OhioGuidestone 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of OhioGuidestone 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all regular full-time employees of Berea Children's Home (the Company and Plan Sponsor). To be eligible to participate in the 401(k) contribution, employer matching contributions and discretionary contribution, the participant must be age twenty-one or older and have completed one-year of service with the Company. One year of service is defined as having completed twelve months of employment. The Plan is subject to tax provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Each year, participants may contribute up to the maximum percentage of pretax annual compensation, as defined by the Plan and as allowable under the Internal Revenue Code (IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who attained age 50 before the end of the Plan year are eligible to contribute additional catch-up contributions, as allowable under the IRC. The Plan includes an automatic salary deferral feature. Under this feature, the Company will automatically withhold 2% of a participant's eligible compensation unless the participant elects a different amount or elects not to contribute. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributes a matching contribution equal to 50% of employee deferrals up to 2% of eligible compensation for all employees. Additional amounts may be contributed at the discretion of the Company's Board of Trustees.

Participants' accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants immediately vest in their contributions, plus actual earnings thereon. Vesting in the employer matching and discretionary contributions are based on years of service without incurring a break in service in accordance with the following schedule:

<u>Years of Service</u>	<u>Vesting</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Payment of benefits: Participants are entitled to receive a lump-sum amount equal to the value of their vested account balance upon death, disability, retirement or termination.

Forfeited accounts: Forfeitures are used to reduce employer contributions. Forfeitures of \$0 were used to reduce employer contributions during the year ended December 31, 2016. Accumulated forfeitures will be applied to reduce the employer contribution in 2017. At December 31, 2016 and 2015 there was approximately \$71,400 and \$25,100, respectively, of forfeitures available to be used to reduce future employer contributions.

OhioGuidestone 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest is paid ratably through monthly payroll deductions.

Note 2. Significant of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value, except for the fully-benefit responsive investment contract which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Because the guaranteed investment contract is fully-benefit responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits. The guaranteed investment contract is presented on the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by the custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all, or a portion, of their investment at contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as, held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Risks and uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Benefit payments: Benefits are recorded when paid.

Administrative expenses: Administrative expenses of the Plan are paid by the Plan or by the Company, at the option of the Company.

Subsequent events: Plan management has evaluated subsequent events for potential recognition and/or disclosure through October 13, 2017, the date the financial statements were available to be issued.

Note 3. Investments Certified and Provided by Voya Trust Company and by Ascensus Trust Company

The following is a summary of the Plan's asset information as of December 31, 2016 and 2015, and for the year ended December 31, 2016, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that the information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015:

Pooled separate accounts: Valued at the total of the net asset value (NAV) of shares of mutual funds and cash held by the account at year-end. The Plan's interests in the pooled separate accounts are valued based on the information reported by the investment advisor.

Registered investment companies: Shares of registered investment companies are valued at quoted market prices which represent the NAV of shares held by the Plan at year-end.

Common/collective trust: Valued at NAV as provided by the investment manager. The fair value of the underlying conventional investment contracts is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2016			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 2,534	\$ -	\$ -	\$ 2,534

Investments measured at net asset value ^(a)				878,871
Investments at fair value				\$ 10,874,971

- ^(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2016 and 2015, there were no transfers in or out of Level 1, 2, or 3.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2016 and 2015. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

- (1) This category includes investments whose objective is to either seek substantial dividend income as well as long-term growth of capital or provide an investment return matching the return of the S&P 500 index. Typically these funds invest primarily in stocks of companies similar in size to those in the S&P 500 index.
- (2) This category's investment objective is to seek long-term capital appreciation. The funds may invest in domestic equity securities with growth potential and/or companies within the range of the market capitalization of the Russell Midcap Value index.
- (3) Investments in this category seek capital appreciation by investing in either growth or value stocks issued by companies with small-sized market capitalization believed to be undervalued in the marketplace or possess above average potential.
- (4) The pooled separate accounts in this category primarily invest at least 80% of assets in equity and debt securities of issuers from Europe and developing market countries.
- (5) The investment option invests primarily in intermediate-term, fixed-income investments such as public and private corporate bonds, commercial and residential mortgages, asset-backed securities, and United States government and agency-backed securities. The fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in a diversified portfolio of fixed-income instruments of varying maturities, represented by forwards or derivatives such as options, futures contracts, or swap agreements, at the time of each purchase. It invests in securities denominated in foreign currencies and in securities of foreign issuers, including securities tied to emerging market countries.
- (6) The pooled separate accounts in this category primarily seek a total return consisting of long-term growth of capital and current income. The fund operates as a "target date fund." It invests primarily in underlying Voya Investments funds, domestic and foreign equity, real asset and alternative investments, and fixed-income funds according to an asset allocation strategy designed for investors having a retirement investment goal close to the year in the fund's name.

Note 5. Guaranteed Investment Contract with Insurance Company

During 2016, the Plan entered into a traditional investment contract with Voya Retirement Insurance and Annuity Company, an affiliate of Voya Institutional Trust Company. The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value of the traditional investment contract at December 31, 2016 was \$1,048,566.

OhioGuidestone 401(k) Plan

Notes to Financial Statements

Note 5. Guaranteed Investment Contract with Insurance Company (Continued)

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.00%. Such interest rates are reviewed on a quarterly basis for resetting. The contract does permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code.
2. Premature termination of the contract.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment.
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures of spin-offs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

OhioGuidestone 401(k) Plan

Notes to Financial Statements

Note 7. Tax Status

The Plan adopted a non-standardized form of a prototype profit sharing plan. The prototype plan has obtained an opinion letter from the Internal Revenue Service as to its qualified status. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan. The Plan Administrator has analyzed the tax positions taken by the plan and has concluded that as of December 31, 2016 and 2015, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

Note 8. IRS Form 5500 Reconciliation

Notes receivable from participants are reported on the Form 5500 as participant loans and are considered to be plan investments while in the Plan's financial statements they are classified as receivables from participants.

Note 9. Party-in-Interest Transactions

Certain Plan investments are funds managed by Voya Retirement Insurance and Annuity Company, an affiliate of Voya Trust Company. Voya Trust Company is the current custodian, as defined by the Plan. These transactions qualify as party-in-interest transactions. Fees paid by the Plan for administrative services provided by Voya Trust Company amounted to \$6,190 for the year ended December 31, 2016.

Ascensus Trust Company is the former custodian, as defined by the Plan. Fees paid by the Plan for administrative services provided by Ascensus Trust Company amounted to \$400 for the year ended December 31, 2016.
