REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Audit and Risk Management Committee
Xavier University Defined Contribution Retirement Plan

We were engaged to audit the accompanying financial statements of Xavier University Defined Contribution Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2016, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note D. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2016 and 2015, and for the year ended December 31, 2016, stating that the certified information provided to the Plan administrator is complete and accurate.

As described in Note B to the financial statements, the Plan has not maintained sufficient accounting records and supporting documents relating to certain contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements may have been affected by these conditions.

Disclaimer of opinion

Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary information

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2016, and the Schedule of Delinquent Participant Contributions for the year ended December 31, 2016, are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

XAVIER UNIVERSITY DEFINED CONTRIBUTION RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2016 and 2015

NOTE A − DESCRIPTION OF THE PLAN

The following description of the Xavier University Defined Contribution Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Document for more complete information.

1. General

The Plan is a defined contribution plan covering substantially all salaried employees of Xavier University (the "University" or "Plan Administrator"). The Plan, in existence beginning January 1, 1974, as amended, is effective on January 1, 2009. The Audit and Risk Management Committee of the Board of Trustees of the University controls and manages the operation and administration of the Plan. Teachers Insurance and Annuity Association and College Retirement Equities Fund ("TIAA-CREF") serves as record keeper and custodian of the Plan's assets, as well as agent for TIAA-CREF Company FSB ("Trust Company"), a custodian of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

2. Contributions

Employees are required to contribute 5% (exempt) or 2% (nonexempt) of their pretax compensation (excluding bonuses, overtime, and faculty summer teaching compensation) to the Plan. The University contributes 8.5% of a participant's compensation annually until the participant achieves five years of service, at which point the University's contribution increases to 9% of compensation. When a participant achieves ten and 20 years of service, the University contribution increases to 9.5% and 10% of compensation, respectively. Prior to January 1, 2016, in order to become a participant in the Plan, an employee must complete 1,000 hours of service. An exception was made to the service requirement if the employee's previous employer was contributing to a qualified retirement plan. As of January 1, 2016, the Plan was amended to remove the service requirement for participation in the Plan. As such, beginning January 1, 2016, all employees are immediately eligible to participate in the Plan upon employment by the University.

3. Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the University's contributions, and an allocation of Plan earnings, and charged with withdrawals and an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

4. Investments

Participant contributions may be directed in any specified increments into the various investment options offered by the Plan. University contributions are invested in the same manner as the participant-elected contributions. The Plan currently offers various mutual funds, a pooled separate account, variable annuities and a guaranteed annuity with TIAA-CREF as investment options for the participants.

NOTE A − DESCRIPTION OF THE PLAN (continued)

5. Vesting

Participants are vested immediately in all contributions plus actual earnings thereon.

6. Participant Loans

The Plan does not permit participant or plan loans.

7. Payment of Benefits

Upon termination of service due to severance of employment, death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's account, or annual installments over a period elected by the participant not exceeding their life expectancy. Upon termination of service due to retirement or disability, a participant's account balance will be paid in the form of an annuity unless an optional form of benefit is selected. Optional forms of benefit include either a lump sum amount equal to the value of the participant's account, or annual installments over a period elected by the participant not exceeding the participant's life expectancy. If the participant's benefit does not exceed $1,000, such benefit may be paid in the form of a lump sum as soon as administratively practical after the time of his or her termination.

NOTE B − SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The accompanying financial statements have been prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

In November 2007, the Department of Labor ("DOL") issued amended regulations eliminating an exemption granted to 403(b) plans from the annual Form 5500 reporting and disclosure requirement. Prior to the amended regulations, the Plan was not viewed as a separate reporting entity, but was viewed as a collection of individual contracts where participants could engage in transactions with limited or no involvement by the University. Accordingly, the Plan has not maintained sufficient accounting records and supporting documents relating to certain contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Consequently, the financial statements have been prepared based on available records analyzed by Plan management. As certain records were not available from the inception of the Plan, the effect, if any, on the completeness and accuracy of the Plan's financial statements cannot be determined.

2. Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

NOTE B − SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3. Risks and Uncertainties

The Plan utilizes various investment instruments, including mutual funds and investment contracts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and amounts reported in the financial statements.

4. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

5. Plan Expenses

Certain expenses of maintaining the Plan include direct fees paid to service providers and are paid by the Plan Administrator as provided in the Plan Document. Investment-related expenses are included in net appreciation of investments in the accompanying statement of changes in net assets available for benefits.

6. Payment of Benefits

Benefit payments to participants are recorded upon distribution.

7. Subsequent Events

The Plan has evaluated subsequent events through October 13, 2017, the date the financial statements were available to be issued. No subsequent events were identified that require recognition or disclosure in the financial statements and footnotes.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

8. New Accounting Standard

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient" ("ASU 2015-12") which simplifies certain aspects of employee benefit plan ("EBP") accounting while satisfying the needs of users of financial statements, including plan participants and the Department of Labor. The guidance simplifies the measurement of fully benefit-responsive investment contracts and disclosures about plan investments, including eliminating the requirement to disaggregate investments by category of risk, and disclose individual investments representing 5% or more of total net assets as of year-end. It also allows an EBP with a fiscal year end that does not coincide with the end of a calendar month to use the closest calendar month end to its fiscal year end to measure its investments and investment-related accounts. Parts I and II of the guidance are to be applied retrospectively, and Part III is to be applied prospectively. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015.

The Plan adopted the provisions of Part II of the ASU 2015-12 effective January 1, 2016. Disclosures as of December 31, 2015 have been conformed to ASU 2015-12 for comparability. Parts I and III are not applicable to the Plan. As a result of the adoption of Part II, the disclosure of individual investments that represent 5% or more of net assets available for plan benefits, the net appreciation or depreciation in fair value of investments by general type, and the level of disaggregation of investments measured at fair value has been simplified by classifying investments by general type versus by nature, characteristics, and risks.

NOTE C – FAIR VALUE MEASUREMENTS

The Plan accounts for financial instruments where the measurement objective specifically requires the use of fair value related to financial assets.

Fair value is an exit price, representing the amount that would be received in the sale of an asset in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based upon assumptions that market participants would use in pricing an asset. As a basis for considering such assumptions, a three-tier fair value hierarchy exists, which prioritizes the inputs used in measuring fair value. The following is a description of the valuation methodologies used for assets measured at fair value. The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to Plan management's perceived risk of that investment.

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access.

NOTE C – FAIR VALUE MEASUREMENTS (continued)

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or similar assets or liabilities in an inactive market; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by the observable market. If the asset or liability has a specified or contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2016 and 2015.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds – Mutual funds are traded on a public exchange, whereby fair value is determined as the closing price on the applicable exchange (e.g., NYSE, NASDAQ) as of the reporting date.

CREF variable annuity accounts – The fair values of accumulation units held by the Plan in CREF accounts (registered investment companies) are based on each account's daily accumulation unit value, which is available on NASDAQ. The accounts invest principally in equity securities, fixed-income instruments and short-term investments in accordance with each portfolio's investment objectives. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources. Accumulation units in CREF accounts are available for transactions at the closing accumulation unit value on any day the New York Stock Exchange ("NYSE") is open for business. In an effort to reduce market timing and excessive trading, shareholders are not permitted to make electronic transfers to the same account through a purchase or exchange for 90 calendar days, if a purchase, sale and repurchase within that account is made within a 60 day period, other than for the CREF money market account. There are no unfunded commitments from participants in the Plan who invest in these accounts.

TIAA Real Estate account – The fair value of the Plan's interest in the TIAA Real Estate account (a pooled separate account) is based on the fund's daily accumulation unit value, which is available on NASDAQ. Underlying holdings are primarily valued using independent appraisals or independent pricing sources. Although the underlying assets of the fund cannot be quickly sold and converted to liquid assets, the TIAA general account provides the fund with a liquidity guarantee whereby TIAA ensures that the fund has funds available to meet participant redemption, transfer or cash withdrawal requests. There are no unfunded commitments from participants in the Plan who invest in this account, and redemptions are permitted on any day the NYSE is open for business, with no notice period. Transfers are limited to one per calendar quarter.

NOTE C – FAIR VALUE MEASUREMENTS (continued)

TIAA Traditional Annuity – Investments in TIAA Traditional contracts are reported at contract value, which approximates fair value. As these investments are contract-based, observable prices for identical or similar investments do not exist and, accordingly, these investments are valued using unobservable inputs (Level 3). The contract value of the TIAA Traditional equals the accumulated cash contributions and interest credited to the contracts, less any withdrawals. Contract value is deemed to approximate fair value for Group Retirement Annuities ("GRA") and Retirement Annuities ("RA") contracts based on observation of recent participant investments at contract value and by comparison of historical and current yields of highly-rated long term corporate bonds to historical and current crediting interest rates of the contracts taking into consideration the liquidity restrictions applicable to the contracts. See also Note E.

The following table represents the valuation techniques used to measure the fair value of the Plan's Level 3 financial instruments, the significant unobservable inputs and the ranges of values for those inputs. The Plan's Level 3 financial instruments had a fair value of $59,681,861 and $57,691,291 as of December 31, 2016 and 2015, respectively.

Asset	Valuation Technique(s)	Unobservable Inputs	Range
TIAA Traditional Annuity	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	3.50%-5.00%

The discounted cash flow valuation technique utilizes an appropriate risk-adjusted market discount rate which correlates closely with TIAA Traditional Annuity's historical crediting rates for each contract type. Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate. Additionally, the discretionary rate applied to contributions received during a reporting period may vary from the discretionary rate applied to account balances at the end of the prior reporting period.

In determining the reasonableness of the methodology, management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, crediting rates) as compared to available market data (for example, Treasury yields) to substantiate the embedded risk premium.

NOTE C – FAIR VALUE MEASUREMENTS (continued)

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2016 and 2015.

	Fair Value Measurements at December 31, 2016			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 43,417,599	$ -	$ -	$ 43,417,599
TIAA Traditional Annuity	-	-	59,681,861	59,681,861
CREF variable annuity accounts	89,689,983	-	-	89,689,983
Pooled separate account – real estate	9,125,539	-	-	9,125,539
Total investments at fair value	**$ 142,233,121**	**$ -**	**$ 59,681,861**	**$ 201,914,982**

	Fair Value Measurements at December 31, 2015			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 35,236,248	$ -	$ -	$ 35,236,248
TIAA Traditional Annuity	-	-	57,691,291	57,691,291
CREF variable annuity accounts	87,969,455	-	-	87,969,455
Pooled separate accounts – real estate	8,247,726	-	-	8,247,726
Total investments at fair value	**$ 131,453,429**	**$ -**	**$ 57,691,291**	**$ 189,144,720**

The following table presents a reconciliation of the beginning and ending balances of the fair value measurements using significant unobservable (Level 3) inputs:

TIAA Traditional Annuity:	
Beginning balance – January 1, 2016	$ 57,691,291
Purchases	4,534,628
Interest income	2,579,297
Distributions	(3,809,074)
Settlements	(1,314,281)
Ending balance – December 31, 2016	**$ 59,681,861**

The valuation methods may produce a fair value calculation that may not be indicative of net realized value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D – INFORMATION CERTIFIED BY TIAA-CREF

The Plan Administrator has elected the method of annual compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA-CREF has certified on behalf of (1) TIAA-CREF, a custodian and an insurance company and issuer of certain annuity contract investment assets of the Plan, and (2) as record keeper and agent for Trust Company, the custodian of certain assets of the Plan, that the following information in the accompanying financial statements and supplemental Schedule of Assets (Held at End of Year) is complete and accurate:

- Participant-directed investments, at fair value, as of December 31, 2016 and 2015
- Net appreciation of investments, for the year ended December 31, 2016
- Interest and dividends, for the year ended December 31, 2016
- Investment information in the supplemental Schedule of Assets (Held at End of Year), as of December 31, 2016

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE E – TIAA TRADITIONAL ANNUITY

The TIAA Traditional Annuity is an unallocated fixed annuity contract that is fully and unconditionally guaranteed by Teachers Insurance and Annuity Association of America ("TIAA"), a non-profit legal reserve life insurance company. During the accumulation phase, the TIAA Traditional Annuity provides a guarantee of principal, a guaranteed minimum rate of interest, and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect for the "declaration year," which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. When the accumulation in the TIAA Traditional Annuity is converted to an annuity based on life expectancy, the present value of the stream of payments is equal to the accumulation. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statement of changes in net assets available for benefits. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The TIAA Traditional Annuity is offered through a variety of contract types, including GRA and RA. The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement. Together, the guaranteed minimum and additional amounts make up the crediting interest rate. For accumulating GRA and RA contracts, the crediting interest rate was 3.75% and 4.0% as of December 31, 2016 and 2015, respectively.

NOTE E – TIAA TRADITIONAL ANNUITY (continued)

All RA contracts require lifetime withdrawals in the form of a lifetime payment or in periodic installments over a ten-year period. All GRA contracts may be withdrawn in a single lump sum within 120 days of termination of employment, subject to a 2.5% surrender charge. All other withdrawals and transfers from GRA contracts must be spread over ten annual installments (five annual installments for withdrawals after termination of employment).

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including a complete or partial Plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures); (4) failure of the trust to quality for exemption from Federal income taxes or any prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTE F – EXEMPT PARTY-IN-INTEREST TRANSACTIONS

All Plan investments are managed by TIAA-CREF. TIAA-CREF is a custodian and record keeper as defined by the Plan. Fees paid by the Plan for investment management services amounted to $907,029 for the year ended December 31, 2016, and are included in net appreciation of investments on the accompanying statement of changes in net assets available for benefits. The Plan received a revenue credit from TIAA-CREF for $77,841, which is presented as other income on the accompanying statement of changes in net assets available for benefits.

NOTE G - PLAN NONCOMPLIANCE

During the Plan year ended December 31, 2016, there was a deemed loan of $118,011 made to the University when participant contributions were not remitted to the Plan on a timely basis. Under Department of Labor regulations, participant deferrals must be deposited "as soon as administratively feasible." "As soon as administratively feasible" is understood to be as soon as the contribution can be reasonably segregated from the general assets of the employer. Estimated lost earnings to the participants were $145 and will be deposited in the participants' accounts in 2017. As of December 31, 2016, the late employee deferral of $118,011 has been deposited in the participants' accounts.

NOTE H – PLAN TERMINATION

Although it has not expressed any intention to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. Participants are 100% vested in their accounts, regardless of the Plan's status.

NOTE I – FEDERAL INCOME TAX STATUS

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (the "IRC"). The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service ("IRS") in the draft Listing of Required Modifications issued April 4, 2009. The Plan Administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for Plan participants under Section 403(b). The Plan Administrator believes that the Plan is currently designed and operating in accordance with the applicable requirements of Section 403(b) of the IRC and, therefore, believes the Plan is qualified and the related custodial accounts and tax-deferred annuities are tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by U.S. federal, state or local tax authorities. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
