NOTE A - DESCRIPTION OF PLAN

In January 2015, Collegis, LLC (Collegis) was spun-off from its Parent Company (Parent) and in conjunction with the spin-off, entered into an 18-month transition services agreement. Under the terms of the agreement, the Collegis employees continued to participate in the Parent's plan until the sooner of Collegis adopting their own plan or the expiration of the agreement. On February 15, 2016, Collegis adopted the Collegis Education, LLC 401(k) Plan (Plan). On February 23, 2016, approximately $6,700,000 was transferred from the Parent's plan into the Plan.

The following description of the Plan only provides general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Management has evaluated subsequent events through October 13, 2017, the date the financial statements were available to be issued, and has no material subsequent events to report.

General

The Plan is a defined contribution plan covering substantially all eligible employees of Collegis (Company, Employer or Sponsor). The Plan is qualified under the Internal Revenue Code (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). For salary deferrals, employer matching contributions and profit sharing contributions, employees must be 21 years of age and complete two months of service before becoming eligible to participate in the plan.

Contributions

Participants may make pretax contributions to the Plan up to the maximum percentage allowable by the IRC. Plan limits are indexed to follow changes in the federal limits. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Roth deferrals are also permitted by the Plan. Once enrolled, participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and pooled separate accounts as investment options for participants.

The Employer may elect to match an employee's contributions in an amount equal to a discretionary percentage of the employee's deferrals, to be determined by the Employer. During the period ended December 31, 2016, the Employer matched 50% of the employee's contributions up to 6% of eligible compensation.

The Employer may also elect to make a profit sharing contribution. Profit sharing contributions, if any, are determined annually by the Employer. The employee's share of the profit sharing contribution is based on two groups. During the period ended December 31, 2016, the Employer did not declare a profit sharing contribution.

Participant Accounts

Each participant account is credited with the participant's contribution and an allocation of (a) the Employer's matching contribution, if any, (b) an allocation of the Employer's profit sharing contribution, if any, (c) Plan earnings (losses), based on investment options selected by participants, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their contributions and associated earnings thereon. Vesting in the Employer contributions portion of their accounts is based on years of continuous service. Participants vesting percentage is 33% after one year of service, 66% after two years of service, and an employee is 100% vested after three years of service.

Notes Receivable from Participants

The Plan allows for participant loans in amounts not less than $1,000 up to a maximum of $50,000, or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at 1% over the prime rate in effect at the loan's inception. The loans must be repaid in level payments through payroll deductions over a five-year period. The loans outstanding at December 31, 2016 have interest rates ranging from 4.25% to 4.50%.

Payment of Benefits

Participants receive benefit payments based on the vested portion of their account balance upon death, retirement or attainment of age 59½, disability, or termination of employment. Benefit payments in amounts defined by law as "required minimum distributions" must commence by age 70½, unless the participant is an active employee. All benefits other than "required minimum distributions" will be paid in the form of a lump sum or in installment payments over a period not to exceed the participant's or beneficiary's life expectancy.

Participants may request a distribution of a portion of their contributions in the event of a documented financial hardship. The distribution is limited to the amount of the hardship, which must arise from certain events prescribed by law. Recipients of financial hardship distributions are prohibited from contributing to the Plan for at least six months.

Forfeited Accounts

Forfeited accounts may be used to offset Plan administrative expenses or to reduce future Employer contribution. At December 31, 2016, forfeited nonvested accounts totaled $14,837. During the period ended December 31, 2016, there were no forfeitures that were used to pay Plan administrative expenses or that were used to reduce Employer contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Valuation of Investments and Investment Income

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Gains and losses are determined on the basis of specific identified cost. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Participant loans are presented at their unpaid principal balance plus accrued interest. Interest income is recognized monthly on the accrual basis. Loans are deemed in default if any scheduled loan repayment is not made by the end of the calendar quarter following the quarter in which the missed payment was due.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

The Plan custodian and third-party administrator charge various administrative fees relating to recordkeeping services performed under contract to the Plan. Under no circumstances will compensation be paid by the Plan to the Employer for services rendered as administrator. Certain expenses of maintaining the Plan may be paid by the Employer. The Employer paid $13,977 in operating expenses on behalf of the Plan during the period ended December 31, 2016.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 removes the requirement to categorize investments for which fair value is measured using the net asset value per share practical expedient within the fair value hierarchy. It also limits disclosures to investments for which the Plan has elected to measure the fair value using the practical expedient. The new standard requires retrospective application and is effective for annual periods beginning after December 15, 2015, for public companies and December 31, 2016, for non-public companies. Early adoption is permitted, including any period for which the Plan's annual financial statements have not yet been made available for issuance. Management has elected to early adopt the provisions of this new standard. The adoption of the provisions had no significant impact on the Plan's financial statements other than changing investment disclosure requirements and the presentation of certain required investment disclosures.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent Accounting Pronouncements (continued)

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts, and II. Plan Investment Disclosures*. Part I requires fully-benefit responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II requires that investments that are measured using fair value (both participant-directed and nonparticipant directed investments) be grouped only by general type, eliminating the need to disaggregate the investments by nature, characteristics, and risks. Part II also eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type, requiring only presentation of net appreciation or depreciation in investments in the aggregate. Additionally, if an investment is measured using the net asset value per share as a practical expedient and that investment is a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity, disclosure of that investment's strategy is no longer required. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015, with early adoption permitted. The amendments within Parts I and II require retrospective application. Management adopted Part II of this new standard. The adoption of the provision had no significant impact on the Plan's financial statements other than changing investment disclosure requirements and the presentation of certain required investment disclosures.

NOTE C - FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 Inputs in the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

Quoted prices for similar assets in active markets.

Quoted prices for identical or similar assets in inactive markets.

Inputs other than quoted prices that are observable for the asset.

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Pooled separate accounts: Valued at the net asset value (NAV) of the shares held by the Plan at year end. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE C - FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's total investments at fair value as of December 31, 2016:

	Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Investments:				
Mutual funds	$ 7,997,496	$ 0	$ 0	$ 7,997,496
Pooled separate accounts (a)	0	0	0	208,253
Total investments at fair value	$ 7,997,496	$ 0	$ 0	$ 8,205,749

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following is a summary of the Plan's investment in certain entities that calculate net asset value per share (or its equivalent) at December 31, 2016:

	December 31, 2016			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	$ 208,253	$ 0	Daily	Daily

NOTE D - INFORMATION CERTIFIED BY CUSTODIAN

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator has elected to have a limited scope audit for the Plan as of December 31, 2016, and for the period from inception (February 15, 2016) through December 31, 2016. The custodian has provided a certification as to the accuracy and completeness of the investments and participant loans included in the statement of net assets available for benefits, and the related investment and interest income included in the statement of changes in net assets available for benefits.

NOTE E - RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE F - PLAN TERMINATION

Although it has not expressed any intention to do so, the Employer may discontinue its contributions to the Plan at any time, and terminate the Plan subject to regulations under ERISA. In the event of a Plan termination, participants will become 100% vested in their entire account balance.

NOTE G - COMMITMENT

The Plan's investments include $831,896 allocated to participants who have withdrawn from the Plan as of December 31, 2016, but have not yet been paid. These participants may elect to withdraw their vested balances at any time.

NOTE H - TAX STATUS

The Internal Revenue Service has determined and informed the Plan by letter dated March 31, 2014, that the prototype plan and related trust are designed in accordance with applicable sections of the IRC. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.
