General

The Plan is a defined contribution plan with a cash or deferred arrangement covering substantially all hourly employees at the Tennessee manufacturing plants of Duro Hilex Poly, LLC (the "Company"), governed by a collective bargaining agreement. Employees are eligible to become participants once they have reached twenty-one years of age and completed one year of service and can enroll in the Plan on the first day of the calendar quarter after the date of eligibility, as defined in the plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Merger

On November 30, 2016, the Investment Committee of Novolex Holdings, Inc., a controlling party of Duro Hilex Poly, LLC, approved the merger of this Plan into the Duro Hilex Poly, LLC Northern Kentucky Hourly Employees Retirement Savings Plan, effective December 31, 2016. As a result, all investments were transferred from the Plan into the Duro Hilex Poly, LLC Northern Kentucky Hourly Employees Retirement Savings Plan on that date.

Contributions

Each year, participants may defer a portion of their pretax annual compensation, as defined, subject to certain statutory limitations. Participants may also elect to make Roth 401(k) contributions, of which are subject to federal income taxes in the year of deferral. For 2016 and 2015, the deferred amount may not exceed $18,000. Additionally, the Internal Revenue Code allows for participants over the age of 50 to make additional contributions (catch-up contributions) in excess of these limits. The maximum catch-up contributions for 2016 and 2015 were $6,000. The Company is permitted to make a nonelective contribution equal to a discretionary percentage of eligible compensation (determined each year by the Company and as stated in the collective bargaining agreement). If a nonelective contribution is made by the Company, it is in the same ratio that the participants' salary bears to the total salary of all participants in the Plan. In order to receive the nonelective contributions, participants must be employed on the last day of the plan year. Participants may also contribute amounts representing distributions from other qualified defined benefit plans or contribution plans. Participants direct the investment of all contributions into various investment options offered by the Plan.

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's pretax or Roth contributions, the Company's nonelective contribution, plan earnings or losses, and administrative expenses which are allocated proportionately among all participants based on their investment in each fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested at all times in their pretax and Roth contributions and earnings or losses thereon. Participants become vested in Company contributions made for Plan years beginning prior to January 1, 2007 as follows:

Years of Service	Vested Percentage
Less than 5 years	0%
Greater than or equal to 5 years	100%

1. Description of Plan (continued):

Vesting (continued)
Participants become vested in the Company contributions made for Plan years beginning after December 31, 2006 as follows:

Years of Service	Vested Percentage
Less than 3 years	0%
Greater than or equal to 3 years	100%

Payment of Benefits
Upon termination of service, a participant may elect to receive either a lump-sum payment or an installment payment over a fixed number of years. Participants may withdraw all of their pretax and Roth contributions, subject to certain restrictions and tax penalties.

Forfeited Accounts
Forfeitures occur upon termination of employment by a participant who is not fully vested in the Plan. These accounts will be used to pay administrative expenses of the Plan or to reduce employer nonelective contributions. In 2016 and 2015, $-0- were used to pay administrative expenses of the Plan and $-0- were used to reduce employer nonelective contributions. Forfeiture balances available for the years ended December 31, 2016 and 2015 were $-0-.

2. Summary of Significant Accounting Policies:

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investments
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ significantly from those estimates.

Payments of Benefits
Benefit payments to participants are recorded upon distribution.

Administrative Expenses
Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

2. Summary of Significant Accounting Policies (continued):

Recently Issued Accounting Standards

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, Disclosure for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent). The ASU impacts reporting entities that measure an investment's fair value using the net asset value per share practical expedient. The amendments in ASU No. 2015-07 eliminate the requirement to classify the investment within the fair value hierarchy. In addition, the requirement to make certain disclosures for all investments eligible to be assessed at fair value with the net asset value per share practical expedient has been removed. Instead, such disclosures are restricted only to investments that the entity has elected to measure using the practical expedient. The Plan adopted ASU No. 2015-07 during the year ended December 31, 2016 and has applied its provisions retrospectively to the 2015 financial statements.

In July 2015, FASB issued ASU No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent five percent (5%) or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. The level of disaggregation of investments that are measured using fair value is also simplified.

Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investment by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The Plan adopted Part II during the year ended December 31, 2016 and has applied its provisions retrospectively to the 2015 financial statements.

Reclassifications

Certain amounts in the 2015 financial statements have been reclassified for comparative purposes to conform to the presentation of the 2016 financial statements.

Date of Management's Review

Subsequent events have been evaluated through October 10, 2017, the date which the financial statements were available to be issued.

3. Information Certified by the Trustee:

The following information included in the accompanying financial statements as of, and for the years ended December 31, 2016 and 2015, was provided and certified by State Street Bank and Trust Company, the trustee of the Plan (the "Trustee"), as complete and accurate:

Investments, at fair value
Interest and dividend income
Net appreciation or depreciation in fair value of investments

During the years ended December 31, 2016 and 2015, the Plan's investments appreciated (depreciated) in value by $94,303 and $(11,088), respectively. The change in value includes gains and losses on investments bought and sold, as well as held during the year.

4. Fair Value Measurements:

FASB ASC 820, *Fair Value Measurements* ("ASC 820") defines fair value, establishes a consistent framework for measuring fair value and establishes a fair value hierarchy based on the observability of inputs used to measure fair value. The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy under ASC 820 are described as follows:

Level 1	Unadjusted quoted market prices in active markets for identical unrestricted assets or liabilities that the Plan has the ability to access at the measurement date.
Level 2	Other significant observable inputs, including quoted prices for similar securities, interest rates, prepayment speeds, credit risk and others. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. There are no plan assets requiring the use of Level 2 inputs for the periods presented.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement. There are no plan assets requiring the use of Level 3 inputs for the periods presented.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no significant changes in the methodologies used at December 31, 2016 and 2015.

Level 1 Fair Value Measurements

Mutual funds:	Valued at the daily closing price as reported by the fund. Net assets values (NAV) are generally obtained from The National Securities Clearing Corporation, directly from the fund house, and/or a secondary processing source.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (continued):

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2015			
	Level 1	*Level 2*	*Level 3*	*Total*
Mutual funds	$ 1,175,415	$ -0-	$ -0-	$ 1,175,415
Total assets at fair value	$ 1,175,415	$ -0-	$ -0-	$ 1,175,415
Investments measured using net asset value per share practical expedient				235,056
Total investments				$ 1,410,471

The Plan invests in stable value funds, which trade at the net asset value (NAV) per share practical expedient of the fund. These funds are not categorized within the fair value hierarchy.

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2016 and 2015:

	2016	2015
Stable value fund		
Fair value	$ -0-	$ 235,056
Unfunded commitment	None	None
Redemption frequency	Daily	Daily
Redemption notice period	None	None

5. Tax Status:

The Internal Revenue Service has determined and informed the Trustee by a letter dated March 31, 2014 that the prototype plan on which the Plan is based and the related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The prototype plan has been amended subsequent to that date. However, the Plan administrator believes that the Plan, which is based on the prototype plan, was at all times during the years ended December 31, 2016 and 2015, designed and operated in compliance with the applicable requirements of the IRC, and that the Plan and related trust continued to be tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service or Department of Labor. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

6. Risks and Uncertainties:

The Plan invests in various investments securities. Investment securities, in general, are exposed to various risks, including interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

7. Related-Party Transactions:

Certain plan investments are money funds managed by State Street Bank and Trust Company. State Street Bank and Trust Company is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $-0- for the years ended December 31, 2016 and 2015.

8. Assets Allocated to Terminated Participants:

Net assets available for benefits include amounts allocated to the accounts of persons who were terminated prior to year-end but had not yet received payment. At December 31, 2016 and 2015, the vested account balances of terminated participants are $-0- and $88,511, respectively.
