Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions up to \$6,000. Participants may also contribute amounts representing distributions from other qualified retirement plans. The Company makes matching contributions of 50 percent of the first 4 percent of compensation as defined in the Plan that a participant contributes to the Plan. The Company makes additional Company regular contributions of 3 percent of the compensation for eligible employees. All contributions are subject to certain limitations. Matching contributions were \$1,067,122 in 2016. Company regular contributions were \$1,909,338 in 2016.

Participant accounts: Each participant's account is credited with the participant's contribution and Company matching contributions and receives an allocation of Company regular contributions, if any, Plan earnings and administrative expenses. Allocations are based on participant account balances or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Vesting: Participants are immediately vested in their elective contributions and the Company matching contribution plus the actual earnings thereon. Company regular contributions vest accordingly to the following schedule:

Years of Service	Vesting Percentage
Less than 1 year	0%
1 year but less than 2 years	13%
2 years but less than 3 years	26%
3 years but less than 4 years	40%
4 years but less than 5 years	60%
5 years but less than 6 years	80%
6 years or more	100%

Investment options: Upon enrollment in the Plan, participants direct the investment of their account balances into a variety of investment options, as more fully described in the Plan's literature. Participants may change their investment options daily.

Notes to Financial Statements

Note 1. Plan Description (Continued)

Forfeitures: At December 31, 2016 and 2015, there were no forfeited nonvested accounts. These accounts are used to reduce future Company contributions. In 2016, Company contributions were reduced by \$162,789 from forfeited nonvested accounts.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at market rates. At December 31, 2016, rates ranged from 3.25 to 3.50 percent on all outstanding loans. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service, death, retirement, or at the option of the employee, a participant will receive a lump-sum distribution. Withdrawals may also be made from the Plan in cases of financial hardship.

Note 2. Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Committee determines the Plan's valuation policies utilizing information provided by the investment custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Excess contribution payable: Amounts payable to participants for contributions in excess of amounts allowed by the IRC are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2016 excess contribution to the applicable participants prior to March 15, 2017.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: The Plan Administrator has evaluated subsequent events for recognition and/or disclosure through October 12, 2017, which is the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Glenview State Bank, the trustee

The following is a summary of the Plan's asset and income information as of December 31, 2016 and 2015, and for the year ended December 31, 2016, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	December 31,	
	2016	2015
Shares of registered investment companies	\$ 120,743,689	\$ 113,313,640
Units of common/collective trust, at fair value	11,533,189	10,381,258
Notes receivable from participants	2,210,798	2,077,795
Net appreciation in fair value of investments	3,712,384	
Interest and dividends	3,107,930	
Interest income on notes receivable from participants	70,641	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Shares of registered investment companies: Valued at the daily closing price as reported by the registered investment companies. Shares of registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

Units of common/collective trust: Valued based on the NAV of units of the common/collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

	2016			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies:	\$ 120,743,689	\$ -	\$ -	\$ 120,743,689
Total assets in fair value hierarchy	\$ 120,743,689	\$ -	\$ -	120,743,689
Investments measured at NAV (a)				11,533,189
Investments at fair value				\$ 132,276,878

	2015			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies:	\$ 113,313,640	\$ -	\$ -	\$ 113,313,640

Note 4. Fair Value Measurements (Continued)

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table sets forth additional disclosure of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2016 and 2015:

Investment	2016 Fair Value	2015 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Federated Capital Preservation Fund	<u>\$ 11,533,189</u>	<u>\$ 10,381,258</u>	<u>\$ -</u>	Daily	12 months

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2016, there were no transfers in or out of Levels 1, 2, or 3.

Note 5. Related Party Transactions

Plan assets are held and invested by Glenview State Bank. Glenview State Bank is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan paid \$11,972 in fees to Glenview State Bank during the year ended December 31, 2016.

Certain accounting and administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan for such services. Other expenses of the Plan are paid by the Company.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their company contribution.

Notes to Financial Statements

Note 7. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated September 23, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan Administrator believes the Plan is designed and is being operated in accordance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2016 and 2015.
