Hardesty & Hanover
Employees' 401(k) Profit Sharing Plan
Notes to Financial Statements

Note 1 Description of Plan

The following description of the Hardesty & Hanover Employees' 401(k) Profit Sharing Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

1. *General.* The Plan is a defined contribution plan covering all full-time and part-time regular employees of Hardesty & Hanover, LLC and Hardesty & Hanover Construction Services LLC, wholly owned subsidiaries of Hardesty & Hanover Holding, LLC, who are age twenty-one or older. Any employee can enter by submitting a completed application 30 days before any of the quarterly entry dates. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. *Contributions.* Each year, participants under the Plan may elect to contribute a specific percentage of pretax compensation as a salary deferral limited to $18,000 in 2016 and 2015. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions limited to $6,000 in 2016 and 2015. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions and employer contributions into various investment options offered by the Plan. Changes can be made at any time by the participant via online or by contacting the plan administrator. The company contributes 1% of employee compensation if the participant contributes up to but not exceeding 4% of their compensation. Employee deferrals at 4% or higher have a total maximum employer match contribution of 2%. During the year ended December 31, 2016 the Company made employer match contributions of $522,314.

3. *Participant Accounts.* Each participant's account is credited with the participant's contribution and Company matching contributions (if any). Participant accounts are not charged any recordkeeping administrative expenses but other administrative expenses that are specifically incurred by the participant such as loan origination fees and check fees and are therefore charged to their individual account. The benefit to which a participant is entitled is the benefit that could be provided from their vested account.

4. *Vesting.* Participants are immediately 100% vested in their contributions plus actual earnings thereon including the discretionary contribution portion of their accounts plus actual earnings thereon.

Note 1 (continued)

5. *Notes Receivable from Participants.* Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 8.00%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Loan terms range from one to five years or a longer reasonable period if the purpose is to purchase a primary residence. Principal and interest is paid through monthly payroll deductions.

6. *Payment of Benefits.* On termination of service a participant will receive a lump-sum amount equal to the value of the participant's interest in his or her account or elect optional payment methods as detailed in the summary plan description. Participants may elect to take partial withdrawals after attaining age 59 ½ and at 70 ½ must take minimum annual distributions from their accounts.

7. *Forfeited accounts.* Since all participants are 100% vested in their accounts at all times, there are no forfeitures. However, there have been instances where the employer matching formula has resulted in excess employer contributions. These amounts have been transferred into a holding account and will be used to reduce future employer contributions. At December 31, 2016 and 2015, the excess employer contributions totaled $70 and $761, respectively. During 2016, it was determined that $28,294 of excess employer match contributions were miscalculated on employee "catch up contributions". These excesses will be returned to the plan sponsor. As of the date of this report, management has not been able to determine if there are any excess employer match contributions prior to January 1, 2016.

8. *Reclassification of accounts.* In accordance with ASU 2015-12, the presentation of certain amounts for the year ended December 31, 2015 has been changed. There is no effect on the 2015 results from operations.

Note 2 Summary of Accounting Policies

Basis of Accounting. The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts

of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Accounting Changes. In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, Fair Value Measurement, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. Accordingly, the amendment was retrospectively applied resulting in no effect on 2015 operations.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contacts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for the fully benefit-responsive investment contracts.

Part II eliminates the requirements to disclose individual investments that present five percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not application to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively to 2015. Management has elected to adopt Parts I and II in 2016.

Note 2 (continued)

Investment Valuation and Income Recognition. Investments are reported at fair value (except for the fully benefit – responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable. Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. There were no excess employee contributions in 2016.

Payment of Benefits. Benefits are recorded when paid.

Expenses. Certain expenses of maintaining the Plan are paid directly by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events. The plan has evaluated subsequent events through October 6, 2017, the date the financial statements were available to be issued.

Note 3 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Note 3 (continued)

Separate Investment Accounts: Valued using the net asset values (NAV) received directly from the fund companies in order to determine the values of units held by the plan at year end.

Per ASU 2015-07, no leveling in accordance with ASC 820 is required for investments valued using net asset value (NAV).

Note 4 Information Prepared and Certified by the Recordkeeper

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the recordkeeper.

	2016	2015
Investments, at fair value	$ 40,818,597	$ 38,241,574
Investments, at contract value	10,313,689	7,936,037
Investment income	3,215,245	570,946

Note 5 Guaranteed Investment Contract with Massachusetts Mutual Life Insurance Company

The plan is in a benefit-responsive guaranteed investment contract with Massachusetts Mutual Life Insurance Company totaling $10,313,689 in 2016 and $7,936,037 in 2015. MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 3 percent. The crediting rate is reviewed on a semiannual basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to scheduled maturity date.

This contract meets the fully benefit-responsive investment contact criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Massachusetts Mutual Life may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 5 (continued)

Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

Note 6 Rollover contributions

On January 30, 2016, Hardesty & Hanover LLC acquired 100% of the assets of The Heimburg Group, Inc. At that time it was determined The Heimburg Group, Inc.'s pension plan would be terminated. The participants in The Heimburg Group, Inc. pension plan were provided the option to have their account balance rolled into the Hardesty & Hanover Employees' 401(k) Profit Sharing Plan, into a separate outside IRA or receive a lump sum distribution. $863,148 from The Heimburg Group Inc.'s acquired participants and $85,005 of additional contributions from other individual participants' previous employer retirement accounts were rolled into the Plan during the year ended December 31, 2016, and is included in rollovers on the statement of changes in net assets available for benefits.

Note 7 Related-Party Transactions and Party In Interest Transactions

Michael D. Hawkins is a principal member of Hardesty & Hanover Holding, LLC and is a trustee for the Plan. Anna Volynsky, the chief financial officer for Hardesty & Hanover Holding LLC, is also a trustee for the Plan and the plan administrator.

Certain Plan investments are managed by Massachusetts Life Insurance Company. MassMutual is the recordkeeper for the Plan and, therefore, these transactions qualify as party in interest transactions. MassMutual provides certain administrative services to the Plan pursuant to an administrative services agreement between the Company and MassMutual.

State Street is the custodian of the Plan's separate investment accounts (SIA) at the omnibus fund level.

Note 8 Plan Termination

Although it has not expressed any intent to do so, Hardesty & Hanover, LLC and Hardesty & Hanover Construction Services, LLC has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note 9 Tax Status

The plan was created with an effective date of January 1, 1984. The Internal Revenue Service has determined and informed the Company by a letter dated May 11, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions. Currently there is an audit for 2015 in progress.

Note 10 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
