Compass Family And Community Services 401(K) Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2016 and 2015

NOTE A - DESCRIPTION OF PLAN

The following description of Compass Family And Community Services 401(K) Plan ("the Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

On July 1, 2011, Compass Family and Community Services, Inc. ("the Company") established the Plan. The Plan is a defined contribution plan covering substantially all employees of the Company who are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan was formed with the merger of Burdman Group, Inc. and Children & Family Services. This merger formed Compass Family and Community Services, Inc. The assets of the Burdman Group 401(k) Plan were transferred into the Compass Family And Community Services 401(K) Plan.

On July 1, 2013, the sponsor organization completed the acquisition of Community Solutions of Warren, Ohio. Employees participating in the retirement plan of Community Solutions were given the option to rollover their balances to the Compass 401(k) Plan, rollover to an IRA, or take a distribution.

Contributions

Participants may elect to contribute, on a salary-deferral basis, amounts of their annual compensation not to exceed the maximum amount allowed by law. There are no Employer match contributions. The Company, at its discretion, may contribute a share of its current and/or accumulated net profits to the Plan as determined at the sole discretion of the Company.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's discretionary contribution and the Plan earnings and losses and administrative expenses. Net plan earnings are allocated based upon the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The Company's discretionary contributions are allocated in the ratio that each participant's compensation bears to the compensation of all eligible participants. During the years ended December 31, 2016 and 2015, the Company did not elect to make a discretionary contribution.

Vesting

Participants are immediately fully vested in their voluntary contributions plus actual earnings thereon. A participant becomes vested in employer matching and discretionary contributions as follows:

Years of Service	Vested Percentage of Employer Contributions
Less than 3	0%
3 or more	100%

NOTES TO FINANCIAL STATEMENTS

December 31, 2016 and 2015

NOTE A - DESCRIPTION OF PLAN (continued)

Notes Receivable from Participants

Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance and may only have one outstanding loan at any point in time. The receivables are secured by the balance in the participant's account and must bear interest at the prime rate plus 1%. During 2016, the notes had fixed rates ranging from 4.25% to 4.5% for the term of the note. Principal and interest are paid through payroll deductions or by check.

Payment of Benefits

Benefits are payable in an amount equal to the value of the participant's vested interest in his or her account in a lump-sum payment.

Forfeitures

If a participant is not vested upon termination, the nonvested portion of their account balance contributed by the employer and the earnings thereon are forfeited. Forfeited amounts are first used to pay plan expenses and then to reduce employer contributions. There were no forfeiture assets as or for the years ended December 31, 2016 and 2015.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become fully vested in their accounts.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Substantially all administrative and recordkeeping fees of the Plan are paid by the Company.

NOTES TO FINANCIAL STATEMENTS

December 31, 2016 and 2015

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the plan document.

Accounting standards require that participant loans be classified as notes receivable from participants in the accompanying financial statements; however, the Department of Labor requires these to be classified as investments on the Form 5500 and on Schedule H, Line 4i – Schedule of Assets (Held at End of Year).

NOTE C - FAIR VALUE MEASUREMENTS

Financial accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities. Level 1 assets primarily include exchange traded equity securities, mutual funds and U.S. Treasury bonds. Prices are obtained from readily available sources for market transactions involving identical assets and liabilities.

Level 2 fair values are based on inputs other than quoted prices within Level 1 that are observable for the asset, either directly or indirectly. Observable inputs include quoted market prices in active markets for similar assets, quoted prices in markets that are not active for identical or similar assets and other market observable inputs such as interest rate, credit spread and foreign currency exchange rates observable in the marketplace or derived from market transactions. Level 2 assets primarily include fixed maturity securities (including public and private bonds), equity securities, over-the-counter derivatives, group annuity contracts and other investments. These fair values are generally obtained from third-party pricing services or determined through the use of valuation models or methodologies, including matrix pricing, using substantially all observable inputs. Prices are validated through an investment analyst review process including direct interaction with external sources, recent trade activity or through use of internal models.

Level 3 fair values are based on at least one significant unobservable input for the asset. Level 3 securities contain unobservable market inputs and as a result considerable judgment may be used in determining the fair values. Level 3 assets include certain fixed maturity securities, private equity securities and complex derivatives. These fair values are generally obtained through the use of valuation models or methodologies using significant unobservable inputs or broker quotes. In circumstances where broker quotes are used to value an instrument, a nonbinding quote is generally received. Broker quotes are validated through an investment analyst review process, including direct interaction with external sources, through the use of internal models or other relevant information.

Fair Value of Investments in Entities that Use Net Asset Value (NAV)

The estimated fair value of the pooled separate accounts is net asset value. The use of net asset value as fair value is deemed appropriate as these investments do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions.

NOTE C - FAIR VALUE MEASUREMENTS (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled separate accounts (PSA): Pooled separate accounts are made up of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The NAV of a PSA is based on the market value of its underlying investments but the PSA NAV is not a publicly quoted price in an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with GAAP, investments measured at net asset value as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the following tables are intended to permit reconciliation to the amounts presented in the Statements of Net Assets Available for Benefits.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015 on a recurring basis:

Description	As of December 31, 2016						Total
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3	
Pooled separate accounts, measured at NAV	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ 2,856,550
Total assets:	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ 2,856,550

Description	As of December 31, 2015						Total
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3	
Pooled separate accounts, measured at NAV	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ 3,004,874
Total assets:	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ 3,004,874

None of the pooled separate accounts are currently subject to withdrawal limitations. Unfunded commitments typically are found in private equity funds and therefore not applicable to pooled separate accounts or mutual funds. Pooled separate accounts can be redeemed on a daily basis.

NOTE D - INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2016 and 2015, and net change in investment income and expenses for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Plan's custodian.

NOTE E - TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2014, indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

NOTE F - PARTY-IN-INTEREST TRANSACTIONS

The Plan allows participants to borrow funds against their account balances. These transactions qualify as party-in-interest transactions.

Certain Plan investments are pooled separate accounts and an investment contract managed by John Hancock Life Insurance Company, the custodians of the Plan's investments. Therefore, these transactions qualify as party-in-interest transactions.

NOTE G - RISKS AND UNCERTAINTIES

The Plan provides various investment options which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE H - SUBSEQUENT EVENTS

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 6, 2017, which is the date the financial statements were available to be issued.
