1. Description of Plan

The following description of the Scanlon Auto Group 401(k) Plan (the Plan) of Ft. Myers Lincoln Mercury, Inc. and Scanlon Imports, Inc. (collectively, the Company) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering all employees of the Company who are at least 21 years of age and have performed one year of continuous service, as defined in the Plan document. The Plan was originally established on August 1, 1994 and was most recently amended and restated effective November 1, 2015. The Plan's Board of Trustees is responsible for the oversight of the Plan. The Board of Trustees determines the appropriateness of the Plan's investment offerings and monitors investment performance.

The Plan is subject to the provisions of the Internal Revenue Code of 1986, as amended, (the Code) and the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
Participants may elect to defer and contribute pre-tax, post-tax, and catch-up contributions to the Plan. A participant's combined pre-tax, post-tax, and catch-up contributions cannot exceed the limits set forth under the Code. With the approval of the Plan administrator, participants can contribute amounts representing distributions from other qualified defined benefit or defined contribution plans, provided that the receipt of such amounts does not adversely affect the qualified tax status of the Plan. Participants are fully vested in these amounts. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan provides for discretionary employer matching and discretionary employer profit sharing contributions, as determined by the Company. To be eligible for employer contributions, participants must be actively employed at the end of the Plan year. The Company made no discretionary employer contributions to the Plan for the years ended December 31, 2016 and 2015.

Participant Accounts
Each participant's account is credited with the participant's contributions, the Company's discretionary matching contribution, the Company's discretionary profit sharing contribution, an allocation of Plan earnings or losses, and charged with an allocation of administrative expenses, if any. The allocations are based on a participant's account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Notes Receivable from Participants
The Plan permits its participants to obtain loans against their account balance. Participants may borrow from their vested accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 reduced by the highest outstanding loan balance within the last 12 months or 50% of their vested account balances. With the exception of loans used to purchase a primary residence, loan terms are limited to a maximum of five years. Notes receivable from participants are secured by the balance in the participant's account and bear interest at the prime rate plus 1% at the date the loan application is processed. Principal and interest are paid ratably through regular payroll deductions for actively employed participants. Upon termination of employment, any outstanding loans are due and payable following the termination date. Certain restrictions apply to notes receivable from participants, as defined in the Plan document. As of December 31, 2016 and 2015, the rate of interest on outstanding notes receivable from participants ranged from 4.25% to 4.5% with various maturities through 2021.

1. Description of Plan...continued

Vesting
Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participants vest in discretionary employer matching and profit sharing contributions based on years of continuous service and become fully vested after six years of credited service.

Forfeitures
Forfeitures represent the non-vested portion of terminated participants' account balances plus related earnings. These amounts can be used to reduce future employer contributions. As of December 31, 2016 and 2015, forfeitures held by the Plan totaled $6,370.

During the years ended December 31, 2016 and 2015, no forfeitures were used to reduce employer contributions.

Payment of Benefits
Withdrawals may be made from a participant's account at retirement, death, disability, or termination of employment. On termination of employment, a participant may elect to rollover the balance of his or her account into another qualified plan, receive a lump-sum amount equal to the value of his or her account, or receive installment payments. Participants over the age of 59 ½ may elect to withdraw all or a portion of their account balance. In addition, participants who qualify for a hardship withdrawal may elect to withdraw all or a portion of their pre-tax contribution balance. All distributions are subject to the applicable provisions of the Plan. The Plan can elect to distribute funds out of the Plan when a participant terminates employment and has less than $5,000 of a vested balance in the Plan.

Investment Elections
Each participant shall direct the investment of his or her account and shall elect among various mutual funds and a collective trust fund. Each participant has the ability to change his or her investment allocations at any time.

2. Summary of Significant Accounting Policies

Basis of Presentation
The financial statements have been prepared on the accrual basis in accordance with accounting standards set by the Financial Accounting Standards Board (FASB) and the Department of Labor (DOL). The FASB sets generally accepted accounting principles (GAAP) to ensure net assets available for benefits and changes in net assets available for benefits are consistently reported. References to GAAP issued by the FASB in these notes are to the FASB Accounting Standards Codification (ASC).

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies...continued

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at amortized cost, which represents the unpaid principal balance plus any accrued, but unpaid interest. Interest income on notes receivable from participants is recorded on an accrual basis. At December 31, 2016 and 2015, accrued but unpaid interest has been deemed insignificant to the Plan. Related fees are recorded as administrative expenses when incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2016. If a participant ceases to make loan repayments and the plan administrator deems the note receivable from the participant to be a distribution, the note receivable from participant is reduced and a benefit payment is recorded within the statement of changes in net assets available for benefits.

Payment of Benefits
Benefit payments are recorded when paid.

Administrative Expenses
Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to participant initiated transactions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments. For the years ended December 31, 2016 and 2015, the Company paid certain other administrative expenses incurred by the Plan.

Recently Adopted Accounting Policies
In May 2015, FASB issued Accounting Standards Update (ASU) No. 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2015-07) which removes the requirement to present certain investments for which the practical expedient is used to measure fair value at net asset value within the fair value hierarchy table. Instead, a Plan would be required to include those investments as a reconciling item so that the total fair value amount of investments in the disclosure is consistent with the fair value investment balance on the statements of net assets available for benefits. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. The Plan elected to early adopt ASU 2015-07 for the years ended December 31, 2016 and 2015, as permitted, and has applied ASU 2015-07 retrospectively, as required. The adoption had no effect on the Plan's statements of net assets available for benefits as of December 31, 2016 and 2015, or the statements of changes in net assets available for benefits for the years then ended.

2. Summary of Significant Accounting Policies...continued

In July 2015, FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* (ASU 2015-12). Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is required to be applied retrospectively. Part II is reflected in the statements of net assets available for benefits and in the notes to the financial statements.

3. Fair Value Measurements

The Plan discloses the fair value of Plan investments in accordance with FASB ASC Topic No. 820 (ASC 820), *Fair Value Measurements*. The framework under ASC 820 provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

3. Fair Value Measurements...continued

Following, is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation techniques used at December 31, 2016 and 2015.

Mutual funds - Mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end, and are classified as Level 1.

Collective trust fund – The collective trust fund is valued at the net asset value (NAV) of units of the collective trust. The NAV, as provided by Reliance Trust Company (effective January 2016) and State Street Bank and Trust Company (prior to January 2016), is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Transactions of investments or withdrawals may occur on a daily basis and there are no redemption restrictions on the fund. There are no unfunded commitments at December 31, 2016 and 2015.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,213,734	$ -	$ -	$ 2,213,734
Investments measured at NAV				715,672
Total investments at fair value				$ 2,929,406

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,575,418	$ -	$ -	$ 2,575,418
Investments measured at NAV				683,141
Total investments at fair value				$ 3,258,559

4. Information Prepared and Certified by Plan's Trustees

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustees of the Plan, Reliance Trust Company (effective January 1, 2016) and State Street Bank and Trust Company (prior to January 1, 2016) have certified to the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2016 and 2015, and Schedule H, line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2016, and the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2016 and 2015.

5. Tax Status

The IRS has determined and informed the plan sponsor by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

7. Party-in-Interest Transactions

Certain Plan investments were in a collective trust fund managed by State Street Bank and Trust Company, a trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions as that term is defined in Section 3(14) of ERISA. In addition, the Plan issues loans to participants, which are secured by the balances in the participants' accounts, which also constitute party-in-interest transactions.

8. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Subsequent Events

The Plan has evaluated subsequent events for potential disclosure or recognition through October 12, 2017, the date the financial statements were available to be issued.

The Plan was amended effective January 1, 2017 to change the eligibility requirements for entry into the Plan.
