GB MANUFACTURING CO. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following description of the *GB Manufacturing Co. 401(k) Plan* (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Description of the Plan

General

The Plan is a defined contribution plan covering all employees of *GB Manufacturing Co. and Subsidiaries* (the "Company") who have attained two months of service (three months prior to January 1, 2016) and are age nineteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Company purchased the net operating assets of Par-Kan Company at the end of business on December 31, 2015. As a result of the acquisition, the Board of Directors adopted an amendment for the merger of the Par-Kan Company 401(k) Plan (the "Merging Plan") into the Plan, effective April 1, 2016. All participants under the Merging Plan became participants under the Plan effective February 1, 2016, with all assets of the Merging Plan transferring to the Plan on or shortly after April 1, 2016. Balances transferred as part of the Merging Plan amounted to $829,807, which included the transfer of notes receivable from participants of $35,889. Active participants in the Merging Plan became 100% vested in their prior nonelective contributions at the date of the merger and all prior service earned under the Merging Plan counted towards eligibility and future vesting under the Plan.

Contributions

Each year participants may contribute up to 100% of pretax annual compensation, as defined in the Plan agreement. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make rollover contributions from other qualified defined benefit or defined contribution plans. Effective January 1, 2016, the Plan was amended to include an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions are invested in the target date retirement fund that corresponds to their expected retirement date. The Company has elected to make discretionary matching contributions equal to 50% of the first 6% of participant elective deferrals effective February 1, 2016, and 25% of the first 10% of participant elective deferrals prior to that date. The Company may also elect to make discretionary nonelective contributions each year; however, no such contributions were made in 2016 or 2015. Participants become eligible for the Company discretionary matching contribution and Company discretionary nonelective contributions after completing one year of service (1,000 hours). To receive an allocation of such contributions, eligible participants must complete 501 hours of service or 91 days of consecutive employment in the related Plan year. Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers mutual funds, a stable value common collective trust, and a money market fund as investment options for participants. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

NOTES TO FINANCIAL STATEMENTS

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's discretionary matching contributions (when made), and Plan earnings based on the investment options selected by the participant. Each participant's account is credited with an allocation of the Company's discretionary nonelective contributions (when made) based on participant compensation. Participant accounts are charged for certain administrative expenses as described below. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their 401(k) voluntary contributions plus actual earnings thereon. Vesting in the Company discretionary matching and nonelective discretionary contributions (if applicable) is based on years of continuous service. A participant is 100% vested after five years of credited service with vesting increasing incrementally by 20% in years one through five.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The $50,000 maximum is reduced by the highest outstanding note receivable balance during the one-year period ending on the day before the origination of the loan, less the outstanding balance on the date of origination of the new note. Participants may have no more than one note outstanding at any time. The notes receivable are secured by the balance in the participant's account and bear interest at rates ranging from 5.25% to 5.50%, which are commensurate with local prevailing rates at the time the notes were issued, as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in their account, as defined by the Plan agreement. In-service withdrawals of vested balances may be elected by participants who have reached 59 ½ years of age. If a participant's vested balance is $1,000 or less, payment will be made in a lump-sum without the participant's consent. The Plan also permits withdrawals of active participants' elective contributions, only in amounts necessary to satisfy financial hardship as defined by the Plan agreement.

Forfeited Accounts

Forfeited nonvested accounts may first be used to pay Plan expenses, if directed by the Plan Administrator, then used to reduce future employer cash contributions. Unallocated forfeiture accounts and amounts used to reduce administrative expenses or employer contributions were not significant as of and for the years ended December 31, 2016 and 2015.

Administrative Expenses

Certain of the Plan's administrative expenses, including an allocation of salaries related to Plan administration, and audit and legal costs, are paid by the Company and qualify as party-in-interest transactions which are exempt from prohibited transaction rules. Expenses that are paid directly by the Company are excluded from these financial statements. Fees for custodial and record keeping services are paid by the Plan and allocated to participants based on participant account balances. Participants are charged directly for loan fees and fees related to certain distribution types.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's aggregate gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, such management fees and operating expenses are reflected as a reduction of net appreciation or an addition to net depreciation in the fair value of such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the note receivable to be in default, the participant note receivable is reduced and a deemed distribution is recorded. There were no such defaults of participant notes receivable in 2016 or 2015.

NOTES TO FINANCIAL STATEMENTS

Contributions

Participant contributions are recorded when withheld from compensation. Employer contributions are recorded in the period in which they become the obligations of the Company.

Benefits Paid to Participants

Benefit payments to participants are recorded when paid.

Subsequent Events

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to December 31, 2016, the most recent statement of net assets available for benefits presented herein, through October 10, 2017, the date these financial statements were available to be issued. No such significant events or transactions were identified.

2. INVESTMENTS

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TD Ameritrade Trust Company ("TD Ameritrade") as trustee of the Plan, has certified the completeness and accuracy of the investment information reflected in (1) the accompanying statements of net assets available for benefits as of December 31, 2016 and 2015, (2) the December 31, 2016, schedule of assets (held at end of year), and (3) the related investment activity reflected in the statements of changes in net assets available for benefits during 2016 and 2015. American Trust Retirement ("American Trust"), as custodian, has certified the completeness and accuracy of notes receivable from participants and the related interest income as of and for the years ended December 31, 2016 and 2015.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in markets that are not active;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy of each asset or liability is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. For financial assets recorded at fair value, the description includes an indication of the level of the fair value hierarchy in which the assets are classified. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Shares held in mutual funds are valued at quoted market prices that represent the net asset value ("NAV") of shares held by the Plan at year end and are classified as Level 1. The NAV is based on the value of the underlying assets owned by the fund, less its liabilities, then divided by the number of shares outstanding. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price and, therefore, are deemed to be actively traded.

Stable value common collective trust: A stable value fund composed primarily of fully benefit-responsive investment contracts that is valued at the NAV of units of the common collective trust is classified as "other" and is not assigned a level in the fair value hierarchy. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the Plan will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require a 12 month notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

Money market fund: The money market fund is comprised of debt securities with individual maturities of 13 months or less and an average maturity of 75 days or less. The composition of securities is structured to maintain a value of $1 per share and this fund is classified as Level 2.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value at December 31:

2016	Level 1	Level 2	Level 3	Other (1)	Total
Mutual funds	$ 4,032,876	$ -	$ -	$ -	$ 4,032,876
Stable value common collective trust	-	-	-	128,224	128,224

2015	Level 1	Level 2	Level 3	Other (1)	Total

Total investments at fair value	**$ 2,893,105**	**$ 3,198**	**$ -**	**$ 371,536**	**$ 3,267,839**

(1) Certain investments are measured at NAV per share (or its equivalent) on a market that is not active and have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

The following tables set forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31:

	2016			
Investment Type	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Stable value common collective trust	$ 128,224	$ -	Daily	Up to 12 months

Stable value common collective trust	$ 371,536	$ -	Daily	Up to 12 months

4. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by affiliates of TD Ameritrade and American Trust, the trustee and custodian/record-keeper of the Plan, respectively, and, therefore, transactions related to these investments qualify as party-in-interest. Fees paid by the Plan for the custodial and record keeping services, including transaction charges for loans and benefit payments, amounted to $15,515 in 2016 and $3,665 in 2015. Fees paid by the Plan for investment management services are included as a reduction in net appreciation or an addition to net depreciation in fair value of investments.

5. TAX STATUS

The Company's Board of Directors adopted the American Trust & Savings Bank Volume Submitter Profit Sharing With CODA plan document. The volume submitter plan document has received an opinion letter from the Internal Revenue Service dated March 31, 2014, stating that the written form of the volume submitter plan document is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and that any employer adopting this form of the plan will be considered to have a plan qualified under Section 401(a) of the Code. The Plan is required to operate in conformity with the Code to maintain its qualification. While the Plan has been amended since receiving the determination letter, the Plan's Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, that the Plan is qualified and the related trust is tax-exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan may be subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2013.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts. Any unallocated assets of the Plan, to the extent not used to pay Plan expenses, would be allocated to participant accounts and distributed in such a manner as the Company may determine.

NOTES TO FINANCIAL STATEMENTS

7. DELINQUENT PARTICIPANT CONTRIBUTIONS

During 2016, certain participant contributions in the amount of $9,177 were not deposited in the Plan in a timely manner. Late remittances of participant contributions constitute a prohibited transaction under ERISA section 406, regardless of materiality. The Company remitted the delinquent participant contributions in 2016. In addition, the Company will reimburse the Plan for any lost earnings in 2017.

8. RISKS AND UNCERTAINTIES

The Plan invests in mutual funds, a stable value common collective trust and a money market fund. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.
