Global Tech Retirement Plan

Notes to Financial Statements

Note 1: Description of Plan

The following description of the Global Tech Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all employees of Global Tech, Inc., doing business as (d/b/a) eGlobalTech (“eGlobal” or the “Company”). All full time or part time employees who are age 21 or older and have completed three months of service are eligible to make salary deferrals and receive the Company’s contribution to the Plan which includes profit sharing contributions and a discretionary matching percentage. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Trustees are responsible for oversight of the Plan. The Plan Trustees determine the appropriateness of the Plan’s investment offerings and monitor investment performance.

Contributions

Each year, participants may contribute any combination of pre-tax or roth elective deferrals, not to exceed the limits of the Internal Revenue Code, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes a discretionary matching contribution that is equal to that percentage of each qualifying contributing participant’s elective deferral which the Trustees, in their sole discretion, determine. In addition, the Company may make discretionary profit sharing contributions every year. The Company’s contributions are invested in accordance with the participant’s investment choices.

Participant Accounts

Each participant’s account is credited with the participant’s contributions and Company discretionary match contributions, as well as allocations of the Company’s profit sharing contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, specific participant transactions, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company’s discretionary match and profit sharing contributions portion of their account is based on years of continuous service. A participant is fully vested after

Global Tech Retirement Plan
Notes to Financial Statements

Note 1: Description of Plan (continued)

four years of credited service. In the event of death, disability or satisfaction of conditions for early retirement age, participants become fully vested in their respective accounts.

Notes Receivable from Participants

Participants may borrow from the pre-tax balances of their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested interest in the Plan. The notes are secured by the balance in the participants' accounts and bear interest at the prime rate, as defined. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may receive the value of the vested interest in his or her account as a partial or lump-sum distribution. An involuntary distribution can be made in the form of a lump sum distribution at the Plan's discretion for participants who have terminated service and who have an account with a vested interest value of \$5,000 or below. An in-service distribution may be taken by any participant that has attained the age of 59 and ½.

Forfeited Accounts

Forfeitures occur when a former employee has five consecutive years of a break in service. These amounts will be used to reduce future employer contributions. At December 31, 2016 and 2015 forfeited non-vested accounts totaled \$110,625 and \$75,835, respectively. Forfeited account balances at December 31, 2016 will be used to reduce future employer contributions. No forfeited nonvested account amounts were used to reduce employer contributions during 2016.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Trustees to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Global Tech Retirement Plan

Notes to Financial Statements

Note 2: Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Trustees determine the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make note repayments and the Trustees deem the participant note to be in default, the participant note balance is reduced and a deemed distribution is recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2016 excess contributions to the applicable participants prior to March 15, 2017.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participants' accounts and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events

For the year ended December 31, 2016, the Trustees have evaluated subsequent events

See Independent Auditor's Report

Global Tech Retirement Plan
Notes to Financial Statements

Note 2: Summary of Significant Accounting Policies (continued)

for potential recognition and disclosure through September 14, 2017, the date on which the financial statements were available to be issued.

Note 3: Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014 that the Plan is designated in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Trustees and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan may be subject to a routine audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believe it is no longer subject to income tax examinations for years prior to 2013.

Note 4: Information Certified by Custodian

The Trustees have elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2015 and 2016. Accordingly, Ascensus Inc. (acting on half of Ascensus Trust Company, the custodian) has certified the completeness and accuracy of the investment activity for the years ending December 31, 2016 and 2015, including the information summarized in Note 5.

Note 5: Investments and Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Global Tech Retirement Plan
Notes to Financial Statements

Note 5: Investments and Fair Value Measurement (continued)

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Money Market Funds: Valued at cost plus accrued interest.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Investment allocations between levels may change from year to year based on new investment choices available to Plan participants. The following tables sets forth by level, within the fair value hierarchy, the Plan's investments.

Ascensus Inc. acting on behalf of Ascensus Trust Company, the custodian as defined by the Plan, certifies the investments of the Plan. Vanguard Group Inc. is a related entity of Ascensus Inc. and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in administrative expenses.

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
