General

The Plan is a defined contribution plan established for the sole purpose of providing retirement benefits to all employees as defined in the Plan document of K. West Group, LLC (the Company) who have attained the age of twenty-one and completed at least three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to Internal Revenue Service maximum limits of pre-tax annual compensation to a traditional 401(k) or after-tax annual compensation to a Roth 401(k), as defined in the Plan document. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company contributes a maximum of 4% of employee wages by matching 100% of the first three percent plus 50% of employee contributions over 3% up to 5%. The matching contribution is invested as directed by the participants. Additionally, the Company may make a discretionary profit sharing contribution at the end of the Plan year. Participants may share in the additional profit sharing amounts provided they have completed three months of service and are actively employed on the last day of the Plan year. Contributions are subject to certain limitations. The Plan Sponsor made a discretionary contribution of $103,360 for 2016.

Rollover contributions

Participants may contribute funds previously held for their account in another qualified employee benefit plan to the Plan. A participant shall be fully vested at all times in such amounts transferred into the Plan. Rollover contributions share in income and earnings under the terms of the Plan, but no employer contributions are made with respect to any rollover contributions.

Participants' accounts

Each individual account is maintained for each participant by Ascensus Trust Company (the trustee). Participants direct the investment of their accounts among the investment options offered by the Plan. Each participant's account is credited with the participant's contributions and the Company's matching contributions. Participant accounts are also adjusted for investment fund earnings and losses based on the respective fund's changes in net asset value during the period.

Vesting

Participants are always 100% vested in their contributions plus any earnings (losses) thereon. Participants become vested in the Company's contributions plus earnings (losses) over a six year-period as described below:

Note 1–Plan Description – continued

Years of Service	Percentage Vested
Two but less than three	20%
Three but less than four	40%
Four but less than five	60%
Five but less than six	80%
Six or more	100%

Forfeitures
Forfeited amounts attributable to the Company matching portion of a participant's account will be applied to reduce the Company matching contribution for the Plan year in which such forfeitures occur. Forfeited amounts attributable to the Company discretionary portion of a participant's account will be reallocated to all participants based on compensation, as defined. Forfeited non-vested amounts totaled $0 and $2,130, at December 31, 2016 and 2015, respectively. $15,781 was used to reduce the Company's profit sharing contribution during the year ended December 31, 2016.

Payment of benefits
On termination of service due to death, permanent disability, financial hardship, retirement or upon attainment of age 59 ½, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount. Distributions must commence by April 1 of the calendar year following the calendar year the participant reaches age 70½ and has separated from service.

Administrative expenses
Administrative expenses are paid by the Plan unless the Company elects to make payment.

Plan termination
Although it has not expressed any intent to do so, the Company has the right under the Plan provisions to discontinue its contributions at any time and to amend, modify, or terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their account balance.

Note 2–Significant accounting policies

Basis of accounting
The Plan maintains its records on the accrual basis, whereby income is recognized when earned and expenses are recognized when the obligations are incurred.

Contributions
Employee salary deferrals and employer contributions are included in income during the period the related salary is earned.

Note 2–Significant accounting policies–continued

Payment of benefits
Benefits are recorded when paid.

Investment valuation and income recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion and disclosures related to fair value measurements.

Investment transactions are accounted for on a trade-date basis, and realized gains and losses on sales of securities are determined using the average cost method. Income from investments is recognized when earned. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on an ex-dividend basis.

Risks and uncertainties
The Plan utilizes various investment instruments, including mutual funds and common/collective trust funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the financial statements.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Recently issued accounting pronouncements
In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent) (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which the fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. ASU 2015-07 should be applied retrospectively to all periods presented and is effective for annual periods beginning after December 15, 2016 with early adoption permitted. Plan management is evaluating the impact of this update but does not expect it will have a material effect on the Plan's financial statements.

Note 2–Significant accounting policies–continued

Recently issued accounting pronouncements – continued

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient (ASU 2015-12). Part I clarifies fully benefit-responsive investment contracts are limited to direct investments between the Plan and the issuer. Part I also eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measurement for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset. Part III is not applicable to the Plan. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015 with early adoption permitted. The Plan adopted the applicable provisions of ASU 2015-12 for the December 31, 2016 plan year. The adoption of Parts I and II of this guidance did not have a significant impact on the Plan's financial statements. Parts I and II are to be applied retrospectively.

Subsequent events

The Plan has evaluated subsequent events through October 12, 2017, the date the financial statements were available to be issued, and has determined there are no subsequent events that require disclosure.

Note 3–Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held as of December 31, 2016, and net realized and unrealized appreciation in fair value of investments, interest, dividends and interest income on notes receivable from participants for the year ended December 31, 2016, were obtained or derived from information supplied to the Plan Administrator and certified by Ascensus Trust Company as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information has not been examined by independent auditors.

Note 4–Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic, Fair Value Measurement, are described as follows:

Note 4–Fair value measurements – continued

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

a. Quoted prices for similar assets or liabilities in active markets;

b. Quoted prices for identical or similar assets or liabilities in inactive markets;

c. Inputs other than quoted prices that are observable for the asset or liability;

d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016.

Mutual Funds – based on quoted market prices of the shares held by the Plan at year-end.

Common/Collective Trust Fund – valued based on the NAV of the shares determined by the underlying securities.

Note 4–Fair value measurements – continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets that are measured at fair value.

		Fair Value Measurements at December 31, 2016 Using

Note 5–Federal income tax status

The Plan is designed based on a prototype plan established by Ascensus. The Internal Revenue Service has provided an opinion to Ascensus by a letter dated March 31, 2014, that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving this letter, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
