INDEPENDENT AUDITOR'S REPORT

To the Trustees of and Participants in
the Exelis Communication Solutions Pension Plan for Employees in the Bargaining Unit

Report on the Financial Statements

We have audited the accompanying financial statements of Exelis Communication Solutions Pension Plan for Employees in the Bargaining Unit (the "Plan"), which comprise the statements of net assets available for pension benefits as of December 31, 2016 and 2015, the related statements of changes in net assets available for pension benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding Exelis Communication Solutions Pension Plan for Employees in the Bargaining Unit's net assets available for pension benefits as of December 31, 2016, and the changes therein for the year then ended and its financial status as of December 31, 2015 and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2 to the financial statements, management has elected early adoption of the new accounting pronouncement ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Assets Value per Share (or Its Equivalent)*. Our opinion is not modified with respect to this matter.

Notes to the Financial Statements

Note 1 - Description of Plan

The following description of the Exelis Communication Solutions Pension Plan for Employees in the Bargaining Unit (formerly known as the Exelis Electronic Systems Pension Plan for Employees in the Bargaining Unit) (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined benefit plan covering substantially all employees of Exelis Communication Solutions, a division of Exelis Inc. (the "Company") a wholly owned subsidiary of Harris Corporation, who are represented by Local 84999, IUE the Industrial Division of the Communications Workers of America, AFL-CIO. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Master Trust

The Northern Trust Company (the "Trustee" or "Northern Trust") serves as trustee of the Plan and administers the Plan's investment assets. The Plan's assets consist of an undivided interest in an investment account of the Master Trust, EIN 36-6668234, a master trust established by the Company and administered by the Trustee. The Master Trust includes the combined assets of the Plan as well as several other employee benefit plans of the Company. Although assets of the Plan are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain (loss) of the investment account to the participating plans. The net investment income (loss) of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans. A schedule of the Master Trust assets has been filed with the U.S. Department of Labor and includes the Plan's proportionate share of such assets at December 31, 2016 and 2015.

Eligibility

All employees of Exelis Communication Solutions, a division of Exelis Inc., who are represented by Local 84999, IUE the Industrial Division of the Communications Workers of America, AFL-CIO, are eligible to participate as of their date of employment.

Note 1 - Description of Plan (Continued)

Pension Benefits

Participants are eligible for monthly benefit payments upon reaching age 65. The normal monthly benefit payments are determined by multiplying the benefit rate, which depends upon the participant's date of termination, by the total number of years of credited service, not to exceed 42 years. A participant is 100% vested after five years of service. Prior to that time, the participant is not vested.

Employees are eligible to receive early retirement benefits between the ages of 55 and 65 upon the completion of 10 years of continuous service. Early retirement eligibility is age 55 and 10 years of continuous service.

Death and Disability Benefits

A married employee who is a vested participant is automatically covered by the preretirement death benefit option, which will provide a benefit for the surviving spouse upon death prior to retirement, unless coverage is waived.

The benefit would be equal to the benefit the spouse would have received had the employee retired on the date of death, computed under the normal form of payment and subject to certain limitations.

An employee, who is age 40, with 10 years of credited service and who becomes totally and permanently disabled is eligible to receive a disability retirement benefit. The amount of the benefit is computed as it would be for normal retirement, based on the employee's years of credited service as of the date of disability, but not less than \$340 per month.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Notes to the Financial Statements (Continued)
December 31, 2016 and 2015**

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties

The Plan, through the Master Trust, utilizes various investment instruments, including common stock, U.S. government securities, corporate debt instruments, limited partnerships, collective trust funds, registered investment companies, and other investments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The Plan's interest in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for description of valuation methods.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (appreciate) depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses of the Plan are paid by the Master Trust on behalf of the Plan, as provided in the Plan document and the Master Trust agreement. Administrative expenses generally consist of consulting fees, auditing fees, recordkeeping fees, and investment management fees. The Plan Sponsor provides accounting and other administrative services to the Plan and Master Trust at no charge.

Reclassifications

Certain prior year amounts have been reclassified for consistency with the current period presentation.

Note 2 - Summary of Significant Accounting Policies (Continued)

New Accounting Pronouncement

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, Fair Value Measurement, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management has elected to early adopt.

Subsequent Events

The Plan has evaluated subsequent events and transactions through October 12, 2017, the date that the financial statements were available to be issued.

Note 3 - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Plan's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability, and are to be developed based on the best information available in the circumstances.

The Plan determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within its hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

**EXELIS COMMUNICATIONS SOLUTIONS PENSION PLAN
FOR EMPLOYEES IN THE BARGAINING UNIT
Notes to the Financial Statements (Continued)
December 31, 2016 and 2015**

Note 3 - Fair Value Measurements (Continued)

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

Change in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets. For the years ended December 31, 2016 and 2015, there were no significant transfers in or out of Levels 1, 2, or 3.

Asset Valuation Techniques

Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Domestic and international equity:

Domestic and international equity includes common and preferred stocks, domestic listed and foreign listed equity securities, unit trust equities, stapled securities, open-ended and closed-ended mutual funds, exchange traded funds (registered investment companies), and these are generally valued at the closing price reported on the major market on which the individual securities are traded at the measurement date.

Fixed Income Investments:

Fixed income investments include U.S. Government securities, corporate bonds and municipal obligations, which are generally valued using pricing models that use verifiable, observable market data such as interest rates, benchmark yield, bids provided by brokers or dealers, or quoted prices of securities with similar characteristics.

**EXELIS COMMUNICATIONS SOLUTIONS PENSION PLAN
FOR EMPLOYEES IN THE BARGAINING UNIT
Notes to the Financial Statements (Continued)
December 31, 2016 and 2015**

Note 3 - Fair Value Measurements (Continued)

Cash and Cash Equivalents:

Cash and cash equivalents are primarily comprised of short-term money market funds valued at cost, which approximates fair value, or valued at quoted market prices of identical instruments.

Limited partnership Funds:

Limited partnership funds include buy-out, mezzanine, venture capital, distressed asset, commodities, real estate and venture capital, are typically limited partnership investment structures and/or joint ventures. Limited partnership valuations are based on the valuation of the underlying investments, which include inputs such as cost, operating results, discounted future cash flows and market-based comparable data. Net asset value (NAV) is used as a practical expedient to estimate fair value.

Hedge Funds:

Hedge funds include equity long/short, event driven, fixed income arbitrage and global macro, are typically limited partnership investment structures. Limited partnership interests in hedge funds are primarily valued using a market approach based on net asset value (NAV) calculated by the funds and are not publicly available. NAV is used as a practical expedient to estimate fair value.

Common collective trusts:

Common collective trusts (CCTs) are valued at NAV and are arrangements in which the funds of individual trusts are pooled to avail themselves of professional investment management and achieve greater diversification of investment, stability of income, or other investment objectives. CCTs are reported at NAV, as of the measurement date. NAV is used as a practical expedient to estimate fair value.

Other:

Other investments includes a guaranteed insurance contract which is valued at cost, which approximates fair value.

- (a) Limited partnership interests in private equity funds are not redeemable from the general partner. Private equity interests can be sold through a secondary sale to a third party.
- (b) Buyout funds are partnership investment vehicles that take a controlling interest primarily in private companies with the intent of developing them for future sale at a higher price to a strategic or financial buyer or through an initial public offering. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next three to 10 years.
- (c) Distressed asset investments are partnership investment vehicles that purchase debt or preferred equity instruments of companies that are distressed, near bankrupt, or bankrupt. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next seven to nine years.

Note 3 - Fair Value Measurements (Continued)

- (d) Venture capital funds are partnership investment vehicles that provide seed or growth capital to start-ups and early stage companies, usually in high growth industries, such as information and clean technology, health care and biotechnology. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next six to nine years.
- (e) Mezzanine private equity funds provide mezzanine loans to companies that need capital but do not want to sell or dilute their equity interests. Mezzanine loans are subordinated debt or preferred equity securities that represent a claim on the borrower's assets, which is senior to the common equity but subordinate to senior secured and unsecured debt. The nature of the investments in this category is that distributions are received through coupon payments and the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next eight to 10 years.
- (f) Commodities are partnership investment vehicles that invest in businesses engaged in commodity related sectors, including as energy, natural resources, and agriculture. Investments are realized through the sale of the underlying assets to a strategic or financial buyer, or through an initial public offering.
- (g) Real estate investments are partnership investment vehicles that invest in commercial, industrial, and residential real estate. Investments are realized through the sale of the underlying assets to a strategic or financial buyer.
- (h) The international equity fund's objective is to invest in exchange traded securities in emerging markets.
- (i) Redemption restrictions vary, within 30-91 days, by investment management agreement but are based on the initial investment date and take into account liquidity terms, notice periods, redemption schedules, withdrawal with or without penalties and lock-ups, if any. In certain cases, full redemption may be extended over a period of time.
- (j) The multi-strategy hedge funds have an objective to add value from mispriced securities. These funds have entered into full redemption requests and are expected to be liquidated over the next one to two years.
- (k) Fund of funds hedges invest in a variety of investments, mainly other hedge funds, of different styles with the goal of generating diversified returns in all types of market environments.

Note 3 - Fair Value Measurements (Continued)

- (l) The partnership's objective is to preserve capital and to seek maximum, long-term, capital appreciation commensurate with reasonable risk. The partnership seeks to achieve this through long and short positions in equity or debt securities of public U.S. and non-U.S. issuers (including securities convertible into equity or debt securities), and derivative instruments.
- (m) Event driven funds are single direct funds attempting to generate returns in all types of market environments with appropriate amounts of risk.
- (n) Common collective trusts include pooled funds of domestic and international common stocks and equities and corporate convertible bonds. The common collective trusts' principal objectives are to invest in opportunities as they arise in a range of emerging markets, sectors and instruments, particularly those resulting from major shifts in macroeconomic policy, credit outlook, and/or global or regional economic trends.

Note 4 - Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2016 and 2015.

Note 5 - Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Note 5 - Accumulated Plan Benefits (Continued)

The following amounts were calculated as of the latest actuarial valuation date, which was January 1, 2016.

The actuarial present value of accumulated plan benefits as of January 1, 2016 is as follows:

Vested accumulated plan benefits:

Retired participants and/or beneficiaries currently receiving benefits	\$ 21,553,240
Other participants	<u>17,867,149</u>
Total vested accumulated plan benefits	39,420,389

Total actuarial present value of accumulated plan benefits	<u><u>\$ 39,420,389</u></u>
--	-----------------------------

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended January 1, 2016, are as follows:

Actuarial present value of accumulated plan benefits at January 1, 2015	\$ 36,993,858
---	---------------

Increase (decrease) during the year attributable to:

Benefits accumulated and other	(287,357)
Benefits paid	(2,202,562)
Assumption changes	1,953,512
Interest	<u>2,962,938</u>

Notes to the Financial Statements (Continued)
December 31, 2016 and 2015**

Note 5 - Accumulated Plan Benefits (Continued)

The actuarial cost method used to measure the present value of accumulated plan benefits is the accrued benefit method. The significant actuarial assumptions used in the January 1, 2016 valuation were:

Mortality: For 2016, the mortality assumption used is RP-2014 with Buck modified projection scale. The Buck Modified Projection Scale is a modified version of MP 2014 improvement scale using a grading period of 15 years to a long term improvement rate of 0.75%

Retirement age: Age 65.

Investment return was 8.00% per annum for 2016.

Discount rate was 8.00% per annum for 2016.

Actuarial assumptions for the period before normal retirement include factors for mortality, termination of employment, early retirement, and disability. Reflected in the assumption change are decrement assumptions to reflect a 100% termination and retirement during 2016 due to the Fort Wayne facility shut down.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuarial present value and the actuarial value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change which may have an impact on the Plan contributions. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

Note 7 - Exempt Party-in-Interest Transactions

Certain Master Trust investments are shares of registered investment companies managed by the Trustee. These assets and related transactions qualify as exempt party-in-interest transactions.

Certain administrative functions are performed by officers and employees of the Company (who may also be a participant in the Plan) at no cost to the Plan or Master Trust. These transactions are not deemed prohibited party-in-interest transactions because they are covered by the statutory administrative exemptions from the IRC and ERISA's rules on prohibited transactions.

**EXELIS COMMUNICATIONS SOLUTIONS PENSION PLAN
FOR EMPLOYEES IN THE BARGAINING UNIT
Notes to the Financial Statements (Continued)
December 31, 2016 and 2015**

Note 8 - Federal Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated August 20, 2014, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan administrator believes that the Plan is currently designed and is currently being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

Note 9 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of the Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Mortality

Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan related expenses to be paid from plan assets during the year.

Exelis Communications Solutions Pension Plan for Employees In the Bargaining Unit

EIN/PN: 34-0276860 / 004

Schedule SB, Part V –Actuarial Assumptions and Methods

Non-Prescribed Funding Assumptions and Methods

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor with the actuary's advice and is an acceptable method under PPA. These assumptions are based on the plan sponsor's anticipated experience. Actual experience is reviewed each year and compared to the assumption. Changes are then made, as appropriate, based on this review.

Expenses

Expected plan related expenses equal to prior year plan related expenses, excluding the prior year PBGC premium plus current year PBGC premium were added to Target Normal Cost. This amount is equal to \$704,551.

Frequency of optional payment forms

70% of future retirees and terminations are assumed to take a life annuity. Those future retirees who are assumed not to take a life annuity are assumed to take a Joint and Survivor 50%, 75%, or 100% Option with equal probability. Those terminations that are assumed not to take a life annuity are assumed to take a Joint and Survivor 50% or 75% Option with equal probability.

Marital percentage

85% of participants are assumed to be married at death. Husbands are assumed to be 3 years older than their wives.

Mortality table

The mortality table is applied on a static basis. Separate annuitant and non-annuitant tables were used.

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the of the gain/(loss) in the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

¹ The decrement assumptions reflect 100% termination/retirement during 2016 due to the Fort Wayne facility shut down.

Exelis Communications Solutions Pension Plan for Employees In the Bargaining Unit

2015 Expected Return	8.25%	6.81%	6.81%
2014 Expected Return	8.25%	6.99%	6.99%

The expected asset return assumption was based on an analysis of long term expected returns for the asset classes in which the plan's assets were invested as of the measurement date.

Future Actuarial Measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Summary of Changes from the January 1, 2015 Valuation

- The interest rate basis was updated to the current rates as specified in IRS Regulation 1.430(h)(2)-1. These rates are constrained in accordance with HATFA.
- The mortality assumption was updated according to the projection specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants.
- The decrement assumptions reflect 100% termination/retirement during 2016 due to the Fort Wayne facility shut down.
- These changes above increased the plan's Funding Target by approximately \$2.6M.
- The expected return on assets changed from 8.25% to 8.00% to better reflect the long term expected returns.
- The expected plan related expenses added to the Target Normal Cost updated from \$561,863 to \$704,551 to better reflect increases in the current year PBGC premium and anticipated administrative expenses.

The rates shown are the ultimate withdrawal rates for participants with 3 or more years of service. For ages 45 or less, the rates for the first, second, and third year of employment are the above multiplied by 1.838 plus 0.0343, 1.393 plus 0.0056 and 1.240 minus 0.0046, respectively.

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the of the gain/(loss) in the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

¹ The decrement assumptions reflect 100% termination/retirement during 2016 due to the Fort Wayne facility shut down.
