Value as of December 31, 2016

(5) INCOME TAX STATUS

Effective October 1, 2013, the Plan adopted a non-standardized form of a prototype plan sponsored by Ascensus Trust Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan recognizes interest and penalties, if any, related to unrecognized tax benefits as a component of income tax expense. The Plan is subject to routine audits by taxing jurisdictions for all periods since inception; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for the years prior to 2013.

(6) PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions for fiscal years 2016 and 2015 were investment administrative fees payable to the Trustee of \$17,246 and \$16,908, respectively. These fees were based on customary and reasonable rates for such services.
