Belcan Services Group Limited Partnership (the "Company" or "Plan Sponsor") established the Plan effective January 1, 1991. The Plan is a defined contribution plan subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA) and the Internal Revenue Code of 1986, as amended (the "Code"). To be eligible to participate in the Plan, an individual must be an employee of the Company who has completed at least 60 days of service, attained at least age 21, and is not: (1) a member of a collective bargaining unit (unless the collective bargaining agreement requires coverage under the Plan); (2) a non-resident alien with no U.S. source income; (3) a leased employee; (4) a staff employee; (5) an employee of the Company's Gaithersburg, Maryland offices who is assigned to Lockheed Martin. Effective January 13, 2016, Tandel Services, Inc. became a participating employer in the Plan.

Administration and Trustee

The Plan is administered by a committee (the "Committee") comprised principally of management. The Committee appointed MG Trust Company, LLC ("MG Trust") as trustee. MG Trust is designated as the trustee and investment manager of the Plan. With the exception of self-directed brokerage accounts, MG Trust invests and holds all contributions made by the plan administrator and allocates among the funds as directed by individual participants. Southwest Securities is custodian of investments within the self-directed brokerage accounts. Correll Company ("Correll") is recordkeeper of the Plan.

Contributions

The Plan is funded by participant pre-tax contributions, discretionary matching contributions and catch-up contributions. Each participant may elect to have up to 90% of their compensation withheld from their wages and paid into the Plan as pre-tax contributions, subject to certain limitations imposed by the Plan and the Code. Participants may periodically change their contribution withholding percentages. The Company may also make discretionary matching contributions at a rate of 2% to non-highly compensated employees assigned to PPG Industries Shared Services Facility Group. Additionally, the Plan accepts direct rollovers from other qualified plans and arrangements and rollover contributions from participants. The Company may also make qualified non-elective and discretionary profit sharing distributions. For the years ended December 31, 2016 and 2015, the Company made no such contributions.

Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions at an additional \$6,000 for 2016 and 2015 to the Plan per year.

Participant Accounts

A participant's account is credited with the participant's contributions, discretionary matching contributions and adjusted for earnings and losses thereon. The benefit to which a participant is entitled is the amount that is in the participant's account at any given time.

Notes to Financial Statements

December 31, 2016 and 2015

Vesting

A participant's account, including any discretionary match, is 100% vested at all times and is non-forfeitable.

Investments

Upon enrollment into the Plan, a participant may direct employer and discretionary match contributions in 1% increments into various investment options available under the Plan. Participants may reallocate their investments at any time during the year. Accordingly, all investments are participant directed.

Benefits

Distributions may be made to a participant upon the participant's termination of employment with the Company, and all affiliated companies. Prior to termination from employment, a participant may withdraw all or a portion of his account balance upon attaining age 59½, or experiencing a financial hardship (if certain requirements are satisfied). Upon death, a participant's account balance remaining in the Plan will be paid to the participant's beneficiary. Benefits shall generally be paid to participants in a lump sum upon termination of employment.

Notes Receivable From Participants

Participants may borrow up to \$50,000 (reduced as required by the Code) or 50% of their vested account balance in the Plan, whichever is less. The maximum term of a loan is 5 years unless the loan is used to purchase a primary residence. A participant may only have one loan outstanding. The loans are secured by the balance in the participant's account and bear interest at a rate determined by the plan administrator. Principal and interest are paid ratably through payroll deductions. A participant must generally repay any loan in full within 90 days of the participant's termination of employment with the Company. At December 31, 2016 and 2015, participant loan interest rates in effect ranged from 4.25% to 4.50% with various maturity dates through 2021.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting in accordance with accounting principals generally accepted in the United States of America.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the accompanying financial statements and disclosures. Accordingly, actual results could differ from these estimates.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value.

The change in the unrealized difference between cost and fair value of investments held is reflected in the statements of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments. Gains and losses on dispositions of investments are recognized at the time of disposition with the amount of gain or loss determined on a specific

Belcan Services Group Limited Partnership Retirement Savings Plan

Notes to Financial Statements

identification basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2016 or 2015.

Contributions

Employee contributions are made through regular payroll deductions and are paid into the Plan bi-weekly along with discretionary matching contributions.

Payment of Benefits

Benefits are recorded upon distribution. Excess employee deferral contributions are accrued.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the payment of benefits are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and statements of changes in net assets available for benefits.

New Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2015-12, *Plan Accounting*, which simplifies reporting and disclosure requirements for employee benefit plan financial statements. ASU 2015-12 is comprised of three parts: (1) fully benefit-responsive investment contracts, (2) plan investment disclosures and (3) measurement date practical expedient. Part 1 of ASU 2015-12 designates contract value as the only required measure for fully benefit-responsive investment contracts. Part 2 of ASU 2015-12 simplifies and reduces duplicative investment-related disclosures. Part 3 of ASU 2015-12 provides a practical expedient to permit employee benefit plans to measure investments and investment-related accounts as of a month-end date that is closest to the employee benefit plan's fiscal year-end when the fiscal period does not coincide with a month-end. ASU 2015-12 is effective for fiscal years beginning after December 15, 2016. Early adoption is allowed, with retrospective application of Parts 1 and 2 and prospective application of Part 3. Part 3 is not applicable to the Plan, thus the Plan has adopted Parts 1 and 2 of the new guidance retrospectively, which impacted the Statements of Net Assets Available for Benefits, Note 3 – Fair Value Measurements and eliminated the Investments footnote disclosure. There was no impact to the Statements of Changes in Net Assets for Benefits.

Belcan Services Group Limited Partnership Retirement Savings Plan

Notes to Financial Statements

December 31, 2016 and 2015

In May 2015, the Financial Accounting Standards Board issued ASU 2015-07, *Fair Value Measurement (Topic 820) Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (Units Equivalent)*, which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The new guidance requires the Plan to continue to disclose information on investments for which fair value is measured at net asset value (or its equivalent) as a practical expedient to help users understand the nature and risks of the investments and whether the investments, if sold, are probable of being sold at amounts different from net asset value. ASU 2015-07, which is required to be applied retrospectively to all periods presented, is effective for fiscal years beginning after December 31, 2015 for public entities and after December 31, 2016 for all other entities. The Plan adopted this new guidance retrospectively, which impacted the presentation of the Plan's investment in the common/collective trust in Note 3 – Fair Value Measurements.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets to identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels are described as follows:

- Level 1 Inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs derived from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015:

Mutual Funds and Money Market Accounts: Valued at the daily closing price reported by the fund. Mutual funds and money market accounts held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual and money market accounts funds held by the Plan are deemed to be actively traded.

Belcan Services Group Limited Partnership Retirement Savings Plan

Notes to Financial Statements

December 31, 2016 and 2015

Common Stocks: Valued at the quoted closing price reported on the active market on which the individual securities are traded. These securities are held within the self-directed brokerage accounts.

Common/Collective Trust Fund: Valued based on the net asset value (NAV) of units held by the Plan at year end. The net asset value of units held by the Plan is based on the fair value of the underlying investments held by the fund less its liabilities (discussed below). Generally, under ordinary market conditions, all common/collective trust positions provide daily market liquidity to plan participants and the Plan. Participant transactions (issuances and redemptions) may occur daily. Were the Plan to initiate a full redemption of its interest in the common/collective trust fund, however, the trustee of the common/collective trust fund could impose restrictions to the extent that it is determined a full redemption could disrupt the liquidity or management of the fund. There are no unfunded commitments for investments in the common/collective trust fund.

The Wilmington Trust Retirement and Institutional Services Company Collective Investment Trust III is composed of fully benefit-responsive investment contracts. The Fund is valued using a \$1 NAV and is primarily invested in fixed income securities. The Fund may invest in such securities directly or indirectly through commingled investment vehicles. The underlying investments of a fully benefit-responsive investment contract are fair valued using readily available market quotations; units or shares of commingled investment vehicles held by the Fund will be valued using the stated NAVs for such units or shares. If market quotations are not readily available for any security or if the Trustee reasonably determines that a market quotation does not accurately reflect the fair value of a security in good faith using various indicia of value, furnished by third parties, including pricing services. There are no reserves against contract value for credit risk of the contract issuers or otherwise. The average yield and crediting interest rates were approximately 1.84% and 0.50% for the year ended December 31, 2016 and 2.34% and 4.60% for the year ended December 31, 2015. The crediting interest rate is based on formulas agreed upon with the issuers; there is a 0% minimum credit rate gross of fees. Such interest rates are reviewed monthly for resetting.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Income Tax Status

The Plan uses a pre-approved non-standardized prototype plan document sponsored by Correll dated March 31, 2008. The Company may rely on the opinion letter that was issued to Correll by the Internal Revenue Service (IRS) with respect to the Plan's tax qualified status. The Plan administrator believes that the Plan is being operated in accordance with the applicable requirements of the Code in all material respects. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time. If the Plan is terminated, the rights of all participants to their accounts will remain fully vested.

6. Trustee Certification

The following is a summary of the Plan's financial information and data included in the Plan's financial statements and supplemental schedule which were certified by the trustee as of December 31, 2016 and 2015 and for the years then ended as complete and accurate, in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.
