Sub-accounts are measured in terms of accumulation units. The sub-accounts are valued based on the quoted market prices of the mutual funds. Certain fund fees and expenses, mortality and risk charges, and administration charges are deducted from the value of the mutual funds to arrive at the value of the sub-accounts. The accumulation units are valued at Net Asset Value (NAV) on a daily basis. Participant transactions (issuances and redemptions) may occur daily. Were the Plan to initiate a full redemption of the pooled separate account, the investment advisor reserves the right to temporarily delay withdrawal from the pooled separate account in order to ensure that securities liquidations will be carried out in an orderly business.

OWENS HEALTHCARE 401(k) PLAN
Notes to Financial Statements
December 31, 2016 and 2015

NOTE A – PLAN DESCRIPTION

The following description of the Owens Healthcare 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

GENERAL
The Plan is a defined contribution plan covering substantially all employees of Owens Healthcare (the "Company"). The Company is a pharmacist-owned healthcare company specializing in the areas of retail pharmacy, compounding pharmacy, infusion services, medical equipment and respiratory services. The original Plan was established January 1, 1991 and was most recently amended effective April 1, 2015. The provisions of the Plan are included in the official Plan Document, which legally governs the operations of the Plan and is available for more detailed information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

ELIGIBILITY
Covered employees who have completed 500 hours of service and are age eighteen or older may elect to enter the Plan. In general, covered employees may enter the Plan on the first day of the month coinciding with or next following the date on which they satisfy the eligibility requirements.

PARTICIPANT AND COMPANY CONTRIBUTIONS
Each year, participants may elect to make contributions to the Plan, subject to a maximum annual limitation set by the Internal Revenue Service ("IRS") in the form of pre-tax or Roth contributions. Participants who have attained age 50 or more before the end of the plan year are eligible to make catch-up contributions. Participants may also rollover contributions to the Plan using amounts distributed to them from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

In addition, the Plan requires the employer to make mandatory safe harbor matching contributions whereby the employer matches 100% of each participant's deferral up to 3% of the participant's compensation and 50% of each participant's deferral between 3% and 5% of compensation. Contributions are subject to certain IRS limitations. Company contributions are invested as directed by the participant.

PARTICIPANT ACCOUNTS
Each participant's account is credited with the participant's contributions and allocations of (a) the employer's contributions, and (b) Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING
Participants are immediately 100% vested in their elective (voluntary) contributions, rollover contributions, employer Safe Harbor contributions and actual earnings thereon.

NOTES RECEIVABLE FROM PARTICIPANTS
The Plan provides that participants can borrow funds of at least $1,000 up to a maximum equal to the lesser of 50 percent of their vested account balance or $50,000. The loans are secured by the balance in the participant's account. The term of the loan cannot exceed five years, except if the loan proceeds are used to finance the purchase of a primary residence, in which case the loan term

NOTE A – PLAN DESCRIPTION – Cont.

may not exceed ten years. Principal and interest is paid ratably through payroll deductions.

BENEFIT PAYMENTS
Distribution of benefits are defined in the Plan document. Generally, distributions may be made upon retirement, total and permanent disability, reaching fifty-nine and one half years of age, termination of employment, or demonstration of a financial hardship. Participants or beneficiaries receive, upon request, either a lump-sum payment or installments paid over a fixed number of years, or any other form of payment that may be permitted under the Plan.

NOTE B – SUMMARY OF ACCOUNTING POLICIES

BASIS OF ACCOUNTING
The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

USE OF ESTIMATES
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION
Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note D for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES RECEIVABLE FROM PARTICIPANTS
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016, or 2015. If a participant ceases to make loan repayments and management deems the participant loan to be in default, the loan balance is reduced and a benefit payment is recorded.

PAYMENT OF BENEFITS
Benefit payments to participants are recorded when paid.

OPERATING EXPENSES
Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the

NOTE B – SUMMARY OF ACCOUNTING POLICIES – Cont.

participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation of the fair value of investments.

SUBSEQUENT EVENTS
Subsequent events were evaluated through August 28, 2017, which is the date the financial statements were available to be issued. Management is not required to and has not evaluated events or transactions that occurred after August 28, 2017.

NOTE C – UNAUDITED INVESTMENT INFORMATION CERTIFIED BY TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR Section 2520.103-8 of the Department of Labor Rules and Regulations and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the plan's trustee, The Standard Insurance Company, and was not subjected to any auditing procedures performed by the independent public accountants.

a. All investments shown in the accompanying statements of net assets available for benefits and the notes receivable from participants.

b. Net investment income from the investments, as shown in the accompanying statement of changes in net assets available for benefits, including dividends and interest income and net realized and unrealized appreciation (depreciation) in the fair value of assets.

NOTE D – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation method include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset and liability; and • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE D – FAIR VALUE MEASUREMENTS – Cont.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used by the Plan for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

***Pooled Separate Accounts**:* The underlying assets of the pooled separate accounts consist of funds known as sub-accounts. Each sub-account invests its shares or units in an underlying mutual fund. Sub-accounts are measured in terms of accumulation units. The sub-accounts are valued based on the quoted market prices of the mutual funds. Certain fund fees and expenses, mortality and risk charges, and administration charges are deducted from the value of the mutual funds to arrive at the value of the sub-accounts. The accumulation units are valued at Net Asset Value (NAV) on a daily basis. The NAV is not a publicly quoted price in an active market but is used as a practical expedient to estimate fair value. Participant transactions (issuances and redemptions) may occur daily. Were the Plan to initiate a full redemption of the pooled separate account, the investment advisor reserves the right to temporarily delay withdrawal from the pooled separate account in order to ensure that securities liquidations will be carried out in an orderly business.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016, and December 31, 2015. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2016

	Level 1	Level 2	Level 3	Total
Other Investments Measured at Net Asset Value (a)	-	-	-	6,244,242
Total Assets at Fair Value	$ -	$ -	$ -	$ 6,244,242

Assets at Fair Value as of December 31, 2015

	Level 1	Level 2	Level 3	Total
Other Investments Measured at Net Asset Value (a)	-	-	-	5,406,651
Total Assets at Fair Value	$ -	$ -	$ -	$ 5,406,651

(a) In accordance with Subtopic 820-10 certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets.

For the years ended December 31, 2016, and 2015, there were no transfers between levels.

NOTE D – FAIR VALUE MEASUREMENTS – Cont.

Investments Measured Using the Net Asset Value Per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2016, and 2015, respectively. There are no participant restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2016	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled Separate Accounts	$ 6,244,242	Not applicable	Daily	30 days

December 31, 2015	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled Separate Accounts	$ 5,406,651	Not applicable	Daily	30 days

NOTE E – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a benefit-responsive investment contract with The Standard Insurance Company. The Standard Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1 percent. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability for the Plan to transact at contract value with the issuer. These events may be different under each contract. Examples of such events include the following:

(1) The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code,
(2) Premature termination of the contracts,
(3) Plan termination or a merger,
(4) Changes to the Plan's prohibition on competing investment options,
(5) Bankruptcy of the plan sponsor or other plan sponsor events that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

NOTE E – INVESTMENT CONTRACT WITH INSURANCE COMPANY – Cont.

In addition, certain events allow the issuer to terminate the contracts with the plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

(1) Failure of the Plan sponsor to abide by state or federal law,
(2) Failure to render performance necessary to comply with the terms of the contract,
(3) Failure to maintain assets of at least $25,000,
(4) Plan disqualification,
(5) Failure to adopt the plan in a reasonable period of time.

The guaranteed investment contract allows the insurance company to terminate the agreement with 30 days advance written notice for reasonable cause.

NOTE F – RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

The Plan's assets are invested in pooled separate accounts and a group annuity contract sponsored by The Standard Insurance Company. The Standard Insurance Company is the trustee and recordkeeper for the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in the net appreciation in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

Audit fees and Third Party Administrator fees for services are paid by the Employer. In addition, the Employer provides certain accounting, administrative and investment management services to the Plan for which it receives no compensation.

NOTE G – TAX STATUS

The Plan is a volume submitter plan established by The Standard Retirement Services, Inc. The plan was granted an opinion letter from the Internal Revenue Service dated March 31, 2014 stating that the Plan document as then designed, was in compliance with Section 401 of the Internal Revenue Code, and, therefore, the underlying trust is not subject to tax under IRC 501(a). The Plan has been amended since receiving the determination letter. However, the plan sponsor is not aware of any course of action or series of events that have occurred that would adversely affect the qualified status of the Plan. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

NOTE H – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts including all employer contributions.

NOTE J – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

NOTE K – SUBSEQUENT EVENT

The Plan was amended effective April 25, 2017 to remove the requirement that an employee work 500 hours within a twelve-month period to become eligible for Plan entry. Only completion of 500 hours of service are now required. No other significant Plan provision changes were made. Participants should refer to the full Plan Document for a complete description of all Plan provisions.
