Note 1 - Description of Plan

The following description of the Alliance Family of Companies Retirement Plan (the "Plan") provides only general information. Therefore, participants should refer to the Plan's prototype plan document and related adoption agreement for a more complete description of the Plan's provisions.

General

The Plan was established January 1, 2014, and is a defined contribution plan covering all employees of Respiratory Sleep Solutions and any participating Affiliates (the "Plan Sponsor" or "Employer"). The Plan is designed to comply with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code (IRC). In addition, the financial statements have been prepared in compliance with accounting principles generally accepted in the United States of America (US GAAP) and with ERISA.

Eligibility

All employees of the Plan Sponsor who have completed one month of service are eligible to participate in the Plan. Employees receive credit for one month of service for any month in which they complete one hour of service for which they are paid or entitled to payment.

Plan administration

The Plan Sponsor is responsible for the administration and operation of the Plan. Reliance Trust Company serves as the Plan's trustee and is responsible for the custody and management of the Plan's assets. ADP, Inc. (ADP) provides record keeping and administrative services to the Plan and is responsible for maintaining participant accounts and transactions related to participant initiated activity.

Contributions

Participants may elect to contribute from 1% up to 80% of their eligible compensation, deferred on a pre-tax basis or on an after-tax basis as a Roth elective deferral. Unless participants affirmatively elect otherwise, the Plan automatically withholds 5% of their eligible compensation from their paycheck, and contributes that amount to the plan as a pre-tax elective deferral. For 2016, the maximum allowable before tax contribution under the IRC rules was $18,000. Participants who have attained the age of 50 before the close of the Plan year may make an additional pre-tax catch-up contribution of up to $6,000. Additionally, the Plan Sponsor makes matching contributions to participants equal to 50% of elective deferrals, up to 5%.

Rollover contributions, representing distributions to a participant from other qualified defined benefit or defined contribution plans are permitted by the Plan.

Participant accounts

Participant accounts are credited with pre-tax and after-tax elective deferrals, rollovers, and related matching contributions from the Employer. Investment earnings or losses are allocated to participant's accounts based upon the individual participant's pro-rata mix of investments or the net asset value of the funds in which the participant invests. The benefit to which the participant is entitled is limited to the vested amount of the participant's individual account.

Note 1 - Description of Plan - (Continued)

Vesting
Employees are immediately vested in elective deferrals, rollover contributions, and qualified non-elective contributions plus actual earnings, thereon. Participants vest in matching contributions at the rate of 20% for each year of service and are 100% vested after five years.

Payment of benefits
Upon normal retirement age, death, disability, or termination, participant benefits are payable in a lump-sum amount equal to 100% of a participant's vested account balance. Participants meeting certain requirements may also take hardship withdrawals on the balance of their account related to their elective deferral contributions only. Under the Plan, participants taking hardship withdrawals are not able to make elective deferral contributions for a period of six months after taking such a withdrawal. Participants with vested account balances greater than $5,000 may defer their distributions to a later date. Participant account balances less than $5,000, upon termination, may be rolled over to an Individual Retirement Account or, if less than $1,000, paid directly to the participant in a lump sum.

Forfeitures
Participants who terminate employment prior to being fully vested in matching contributions forfeit non-vested amounts. Amounts which are forfeited will be used to reduce employer matching contributions or pay certain Plan expenses. The Plan held $33,490 and $1,250 in forfeitures as of June 30, 2016 and 2015, respectively. During the year ended June 30, 2016, the Plan used $8,989 of forfeitures to reduce employer matching contributions.

Administrative expenses
Administrative expenses may be paid by the Plan Sponsor or from the Plan, or both. Transaction fees for certain participant initiated activity are charged to the specific account of the participant initiating any such transaction.

Investment options
Participants may direct the investment of contributions in their account into various investment options offered under the Plan, primarily mutual funds and common collective trust funds (CCTs).

Notes receivable from participants
Notes receivable from participants are loans made to participants from their accounts at their request. These loans are subject to certain statutory and Plan limitations on principal and repayment provisions. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Participants are allowed one loan outstanding at any time so long as the loan outstanding does not exceed 50% of their vested balance at the time of loan origination. Loan terms range from 1-5 years or, if for the purchase of a primary residence, a period not to exceed 30 years. Individual loans are secured by the balance in the participant's account and bear interest at a rate of Prime plus 2% (effective rate of 5.5% at June 30, 2016), which is commensurate with the prevailing market rate as determined by the plan administrator.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting
The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with US GAAP.

Use of estimates
The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Risks and uncertainties
The Plan invests in various investment securities which are exposed to various risks such as interest rate fluctuations, liquidity risk, credit availability and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and amounts reported in the financial statements.

Investment valuation and income recognition
The Plan's investment in mutual funds is stated at fair value as determined by open market trading. Investment in CCTs is stated at net asset value (NAV) as a practical expedient to fair value as determined by the fund issuer. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the gains and losses on investments purchased and sold during the year.

Contributions and Receivables
Contributions from participants are recorded based on the date the contributions have been separated from a participant's pay by the Employer, which is the pay date. The Plan records receivables for participants' contributions based upon the contributions recognized, less amounts received by the Plan as of the last day of the Plan year. As of December 31, 2016 and 2015, there were no receivables due from participants.

Employer matching contributions are recorded in the year they are earned and to coincide with the year in which the Employer records the contribution in its general ledger and takes the tax deduction for the contribution. The Plan records receivables for employer contributions based upon the contributions recognized, less amounts received by the Plan as of the last day of the Plan year. As of December 31, 2016 and 2015, there were no receivables due from the Employer.

Contributions representing participant rollovers from other qualified defined benefit or defined contribution plans are recorded when received.

Administrative expenses
Administration expenses by the Plan are recorded when incurred. Accruals for Plan expenses not related to benefit payments are recorded when due.

Note 2 - Summary of Significant Accounting Policies - (Continued)

Notes receivable from participants
Notes receivable from participants are recorded at the original loan principal balance, plus accrued interest, less principal repayments. Delinquent participant notes receivable are recorded as a distribution based upon the provisions of the Plan.

Excess contributions payable
Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

Benefit Payments
Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid.

Note 3 - Fair Value Measurements

Fair value measurements
Accounting standards require that fair value be determined based on the price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market, in an orderly transaction between market participants. Such fair value is a market-based measurement, not an entity-specific measurement. US GAAP establishes a three-level valuation hierarchy based upon observable and unobservable inputs. The hierarchy gives the highest priority to level 1 measurements and the lowest priority to level 3 measurements. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan's market assumptions.

The fair value hierarchy consists of three levels of inputs that may be used to measure fair value as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

In instances where the determination of fair value measurement is based on inputs from the different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The methods used to value investments may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 - Fair Value Measurements - (Continued)

The following tables present the Plan's fair value hierarchy by asset type for those assets measured at fair value at December 31, 2016 and 2015:

	Fair Value Measurements as of December 31, 2016

Investments measured at net asset value	16,827	-	-	-

As of December 31, 2016 and 2015, there were no restrictions on redemptions or unfunded commitments for any of the major types of assets.

Note 4 - Information Prepared and Certified by the Plan Trustee (Unaudited)

The plan administrator has elected the method of annual reporting permitted by Regulation 2520.103-8 of ERISA. Accordingly, as permitted under such election, the plan administrator has instructed the Plan's independent auditors not to perform any auditing procedures with respect to the Plan's investment information, and related activity, certified by the trustee, except for comparing such information to the related information included in the Plan's financial statements and supplemental schedules.

Note 4 - Information Prepared and Certified by the Plan Trustee (Unaudited) - (Continued)

The following is a summary of financial information certified by the trustee as accurate and complete as of December 31, 2016 and 2015, and for the year ended December 31, 2016.

		2016		(Compiled) 2015

Investment income:				
Net appreciation in fair value of investments	$	28,773		
Interest and dividends		58,391		
Interest income on notes receivable from participants		2,216		

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, the participants' accounts will become fully vested.

Note 6 - Income Tax Status

The Plan has adopted a non-standardized prototype plan (the "Prototype Plan"). The IRS has issued an opinion letter in relation to the Prototype Plan dated July 8, 2014, stating that the form of the Prototype Plan was acceptable under section 401(a) of the IRC for use by employers for the benefit of their employees. The Plan Sponsor believes the Plan and related trust are currently designed and being operated in accordance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements

Note 7 - Party-in-Interest Transactions

Parties-in-interest are defined by ERISA as any fiduciary of the Plan, any party rendering services to the Plan, the Employer, and certain others. As such, transactions conducted by the trustee and its affiliates qualify as party-in-interest transactions. Also, the Plan Sponsor pays certain fees and expenses on behalf of the Plan. These transactions qualify as party-in-interest transactions.

The trustee retains as compensation for services provided to the Plan, any interest on amounts earned while certain transactions are pending. This applies to both contributions and distributions. Earnings are at institutional money market rates.

Note 8 - Reconciliation of Financial Statements to Form 5500
