1. Description of Plan

The following description of the Oil City Iron Works 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan sponsored by Oil City Iron Works, Inc. ("the Company") for the benefit of the employees. The Plan was established December 1, 1994. The Plan is subject to the provisions of the Employee Retirement Income Security Act ("ERISA") of 1974.

Effective March 4, 2015, the Plan was amended and restated to bring the Plan into compliance with the Pension Protection Act of 2006 and other legislative and regulatory changes.

Effective January 1, 2016, the Plan was amended and restated to allow for employer discretionary matching contributions. Additionally, effective January 1, 2016, the Plan was amended and restated to eliminate the provision permitting employer safe-harbor contributions.

Effective March 1, 2016, the Plan adopted a volume submitter 401(k) and profit sharing plan sponsored by Massachusetts Mutual Life Insurance Company. The Plan's record-keeper and trustee changed from Fidelity Management Trust Company to Massachusetts Mutual Life Insurance Company and Reliance Trust Company as the record-keeper and trustee, respectively.

Eligibility
Employees of the Company who work 1,000 hours or more per year, have one year of service, and are age 21 or older are eligible to participate in the Plan. Employees are eligible to join the Plan as an active participant on the first day of the Plan year and the first day of the fourth, seventh, and tenth month of each Plan year.

Contributions
Each year, participants may contribute up to 100% of pretax annual compensation, as defined by the Plan, not to exceed limits as set by the Internal Revenue Service ("IRS"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also rollover amounts representing distributions from other qualified retirement plans. Effective March 1, 2016, participants have the option of designating a portion of their elective deferral contributions as Roth contributions. Participants direct the investment of their contributions into the various investment options offered by the Plan.

Effective January 1, 2016, at the discretion of the Board of Directors, the Company may elect to contribute a discretionary matching contribution equal to either a uniform percentage of a participants deferrals or a flat dollar amount for each participant. During 2016, the Company authorized no discretionary matching contributions.

At the discretion of the Board of Directors, the Company may elect to contribute a discretionary employer contribution equal to a uniform percentage of plan compensation. During 2016, the Company authorized no discretionary employer contributions.

Investment Options
Participants may direct the investment of their contributions into various options offered by the Plan. The Plan currently offers various mutual funds and a stable value common collective trust fund.

1. Description of Plan (continued)

Participant Accounts
Each participant's account is credited with the participant's contributions and Company's contributions. Plan earnings are allocated based on participant account balances. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participant accounts are valued daily to reflect income earned.

Vesting
Participants are always fully vested in their deferral contributions and any earnings thereon. Participants are fully vested in the Company's previous safe harbor contributions and any earnings thereon. Participants vest in any other employer contributions according to the table below. The Plan allows for amounts forfeited by participants to be used to reduce the Company's matching and employer contributions or to pay expenses associated with the operation and administration of the Plan.

Years of Service	Vested Percentage
Less than 2 years	0%
2 years	25%
3 years	50%
4 years	75%
5 years	100%

Notes Receivable from Participants
Participants may borrow from their fund accounts up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The interest rates for loans are equal to one percent above the Prime rate. The loans are repaid ratably through payroll deductions over a period of five years or less, unless such loan is for the purchase of a participant's primary residence.

Payment of Benefits
Upon termination of service due to death, disability, retirement or termination of employment, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in the form of a lump sum payment. A participant may withdraw part of the vested interest in his or her account upon attainment of age 59 ½, subject to Plan provisions. For account balances less than $5,000, a single lump sum payment will be made automatically into an individual retirement account upon termination. The Plan also permits hardship distributions to participants that can demonstrate an immediate and heavy financial need.

Forfeited Accounts
During the year ended December 31, 2016, participants forfeited $9,689 in prior employer contributions. At December 31, 2016 and 2015, forfeited nonvested accounts totaled $9,755 and $135, respectively. These amounts will be used to reduce future expenses incurred by the Plan or employer contributions. In 2016, forfeited nonvested accounts were not used to reduce administrative expenses or employer contributions.

2. Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with U.S. generally accepted accounting principles ("GAAP").

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. The Plan's common collective trust fund is stated at net asset value ("NAV") as determined by the trustee at the end of the plan year. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value investments.

The Plan invests in the Wells Fargo Stable Value Return Fund. The fund is a stable value fund held within a common collective trust, which has entered into fully benefit-responsive investment contracts to provide preservation of capital, stable income, and low principal volatility.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net apprecation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants represent loans and are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recognized on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loans to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits
Benefits are recorded when paid.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Certain investment and administration fees are deducted directly from participant's investment returns. Transaction costs borne by the Plan are charged to the individual participant who initiated the transaction to which the charge relates by reducing the participant's account balance.

2. Significant Accounting Policies (continued)

Recently Adopted and New Accounting Pronouncements
In May 2015, the Financial Accounting Standards Board ("FASB") issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The ASU removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. The Plan elected to adopt the ASU for the year ended December 31, 2015.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* The ASU simplifies the required disclosures related to employee benefit plans. Part I and Part III are not applicable to the Plan. Part II eliminates the requirement to disclose individual investments which comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by type. Part II also requires plans to continue to disaggregate investments that are measured using fair value by general type, however plans are no longer required to also disaggregate investments by nature, characteristics and risks. Furthermore, the disclosure of information about fair value measurements shall be provided by general type of plan asset. The Plan elected to adopt Part II of the ASU as of December 31, 2015.

Excess Contributions Payable
Amounts payable to participants for contributions in excess of IRS limitations are reflected in excess contributions on the statement of net assets available for benefits with a corresponding reduction in contributions on the statement of changes in net assets available for benefits. The Plan has reimbursed these excess contributions to participants prior to March 15, 2017.

Subsequent Events
Subsequent events have been evaluated through the date of the report of independent auditors, which is the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. Information Prepared and Certified by Trustees (unaudited)

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Reliance Trust Company and Fidelity Management Trust Company, the Trustees, have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

As of December 31,	**2016**	2015
Investments, at fair value:		
Self-directed brokerage account	**$ -**	$ 35,113
Common collective trust fund	**1,289,998**	869,758
Mutual funds	**4,593,899**	5,355,430
Total investments	**5,883,897**	6,260,301
Notes receivable from participants	**$ 482,037**	$ 494,193

For the Year Ended December 31,	**2016**
Net appreciation in fair value of investments	**$ 10,749**
Interest and dividend income	**120,037**
Interest income on notes receivable from participants	**23,465**

4. Fair Value Measurements

The fair value hierarchy prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

4. Fair Value Measurements (continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Quoted market prices are used to value investments in mutual funds, which are publicly traded funds of registered investment companies.

Common collective trust fund: The common collective trust fund is valued at the net asset value ("NAV") of the units held by the Plan. The NAV is used as a practical expedient to estimate fair value. The practical expedient would not be used if is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily.

Self-directed brokerage account: Consist of primarily common stock, which is valued at the last reported sales price on the last business day of the year.

There were no transfers of Plan investments between levels 1 and 2 during 2016. The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 4,593,899	$ -	$ -	$ 4,593,899
Total assets in fair value hierarchy	4,593,899	-	-	4,593,899
Investments measured at net asset value (a)				1,289,998
Total investments, at fair value				$ 5,883,897

4. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Self-directed brokerage account	$ 35,113	$ -	$ -	$ 35,113
Mutual funds	5,355,430	-	-	5,355,430

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available of benefits.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

As of December 31, 2016:

Investment	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Common Collective Trust Fund	$1,289,998	N/A	Daily	12 months

As of December 31, 2015:

Investment	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Common Collective Trust Fund	$869,758	N/A	Daily	12 months

5. Related-Party and Party In Interest Transactions

Certain Plan investments during the year were shares of mutual funds and common collective trust funds managed by Fidelity Investments. Fidelity Management Trust Company was the trustee of the Plan and, therefore, these transactions qualified as party in interest transactions.

Fees incurred by the Plan for investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. The Plan also made direct payments to the trustees and third party administrator totaling $42,794. These costs incurred by the Plan are included in administrative expense on the statement of changes in net assets available for benefits. The Plan Sponsor pays directly any other fees related to the Plan's operations.

6. Termination of the Plan

While it has not expressed any intent to do so, the Company has the right under the terms of the Plan to terminate the Plan at any time. In the event of termination, the Plan provides that all amounts credited to the respective accounts of the participants shall be fully vested.

7. Income Tax Status

The Plan has adopted a volume submitter 401(k) and profit sharing plan with cash or deferral arrangement sponsored by Massachusetts Mutual Life Insurance Company, which received a favorable opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, stating that the Plan, as then designed, was acceptable under Section 401(a) of the Code, and therefore, the related trust is exempt from taxation. The Plan itself has not received a determination letter from the IRS. However, Plan management believes the Plan, as adopted and amended, is operating within the guidelines of the Internal Revenue Code (IRC). Accordingly, no provision for federal income taxes has been provided in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require Plan Management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by IRS. The Plan is subject to routine audits taken by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2013.

8. Risks and Uncertainties

The Plan invests in various investment funds. Investments in general are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such change could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

9. Reconciliation to 5500
