The following description of the Red Restaurant Group 401(k) and Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution retirement plan covering all employees of Red Restaurant Group; Red Downtown, LLC; BJRP, LLC; and Red South Beach, LLC (collectively the Company) who meet the minimum service requirements. Employees are eligible to participate in the Plan upon having attained age 21 and obtaining a minimum of a six-month service requirement for salaried employees, and one year (of at least 1,000 hours) for hourly employees. This eligibility becomes effective on the next Entry Date (either January 1 or July 1) following six months of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

A participant may contribute, through payroll deductions, from 1% to 100% of their compensation on a pre-tax and/or Roth contribution basis, up to the maximum dollar amount allowed by law. Participants may also contribute amounts representing distributions from other qualified plans. Catch-up contributions are also permitted. The Company will make discretionary matching contributions to participants' accounts. During the year ended December 31, 2016, the Company matched 25% of the participants' contributions, up to 4%. Total Company matching contributions were \$18,223 for the year ended December 31, 2016.

The Company may make discretionary contributions, Qualified Nonelective Contributions (QNECs), and Qualified Matching Contributions (QMACs) to the Plan. In order to receive a QNEC or QMAC, the participant must be employed at year-end and have at least 1,000 hours during the Plan year. The amount of the discretionary contribution is determined annually by the Company. No discretionary contributions, QNECs, or QMACs were made during the year ended December 31, 2016.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer match, allocations of the Company's contributions, and any earnings thereon, and charged with an allocation of administrative expenses. QNECs, QMACs, and discretionary matching contributions are allocated as a percentage of compensation of eligible participants for the payroll period. Allocations of the earnings and expenses are based on the participant's account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF THE PLAN (continued)

Vesting

Participants are immediately vested in their deferral and rollover contributions plus actual earnings thereon. Vesting in the Company's contributions, matching contributions and earnings thereon is based on years of continuous service according to the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2 years	0%
2 years but less than 3	20%
3 years but less than 4	40%
4 years but less than 5	60%
5 years but less than 6	80%
6 years or more	100%

The Plan provides for participants to be 100% vested upon death, permanent disability, or the attainment of age 65.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or separation of service, a participant or beneficiary may elect to receive installment payments or a lump-sum amount equal to the value of the participant's vested interest in his or her account. However, if the vested account balance is less than \$5,000, a lump-sum distribution will be made to the participant regardless of whether the participant elects to receive it. In-service distributions are permitted at age 59 ½. In the case of a severe financial hardship, the Company, in its sole discretion, may direct distribution of all or a portion of the participant's voluntary contributions, subject to certain restrictions.

Investment Options

Participants may elect to invest in a variety of investment options offered by the Plan.

Forfeitures

Forfeitures are created from unallocated employer contributions and are used at the Employer's discretion as defined by the Plan document. There were no unallocated, forfeited non-vested accounts at December 31, 2016.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan may be paid out of the Plan assets to the extent not paid by the Company. During the year ended December 31, 2016, the Plan paid administrative expenses of \$796.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on the investments purchased and sold, as well as held, during the year.

3. INFORMATION CERTIFIED BY THE CUSTODIAN

The following table presents investments. The investments and investment activity have been certified as complete and accurate by Principal Trust Company, the custodian of the Plan, as of and for the year ended December 31, 2016, and have not been audited by the independent auditors.

Pooled separate accounts	\$ 14,575
Collective investment trusts	<u>127,929</u>
	<u>\$ 142,504</u>

During the year ended December 31, 2016, the Plan's investments (including gains and losses on investments purchased, sold, as well as held during the year) appreciated in value by \$4,821.

4. FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. It applies to fair value measurements already recognized or permitted by existing standards. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs used in valuation models (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in inactive markets. Level 2 inputs include those other than quoted prices that are observable for the asset or liability. Level 2 inputs are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

4. FAIR VALUE MEASUREMENTS (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016.

Pooled separate accounts – The fair value of the mutual funds included in the underlying assets are used to determine the net asset value (NAV) of the account. The NAV is used as a practical expedient to estimate fair value.

Collective investment trusts – Valued at fair value of the underlying investments, which represents the NAV of the investments. NAV is used as an estimate of fair value; the Plan has the ability to redeem its investment at NAV as of the measurement date as collective investment trusts can be redeemed on a daily basis. The NAV is used as a practical expedient to estimate fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan has applied the practical expedient in ASC 820 for assets valued using NAV and therefore the pooled separate accounts and common/collective trusts are excluded from the fair value hierarchy.

The following table sets forth investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2016:

	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Redemption Notice Period</u>
Pooled separate accounts	\$ 14,575	N/A	Daily	Daily
Collective investment trusts	\$ 127,929	N/A	Daily	Daily

5. TAX STATUS

The Company adopted a Volume Submitter Profit Sharing Plan with a cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2014, which stated that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their accounts.

7. PARTY-IN-INTEREST

Certain Plan investments at December 31, 2016 were invested in funds managed by Principal Trust Company. Principal Trust Company is the custodian as defined by the Plan document and, therefore, these transactions are considered party-in-interest transactions.

8. CORRECTIVE DISTRIBUTIONS PAYABLE

In order to pass the 2016 Actual Deferral Limit Test and Actual Contribution Limit Test, the Plan administrator elected to refund excess elective deferrals, contributions, and earnings thereon to certain highly-compensated employees. For the Plan year ended December 31, 2016, participants' contributions were reduced by \$1,167 and the employer matching contributions were reduced by \$506. The reductions represent amounts payable to active participants to return to them excess deferrals and contributions, as required to satisfy the relevant nondiscrimination provisions of the Plan for the year ended December 31, 2016. These amounts have been included as corrective distributions payable in the accompanying 2016 Statement of Net Assets Available for Benefits.

9. SUBSEQUENT EVENTS

In June 2017 and October 2017, the Plan was amended to include the employees of Red Indianapolis, LLC and Red Pittsburgh, LLC, respectively. There were no additional material subsequent events that required recognition or additional disclosure in these financial statements through October 11, 2017, the date these financial statements were available to be issued.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
