1. DESCRIPTION OF PLAN:

The following description of the Ironton-Lawrence County Area Community Action Organization, Inc. Tax Sheltered Annuity Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of plan provisions.

General

The Plan is a defined contribution 403(b) plan, covering certain employees of the Ironton-Lawrence County Area Community Action Organization, Inc. (the Employer). An employee may participate in the Plan upon meeting eligibility requirements, as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute a portion of their eligible compensation, as defined by the Plan, subject to Internal Revenue Service (IRS) limitations. Participants are also permitted to deposit into the Plan distributions from other qualified plans. Participants who have attained age 50 are eligible to make catch up contributions. The Plan provides for discretionary Employer matching contributions. For the years ended December 31, 2016 and 2015, the Employer made matching contributions of 100% of the first 7% of participant salary deferrals.

Participant accounts

Each participant's account is credited with the participant's contributions, Employer matching contributions, allocations of plan investment earnings and appreciation in value. Each participant's account is decreased by an allocation of Plan investment losses, depreciation in value, administrative expenses and any participant withdrawals. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The Plan's investments are participant directed.

Vesting

Participants are immediately vested in all contributions plus actual earnings thereon.

Participant notes receivable

Participants may borrow from their fund accounts up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. Note terms are up to a maximum of five years unless the loan is for the purchase of a principal residence in which case the note repayment period may not extend beyond ten years from the date of the note. The notes are secured by the balance in the participant's account and bear interest at the prevailing interest rate at the time the note is granted. Principal and interest are paid through payroll deductions on a quarterly basis.

Payment of benefits

Normal retirement age is the later of the date the participant is 65 years of age or the 5th anniversary of the participant's employment. Upon termination of service due to death, disability, retirement, or reaching age 59 ½, distributions may be made to the participant or their beneficiary in a single lump sum payment or in installment payments. The participant may also elect to withdraw before-tax contributions in the event of financial hardship, subject to Plan provisions.

Administrative expenses

Certain administrative expenses are paid by the Employer and are excluded from these financial statements. Other expenses such as legal and accounting are paid from plan assets and deducted from participant accounts in accordance with the plan document. Investment related expenses are included in net appreciation (depreciation) in fair value depreciation of investments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following are the significant accounting policies of the Plan:

Basis of accounting

The financial statements of the Plan are prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles in the United States of America (U.S. GAAP). This method utilizes a modified cash approach whereby contributions and expenses are recorded in the period received or paid.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Use of estimates

The presentation of financial statements in conformity with the modified cash basis of accounting, requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when received. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant notes receivable

Participant notes receivable are measured at the unpaid principal balance plus accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. Under default (as defined), the plan administrator treats the default as a distribution and offsets the outstanding balance of the note against the participant's vested accrued balance.

Payment of benefits

Benefit distributions are recorded when paid.

Accounting changes

Recently issued accounting pronouncements—The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, “Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date – Practical Expedient.” ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with earlier adoption permitted. The Plan elected to early adopt Part II of ASU 2015-12 in 2015; in 2016, the Plan adopted Part I of the ASU, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits. Part III is not applicable to the Plan.

Additionally, the FASB issued ASU 2015-07, “Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or Its Equivalent).” ASU 2015-07 simplifies disclosures and reporting on investments valued at net asset value as a practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with earlier adoption permitted. The Plan has elected to early adopt ASU 2015-07 in 2016, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Reclassification

Certain reclassifications were made to the 2015 financial statements in order to conform to the presentation in the 2016 financial statements.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The Plan has evaluated subsequent events through October 9, 2017, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE CUSTODIAN:

The following information in the accompanying financial statements and supplemental schedule were obtained from data that has been prepared and certified as complete and accurate by the custodian, AXA Equitable Life Insurance Company (AXA Equitable):

- Investments
- Net appreciation (depreciation) in fair value of investments
- Interest
- Assets held at end of year

4. GUARANTEED INTEREST ACCOUNT:

The Plan participates in a benefit-responsive insurance contract with AXA Equitable, the custodian of the Plan. AXA Equitable maintains the contributions in a general account. The account is credited with contributions and earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed insurance contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by AXA, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total Plan termination, retirement incentive programs, and the liberalization of Plan withdrawal or transfer rules. Upon occurrence of any of these events, a market value adjustment or other withdrawal restrictions may apply. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

5. POOLED SEPARATE ACCOUNTS:

The Plan holds an investment contract with AXA Equitable. AXA Equitable maintains Plan contributions in pooled separate accounts (PSAs) and invests in these accounts according to the stated objectives of the various PSAs. The principal is not guaranteed. Contract holders are allocated units of the PSAs, not specific securities. The value of the units is stated at fair value.

6. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2016 and 2015:

Pooled separate accounts: Pooled separate accounts are held in investment contracts with the custodian and are invested according to the stated objectives of the various accounts. The principal is not guaranteed. The pooled separate accounts are valued at the net asset value, which is based on the market value of its underlying investments. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. The investment objectives of the accounts primarily include capital appreciation and long-term capital growth, with secondary objectives based on both current and long-term income. These objectives will be achieved primarily through diversified asset allocation strategies.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2016 and 2015, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

<u>December 31, 2016</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Redemption Notice Period</u>
Pooled separate accounts	\$ 4,729,461	n/a	Daily	Daily
<u>December 31, 2015</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Redemption Notice Period</u>
Pooled separate accounts	\$ 4,185,949	n/a	Daily	Daily

7. RELATED PARTY TRANSACTIONS:

Certain Plan investments are managed by AXA Equitable, the custodian of the Plan. Therefore, these transactions qualify as party-in-interest transactions.

8. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA.

9. INCOME TAX STATUS:

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (IRC). The Plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for plan participants under Section 403(b).

10. RISKS AND UNCERTAINTIES:

Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
