Jackson Tube Service, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Jackson Tube Service, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution employee savings and profit sharing plan covering substantially all full-time employees of Jackson Tube Service, Inc. (the Company, Employer and Plan Sponsor) who have three months of service and are age eighteen or older. All full-time employees are eligible to contribute to the savings plan. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participant contributions to the Plan are made by employees within the limitations stipulated in Section 401(k) of the Internal Revenue Code. Eligible employees may contribute any whole percentage of their compensation to the Plan. Employees are automatically enrolled at 3%, unless they specifically request otherwise.

The Company matching contributions to the savings plan are limited to 100% of the participant's first 1% of participant contributions and 50% of the following 5% of participant contributions. The Company's Board of Directors may also authorize discretionary contributions to the Plan. The Company did not make discretionary contributions in 2016.

There is a limit placed on the percent of compensation deferred by those participants who are defined by the Plan as Highly Compensated Employees. The Company compares the deferral percentage against several tests as prescribed by law. If the tests are not met, the Company reduces the contribution percentage of the group comprising the Highly Compensated Employees until the tests are met. If, at the end of the year, the tests are still not met, the Company returns the excess contribution to the participant so as to meet the tests. Excess contributions totaled \$644 and \$265 at December 31, 2016 and 2015, respectively.

Participant accounts: Each participant's account is credited with the participant's contribution; the Company's matching contribution and an allocation of (a) the Plan's investment income and (b) the Company's discretionary contribution, if any. Allocations are based on participant account balances or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Notes receivable from participants: Participants may borrow from their fund accounts. Loans may not exceed the lesser of \$50,000 or 50% of a participant's vested account balance and the repayment period shall not exceed five years or thirty years if the proceeds are used to purchase a principle residence. Each loan is collateralized by the remaining balance in the participant's account. Interest charged to participants is reviewed by the Plan Administrator and is based upon prevailing interest rates for similar loans in the surrounding community. Interest rates on participant loans ranged from 4.25% to 5.50% as of December 31, 2016 and 4.25% to 5.25% as of December 31, 2015.

Vesting: Participants are immediately vested in their voluntary contributions plus actual investment earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service at a rate of 20% per year after one year of service.

Payment of benefits: On termination of service, a participant is eligible to receive a distribution equal to the vested value of the participant's account. A participant may, under certain conditions, withdraw all or a portion of their account balance without terminating their employment.

Jackson Tube Service, Inc. 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Forfeitures: Forfeited, non-vested accounts at December 31, 2016 and 2015 totaled \$28,378 and \$18,255, respectively. Forfeitures from non-vested accounts were not used to offset employer matching contributions or administrative expenses during 2016.

Rollovers: The Plan accepts rollovers from a qualified retirement plan of a prior employer with approval from the plan sponsor; however does not accept rollover contributions from former employees of the plan sponsor.

Basis of presentation: The financial statements of the Plan are prepared in accordance with accounting principals generally accepted in the United States of America as more explicitly described in the Financial Accounting Standards Board Accounting Standards Codification.

Investments: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year and capital gain distributions.

Contributions: Participant contributions are recognized when withheld. The Company matching contributions are recognized concurrently with employee contributions.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: A significant portion of the Plan's administrative expenses are paid by the Company.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document. Delinquent loans that were not distributed totaled \$31,063 and \$14,804 as of December 31, 2016 and 2015, respectively.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 11, 2017 the date the financial statements were available to be issued.

Note 3. Information Certified by the Plan's Trustees

The information related to investments and notes receivable from participants that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2016 and 2015 and for the year ended December 31, 2016 was prepared by or derived from information provided by the Trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to these Plan assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes 8 and 9 and the supplemental schedule related to the Plan's assets.

Jackson Tube Service, Inc. 401(k) Plan

Notes to Financial Statements

Note 3. Information Certified by the Plan's Trustees (Continued)

The Trustee of the Plan certified to the completeness and accuracy of \$334,280 of net appreciation in fair value of investments, \$343,273 of interest and dividends and \$21,489 of interest income from notes receivable from participants for the year ended December 31, 2016.

Note 4. Plan Termination

The Company expects to continue the Plan indefinitely, but continuance is not assumed as a contractual obligation and the Company reserves the right at any time by action of its Board of Directors to terminate the Plan. The allocation and distribution of contributions will be in accordance with the approved Plan agreement.

Note 5. Income Tax Status

The Internal Revenue Service has ruled, per an opinion letter dated March 31, 2014, that the Plan qualifies under the applicable sections of the Internal Revenue Code and is, therefore, not subject to tax under present income tax law. Once qualified, the Plan is required to operate in conformity with the Internal Revenue Code to maintain its qualification. The Plan was last amended effective January 1, 2015, however the Company is not aware of any action or event that has occurred that might affect the Plan's qualified status.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for year before 2013.

Note 6. Parties-In-Interest

Fees paid by the Plan to Great-West Life & Annuity Insurance Company, a party-in-interest to the Plan, for third-party administrative services amounted to \$18,454 for the year ended December 31, 2016.

Note 7. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Note 8. Fair Value Measurements

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

Jackson Tube Service, Inc. 401(k) Plan

Notes to Financial Statements

Note 8. Fair Value Measurements (Continued)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value on a recurring basis: The following table summarizes assets measured at fair value on a recurring basis as of December 31, 2016 and 2015, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value.

		2016			
		Total	Level 1	Level 2	Level 3
Mutual funds		\$ 9,667,948	\$ 9,667,948	\$ -	\$ -
Total investments, at fair value		\$ 9,667,948	\$ 9,667,948	\$ -	\$ -
		2015			
		Total	Level 1	Level 2	Level 3
Mutual funds		\$ 8,932,924	\$ 8,932,924	\$ -	\$ -
Total investments, at fair value		\$ 8,932,924	\$ 8,932,924	\$ -	\$ -

Jackson Tube Service, Inc. 401(k) Plan

Notes to Financial Statements

Note 8. Fair Value Measurements (Continued)

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to the net assets available for benefits. For the years ended December 31, 2016 and 2015, there were no significant transfers in or out of levels 1, 2 or 3.

Note 9. Group Annuity Contract

The Plan has a fully benefit responsive group annuity contract with Great-West Life & Annuity Insurance Company ("Great-West") that invests in the Key Guaranteed Portfolio Fund. The insurance company maintains the contributions in a general account, which is credited with earnings and charged for participant withdrawals and administrative expenses. The group annuity contract is included in the financial statements at fair value which is equal to contract value.

Certain events limit the Plan's ability to transact at contract value with the insurance company. Such events include the following: (1) premature termination of the contracts by the Plan, (2) plant closings, (3) layoffs, (4) Plan termination, (5) bankruptcy, (6) and early retirement incentives. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. The insurance company may not terminate the contract at any amount less than the contract value.

The insurance company is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the insurance company. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the product will be established based on the earnings of the underlying assets in the entire medium-long term portfolio compared to the minimum interest crediting rate, as stated in the contract and prevailing market conditions. The actual average yield earned by the Plan for the group annuity contract is derived by calculating the Plan's interest earned compared to average balance.
