Notes to Financial Statements

1. Description of Plan

The following description of the Carleton Life Support Systems, Inc. Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General – The Plan was a defined contribution plan established on August 18, 2003, amended and restated January 1, 2010, sponsored by Carleton Life Support Systems, Inc. (the “Plan Sponsor”). The Plan covered substantially all employees of the Plan Sponsor, and was subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). As of November 1, 2016, the Plan was terminated and the Plan’s net assets were transferred to the Plan Sponsor’s 401(k) Plan (Carleton Life Support Systems, Inc. 401(k) Plan).

Contributions – In accordance with the Plan agreement, the Plan Sponsor made service-weighted contributions based on the following criteria:

<u>Completed Years of Service</u>	<u>Service-Weighted Contribution</u>
0 – 4	.50% of eligible compensation
5 – 9	1.25% of eligible compensation
10 – 14	2.00% of eligible compensation
15 – 19	2.75% of eligible compensation
20 – 24	3.50% of eligible compensation
25 – 29	4.25% of eligible compensation
30+	5.00% of eligible compensation

Additionally, the Plan Sponsor made a supplemental contribution for those eligible participants who commenced employment on or before August 18, 2003 (Acquisition Date of Life Support Division of Litton Systems, Inc.). Such participants who met The Rule of 100 on August 18, 2003, or who subsequently met the Rule of 100 as of January 1st of a given Plan year, were eligible to receive the supplemental contribution. The Rule of 100 required that the sum of 2½ times the participant’s age as of his or her most recent birthday and the number of full years of benefit service completed by the participant as of the most recent anniversary of his or her most recent date of hire in a given Plan year was greater than 100.

Participant Accounts – Investments were directed by the Plan Sponsor. Individual accounts were maintained for each Plan participant. Participant accounts were increased by Plan Sponsor contributions and the participant’s share of Plan earnings. Participant accounts were decreased by participant distributions and the participant’s share of Plan expenses and losses. The allocation of earnings and losses to participant accounts was based on the value of an individual account in relation to the total assets of the Plan. The benefit to which a participant was entitled was the benefit that could have been provided from the participant’s vested account.

Carleton Life Support Systems, Inc. Retirement Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Vesting – Participants vested in Plan Sponsor contributions at 25% for each year of service became fully vested after four years. If a participant terminated employment before reaching age 65, they forfeited any portion of their account in which they had not yet earned a vested interest. Participants became 100% vested upon death, disability, or the attainment of age 65, regardless of years of vested service.

Payment of Benefits – Upon termination of service due to death, retirement or other reasons, benefit payments were made in the form of a lump-sum distribution equal to the participant's vested account balance.

Forfeitures – Forfeitures resulting from non-vested Plan Sponsor contributions or other required corrections to previous Plan Sponsor contributions reduced the Plan Sponsor's current year contributions. Forfeitures used toward Plan Sponsor contributions amounted to \$52 and \$16,999 during the period from January 1, 2016 through November 1, 2016 and the year ended December 31, 2015, respectively.

Tax Status – The Plan Sponsor obtained a favorable determination letter dated April 23, 2012, in which the Internal Revenue Service ("IRS") stated that the Plan was qualified under Section 401(a) of the Internal Revenue Code (the "Code"). Accordingly, no provision for income taxes was included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America ("GAAP") require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan was subject to routine audits by taxing jurisdictions; however, there were no audits for any tax periods in progress. Management was not aware of any uncertain tax positions that would have caused the Plan to lose its tax status or to otherwise be subject to other taxes or penalties.

Plan Termination – As discussed above, the Plan was effectively terminated and the Plan's net assets were transferred to the Carleton Life Support Systems 401(k) Plan as of November 1, 2016. The total asset transfer totaled \$9,663,252.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements were prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition – The Plan's investments consisted of mutual funds and a common/collective trust. Shares of mutual funds were valued at quoted market prices which represented the net asset value ("NAV") of shares held by the Plan at year end. The fair market value of the common collective trust had been established using

the NAV provided by the administrator of the fund under the practical expedient approach and therefore was not assigned to a level in the hierarchy table. The NAV was based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The common collective trust was not subject to restrictions regarding redemptions and there were no unfunded commitments to the fund. There were also no restrictions on the NAV price or its equivalent. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan presented in the accompanying statements of changes in net assets available for benefits the net appreciation (depreciation) in fair value of its investments which consisted of the realized gains (losses) and the unrealized appreciation (depreciation) of those investments.

Purchases and sales of securities were recorded on a settlement date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date.

Payment of Benefits – Benefits were recorded when paid.

Administrative Expenses – Certain accounting and administrative expenses necessary to administer the Plan were paid for by the Plan Sponsor. Recordkeeping fees were paid by participants from their respective individual accounts.

Party-in-Interest Transactions – Certain Plan investments were in a cash account maintained by MG Trust Company, LLC (“MG Trust”) at various times during the year. MG Trust had been defined as a trustee by the Plan and, as such, transactions involving these funds qualified as party-in-interest transactions.

Use of Estimates – The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could have differed from those estimates.

Subsequent Events – The Plan Administrator has evaluated the effects of all subsequent events, for recognition or disclosure, through October 3, 2017, the date the accompanying financial statements were available to be issued.

3. Information Certified by the Trustee (Unaudited)

The Plan Administrator elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor (“DOL”) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, MG Trust has certified that the following data included in the accompanying financial statements and supplementary information is accurate:

	2016	2015
Mutual funds	\$ 0	\$ 7,198,418
Common/collective trust	0	2,435,937
	<u>\$ 0</u>	<u>\$ 9,634,355</u>

During 2016 and 2015, the Plan’s investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	Period ending November 1, 2016	Year ended December 31, 2015
Dividend income	\$ 46,178	\$ 54,917
Net appreciation (depreciation) in fair value of investments:	<u>341,890</u>	<u>(248,733)</u>
	<u>\$ 388,068</u>	<u>\$ (193,816)</u>

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 – Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that are accessible at the measurement date.

4. Fair Value Measurements (continued)

- Level 2 – Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in markets that are not active. This level also includes inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term through corroboration with observable, independent market data. This includes investments valued at quoted prices adjusted for legal or contractual restrictions specific to the security. There were no assets of the Plan that utilized Level 2 inputs as its primary measure to calculate fair value as of December 31, 2015.
- Level 3 – Pricing inputs are unobservable for the asset or liability. That is, inputs that reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability. There were no assets of the Plan that utilized Level 3 inputs as its primary measure to calculate fair value as of December 31, 2015.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds: Shares of mutual funds are valued at quoted market prices which represent the NAV of shares held by the Plan at year end.

Common and Collective Trusts ("CCTs"): CCTs are valued daily at NAV based on the market value of the underlying assets. NAV is determined by dividing the fair value of the CCT's net assets by the total numbers of units owned.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of November 1, 2016 and December 31, 2015:

	2016	2015
Level 1		
Mutual funds	\$ 0	\$ 7,198,418
Investments value at net asset value		
Common and collective trusts	0	2,435,937
Investments, at fair value	\$ 0	\$ 9,634,355
