Report of Independent Auditors

Jones Day

We have audited the accompanying financial statements of the Jones Day Qualified Defined Benefit Plan, which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Jones Day Qualified Defined Benefit Plan at December 31, 2016 and 2015, and the changes in its financial status for the year ended December 31, 2016, in conformity with U.S. generally accepted accounting principles.

Jones Day Qualified Defined Benefit Plan

Notes to Financial Statements

December 31, 2016 and 2015 and
Year Ended December 31, 2016

1. Description of the Plan

The following description of the Jones Day Qualified Defined Benefit Plan (the Plan) provides general information about the Plan's provisions. Jones Day (the Firm) is the Plan Sponsor and Plan Administrator. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan that covers partners who have met eligibility requirements as defined in the Plan.

The Firm is responsible for the general administration of the Plan. Wells Fargo Bank, N.A. is the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Vesting

Participants will be 0% vested until the participant has three years of service at which time the Normal Retirement Pension will become 100% vested and nonforfeitable. A participant who has less than three years of service shall nonetheless have a 100% vested and nonforfeitable interest in their Normal Retirement Pension if they die while they are an employee or partner.

Funding

The Firm generally contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants and satisfy the ERISA minimum funding requirements. The Plan has met the ERISA minimum funding requirements for 2016 and 2015.

Plan Termination

Although it has not expressed an intention to do so, the Firm reserves the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. Upon termination, the net assets of the Plan will be allocated for payment to the participants in an order of priority as prescribed by ERISA and its related regulations as well as the plan document.

Jones Day Qualified Defined Benefit Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated plan benefits and may also depend on the financial condition of the Firm and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) as well as the priority of those benefits. Some benefits may be fully or partially provided for by the then-existing net assets of the Plan and the PBGC guarantee, while other benefits may not be provided for at all.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Sponsor to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of the ASU eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of the ASU allows a plan with a fiscal year end that doesn't coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The ASU is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively. Part III is to be applied prospectively. Plans can early adopt any of the ASU's three parts without early adopting the other parts. The Firm adopted Part II of ASU 2015-12, Parts I and III are not applicable to the Plan.

New Accounting Pronouncements Not Yet Adopted

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments – Overall* (Subtopic 815-10), to enhance the reporting model for financial instruments to provide users of financial statements with more decision-useful information. ASU 2016-01 provides additional guidance on classifying and measuring financial instruments. For entities other than public business entities, ASU 2016-01 eliminates the requirement in ASC 825, *Financial Instruments*, to disclose the fair values of financial instruments measured at amortized cost on the balance sheet. The guidance within ASU 2016-01 is effective for entities other than public business entities for fiscal years beginning after December 15, 2018, and interim periods beginning after December 15, 2019. However, ASU 2016-01 allows for entities other than public business entities to early adopt the provision that eliminates the fair value disclosures for financial instruments not recognized at fair value. Management is currently evaluating the impact that ASU 2016-01 will have on its financial statements and will adopt the provisions no later than the effective date.

2. Summary of Significant Accounting Policies (continued)

In February 2017, the FASB issued Accounting Standards Update 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*, (ASU 2017-06). ASU 2017-06 requires a plan to present its interest in a master trust and the change in that interest in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. It also requires a plan to disclose the master trust's investments and other assets and liabilities, as well as the dollar amount of its interest in these balances. ASU 2017-06 is effective for entities for fiscal years beginning after December 15, 2018, with retrospective application to all periods presented. Early application is permitted. Management is currently evaluating the impact that ASU 2017-06 will have on its financial statements and will adopt the provisions no later than the effective date.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) represents the actuarial present value of estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the partners to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated partners or their beneficiaries, and (b) present partners or their beneficiaries. Benefits for retired or terminated partners or their beneficiaries are based on the participant's final average monthly pay through their termination date, computed as average monthly salary during the five consecutive years of service as a partner, within the last ten years of service as a partner immediately preceding the year of retirement yielding the highest average. The accumulated plan benefits for active partners are based on their approximate average monthly compensation during the five years preceding the valuation date. Benefits payable under all circumstances – retirement, death, and termination of employment – are included, to the extent they are deemed attributable to partner service rendered to the valuation date.

The Plan's actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and the expected date of payment.

3. Accumulated Plan Benefits

The accumulated plan benefit information as of the end of each plan year is as follows:

	December 31	
	2016	2015
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving benefits	\$ 101,471,162	\$ 84,346,451
Other participants	273,031,019	241,955,121
Total vested benefits	374,502,181	326,301,572
Nonvested benefits	5,928,283	4,625,876
Total actuarial present value of accumulated plan benefits	\$ 380,430,464	\$ 330,927,448

The changes in accumulated plan benefits for the year are as follows:

	Year Ended December 31, 2016
Actuarial present value of accumulated plan benefits at beginning of year	\$ 330,927,448
Increase (decrease) during the year attributed to:	
Benefits accumulated	25,980,737
Actuarial gains	(9,632,222)
Benefits paid	(9,263,622)
Increase for interest due to decrease in discount period	21,998,902
Change in actuarial assumptions	20,419,221
Net increase	49,503,016
Actuarial present value of accumulated plan benefits at end of year	\$ 380,430,464

3. Accumulated Plan Benefits (continued)

Significant assumptions underlying the actuarial valuations for 2016 and 2015 are as follows:

Assumed rate of return on investments	6.75% in 2016 and 2015
Mortality basis	RP-2014 Mortality Table with post-2006 mortality improvements removed, white collar adjustment, and projected generationally using the MP-2016 projection scale for 2016 and RP-2014 Mortality Table with projected improvements after 2007 removed for 2015
Retirement rate	Various rates ranging from 5% at age 62 to 100% at age 70 for 2016 and 2015

The impact of the change in actuarial assumptions above is the result of a change in the mortality basis assumption at December 31, 2016. These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Investment in Master Trusts

The Plan's investments are held in a DB Master Trust that was established for the investment of assets of the Plan and one other Firm sponsored retirement plan. Each participating plan has an undivided interest in the DB Master Trust. The DB Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to the fair value of the assets assigned to each plan, income and expenses resulting from the collective investment of the assets of the DB Master Trust. At December 31, 2016 and 2015, the Plan's interests in the net assets of the DB Master Trust were approximately 65.3% and 64.3%, respectively.

The following table presents the fair value of investments in the DB Master Trust for 2016 and 2015:

	December 31

5. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.
- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar assets and liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in markets that are not active;
 - Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals); and
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management’s own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

Notes to Financial Statements (continued)

5. Fair Value Measurements (continued)

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan.

Common and convertible preferred stocks, corporate obligations, and U.S. government obligations: Valued at the closing price reported on the active market on which the individual securities are traded. Certain corporate and U.S. government obligations may not have readily available market prices and are, therefore, valued by the fund manager by using quoted prices for similar assets and liabilities in active markets.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

Cash and cash equivalents: Reported at amortized cost which approximates fair value.

Real estate fund: Valued at the NAV of shares held by the Plan at year-end determined by the fund manager.

Hedge funds: Valued at NAV determined by the fund manager and reported in their respective audited financial statements.

Partnerships: Valued at NAV determined by the partnership and reported in their respective audited financial statements.

Other: Valued at the NAV of shares held by the Plan at year-end determined by the investment manager and reported in their respective audited financial statements.

Common/collective trusts: Valued at the NAV of shares held by the Plan at year-end determined by the fund manager.

For employer initiated withdrawals, the redemption restrictions range from 0-30 days.

^(b) This category includes funds that seek to achieve long term capital appreciation by engaging in a variety of investment strategies and techniques. Notification of any redemptions in the various funds range from 45 days to 90 days in advance.

^(c) This category includes funds that invest in various asset classes such as real estate, private companies, traditional assets and hedge fund strategies in order to add diversification to the pension plan. Of the eleven funds in this category, five of them have uncalled capital commitments amounting to \$25,279,138 at December 31, 2016. These funds are illiquid and will be distributed when the fund closes.

^(d) This category includes a separate pooled account that seeks to achieve superior returns over a full market cycle versus the NCREIF Property Index. For liquidity purposes, the fund holds a 2% cash position and reserves the right to hold redemptions for up to three years.

^(e) This category includes two funds that seek capital preservation over a multi-year period. These funds have an uncalled capital commitment of \$1,583,215 at December 31, 2016. These funds are illiquid and will be distributed when the funds close.

Notes to Financial Statements (continued)

6. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated October 13, 2016, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related DB Master Trust is exempt from taxation.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Firm. Administrative expenses paid by the Plan include actuarial and trustee fees. Administrative expenses paid by the Firm include accounting, investment consulting, and PBGC fees. Expenses relating to purchases, sales or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Jones Day Qualified Defined Benefit Plan

Notes to Financial Statements (continued)

8. Risks and Uncertainties (continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. Related-Party Transactions

Certain of the Plan's assets are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

10. Subsequent Events

The Firm evaluated subsequent events for the Plan through October 11, 2017, the date the financial statements were available to be issued.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Rationale for Economic Assumptions**

- Discount rate – Prescribed by the IRS and based on the company's current elections.
- Salary increases – This assumption historically has been used for the plan and has not produced significant gains or losses. Further, based on facts and circumstances discussed with Jones Day, significant future changes in the rate of salary growth do not seem likely.
- Inflation – Based on the long-term expected inflation rate included in Mercer Investment Consulting's Capital Market Outlook.
- Expected investment return – Based on a blend of the hypothetical past performance of the plan's target asset mix and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Market Outlook for the plan's target asset mix. The expected return on assets assumption is net of an adjustment of 20 bps for expenses assumed to be paid from plan assets.
- Expenses – Based on the average of prior three year's expenses rounded to the nearest \$1,000.

Rationale for Significant Demographic Assumptions

- Mortality – Prescribed by the IRS.
- Withdrawal – Based on Mercer's July 15, 2014 plan experience study.
- Retirement age – Based on Mercer's July 15, 2014 plan experience study.
- Terminated vested commencement age – This assumption historically has been used for the plan and has not produced significant gains or losses.
- Form of payment – Based on Mercer's 2011 plan experience study.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Methods*****Asset Methods***

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all partners as of the valuation date, but only those partners who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Plan Name	Jones Day Qualified Defined Benefit Plan
Effective date and plan year	Restated as of December 31, 2014 Plan year: January 1 to December 31
Status of the plan	The plan has ongoing benefit accruals and new employees are eligible to participate in the plan once they satisfy the participation requirements.
Significant events that occurred during the year	None.
Definitions	
• Covered employees	Partners
• Participation	<p>Each Covered Person becomes a participant on the January 1 or July 1 coincident with or immediately following the date on which he attains age 21 and completes 1 year of service. For partners hired after attaining age 35, the 1 year of service requirement is replaced by a 6 months of service (with at least 900 hours of service) requirement. However, the following partners shall not be eligible to participate in the plan:</p> <ul style="list-style-type: none"> • Partners who are nonresident aliens and who receive no earned income from Jones Day that constitutes income from sources within the United States • Partners not described immediately above that are nonresident aliens whose entire Compensation is a guaranteed payment under IRC Section 707(c) • Partners working in the London office that are not US Citizens.
• Employee contributions	None.
• Vesting service	Elapsed time from date of hire.
• Benefit service	Elapsed time from date of participation in plan.
• Compensation	<p>Net earnings reported on Form 1065, Schedule K-1, including elective deferrals, which constitute Earned Income as defined by IRC Section 401(c)(2).</p> <p>Compensation is limited each year according to the annual limit set by IRC Section 401(a) (17). For the period between January 1, 1993 to December 31, 2001, compensation is limited to \$150,000 (as adjusted annually for inflation by Section 401(a) (17)). For periods after January 1, 2002 compensation shall not exceed \$200,000 (as adjusted annually for inflation by Section 401(a)(17)).</p>
• Final average earnings	<p>Final average pay is the average annual limited Compensation of the highest consecutive five years in the ten years immediately preceding termination or retirement.</p> <p>If participant leaves on the last day of the calendar year, the final average pay is the average annual limited Compensation of the highest consecutive five years in the nine years immediately preceding year of termination or retirement plus the calendar year in which such termination or retirement occurs.</p>

Schedule SB, Part V — Summary of Plan Provisions

• Variable Participant	A participant who is a covered person on or after January 1, 2015.
• Rate of return	The rate of return for a plan year means the annual rate of investment return earned by the assets attributable to the plan in the trust fund for the plan year. It is calculated to the nearest ten-thousandth.
Normal retirement	
• Eligibility	Later of age 65 or completion of three years of service.
• Benefit	<p>The normal monthly accrued benefit is 1/12 of Final Average Compensation times the following applicable percentages:</p> <ul style="list-style-type: none"> • 0.5% for each year of participation service as a Partner after 1989 and before 1994 • 0.65% (0.85% if at least age 51 for entire calendar year) for each year of participation service as a Partner after 1993 and before 1998 • 0.9% (1.2% if at least age 51 for entire calendar year) for each year of participation service as a Partner during 1998 • 1.2% (1.6% if at least age 51 for entire calendar year) for each year of participation service as a Partner after 1998 and before June 1, 2000 • 0% for each year of participation service as a Partner from May 31, 2000 and before January 1, 2000 • 2.5% (3.33% if at least 41 for entire calendar year) for each year of participation service as a Partner after 2001 and before July 1, 2009 • 0.25% for each year of participation as a partner after June 30, 2009. • 2.80% for each year of participation as a partner after December 31, 2013. <p>For Variable Participants, the normal monthly accrued benefit as of the last day of the plan year will be adjusted to reflect the rate of return as described. The adjustment will be made each plan year beginning with the 2015 plan year. The accrued benefit as of the last day of the prior plan year is multiplied by a fraction, the numerator of which is one plus the Rate of Return for the prior plan year and the denominator of which is 1.0675, to the nearest ten-thousandth. The resulting adjusted benefit can never be less than the normal monthly accrued benefit as of December 31, 2013.</p> <p>In no event will a participant's retirement benefit exceed the limits set forth in Section 415, as revised by the Tax Reform Act of 1986 (effective January 1, 1987) and further revised by the Economic Growth and Tax Relief Act of 2001 (effective January 1, 2002).</p>
Early retirement	
• Eligibility	Early retirement is permitted after age 62 and 5 years of service.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	<p>The early retirement benefit is equal to the accrued benefit commencing at normal retirement date and reduced by early retirement factors.</p> <p>The early retirement benefit is determined as the greater of (1) the accrued benefit as of December 31, 2013 reduced under the provisions in effect on that date (a 7.50% compound annual interest rate and the 1983 Individual Annuity Mortality Table adjusted to a unisex basis for a population deemed to be 100% female for participants and 100% male for beneficiaries) or (2) the total accrued benefit reduced under the current provisions.</p>
Deferred vested	
• Eligibility	<p>Upon termination after 3 years, a participant is fully vested in his accrued benefit.</p>
• Benefit	<p>The accrued benefit is equal to the benefit developed under the normal retirement formula based on service to date.</p> <p>The accrued benefit will be payable in full at normal retirement or an actuarially reduced benefit commencing at any age after vested termination may be elected by participant.</p> <p>The benefit payable is determined as the greater of (1) the accrued benefit as of December 31, 2013 reduced under the provisions in effect on that date (a 7.50% compound annual interest rate and the 1983 Individual Annuity Mortality Table adjusted to a unisex basis for a population deemed to be 100% female for participants and 100% male for beneficiaries) or (2) the total accrued benefit reduced under the current provisions.</p>

Schedule SB, Part V — Summary of Plan Provisions

Pre-retirement death Benefit	Upon the death of a vested active participant or vested terminated participant who is not yet receiving benefits, the surviving spouse or “domestic partner” will receive benefits equal to amount that would have been payable had the participant terminated employment (if not already terminated) during the month before his death, had elected a 50% joint and survivor option, and had elected to have benefits commence on the last day of the month following the month in which he died.
Unpredictable contingent event benefits	None.
Form of benefits	<ul style="list-style-type: none"> Automatic form for unmarried participants: A monthly life annuity. Automatic form for married participants: Joint & 50% Survivor annuity.
Optional forms	<ul style="list-style-type: none"> Single life annuity Certain and continuous (5 or 10 year) Joint and survivor (50%, 66 2/3%, 75%, or 100%) Lump Sum (mandatory for lump sums less than \$1,000. Lump sum amount greater than \$1,000 and less than \$7,500 may be elected unless participant goes into government service, in which case full lump sum amount can be elected) for a participant who is a covered employee before January 1, 2015. 3% Annual increase (a reduced single life annuity payable monthly for employee’s life which shall increase 3% each January after participant has been receiving benefits for at least 12 months) for a participant who is a covered employee before January 1, 2015.
Actuarial Equivalence	Amount of an alternative form of benefit (other than a lump sum cash out) which has a value equivalent to the benefit or benefits otherwise payable under the plan, computed on the basis of a 6.75% compound annual interest rate and the “applicable mortality table” specified by the Secretary of the Treasury pursuant to section 417(e) of the Code. The amount shall be determined as the greater of (1) the actuarial equivalent of the accrued benefit as of December 31, 2013 computed under the provisions in effect on that date (a 7.50% compound annual interest rate and the 1983 Individual Annuity Mortality Table adjusted to a unisex basis for a population deemed to be 100% female for participants and 100% male for beneficiaries) or (2) the actuarial equivalent of the total accrued benefit computed under the current provisions.

Plan Provision Changes Since Prior Valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2015 to 2016.

Schedule SB, Part V — Summary of Plan Provisions***Benefits Included or Excluded***

Unless noted below, all benefits provided by the plan, as amended and restated effective December 31, 2014, are included in this valuation.

- **Most recent plan amendments included:** All amendments are included.
- **Plan amendments excluded:** None.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Sections 415(b) and 401(a)(17) have been incorporated into our calculations.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, line 24 — Change in Actuarial Assumptions

- The expense component of normal cost increased from \$181,000 to \$252,000 reflect our expectations for the current plan year.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
