Note 1 - Plan Description

The following description of Northeast Ohio Neighborhood Health Services, Inc. Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution matching/thrift plan, established July 1, 1996, covering employees of Northeast Ohio Neighborhood Health Services, Inc. (the "Company"). Participants become eligible to participate after the completion of one year of service (at least 1,000 hours worked). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Under the Plan, no employee contributions are allowed. All company contributions made to the Plan are placed in individual accounts in the name of the participant.

Company contributions consist of the following:

a. A matching contribution equal to $.75 for every $1.00 of participants' elective deferrals made into Northeast Ohio Neighborhood Health Services, Inc. Tax Shelter Annuity Plan (a 403(b) plan) up to 4 percent of each participant's gross compensation.

b. A discretionary contribution in an amount determined by the Company's board of directors. The discretionary contribution made during 2015 was approximately $426,000.

Participant Accounts - Each participant's account is credited with the employer's contributions and credited or charged with the participant's share of the quarterly allocation of the Plan's net income or loss. Allocations are based on participants' account balances, as defined in the plan agreement. Participants are also allowed to borrow from their accounts in accordance with limitations defined in the plan agreement. Participants direct the investment of employer contributions into various investment options offered by the Plan.

Vesting - Vesting in the Company's matching and discretionary contributions is based on years of service with the Company in the following percentages:

Years of Service	Percentage Vested
0 to 1	0
1 to 2	20
2 to 3	40
3 to 4	60
4 to 5	80
5 or more	100

Note 1 - Plan Description (Continued)

Plan Loans - Participants may borrow from The Variable Annuity Life Insurance Company (VALIC), the custodian of the Plan, using the vested portion of their VALIC Fixed Account Plus as collateral for the loan. Collateral is required in an amount equal to 100 percent of the outstanding loan balance. Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance subject to annuity contract and plan provisions. Loan terms range from one to five years or within a reasonable time for the purchase of the participant's principal residence. Loans bear interest at market rates. Principal and interest are paid ratably by the participant to VALIC and each payment will reduce amounts collateralized by the participant's VALIC Fixed Account Plus investment. The amount of these outstanding loans was $405,403 and $310,516 at December 31, 2016 and 2015, respectively. Approximately $185,000 and $257,000 of the loans were in default at December 31, 2016 and 2015, respectively. These loans are not included as assets in the accompanying financial statements.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or pay plan expenses. At December 31, 2016 and 2015, forfeited account balances totaled approximately $211,000 and $198,000, respectively.

Payment of Benefits - Upon disability, retirement, death, or other reasons, a participant shall receive payment of the value of his or her vested account through annuities or a cash option based upon predetermined thresholds as defined in the agreement.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, net assets would be distributed to participants according to each participant's account balance. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by The Variable Annuity Life Insurance Company or its affiliates. The Variable Annuity Life Insurance Company is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value, except as noted below. The variable separate accounts are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets. The fully benefit-responsive insurance contracts are valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits (see Note 6). The fair value of the unallocated contracts is based on contract value adjusted for certain contractual provisions.

See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. Investments held by the Plan are stated at fair value except as noted below. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

The fully benefit-responsive unallocated contract is valued at contract value. Contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

New Accounting Pronouncements - During 2016, the Plan adopted Accounting Standards Update (ASU) Nos. 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*, and 2015-12*, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient.* ASU No. 2015-07 amended ASC 820, *Fair Value Measurements*, and removed the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. Parts I and II of ASU No. 2015-12 were applicable to the Plan. Part I requires the fully benefit-responsive investment contract be recorded contract value without presentation of fair value or the difference between fair value and contract value and reduces the related disclosures. Part II modified the investment disclosures under ASC 820 and ASC 962. These standards were adopted retrospectively and had no impact on the Plan's net assets or changes in net assets.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 29, 2017, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Variable Annuity Life Insurance Company (the "Custodian") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Custodian.

Note 4 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) indicating that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has received a determination letter from the IRS.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2016 and 2015.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Pooled Separate Accounts - The pooled separate accounts are valued at net asset value per share or its equivalent of the funds, which is based on the fair value of the funds' net underlying assets. There are no redemption restrictions or unfunded commitments on these investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(3) This class represents investments in an actively managed variable separate account that invests primarily in money market funds that seek high current income consistent with maintaining liquidity and preserving capital.

(4) This class represents investments in actively managed variable separate accounts that invest primarily in debt and equity securities representing special interest objectives such as health sciences and social responsibility.

Note 6 - Investment Contracts

The Plan has a benefit-responsive investment contract with VALIC. VALIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Note 6 - Investment Contracts (Continued)

The crediting interest rate is based on a formula agreed upon with the issuer. Participant accounts set up before December 1, 2005 have a minimum guaranteed interest rate of 3.00 percent. For accounts set up after 2005, the minimum guaranteed interest rate varies by participant and depends on the date the participant's account was established. Such interest rates are reviewed on a monthly basis for resetting.

Generally, there are no events that could limit the ability of the Plan to transact at contract value paid within 90 days or in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract and which require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

Certain events limit the ability of the Plan to transact at contract value with the insurance company and the financial institution issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provision; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spin-offs of a subsidiary), which cause a significant withdrawal from the Plan; or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The unallocated investment contract does not permit the contract issuers to terminate the agreement prior to the scheduled maturity date. If an event of default occurs and is not cured, the nondefaulting party may terminate the contract. The following may cause the Plan to be in default: a breach of material obligation under the contract, a material misrepresentation, or a material amendment to the plan agreement. The contract issuer may be in default if it breaches a material obligation under the investment contract, makes a material misrepresentation, has a decline in its long-term credit rating below a threshold set forth in the contract, or is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers.

As described in Note 2, because the investment contracts are fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the unallocated insurance contracts. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.
