Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Home Nursing Agency's Pension Plan, which comprise the statements of net assets available for benefits as of December 31, 2016 and June 30, 2016, and the related statements of changes in net assets available for benefits for the six-month period ended December 31, 2016 and the year ended June 30, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in *Note 4*, which was certified by Delaware Charter Guarantee and Trust Company, d/b/a Principal Trust Company and Principal Life Insurance Company, the custodians of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodians hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the custodians as of and for the six-month period ended December 31, 2016, and the year ended June 30, 2016, that the information provided to the plan administrator by the custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary Information

The supplemental schedules listed in the table of contents are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974* and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*.

Home Nursing Agency's Pension Plan

Notes to Financial Statements

December 31, 2016 and June 30, 2016

Note 1: Description of the Plan

The following description of Home Nursing Agency's Pension Plan (Plan) provides only general information. Additional information about the vesting and benefit provisions and the Pension Benefit Guarantee Corporation's (PBGC) benefit guarantee is contained in the plan document and *Summary Plan Description*, which are available from the plan administrator.

General

The Plan is a noncontributory defined benefit plan covering substantially all employees of Home Nursing Agency Affiliates (Company) and provides for retirement, death and disability benefits. The Plan is subject to provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Principal Financial Group is the custodian of the Plan.

On November 11, 2009, the Board of Directors unanimously approved a recommendation that all new employees hired on or after January 1, 2010, will be enrolled in a separate defined contribution plan. No current employees lost any benefits.

As a result of the Company merger with University of Pittsburgh Medical Center (UPMC), effective December 31, 2013, the Plan was amended to freeze the accrued benefit so no additional benefits will accrue after December 31, 2013. Effective January 1, 2014, participants began participating in the UPMC Cash Balance Plan.

Effective July 1, 2016, the Plan changed from a June 30 year end to December 31, 2016.

Plan Merger

Effective December 31, 2016, the Plan was merged into the UPMC Basic Retirement Plan and the assets and liabilities of the Plan were transferred to the UPMC Basic Retirement Plan. On December 30, 2016, the plan assets were liquidated into cash. Upon the transfer of such assets, the obligation to provide benefits accrued under this Plan as of December 31, 2016, shall cease to be an obligation of the Plan and will instead become an obligation of the UPMC Basic Retirement Plan.

Contributions

The Company agreed to voluntarily contribute such additional amounts that are necessary to provide assets sufficient to meet the benefits to be paid to plan members. The Company's intention was to make contributions in amounts sufficient to annually fund the Plan's current service cost and the initial past-service costs plus interest on them over a period of 30 years. The Plan met the minimum funding requirements established by ERISA.

The Company had the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Home Nursing Agency's Pension Plan

Notes to Financial Statements

December 31, 2016 and June 30, 2016

Pension Benefits

Benefits under the Plan are based on 1.25% of the employees' highest average monthly compensation (during any 60 consecutive months) multiplied by the employee's total number of benefit service years, but not more than 40 years. Normal retirement age for plan benefits is 65. Participants may elect to receive reduced benefits upon early retirement at age 55. Monthly pension benefit payments are determined for each participant according to the retirement option selected. When a married participant retires, the normal benefit under the Plan is a qualified joint and 50% survivor annuity with the participant's spouse. For an unmarried participant, the normal retirement benefit is a single-life annuity. A participant may elect to receive benefits in a form other than noted above, with a spouse's written permission, as applicable.

Death Benefits

The spouse of a participant will receive a 50% survivor annuity, as defined in the Plan, upon the death of the participant. The surviving spouse annuity is equal to 50% of the participant's monthly benefit. This benefit is immediately payable to the spouse if the participant was already receiving benefits. If the participant was not already receiving benefits, payments to the spouse may commence as of the earliest date the participant would have received benefits.

Vesting

The pension benefits for the Plan are fully vested after seven years. However, a participant is always fully vested upon reaching the normal retirement age.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Home Nursing Agency's Pension Plan

Notes to Financial Statements

December 31, 2016 and June 30, 2016

Valuation of Investments and Income Recognition

Investments are reported at fair value. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end. Pooled separate accounts are valued at estimated fair value as provided by Principal Life Insurance Company.

The Plan uses an annuity contract that has certain former participants retired under a benefit index alternative. Under this arrangement, a benefit index is established. The benefit index represents the amount needed to purchase an annuity for each retiree under this alternative. Annuity payments are made directly from allocated plan funds to these retirees as long as there are assets in the contract to support the payments. In the event assets under the contract are equal to or less than the benefit index amount, annuities will be purchased from Principal Life Insurance Company, and therefore, this funding arrangement meets the definition of an allocated annuity contract. The investments underlying these contracts accordingly have been excluded from plan assets. Although the investments underlying these contracts have been excluded from plan assets, the actual experience of the fund, *i.e.*, interest earnings, benefit payments, mortality changes and changes in the purchase price of annuities, has been included in the statement of changes in net assets available for benefits as increase/decrease in benefit index fund. The increase in the benefit index fund for December 31, 2016 and June 30, 2016, was \$198,466 and \$56,473, respectively. Effective August 26, 2016, \$7,961,824 was paid out of the Plan to purchase a single premium annuity contract for the benefit index group. Therefore, the allocated annuity contract obligation was removed from the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Accumulated Plan Benefits

Accumulated plan benefits (see *Note 6*) are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- (a) Retired or terminated employees or their beneficiaries
- (b) Present employees or their beneficiaries

Home Nursing Agency's Pension Plan

Notes to Financial Statements

December 31, 2016 and June 30, 2016

Benefits under the Plan are based on employees' compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years preceding the valuation date. Benefits payable under all circumstances—retirement, death, disability and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts that are excluded from plan assets are excluded from accumulated plan benefits.

Note 3: Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- (b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations discussed below.
- (c) Vested benefits not insured by the PBGC.
- (d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Home Nursing Agency's Pension Plan

Notes to Financial Statements

December 31, 2016 and June 30, 2016

Note 4: Certification of Plan Custodians

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Delaware Charter Guarantee and Trust Company, d/b/a Principal Trust Company and Principal Life Insurance Company, the custodians of the Plan, have certified the following information included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments as shown in the statements of net assets available for benefits as of December 31, 2016 and June 30, 2016.
- Investment income as shown in the statements of changes in net assets available for benefits for the six-month period ended December 31, 2016 and the year ended June 30, 2016.
- Investment information included in the accompanying schedule of assets as of December 31, 2016, and schedule of reportable transactions for the six-month period ended December 31, 2016.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

Note 5: Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- | | |
|----------------|--|
| Level 1 | Quoted prices in active markets for identical assets or liabilities. |
| Level 2 | Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. |

Recurring Measurements

There were no assets recognized in the accompanying statement of net assets available for benefits as of December 31, 2016.

The following table presents the fair value measurements of assets recognized in the accompanying statement of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at June 30, 2016:

	Fair Value	June 30, 2016 Fair Value Measurements Using		
		Level 1	Level 2	Level 3
Mutual funds	\$ 2,968,845	\$ 2,968,845	\$ -	\$ -
Pooled separate accounts	31,271,227	-	31,271,227	-
	<u>\$ 34,240,072</u>	<u>\$ 2,968,845</u>	<u>\$ 31,271,227</u>	<u>\$ -</u>

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the period ended December 31, 2016. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include mutual funds and are valued at the net asset value (NAV) of shares held by the Plan at year end. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include pooled separate accounts and are valued at the net asset value (NAV) as determined by Principal Life Insurance Company based on the market value of the underlying investments. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The Plan is not invested in any Level 3 securities.

The value of the pooled separate accounts, classified as alternative investments, is determined using net asset value (or its equivalent) as a practical expedient. Pooled separate accounts invest primarily in short-term securities, bonds and domestic and international stocks. There are no unfunded commitments and redemptions can occur daily. Investments for which the Plan expects to have the ability to redeem its investments with the investee within 12 months after the reporting date are categorized as Level 2. Investments for which the Plan does not expect to be able to redeem its investments with the investee within 12 months after the reporting date are categorized as Level 3.

Note 6: Accumulated Plan Benefits

An actuary from Principal Financial Group determines the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information calculated as of the beginning of each plan year prepared by the actuary as of July 1, 2016 and July 1, 2015, is as follows:

	12/31/2016	6/30/2016
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving payments	\$ 11,644,186	\$ 13,519,780
Other participants	10,161,931	8,656,331
	<u>21,806,117</u>	<u>22,176,111</u>
Nonvested benefits	121,074	210,170
Total actuarial present value of accumulated plan benefits	<u>\$ 21,927,191</u>	<u>\$ 22,386,281</u>

Changes in the actuarial present value of accumulated plan benefits were as follows:

	12/31/2016	6/30/2016
Actuarial present value of accumulated plan benefits, beginning of year	<u>\$ 22,386,281</u>	<u>\$ 20,326,542</u>
Increase for interest due to the decrease in the discount period	2,249,343	2,095,372
Benefits accumulated and plan experience	(37,987)	150,698
Change in assumptions	-	3,705,942
Transfers to benefit index option	(1,331,207)	(2,669,890)
Benefits paid	<u>(1,339,239)</u>	<u>(1,222,383)</u>
Net increase (decrease)	<u>(459,090)</u>	<u>2,059,739</u>

Notes to Financial Statements

December 31, 2016 and June 30, 2016

Significant assumptions underlying the actuarial computations are:

	12/31/2016	6/30/2016
Assumed rate of return on investments	7.00%	7.00%
Normal retirement age	65 years old	65 years old
Mortality basis	Adjusted RP-2014 Mortality table with MP-2015 projection scale with Generational Annuitant and Non-Annuitant, Male and Female	Adjusted RP-2014 Mortality table with MP-2015 projection scale with Generational Annuitant and Non-Annuitant, Male and Female

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 7: Related Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Plan invests in certain pooled separate accounts of a plan custodian. Direct fees expensed by the Plan to the custodian for services amounted to \$16,842 and \$65,804 for the period ended December 31, 2016, and the year ended June 30, 2016, respectively.

The Company provides certain administrative services at no cost to the Plan. The Company pays certain accounting and auditing fees relating to the Plan.

Note 8: Tax Status

The Plan obtained its latest determination letter on October 1, 2014, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Notes to Financial Statements

December 31, 2016 and June 30, 2016

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 10: Subsequent Events

Subsequent events have been evaluated through October 5, 2017, which is the date the financial statements were available to be issued.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
HOME NURSING AGENCY'S PENSION PLAN
EIN 25-1518698 Plan No. 001

Assumptions prescribed by law

Mortality	During benefit payment period: IRS Prescribed Mortality - Generational Annuitant, male and female. Before benefit payment period: IRS Prescribed Mortality - Generational Non-annuitant, male and female.
------------------	--

Assumptions selected by actuary

Inflation	2.25% increase per year. See Long-Term Capital Market Assumptions link.
Asset return	7.00% for the current plan year. The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets. This is the best estimate available of upcoming year's expenses.
Retirement	Active and inactive participants are assumed to retire at normal retirement age as defined in Plan provisions . This assumption is based on the results of recent experience analysis and anticipated future experience.
Disability	None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.
Marriage	75% married; husbands are 3 years older than wives. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.
Withdrawal	2003 Society of Actuaries Small Plan Age Table, multiplied by 1.00. We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.00 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.
Form of benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement age.

Methods prescribed by law

Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Included in Funding Target is the value of any missed required minimum distributions (defined in IRC §401(a)(9) and Treasury Regulation §1.401(a)(9)), equal to back payments with interest at 7.50%.
--------------------------	--

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
HOME NURSING AGENCY'S PENSION PLAN
EIN 25-1518698 Plan No. 001

Target Normal Cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

HCE benefit payment restrictions

A ratio of the plan assets and accrued liability is used to determine if restrictions apply. Assets and accrued liability are as of the valuation date and are reduced by:

- any retiree benefit index or floor
- amounts for HCEs who were previously restricted
- an amount for the retiring HCE

The estimated HCE ratio illustrated in this report is based on the market value of plan assets (excluding late deposits) and funding target as of the valuation date. The funding target uses the non-stabilized interest rates as defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods could be used.

Methods selected by plan sponsor

Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates

24-month average with no weighting to prior law basis. Use rates where February is the last month included in the average.

PBGC premium basis

Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 07/01/2015 plan year and the method must be used for five years before a change can be made.

Segment 1	Segment 2	Segment 3
years 0-5	years 5-20	years 20+
1.44%	3.46%	4.48%

Methods elected by actuary

Retirees

Assets and liabilities for current and future retirees are included.

Vested benefits

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
HOME NURSING AGENCY'S PENSION PLAN
EIN 25-1518698 Plan No. 001

applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality

Rates

Adjusted RP-2014 Mortality (baseline mortality table as of 2006 based on experience study data for private pension plans underlying RP-2014).

Mortality improvement (MI)

MP-2015.

During benefit payment period

Above table with generational MI, Annuitant, male and female.

Before benefit payment period

Above table with generational MI, Non-annuitant, male and female.

The Society of Actuaries is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. This table and improvement scale is based on the data published by the SOA in October 2015.

Interest rate used to value liabilities

6.50%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
