ENTISYS SOLUTIONS, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2016 and 2015

Note 1 - Description of plan

General

This description of the Entisys Solutions, Inc. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Entisys Solutions, Inc. (the "Company", “Plan Administrator”, and "Plan Sponsor") has adopted a volume submitter defined contribution 401(k) plan (the "Plan") covering all eligible employees of the Company who are over the age of 18.

The Plan was amended in 2015 to conform to the provisions of the Pension Protection Act.

Administration

The Company has appointed the Chief Financial Officer as the Plan Trustee and the Manager of Human Resources to manage the operations and administration of the Plan. The Company has contracted with Mass Mutual Life Insurance Company (“Mass Mutual”) to act as the Plan custodian as well as the third-party administrator to process and maintain the records of participant data and monitor compliance with governmental regulatory requirements for the years ended December 31, 2016 and 2015. The Company contracted with State Street Bank and Trust Company (“State Street”) to act as the custodian of the Plan’s assets in the pooled separate accounts for the year ended December 31, 2015.

Contributions

Each year, participants may elect to defer up to 100% of their pre-tax annual compensation as defined in the Plan document. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). The Plan document also permits Roth 401(k) contributions into the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers investments in pooled separate accounts and a stable value fund to its participants. The Company is allowed to make discretionary matching contributions as defined in the Plan document. There were no discretionary matching contributions for the years ended December 31, 2016 and 2015. Contributions are subject to certain IRS limitations.

Participant accounts

Each participant’s account is credited with the participant’s contributions and Company discretionary matching contributions, as well as allocations of Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account balance.

Note 1 - Description of plan (continued)

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contribution is based on years of continuous service and a participant is 100% vested upon the completion of six years of credited service.

Notes receivable from participants

A participant may have a maximum of one loan outstanding at any given time. Participants may borrow from their fund accounts a minimum of $1,000 to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. The interest rate for loans outstanding as of December 31, 2016 ranged from 4.25% to 7%, which is commensurate with local prevailing rates as determined by the Plan Sponsor. Loan terms typically range up to five years, or may exceed five years for the purchase of a primary residence. Principal and interest are paid ratably through semi-monthly payroll deductions.

Payment of benefits

Upon reaching the age of 59½ years and at the discretion of the participant or upon termination of service due to death, disability, or retirement, a participant or the designated beneficiary may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Upon termination, if the participant's or beneficiary's vested account balance is $5,000 or less, the Plan allows the trustee to distribute the vested account balance to an Individual Retirement Account ("IRA") for the participant's benefit. Vested balances of $1,000 or less will be distributed as a lump-sum amount without the participant's consent.

Forfeited accounts

Forfeited non-vested accounts may first be used to pay Plan administrative expenses and any remaining amount may be used to reduce future employer contributions under the Plan. At December 31, 2016 and 2015, forfeited nonvested accounts are insignificant to the financial statements.

Note 2 - Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

Note 2 - Summary of accounting policies (continued)

Change in accounting principle in 2015

In July 2015, the Financial Accounting Standards Board issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts ("FBRICs") and states that contract value is the only required measurement for FBRICs. However, this ASU clarifies that indirect investments in FBRICs through investment companies (for example, those included in the underlying investments of stable value common/collective trusts) are not included within the scope of this guidance and therefore, should be reported at fair value, which may include underlying FBRICs at contract value. Part I is to be applied retrospectively and early adoption is permitted. Plan management elected to early adopt Part I in 2015. The Plan's investment in the Mass Mutual Guaranteed Interest Account, which is a stable value fund, represents an indirect investment in a FBRIC and as such the investment is now reported at fair value without presenting the adjustment to contract value. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and II are to be applied retrospectively and management also elected to adopt Part II early in 2015. Part Ill is not applicable to the Plan.

Use of estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates. Significant estimates used in preparing these financial statements include the fair value of investments in pooled separate accounts and stable value fund, and management's estimate of the allowance for losses on notes receivable from participants.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustee determines the Plan's valuation policies utilizing information provided by the investment advisor and custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's realized and unrealized gains and losses on investments bought and sold as well as held during the year.

Note 2 - Summary of accounting policies (continued)

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan Document.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of the benefit payments to participants and notes receivable from participants are charged directly to participants' accounts and amounted to $1,150 and $905 for the years ended December 31, 2016 and 2015, respectively. The Plan also pays Mass Mutual an asset-based fee calculated at 55 basis points of Plan assets. Such fees totaled $33,624 and $30,947, for the years ended December 31, 2016 and 2015, respectively. Fees paid by the Plan for investment management services are included as a reduction of the return earned on each investment fund and is charged to participant accounts.

Pursuant to a revenue sharing agreement with between Mass Mutual and the Plan's investment advisor, the investment advisor receives an asset-based commission calculated at 25 basis points of the assets invested with Mass Mutual. Amounts received under such revenue sharing arrangement by the investment advisor amounted to $17,899 and $17,403 for the years ended December 31, 2016 and 2015, respectively, which are included in the administrative expenses reflected in the statements of changes in net assets available for benefits.

Subsequent events

In preparing its financial statements, the Plan has evaluated subsequent events through October 12, 2017, which is the date the financial statements were available to be issued.

Note 3 - Certified investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2016 and 2015, and net appreciation or depreciation in fair value of investments, interest, and dividends for the years ended December 31, 2016 and 2015, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Mass Mutual and State Street, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The Plan's investments in pooled separate accounts and the stable value fund (including gains and losses on investments bought and sold, as well as held during the years) appreciated in value by $449,749 during 2016 and depreciated in value by $82,108 during 2015.

Note 4 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. (No assets at this level.)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

The Plan's investments in pooled separate accounts are valued at the Net Asset Value (NAV) of assets held. The NAV is based on the fair value of the underlying investments held by fund, less liabilities. The underlying securities are comprised of bonds, fixed income securities, and mutual funds. In general, these investments seek maximum total return, consistent with preservation of capital and prudent investment management.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value of the Guaranteed Interest Account, a stable value fund, is stated at the liquidation value, based on an actuarial formula as defined under the terms of the contract. The fund invests primarily in long-term bonds, mortgage loans, short-term investments and cash, and small positions of common stock, partnership arrangements, and real estate.

There are no unfunded commitments, redemptions can be made daily and there are no other restrictions or penalties.

There have been no changes in the valuation methodologies used at December 31, 2016 and 2015.

Note 4 - Fair value measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 investment for the year ended December 31, 2016:

Realized and unrealized gains	11,786
Purchases	161,535
Sales	(72,871)
Balance, end of the year	$ 481,486

Note 4 - Fair value measurements (continued)

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments and the significant unobservable inputs and the ranges of value for those inputs as of December 31, 2016 and 2015.

Instrument	Fair Value at December 31, 2016	Fair Value at December 31, 2015	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed Interest Account	$ 481,486	$ 381,036	Market Value Formula	Assumed Interest Rate Experience Rate	3.60% - 3.77% 4.35% - 5.09%

Note 5 - Rollover contributions

During 2016, rollover contributions of $298,674 from other plans came from six active participants. During 2015, rollover contributions of $15,782 from other plans came from three active participants.

Note 6 - Related party transactions and party-in-interest transactions

Plan investments in the stable value fund and pooled separate accounts were managed by Mass Mutual for the years ended December 31, 2016 and 2015. Plan investments in the pooled separate accounts were also managed by State Street for the year ended December 31, 2015. Mass Mutual and State Street are the custodians as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Refer to **Note 2 - Expenses** for expenses of the Plan paid by the Plan Sponsor and the Plan participants to the various parties-in-interest. Amounts paid under a revenue sharing arrangement are also discussed at **Note 2 - Expenses**. All these transactions are considered party-in-interest transactions under ERISA regulations but are permitted under the provisions of the Plan and are specifically exempt from the prohibition of parties-in-interest transactions under ERISA.

Note 7 - Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 8 - Tax status

The Internal Revenue Service has informed the third-party administrator by letter dated March 31, 2014 that the Volume Submitter 401(k) Plan adopted by the Plan Sponsor is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended and restated since receiving the opinion letter, the Plan's third-party administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date and subsequent to year-end.

Note 8 - Tax status (continued)

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position not likely to be sustained upon examination by taxing authorities and government agencies. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits in progress for any tax periods.

Note 9 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - Reconciliation of the financial statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2016 and 2015:
