HUNTER DOUGLAS INC.
EMPLOYEE SAVINGS 401(k) PLAN
NOTES to FINANCIAL STATEMENTS
December 31, 2016 and 2015

Note 1 – Plan Description

The following brief description of the Hunter Douglas Inc. Employee Savings 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General: The Plan is a defined contribution 401(k) Savings Plan covering substantially all employees of Hunter Douglas Inc. (the “Company” and “Plan Sponsor”). Participants must complete 1,000 hours of service in a Plan year or six months after the date of hire in order to be eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Company’s Board of Directors is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan’s investment offerings, monitors investment performance, and reports to the Company’s Board of Directors.

Participant Contributions: Participant contributions are made on a before-tax or a Roth 401(k) after-tax basis. Participants may elect to contribute from 1% to 50% of their compensation through before-tax or Roth 401(k) after-tax contributions, subject to Plan limits and the dollar deferral and non-discrimination limitations as prescribed by the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Employer Contributions: Effective January 1, 2013, the Company amended the Plan to make it a “safe harbor” 401(k) plan. Accordingly, effective January 1, 2013, the Company contributes a Safe Harbor Matching Contribution equal to 100% of the first 6% of base compensation that a participant contributes to the Plan on either a before-tax basis or Roth 401(k) after-tax basis. Company Safe Harbor Matching Contributions are added to a participant’s account each time a participant makes a contribution into the Plan.

In addition, effective January 1, 2013, the Company amended the Plan to add Company profit-sharing contributions (“Company Retirement Contributions”). Accordingly, effective January 1, 2013, the Company contributes 1.50% of an eligible participant’s compensation (or such other amount as may be determined by the Board of Directors in its discretion) to a participant’s account on an annual basis. The contribution will be made following the end of each calendar year. During March 2017, the Company made Company Retirement Contributions in the amount of \$3,155,555 for the plan year ended December 31, 2016. During March 2016, the Company made Company Retirement Contributions in the amount of \$3,035,444 for the plan year ended December 31, 2015.

HUNTER DOUGLAS INC.
EMPLOYEE SAVINGS 401(k) PLAN
NOTES to FINANCIAL STATEMENTS
December 31, 2016 and 2015

Note 1 – Plan Description (continued)

Participants' Accounts: Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of Company Retirement Contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are always 100% vested in their before-tax and Roth 401(k) after-tax contributions, any rollover amounts, the Company Safe Harbor Matching Contributions, and any investment earnings on those contributions.

Once a participant has completed five years of service with the Company, the participant will also be fully vested in the value of the Participant's Company matching contributions made prior to January 1, 2013, prior profit sharing contributions, and Company Retirement Plan Contributions and their earnings. A participant receives credit for one year of service for every plan year in which the participant completes at least 1,000 hours of service.

If a participant has less than five years of service, the participant may be partially vested in the value of any Company contributions and their earnings according to the following schedule:

<u>Years of Service</u>	<u>Vested % of Pre-2013 Company Matching Contributions and Company Retirement Plan Contributions</u>
Less than 1 year	0%
1 but less than 2	20%
2 but less than 3	40%
3 but less than 4	60%
4 but less than 5	80%
5 or more	100%

Upon termination of employment, the non-vested portion, if any, of a participant's Company matching contribution account shall be forfeited as the employee takes distribution of the vested portion. Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company contributions or to offset administrative expenses. During both 2016 and 2015, \$0 in forfeitures were used to offset administrative expenses. During 2016 and 2015, \$3,185 and \$16,281, respectively, in forfeitures were used to reduce Company contributions. At December 31, 2016 and 2015 there were \$407,847 and \$283,896, respectively, of forfeitures available to reduce future employer contributions or to offset administrative expenses.

Note 1 – Plan Description (continued)

Payment of Benefits: On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installment distributions.

Notes Receivable From Participants: Participants may borrow from their accounts a minimum of \$500 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The term of the loans ranges from one to five years. However, if the loan is used to acquire a principal residence, the payment term can be 15 years. Note 2 – Summary of Accounting Policies (continued)

Accounting Changes: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management had elected to early adopt the provisions of this new standard.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans, Defined Contribution Pension Plans and Health and Welfare Benefit Plans*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management had elected to adopt Parts I and II early.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodian. See note 3 for discussion of fair value measurements.

Note 2 – Summary of Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits: Benefits are recorded when paid.

Administrative Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTES to FINANCIAL STATEMENTS
December 31, 2016 and 2015

Note 3 – Fair Value Measurements (continued)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Commingled funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to Plan management's perceived risk of that investment.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. While Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, plan management instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Voya Institutional Trust Company, the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee with information included in the Plan's financial statements and supplemental schedule:

Interest on participant loans	197,861	190,163

The following presents select investments, with approximate percentage of the Plan’s net assets, as of December 31, 2016 and 2015.

	<i>December 31,</i>			
	<i>2016</i>		<i>2015</i>	
BNY Mellon U.S. Stock Index Fund	\$ 31,940,030	11%	\$ 25,344,138	10%

JP Morgan U.S. Equity Fund	18,452,968	7%	18,468,756	8%

During the years ended December 31, 2016 and 2015, the Plan’s investments (including gains and losses bought and sold, as well as held during the year), appreciated (depreciated) in value by \$10,399,758 and \$(11,628,355), respectively.

Note 5 – Related-Party Transactions and Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Voya Institutional Trust Company. Voya Institutional Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Management believes that fees paid during the year for administrative and managerial services rendered by Voya were based on customary and reasonable rates for such services. Notes receivable from participants are also considered exempt party-in-interest transactions.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in the company contribution portion of their account.

Note 7 – Income Tax Status

The Plan obtained its latest determination letter on October 3, 2012, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
