SENSUS USA INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

Note 1. Description of the Plan

The following description of the Sensus USA Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for more complete information.

General - On January 1, 2004, Sensus USA Inc. (the "Company") established a salary deferral plan under Section 401(k) of the Internal Revenue Code (the "IRC"). The Plan was created for employees who formerly participated in the Rockwell International, Inc., BTR plc, and Invensys plc defined contribution plans. Those employees were permitted to roll over their existing plan assets to the Plan. Effective September 1, 2013, the Plan was restated to allow Local No. 13836 union employees to participate in the Plan as they were previously not eligible to participate. The restated Plan continues to be for the exclusive benefit of eligible employees, and all employees covered under the previous plan shall continue to be covered under the restated Plan with no loss of benefits.

Delaware Charter Guarantee & Trust Company, d/b/a Principal Trust Company, a member company of the Principal Financial Group, Inc. ("Principal"), serves as the Plan's trustee (the "Trustee"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Eligibility - Eligible plan participants are any employee of the Company including non-union employees and hourly paid union employees, with some exceptions as defined in the Plan document.

Contributions - Each year, union employees of Smith-Blair, Inc. who participate in the Plan may elect to contribute up to 25% of their compensation as defined in the Plan on a pre-tax basis up to an amount which will not violate provisions of the Plan or exceed the maximum allowed by the IRC. Union employees of Local No. 13836 may elect to contribute between 1% and 25% of their compensation as defined in the Plan, and all other employees who participate in the Plan may elect to contribute up to 50% of their compensation as defined in the Plan.

Newly hired employees are automatically enrolled in the Plan when the employee first becomes eligible to participate. The automatic elective deferral contribution is 3% of compensation. The participant may affirmatively elect a different percentage or elect not to make elective deferral contributions. Participants who have attained the age of 50 before the end of the Plan's year-end are eligible to make catch-up contributions up to \$6,000.

For non-union employees and union employees of Smith-Blair Inc., the Company matches 100% of the first 3% of eligible compensation and then 50% from 3% to 5% of eligible compensation. For union employees of Local No. 13836, the Company matches 50% of the first 3% of eligible compensation.

Investments - Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a collective trust, mutual funds, and a series of varied risk pooled separate accounts as investment options for participants.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, if any, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Non-union employees are 100% vested in the Company's contribution portion of their accounts plus actual earnings thereon. Hourly paid union employees of Smith-Blair, Inc., hourly paid union employees of Local No. 13836, and employees in the union probation period are vested in the Company's contribution portion of their accounts plus actual earnings thereon based on years of continuous service as follows:

Years of Service	Vesting Percentage
Less than 1	—%
At least 1, but less than 2	20%
At least 2, but less than 3	40%
At least 3, but less than 4	60%
At least 4, but less than 5	80%
At least 5	100%

Payment of Benefits - A participant is entitled to distributions under the Plan the later date of (a) when such participant reaches age 65 (the normal retirement date); (b) the tenth anniversary of the participant's entry date; (c) in the event of the death of the participant before retirement or other termination of employment; or (d) in the event of a financial hardship as defined by the Plan.

Participants entitled to distributions will receive their distributions in the form of a single sum payment.

Forfeited Accounts - Forfeitures represent nonvested Company contributions of participants who have terminated their employment with the Company. Forfeitures may be applied to pay administrative expenses or to reduce employer contributions. During 2016, \$4,136 in forfeitures were applied to employer contributions. As of December 31, 2016 and 2015, forfeited nonvested accounts totaled \$4,158 and \$432, respectively.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or the greater of 50% of their vested account balance or \$10,000. Loan terms range from one to five years, unless for the purchase of a primary residence in which the repayment period is not to exceed 30 years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates at the time of the loan. Principal and interest are paid ratably through payroll deductions. A participant may have only one loan outstanding at any time.

Administrative Expenses - The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participants' accounts and are included in administrative expenses. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as administrative expenses. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting - The accompanying financial statements have been prepared under the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan's investments are exposed to varying degrees of risk, such as interest rates, credit and overall market volatility risks. Due to the level of risks associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold (realized) as well as gains and losses from investments held during the year.

Revenue Share Account - Effective December 31, 2016, revenue share account balances that have not been allocated to participants or used to pay plan expenses are reflected as cash in the statement of net assets available for benefits. Revenue share credits received into the account during the year are included in other income, and plan expenses paid from the revenue share account are included in administrative expenses in the statement of changes in net assets available for benefits. The revenue share account had a balance of \$29,307 and \$9,132 at December 31, 2016 and 2015, respectively. There were revenue share credits of \$55,555 and expense payments of \$35,380 during the year ended December 31, 2016.

Distributions to Participants - Payments to participants are recorded upon distribution. There were no participants who elected to withdraw from the Plan, but had not yet been paid at December 31, 2016 and 2015. Additionally, for loans declared in default the principal and accrued interest are recorded as a distribution.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balances plus any accrued, but unpaid interest with no allowance for credit losses as repayments of principal and interest are received through payroll deductions and the loans are collateralized by the participants' accounts.

In the event that a participant fails to make timely loan repayments, the loan may be considered to be in default. In the event default is declared, the outstanding loan balance and any accrued interest may be treated as a withdrawal prior to termination of employment subject to the withdrawal provisions outlined in the Plan document and may be determined to be a fully taxable distribution from the Plan.

New Accounting Standards - In May 2015, the Financial Accounting Standards Board ("FASB") issued guidance regarding the disclosure of investments which are measured using the NAV practical expedient. The guidance removes the requirement to categorize such investments within the fair value hierarchy. Investments measured using the NAV practical expedient will be presented as a reconciling item between the fair value hierarchy disclosures and the investments at fair value presented on the statement of net assets available for benefits. This guidance is effective for interim and annual periods beginning after December 15, 2016. The

guidance must be applied retrospectively and early adoption is permitted. The Plan elected to early adopt this guidance. Adoption of this guidance did not have an impact on the Plan's statements of net assets available for benefits or the statement of changes in net assets available for benefits.

In July 2015, the FASB issued guidance on certain aspects of accounting by employee benefit plans. The guidance clarified that investments in stable value funds are not considered fully benefit responsive investment contracts. The guidance also simplifies and increases the effectiveness of plan investment disclosure. This guidance is effective for fiscal years beginning after December 15, 2015. The guidance must be applied retrospectively and early adoption is permitted. The Plan adopted this guidance. Adoption of this guidance did not have a material impact on the Plan's statements of net assets available for benefits or the statement of changes in net assets available for benefits. However, the Investments at fair value was reduced by \$29,539 from the amount previously reported as of December 31, 2015 and the Adjustment from fair value for to contract value for fully benefit-responsive investment contracts (\$29,539) as of December 31, 2015 was eliminated.

Note 3. Fair Value Measurement

We determine fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. We use a hierarchical structure to prioritize the inputs to valuation techniques used to measure fair value into three broad levels defined as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices (in non-active markets or in active markets for similar assets or liabilities), inputs other than quoted prices that are observable, and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 inputs are unobservable inputs for the assets or liabilities.

The fair value hierarchy is based on maximizing the use of observable inputs and minimizing the use of unobservable inputs when measuring fair value. Classification within the fair value hierarchy is based on the lowest level input that is significant to the fair value measurement.

NAV Practical Expedient is the measurement of fair value using the net asset value ("NAV") per share (or its equivalent) practical expedient as an alternative to the fair value hierarchy as discussed above.

The Plan's policy is to recognize significant transfers between levels at the beginning of the reporting period. There were no significant transfers between levels during 2016 and 2015.

The following is a description of the valuation methodologies and inputs used to measure fair value for major categories of investments.

- Mutual Funds - Mutual funds of registered investment companies are publicly traded in active markets and valued at the closing price reported on those major markets as of the measurement date. Mutual funds are classified within Level 1 of the fair value hierarchy.

- Pooled Separate Accounts ("PSAs") - The fair value of participation units in the PSAs are estimated based on the NAV as reported by the fund managers as of the financial statement date and recent transaction prices. There are no unfunded commitments related to the PSAs, and investments in PSAs can be redeemed on a daily basis with no advance requirements, and have redemption prices that are determined by the fund's NAV. PSAs are not classified in the fair value hierarchy but are included in the tables below to assist in reconciling to the amount on the statements of net assets available for benefits.
- Collective Trusts ("CTs") - CTs are valued at fair value at the Plan's year-end date using the NAV provided by the administrators of the CTs as a practical expedient. There are no unfunded commitments related to the CTs and investments in CTs can be redeemed on a daily basis. CTs are not classified in the fair value hierarchy but are included in the tables below to assist in reconciling to the amount on the statements of net assets available for benefits.

While the Plan Administrator believes that the valuation methods are appropriate and consistent with how other participants in the market value these types of investments, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used at December 31, 2016 and 2015.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments measured at fair value at December 31, 2016.

	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	NAV Practical Expedient	Total

Note 4. Information Certified by the Trustee

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements as of December 31, 2016 and 2015, and for the year ended December 31, 2016, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the Plan administrator (as defined by the Plan document) and certified as complete and accurate by the Trustee. This information has not been audited by independent accountants.

Note 5. Exempt Party-in-Interest Transactions

ERISA section 406(a) prohibits various types of transactions between a plan and parties in interest. Parties in interest are defined by the Department of Labor regulation as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. ERISA section 408(a) contains specific exemptions whereby plans may engage in certain transactions with parties in interest that are otherwise prohibited by law.

Principal is the Trustee and record keeper and certain plan investments are funds issued by Principal or one of its affiliates.

As record keeper, Principal received revenue from mutual fund and collective trust fund service providers for services provided to the Plan. These fees were used to offset certain amounts owed to Principal for their administrative services.

Notes receivable from participants also qualify as party-in-interest transactions and amounted to \$1,886,106 and \$1,630,280 at December 31, 2016 and 2015, respectively.

During 2016, the Plan reported a prohibited transaction. The Plan paid \$61,367 in administration fees charged to a different plan also sponsored by the Company. Reimbursement of the \$61,367 and applicable earnings of \$3,660 were received by the Plan on June 22, 2017.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event that the plan is terminated, participant account balances will become 100% vested and non-forfeitable.

Note 7. Federal Income Tax Status

The Plan obtained its latest determination letter on July 10, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC for amendments through October 25, 2013. The Plan has been amended since receiving the determination letter. However, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and the Plan and the related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Company to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Company has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes the Plan is no longer subject to income tax examinations for years prior to 2013.

Note 8. Subsequent Events

The Company has evaluated subsequent events for recognition and disclosure through September 21, 2017, which is the date the financial statements were available to be issued. No significant events were noted.

Note 9. Reconciliation of Financial Statements to Form 5500
