Upon meeting the service and age requirements, eligible employees will automatically have 3% of gross wages contributed to the Plan unless otherwise elected. Participants may also rollover amounts representing distributions from other qualified defined benefit or contribution plans. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions in accordance with provisions of the IRC. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral amounts set at 3% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. Additional profit sharing amounts may be contributed at the option of the Plan Sponsor's Board of Directors. During the years ended December 31, 2016 and 2015, no profit sharing contributions were made.

1. **Description of Plan (continued):**

Participant accounts

Each participant's account is credited with the participant's contribution, Company contributions, if any, and an allocation of Plan earnings. Participant accounts are charged with direct expenses and an allocation of Plan expenses. Allocations are based on participant earnings, account balances or specific participant transactions as defined. Benefits to which a participant is entitled are funded exclusively from the individual participant's account. All investments are directed by the Plan's participants.

Vesting

Participants are immediately vested in their salary reduction contributions and rollover accounts plus actual earnings thereon. Vesting in Company discretionary contributions are based on years of service. Such contributions, if any, vest in accordance with the Plan's vesting schedule. A participant is vested after six years of credited service.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50 percent of their vested account balance. Loan terms range from one to five years or up to twenty years for the purpose of purchasing a principal residence. Loans are secured by the balance in the participant's account and bear interest at the prime rate plus one percent, which is fixed at the time of the loan. Principal and interest is paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the participant's vested interest in his or her account, or in installments over a period not greater than the participant's or the participant's spouse's assumed life expectancy determined at the time of distribution. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. Participants are eligible for in-service distributions from their 401(k) and profit sharing accounts upon attaining the age of 59½ years.

1. **Description of Plan (continued):**

Forfeited accounts

Forfeited non-vested account balances are used to reduce future employer contributions. Forfeitures may be applied to pay Plan expenses, or may be used to reduce future employer contributions. At December 31, 2016 and 2015, forfeited, non-vested accounts were $14,049 and $13,975, respectively.

Investments options

The assets of the Plan are allocated to the various investment funds at the direction of the participant. Upon enrollment, a participant may direct his or her 401(k) contributions in any of the various investment options which are offered by T.D. Ameritrade Trust Company.

Roth elective deferrals

The Plan does not allow elective deferrals or conversions of Roth 401(k) deposits.

2. **Summary of significant accounting policies:**

Basis of accounting

The accompanying financial statements have been prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Consequently, revenues and gains are recognized when earned, and expenses and losses are recognized when incurred.

Accounting methods

Net assets available for benefits and changes in net assets available for benefits differ from that reported on Internal Revenue Service ("IRS") Form 5500, *Annual Return/Report of Employee Benefit Plans*. This difference is the result of using the cash basis for governmental reporting purposes and the accrual basis for financial reporting purposes. See Note 9 for a reconciliation of the financial statements to Form 5500.

2. Summary of significant accounting policies (continued):

Use of estimates

The preparation of financial statements in accordance with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the statement of changes in net assets available for benefits includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Reclassifications

Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform to the presentation in the current year financial statements.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as charges to the participants' accounts. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

2. **Summary of significant accounting policies (continued):**

Excess contributions payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions. The Plan had no excess contributions as of December 31, 2016 and 2015.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Participants' accounts are charged a fee for loan disbursements of $100 and a fee for distributions of $40. Investment related expenses are included in the statement of changes in net assets available for benefits.

Adoption of new accounting pronouncement

In May, 2015, the FASB issued ASU 2015-07, "*Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per share (or its Equivalent)*". The amendments in this ASU remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. The purpose of this new ASU is to eliminate the diversity in the way in which investments measured using net asset value per share as a practical expedient are classified in the fair value hierarchy.

This ASU is effective for fiscal years beginning after December 15, 2016 for all non-public entities, with early adoption permitted. The amendments are to be applied retrospectively. Management has elected to early adopt the amendments of this ASU. Such adoption has no effect on the net assets available for benefits and changes in net assets available for benefits as of and for the year ended December 31, 2015.

3. Information certified by TD Ameritrade Trust Company

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The Trustee, TD Ameritrade Trust Company had supplied the plan's administrator with a certification as to the completeness and accuracy of all information regarding investment assets, notes receivable from participants, transactions, and income presented in the statements of net assets available for benefits as of December 31, 2016 and 2015 and the statement of changes in net assets available for benefits for the year ended December 31, 2016 and the supplemental schedule of assets held at end of year as of December 31, 2016.

4. Fair value measurements:

FASB ASC 820, "*Fair Value Measurements*" establishes a framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs derived principally from, or corroborated by, observable market data, by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

4. Fair value measurements (continued):

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund: Valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the common collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no transfers or reclassifications of investments between levels within the fair value hierarchy during the year ended December 31, 2016 and 2015.

4. Fair value measurements (continued):

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2016 and 2015. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

	Assets at fair value as of December 31, 2016			
Description	Level 1	Level 2	Level 3	Total
Assets:				
Mutual funds	$ 5,935,721	$ -	$ -	$ 5,935,721
Total assets in the fair value hierarchy	5,935,721	-	-	5,935,721
Investments measured at net asset value (a):				
Collective trust funds	-	-	-	-
	$ 5,935,721	$ -	$ -	$ 5,935,721

	Assets at fair value as of December 31, 2015			
Description	Level 1	Level 2	Level 3	Total
Assets:				
Mutual funds	$ 5,096,128	$ -	$ -	$ 5,096,128
Total assets in the fair value hierarchy	5,096,128	-	-	5,096,128
Investments measured at net asset value (a):				
Collective trust funds	-	-	-	739,476
	$ 5,096,128	$ -	$ -	$ 5,835,604

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

4. Fair value measurements (continued):

In accordance with the fair value measurements and disclosure guidelines; the following table summarizes investments for which fair value is measured using the net asset value per share practical expedient. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2015	Fair value	Unfunded commitments	Redemption frequency	Redemption notice period
Collective trust fund	$ 739,476	N/A	Daily	12 months

5. Related party transactions and party-in-interest transactions

The Plan makes loans to participants and therefore, these transactions qualify as parties-in-interest transactions.

Certain Plan investments include shares of mutual funds managed by T.D. Ameritrade Trust Company. T.D. Ameritrade Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are charged to investment gains, as they are paid through revenue sharing, rather than a direct payment. The Plan paid direct fees of $22,316 to the Trustee in 2016, related to costs incurred as Plan custodian, which were not covered by revenue sharing.

6. Plan termination:

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan, subject to the provisions of ERISA. Upon Plan termination, participants become 100% vested in their employer contributions.

7. Tax status

The IRS has determined and informed the Company that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

8. Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various financial risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

9. Reconciliation of financial statements to IRS Form 5500:

The following are reconciliation of amounts reported in the financial statements to amounts reported on Form 5500, Schedule H as of December 31, 2016 and 2015:

	2016	2015
Net assets available for benefits per the financial statements	$ 6,402,249	$ 6,329,009
Participant contributions receivable	30	-
Participant notes receivable	4,000	(5,050)
Net assets available for benefits per Schedule H of Form 5500	$ 6,406,279	$ 6,323,959

The following is a reconciliation of changes in net assets available for benefits per the financial statements to Schedule H of Form 5500:

	2016
Change in net assets available for benefits per the financial statements	$ 73,240
Change in participant contribution receivable	24,030
Benefits paid to participants	(14,950)
Change in net assets available for benefits per Schedule H of the Form5500	$ 82,320

Differences result from the timing of participant contributions receivable and the recognition of loan defaults, which are based on the accrual method of accounting for the financial statements versus the cash-basis method for governmental reporting on Form 5500, Schedule H.

10. Subsequent events:

The Plan has evaluated subsequent events through October 10, 2017, which is the date the financial statements are available for issuance, and have determined that except for the matter discussed in the following paragraph, there are no subsequent events that require disclosure under accounting principles generally accepted in the United States of America.
