Note 1 – Description of the Plan

The following description of the ASTC Employee 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all non-union employees of Application Software Technology Corporation (the "Company") over 21 years of age. Newly eligible participants may enter the Plan on the first day of the Plan year or the first day of the 7th month of the Plan year coinciding with or next following date requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may elect to contribute a flat dollar or percentage of their compensation, excluding bonuses, to the plan each year, subject to limitations, as defined in the plan document. The plan offers both pre-tax salary deferrals and Roth deferrals.
Participants may also contribute amounts representing distributions from other qualified retirement plans or Individual Retirement Accounts by means of a "rollover" contribution. All contributions are participant directed. The Company, in its sole discretion, may make a matching contribution to each participant. The Plan is designed to qualify as a "Safe Harbor 401(k) Plan." The Company contributes 100% of the amount of the participant's elective deferrals that do not exceed 3% of the participant's compensation, plus 50% of the amount of the participant's elective deferrals that exceed 3% of the participant's compensation but do not exceed 5% of the participant's compensation.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' non-vested accounts may be used to reduce future Company contributions.

Vesting

Participants' contributions, Safe Harbor contributions and earnings thereon are immediately fully vested. A participant's portion of the Company's contributions and related investment income vests according to the following schedule:

Full Years of Service	Vested Percentage
1 year	20%
2 years	40
3 years	60
4 years	80
5 years	100

Investment Options

The Company maintained investment funds with AXA Equitable Life Insurance Company, the record-keeper. A participant may maintain their entire account in one of the funds or may elect to split their account among the funds in accordance with the Plan.

Participants may change their investment direction of future contributions and may elect to transfer their existing account balances from one fund to another daily.

Note 1 – Description of the Plan (continued)

Payment of Benefits
On termination of services due to disability, retirement, or other reasons, a participant may elect to receive the value of the participant's vested interest as a single lump-sum distribution or installment payment. Installments are only permitted for required minimum distributions in accordance to law. For accounts with less than $5,000, there will be an automatic lump-sum distribution. On termination of services due to death, the distribution will be made pursuant to the election of the Participant or Beneficiary.

Notes Receivable from Participants
Participant loans are permitted in accordance with the Plan's established loan procedures as follows: All loans will be limited to 50% of the participant's vested account balance, provided such loan does not exceed $50,000. Loans are secured by a maximum of 50% of the participant's vested account balance. Loans shall bear an interest rate reasonable at the time of application, considering the purpose of the loan and the rate being charged by persons and institutions in the business of lending money. Principal and interest payments will be made bi-weekly through payroll withholding.

Forfeited Accounts
At December 31, 2016, forfeited non-vested accounts totaled $1,743. No forfeited amounts were used to reduce employer contributions during 2016. At December 31, 2015 there were no forfeited non-vested accounts. During 2015, employer contributions were reduced by $13,158.

Plan Termination
The Company anticipates that the Plan will continue without interruption but reserves the right to discontinue the Plan. In the event that the Plan is terminated, all participants shall be fully vested, and each participant will be entitled to a distribution equal to his or her contributions and his or her share of Company contributions, investment income and loss, and unrealized appreciation or depreciation in the fair value of investments.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation using Fair Value Measurements
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Investment Transactions and Investment Income
Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant note in default, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Note 2 – Summary of Significant Accounting Policies (continued)

Payment of Benefits
Benefit distributions are recorded when paid.

Operating Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements.

Note 3 – Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated March, 31, 2008, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing authorities, however, there are currently no audits for any tax periods in progress.

Note 4 – Certified Investment Information

The Plan management has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. The following is a summary of the plan's investment information as of December 31, 2016 and 2015, and for the years then ended, included in the plan's financial statements and supplemental schedule, that was prepared by, or derived from information prepared by AXA Equitable Life Insurance Company, record-keeper of the plan, and furnished to plan management. The Plan management has obtained certifications from the record-keeper that the information is complete and accurate.

December 31,	2016	2015
Investments		
Value of interest in pooled separate accounts	$ 16,403,433	$ 13,330,850
Guaranteed interest account	2,063,936	1,756,197
Total investments	$ 18,467,369	$ 15,087,047
Investment Income

Net realized and unrealized (depreciation) appreciation in fair value of investments	1,308,993	(242,391)
Total investment (loss) income	$ 1,347,871	$ (205,528)

Note 5 – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 - Inputs are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used for the years ended December 31, 2016 and 2015.

Pooled Separate Accounts: Invests in shares of open-end mutual funds which calculate a daily NAV based on the value of the underlying securities in their portfolios. As a result, and as required by law, shares of open-end mutual funds are purchased and redeemed at their quoted daily NAV as reported by the Trusts at the close of each business day. However, pooled separate accounts generally follow procedures for establishing a unit value. The pooled separate account is not, itself, traded on an established market, however the inputs are observable but do not solely rely on quoted market prices to establish fair value. On that basis, pooled separate accounts are classified as Level 2.

Guaranteed Interest Account: The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available. The contract is valued at contract value, as reported by the record-keeper, which approximates fair value.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015:

		Fair Value Measurements at Reporting Date Using:		
		Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs
December 31, 2016	Fair Value	(Level 1)	(Level 2)	(Level 3)
AXA Guaranteed Interest Option	$ 2,063,936	$ -	$ -	$ 2,063,936
Pooled Separate Accounts	16,403,433		16,403,433	
Total investments	$ 18,467,369	$ -	$ 16,403,433	$ 2,063,936

Note 5 – Fair Value Measurements (continued)

		Fair Value Measurements at Reporting Date Using:		
		Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs
December 31, 2015	Fair Value	(Level 1)	(Level 2)	(Level 3)
AXA Guaranteed Interest Option	$ 1,756,197	$ -	$ -	$ 1,756,197
Pooled Separate Accounts	13,330,850		13,330,850	
Total investments	$ 15,087,047	$ -	$ 13,330,850	$ 1,756,197

The following table reconciles the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) of the Guaranteed Interest Contract for the years ended December 31, 2016 and 2015:

	Level 3 Assets	
December 31,	2016	2015
Balance, beginning of the year	$ 1,756,197	$ 1,988,198
Fund Transfers	130,791	(191,314)
Interest	38,878	36,863
Fees	(364)	(1,686)
Contributions	285,180	273,215
Distributions	(146,746)	(349,079)
Balance, end of the year	$ 2,063,936	$ 1,756,197

Note 6 – Guaranteed Investment Option

The Plan maintains a guaranteed investment option contract with AXA Equitable. AXA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and are not subject to any market value changes. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan but does change on a periodic basis.

The guaranteed investment option is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the plan represents contributions made under the contract, plus earnings, less participant withdrawals. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8 – Party in Interest Transactions

Certain Plan investments are managed by the record-keeper of the plan, therefore, these transactions qualify as party in interest transactions.

Note 9 – Subsequent Events

Subsequent events have been evaluated through October 11, 2017, which is the date the financial statements were available to be issued.

On September 14, 2015 Application Software Technology Corporation (ASTC), the Plan Sponsor, completed the acquisition of 100% equity interests of Serene AST, LLC. The Serene 401(k) continued to operate as an individual plan. On October 25, 2016 the board of directors of ASTC resolved that the merger of Serene 401(k) Plan into the ASTC Employee 401(k) Plan effective January 1, 2017 is approved. Approximately one million in assets were merged into the ASTC Employee 401(k) Plan during 2017.
