Notes to Financial Statements

December 31, 2016

(See Independent Auditor's Report)

Note A – Description of Plan

The following description of the Viasystems Retirement Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan Document or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of Viasystems Group, Inc. (the “Company”) who meet eligibility requirements of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. The Investment Committee is responsible for oversight of the Plan as well as determining the appropriateness of the Plan’s investment offerings and monitoring investment performance. Bank of America, N.A. (“BOA”) serves as the Plan’s recordkeeper and trustee.

On June 1, 2015, the Company was acquired by TTM Technologies, Inc. (“TTM”). During 2016, the Board of Directors of TTM approved the merger of this Plan into the TTM Technologies, Inc. Plan (the “TTM Plan”), effective January 1, 2017. As a result, all investments were transferred from the Plan into the TTM Plan as of December 31, 2016.

Eligibility

All full and part-time employees who are residents of the United States are eligible to participate in the Plan once they attained age 18 and completed one hour of service. Employees may enter the Plan on the date coinciding with or next following the date eligibility requirements have been satisfied.

Contributions

Each year, participants may contribute up to 50% of annual compensation, as defined in the Plan, not to exceed certain dollar limits established by the Internal Revenue Code (“IRC”). Participants who attained age 50, before the end of the plan year, are eligible to make catch-up contributions. Participants contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Newly eligible employees are deemed to have elected to make a salary deferral of 3% of their compensation (as defined in the Plan document), generally effective 30 days after date of hire, unless they file an election to contribute a different amount (or no amount) before this date. On July 1, 2013, the Company added an Annual Increase Program. All participants whose pretax contribution is between 1% and 9% shall be deemed to have elected to increase his or her salary deferral contribution by a rate of 1% until the participants reaches a deferral rate of 10%.

The Company provides matching contributions of 50% of a participant's contribution on their first 6% of compensation that a participant contributes to the Plan. Additionally, the Company may make discretionary matching and profit sharing contributions at the option of the Company's Board of Directors. No such contributions were made during the years ended December 31, 2016 and 2015, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contribution and Plan earnings, and charged with an allocation of certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants vest 25% after one year of eligible service and an additional 25% for each of the next three years of service.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates based upon prevailing market rates for loans of similar purpose and duration as determined by the Plan Administrator. Principal and interest is paid ratably through monthly payroll deductions.

Note A – Description of Plan (Continued)

Payments of Benefits

The Plan provides that a participant's vested interest in the plan may be distributed to the participant upon retirement (generally a termination of employment after age 65), other termination of employment, total disability, death or in-service upon reaching age 59 ½. Participants with vested account balances in excess of \$5,000 may elect to defer distribution to a future date as defined in the Plan document. Participants may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or monthly, quarterly, or annual installments.

Forfeited Accounts

Benefits forfeited by participants are used to defray any expenses associated with the Plan or to reduce future Company contributions to the Plan. Forfeitures utilized during the years ended December 31, 2016 and 2015 amounted to \$294,398 and \$148,807, respectively. At December 31, 2016 and 2015, forfeited non-vested accounts totaled \$99,689 and \$3,138, respectively. The forfeitures at December 31, 2016 were included as part of the transfer (see Note I).

Note B – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note B – Summary of Significant Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator and management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net realized and unrealized appreciation (depreciation) in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 2, 2017, the date the financial statements were available to be issued.

Note C – Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained certifications from Bank of America, N.A. ("BOA") that all the information provided by BOA included in the accompanying financial statements is complete and accurate. Information as to the investments in the accounts of BOA, investment income, and all information appearing in the accompanying statements is presented in reliance solely upon these certifications.

Note D – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology included:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note D – Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual fund that are registered with the SEC. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

TTM Technologies, Inc. common stock – Valued at the closing price reported on the active market on which the securities are traded.

Interest bearing cash/money market – Valued at cost which approximates fair value.

Brokerage Account – Common stock, mutual funds and trusts in the self-directed brokerage accounts are at current value based on published market quotations from individual investments composing the brokerage accounts. Such assets are primarily classified as Level 1.

Collective trusts – Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The Plan held no investments as of December 31, 2016.

Note D – Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Total	Fair Value Measurements		
		Level 1	Level 2	Level 3
Mutual Funds	\$ 82,828,654	\$ 82,828,654	\$ -	\$ -
Common stocks	119,539	119,539	-	-
Interest bearing cash	1,273	1,273	-	-
Brokerage accounts	1,947,833	1,947,833	-	-
Total assets in the fair value hierarchy	84,897,299	84,897,299	-	-
Investments measured at net asset value (a)	33,284,097	-	-	-
Investments at fair value	\$118,181,396	\$ 84,897,299	\$ -	\$ -

(a) In accordance with subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarized investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2015. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment Type	Fair Value	December 31, 2015		
		Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective trust - Stable value fund	\$17,282,423	\$ -	Immediate	12 months
Collective trust - Large cap equity	\$16,001,674	\$ -	Immediate	None

Note E – Related Party Transactions

The Company is the Plan sponsor and therefore, TTM Technologies, Inc. and Viasystems Group Inc. common stock transactions qualify as related party transactions. As of December 31, 2016 and 2015, Plan investments included zero units of stock at a fair value of \$0 and 18,362 units of stock at a fair value of \$119,539, respectively.

Note F – Tax Status

On March 31, 2014, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under IRC Section 401(a). The Plan has not received a determination letter specific to the Plan itself; however, the Plan Administrator and the Plan's tax counsel believe that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note G – Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Note H – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note I – Plan Merger

Effective December 31, 2016, all assets of the Plan were merged into the TTM Technologies 401(k) Retirement Savings Plan.
