INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
The Steinway Musical Pension Plan

Report on the Financial Statements
We have audited the accompanying financial statements of The Steinway Musical Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of The Plan Steinway Musical Plan as of December 31, 2016 and 2015, and the changes in its financial status for the year ended December 31, 2016 in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule for Form 5500, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2016 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying and other accounting records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. Note 1 Description of Plan

The following description of The Steinway Musical Pension Plan (the "Plan") is provided for general informational purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan covers all eligible employees of the plan sponsor, Steinway Musical Instruments, Inc. ("SMI"), through its U.S. piano division, Steinway and its band division Conn-Selmer, Inc. ("Conn-Selmer"). SMI, Steinway and Conn-Selmer are individually and collectively referred to as the "Company". The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Pension benefits

Annual pension benefits for each covered company are as follows:

Employees of Conn-Selmer

Hourly

The Conn-Selmer hourly employees portion of the Plan originated from six separate union agreements, identified as "Elkhart", "Musser", "Monroe", "String", "Eastlake" and "IDC." Benefits under the Monroe and String agreements were frozen effective December 31, 2002. Benefits under the Elkhart agreement were frozen effective September 30, 2009. Benefits under the Eastlake agreement were frozen effective December 31, 2011. Benefits under the IDC agreement were frozen effective May 31, 2012. Benefits under the Musser agreement were frozen effective July 31, 2013.

Employees with five or more years of eligible service are entitled to annual pension benefits beginning at the normal retirement age (65). The amount of benefits is based on the number of years of credited service multiplied by a dollar amount, as specified in the Plan. The Plan permits early retirement at ages 60-64 after five years of eligible service. Retirement benefits are paid to pensioners or beneficiaries in various forms of joint and survivor annuities.

Employees who have at least five years of eligible service at termination of employment with the Company, and are not entitled to any other pension benefit under the Plan, are eligible to receive a deferred vested benefit. The benefit is payable at the normal retirement date or, if the employee so elects, on a reduced basis after attainment of age 60. The amount of benefit is calculated in the same manner as described above, reduced by an amount based on the age of the employee. Certain death and disability benefits are also available as described in the plan document.

Note 1 **Description of Plan (continued)**

Salaried

Employees with five or more years of eligible service are entitled to annual pension benefits beginning at the normal retirement age (65). The amount of benefits is based on the number of years of credited service multiplied by the percentage of average compensation, as specified in the Plan. The Plan permits early retirement at age 55-64 after five years of eligible service. Retirement benefits are paid to pensioners or beneficiaries in various forms of joint and survivor annuities.

Employees who have at least five years of eligible service at termination of employment with the Company, and are not entitled to any other pension benefit under the Plan, are eligible to receive a deferred vested benefit. The benefit is payable at the normal retirement date or, if the employee so elects, on a reduced basis after attainment of age 55. The amount of benefit is calculated in the same manner as described above. Accrued benefits were frozen as of December 31, 2002.

Employees of Steinway

The Plan provides for regular retirement benefits for employees who retire at age 65 and were participants in the Plan on June 30, 1993. Such benefits are defined in the Plan agreement and are based on compensation levels and the number of years of service as of June 30, 1993 and primary Social Security benefits.

The Plan also provides for early retirement benefits at a reduced level. All participants' who earned retirement benefits became fully vested at March 31, 1993 in connection with the 1993 Plan amendment. Eligible participants continued to earn nine dollars per service year worked after June 30, 1993 until December 31, 2003 when all accrued benefits were frozen. Payment of vested benefits is deferred until the participant reaches retirement age. Retirement benefits are paid to pensioners or beneficiaries in various forms of joint and survivor annuities.

Cash reserves

Certain mutual fund expenses, which are charged by the mutual fund companies are recaptured by the Plan and held in a cash reserve account. These funds are then used to pay for expenses of the Plan that benefit the Plan participants, as approved by the Internal Revenue Service ("IRS"), the Department of Labor ("DOL") and ERISA. During the year ended December 31, 2016, these funds amounted to $32,368 and are included in other income in the accompanying statement of changes in net assets available for benefits. As of December 31, 2016 and 2015, the balance in this fund amounted to $5,785 and $6,062 respectively.

Note 2 **Summary of significant accounting policies**

The following is a summary of the significant accounting policies followed by the Plan:

Basis of accounting
The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's sponsor determines the Plan's valuation policies utilizing information provided by the investment advisors, custodian and the insurance company. See Note 9 for discussions of fair value measurements.

Realized gains and losses on investments sold and the unrealized appreciation and depreciation of investments held are reported on a trade-date basis, based on fair market value of the investments at the beginning of the Plan year or at the time of purchase during the Plan year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative expenses
Administrative expenses of the Plan are paid by either the Plan or the Company, as provided in the Plan document.

Fair value
Accounting standards provide a common definition of fair value and establish a framework to make the measurement of fair value in generally accepted accounting principles more consistent and comparable. Accounting standards also require expanded disclosures to provide information about the extent to which fair value is used to measure certain financial assets, the methods and assumptions used to measure fair value, and the effect of fair value measures on earnings. The Plan's financial assets reflected in the financial statements at fair value include its investments (see Note 9).

Note 2 **Summary of significant accounting policies (continued)**

Payment of benefits
Benefit payments to participants are recorded when paid.

Subsequent events
The Plan has evaluated subsequent events through October 13, 2017, which is the date the financial statements were available to be issued.

Note 3 **Actuarial present value of accumulated plan benefits**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and, (c) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective.

The actuarial present value of accumulated plan benefits was calculated by the Plan's consulting actuary, as of January 1, 2017 and 2016.

The significant assumptions underlying the January 1, 2017 actuarial computations are as follows:

Assumed rate of return on investment	- 7.25% per annum
Mortality basis	- 2016 Static Mortality Table for annuitants and non-annuitants
Retirement age	- Rates of retirement beginning at age 55 for Steinway and Conn-Selmer salaried employees and age 60 for Steinway and Conn-Selmer hourly employees if the participant is eligible for retirement benefits.

Note 3 **Actuarial present value of accumulated plan benefits (continued)**

The foregoing actuarial assumptions are based on the presumption that the Plan will be continued. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

As of January 1, 2017 and 2016, the actuarial present value of accumulated plan benefits was as follows:

	2017	2016
Vested benefits:		
Participants currently receiving payment	$ 35,718,758	$ 34,496,992
Other participants	20,340,367	18,643,438
Total vested benefits	56,059,125	53,140,430
Nonvested benefits	273,180	287,626
Total actuarial present value of accumulated plan benefits	$ 56,332,305	$ 53,428,056

Changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2017 was as follows:

Actuarial present value of accumulated plan benefits - beginning of year	$ 53,428,056
Increase (decrease) during the year attributable to:	
Interest accumulated	4,109,728
Benefits paid	(4,193,599)
Assumption changes	2,967,327
Other changes	20,793
Net decrease	2,904,249
Actuarial present value of accumulated plan benefits - end of year	$ 56,332,305

Note 4 **Funding policy**

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make annual contributions to the Plan in amounts that are required to meet the funding limit, as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2016 and 2015.

Certain salaried employees of Conn-Selmer maintain a family survivor benefit provision. The provision is a voluntary contribution option for which contributions aggregated $3,928 during the year ended December 31, 2016.

Note 5 **Plan termination**

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefits Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pension benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Note 6 **Tax status**

The Plan is designed to be exempt from taxation under the Internal Revenue Code ("IRC"). The Company obtained a determination letter dated October 23, 2013 in which the IRS stated that the Plan was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter, however, the plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC.

Therefore, no provision for income taxes has been included in the Plan's financial statements. The Financial Accounting Standards Board has issued a standard regarding the accounting and recognition of income tax positions taken or expected to be taken by the Plan. The plan administrator assesses the tax positions taken by the Plan and has concluded that as of December 31, 2016, there are no uncertain tax positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 **Related-party transactions**

The Company provides certain accounting, recordkeeping and administrative services to the Plan for which it receives no compensation. All custodian and actuarial fees are paid by either the Plan or the Company, as provided in the Plan document. Certain Plan investments are managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 8 **Risks and uncertainties**

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

Note 9 **Fair value measurements**

Accounting standards require that financial assets and liabilities, recognized or disclosed in financial statements on a recurring basis (at least annually), be measured at fair value. These standards define fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

Note 9 **Fair value measurements (continued)**

These standards also establish a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. These standards describe three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities are accessible at the measurement date.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities in active markets; quoted prices for similar assets or liabilities in markets that are not active; or model-derived valuations or other inputs that are observable or can be corroborated by observable market data for the assets or liabilities.

Level 3 - Unobservable inputs for the asset or liability. These inputs reflect the Plan's assumptions about the assumptions a market participant would use in pricing the asset or liability.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 and Level 3 inputs are only used when higher level inputs are not available.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common pooled funds: The common pooled funds are valued mainly using the "market approach" which utilizes comparable company transactions. Other methodologies may be used, as appropriate, which include discounting cash flows, valuing net assets, and industry specific benchmarking.

Note 9 **Fair value measurements (continued)**

Common stocks and equities: Valued at the closing price reported on the active market on which the individual securities are traded.

Cash and cash equivalents: Cash reserve and money market funds are valued at the closing price reported by the fund sponsor from an actively traded exchange.

Hedge funds: Hedge fund investments are valued using the NAV provided by the fund management company and/or administrator of the fund. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. If the Plan initiates a full redemption of the fund, the issuer reserves the right to require up to 45 days notification in order to ensure that securities liquidation will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methods or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the valuation of the Plan's financial assets which are measured at fair value at December 31, 2016:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 12,091,646	$ -	$ -	$ 12,091,646

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Selmer Hourly Employees

The following summary describes principal plan provisions assumed in calculating the cost of your pension plan.

Eligibility	All employees of the employer are eligible to participate in the plan on the first day of the month coinciding with or next following date of hire. Part-time employees (employees working less than 1,000 hours per year) are eligible to participate in the plan on the first day of the plan year following the year in which the employee first earns 1,000 hours of service.
Service	Service shall equal total years of service with the employer. A year of service is credited for each year in which an employee works 1,000 hours, with fractional years of service credited to the nearest one-tenth of a year, determined by dividing the total number of hours of service in a plan year by 1,700. No more than one year of service shall be earned in any plan year.
Normal Retirement Date	Normal retirement date is the first day of the month coincident with or next following attainment of age 65 and five years of participation.
Normal Retirement Benefit	
Elkhart	The amount of annual benefit to be paid in monthly installments for life, based on service to normal retirement date, is $29.50 times years of benefit service minus $13 times years of benefit service as of December 31, 1988. Benefit accruals were frozen for non-union employees as of July 31, 2009.
Musser (LaGrange)	The amount of annual benefit to be paid in monthly installments for life, based on service to normal retirement date, is $26.00 times years of service minus $9.50 times years of benefit service as of December 31, 1988, to a maximum of 40 years of benefit service. Benefit accruals were frozen as of July 31, 2013.
Monroe	The amount of annual benefit to be paid in monthly installments for life, based on service to normal retirement date, is $10 times years of benefit service earned prior to January 1, 1999 plus $11 times years of benefit service earned after January 1, 1999 minus $8 times years of benefit service as of December 31, 1988, to a maximum of 40 years of benefit service. Benefit accruals were frozen as of December 2002.

String (Glaesel)	The amount of annual benefit to be paid in monthly installments for life, based on service to normal retirement date, is $11 times years of benefit service minus $7 times years of benefit service as of December 31, 1988, to a maximum of 40 years of benefit service. Benefit accruals were frozen as of December 2002.
Delayed Retirement	A participant may continue in the employment of the employer after his normal retirement date. In such event he will receive at actual retirement or death the accrued benefit as of the delayed retirement date based on creditable service to that date.
Early Retirement Benefit	Upon the completion of five years of service and the attainment of age 60, a participant may elect to retire. He may receive a monthly benefit for life beginning at his normal retirement date equal to the benefit accrued at early retirement date. Payments may begin immediately, with the benefit being reduced 0.4% for each month by which the payment date precedes the normal retirement date. Participants with 30 or more years of service can begin receiving an unreduced benefit as early as age 62; the benefit is reduced 0.4% for each month prior to age 62.
Death Benefit	In the event of a married active participant's death, after having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming that the participant had retired on the day prior to death and elected a joint and one-half survivor benefit. In the event of a married vested participant's death prior to having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming the participant had terminated on the date of death, survived to the earliest retirement age, elected a joint and one-half survivor benefit, and died the next day.
Severance Benefit	Upon the termination of employment after five or more years of service, a participant shall be vested in his accrued benefit which will be payable at normal retirement date. The percentage vested shall be:

Years of Service	Vested Percent
Fewer than 5	0%
5 or more	100%

	A participant who terminates with five or more years of service may elect to receive a reduced benefit as early as age 60.
Optional Methods of Settlement	All optional methods of settlement are actuarially equivalent to the normal form of annuity. If a married participant does not elect the normal form of annuity or does not elect one of the optional methods of settlement described below, then the participant's retirement benefit shall automatically be paid under option [1] below. The options are: (1) A benefit to be paid during the participant's lifetime with one half or three-fourths the reduced benefit to be continued to his beneficiary for the beneficiary's lifetime after his death. All optional methods of settlement are actuarially equivalent to the normal form of annuity on a unisex basis based on the 1984 Unisex Pension Mortality Table and 8% interest. However, lump sum values will be calculated using the applicable mortality table and the minimum present value segment rates as of the November preceding the beginning of the plan year.

Steinway Salaried Employees

The following summary describes principal plan provisions assumed in calculating the cost of your pension plan.

Eligibility	All employees of the employer are eligible to participate in the plan on the first day of the month coinciding with or next following date of hire. Part-time employees (employees working less than 1,000 hours per year) are eligible to participate in the plan on the first day of the plan year following the year in which the employee first earns 1,000 hours of service. Entry into the plan was frozen as of June 30, 1993.
Service	Service shall equal total years of service with the employer. A year of service is credited for each year in which an employee works 2,080 hours, with fractional years of service credited, determined by dividing the total number of hours of service in a plan year by 2,080. No more than one year of service may be earned in any plan year. An employee must work at the rate of at least 1,000 per year to receive a partial year of benefit service. No service for benefit accruals shall be granted after December 31, 2003.
Normal Retirement Date	Normal retirement date is the first day of the month coincident with or next following attainment of age 65.
Normal Retirement Benefit	The amount of annual benefit to be paid in monthly installments for life, based on service to normal retirement date is the sum of: (1) The participant's accrued benefit as of June 30, 1993; and (2) $9 times years of benefit service since June 30, 1993. However, no benefits will accrue after December 31, 2003.

Delayed Retirement	A participant may continue in the employment of the employer after his normal retirement date. In such event he will receive at actual retirement or death the accrued benefit as of the delayed retirement date based on creditable service and compensation to that date.
Accrued Benefit	The accrued benefit at any time prior to a participant's normal retirement date shall be the benefit as calculated in normal retirement benefit above, using compensation and service as of the date of determination. Accrued benefits were frozen at December 31, 2003.
Early Retirement Benefit	Upon the completion of 10 years of service and the attainment of age 55, a participant may elect to retire. He may receive a monthly benefit for life beginning at his normal retirement date equal to the benefit accrued at early retirement date. Payments may begin immediately, with the benefit being reduced ⅔% for each month between ages 62 and 65 plus ⅓% for each month between ages 55 and 62 prior to his normal retirement date.
Death Benefit	In the event of a married active participant's death, after having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming that the participant had retired on the day prior to death and elected a joint and one-half survivor benefit. In the event of a married vested participant's death prior to having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming the participant had terminated on the date of death, survived to the earliest retirement age, elected a joint and one-half survivor benefit, and died the next day.
Severance Benefit	Upon the termination of employment after five or more years of service, a participant shall be vested in his accrued benefit which will be payable at normal retirement date. The percentage vested shall be:

Years of Service	Vested Percent
Fewer than 5	0%
5 or more	100%

A participant who terminates with 10 or more years of service may elect to receive a reduced benefit as early as age 55.

Optional Methods of Settlement

All optional methods of settlement are actuarially equivalent to the normal form of annuity. If a married participant does not elect the normal form of annuity or does not elect one of the optional methods of settlement described below, then the participant's retirement benefit shall automatically be paid under option [1] below. The options are:

(1) A benefit to be paid during the participant's lifetime with two-thirds or three-fourths the reduced benefit to be continued to his beneficiary for the beneficiary's lifetime after his death.

(2) A reduced benefit to be paid during the participant's lifetime with the same reduced benefit to be continued to his beneficiary for the beneficiary's lifetime after his death.

(3) A reduced benefit to be paid for 120 months certain and thereafter for life.

(4) A reduced benefit to be paid for 180 months certain and thereafter for life.

All optional methods of settlement are actuarially equivalent to the normal form of annuity on a unisex basis based on the 1984 Unisex Pension Mortality Table and 8% interest. However, lump sum values will be calculated using the applicable mortality table and the minimum present value segment rates as of the November preceding the beginning of the plan year.

Selmer Salaried Employees

The following summary describes principal plan provisions assumed in calculating the cost of your pension plan.

Eligibility	All employees of the employer are eligible to participate in the plan on the first day of the month coinciding with or next following date of hire.
Service	Service shall equal total years of service with the employer. A year of service is credited for each year completed after January 1, 1989, with fractional years of service earned for each completed month of service. No service for benefit accrual shall be granted after December 31, 2002.
Normal Retirement Date	Normal retirement date is the first day of the month coincident with or next following attainment of age 65 and five years of participation.
Normal Retirement Benefit	The amount of annual benefit to be paid in monthly installments for life, based on service to normal retirement date is the sum of: (1) 0.75% of final average monthly salary (based on the highest five consecutive years' earnings within the last 10 years of employment) multiplied times years of service (to a maximum of 40 years); (2) 0.75% of final average monthly salary in excess of the monthly Social Security covered compensation multiplied times years of service (to a maximum of 35 years). However, no benefits will accrue after December 31, 2002.
Delayed Retirement	A participant may continue in the employment of the employer after his normal retirement date. In such event he will receive at actual retirement or death the accrued benefit as of the delayed retirement date based on creditable service and compensation to that date.
Accrued Benefit	The accrued benefit at any time prior to a participant's normal retirement date shall be the benefit as calculated in normal retirement benefit above, using compensation and service as of the date of determination. Accrued benefits were frozen at December 31, 2002.

Early Retirement Benefit

Upon the completion of five years of service and the attainment of age 55, a participant may elect to retire. He may receive a monthly benefit for life beginning at his normal retirement date equal to the benefit accrued at early retirement date. Payments may begin immediately, with the benefit being reduced by one-fifteenth for the first five years prior to age 65 and one-thirtieth for the next five years by which the payment date precedes the normal retirement date. Participants with 30 or more years of service can begin an unreduced benefit as early as age 62; the benefit is reduced by one-fifteenth for the first two years and one-thirtieth for the next five years prior to age 62.

Death Benefit

In the event of a married active participant's death, after having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming that the participant had retired on the day prior to death and elected a joint and one-half survivor benefit.

In the event of a married vested participant's death prior to having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming the participant had terminated on the date of death, survived to the earliest retirement age, elected a joint and one-half survivor benefit, and died the next day.

An optional family survivor benefit is available to participants who have a child under the age of 27 and/or are married. This benefit provides for 25% of the employee’s rate of pay at the time of death to be paid until the later of the youngest child attaining age 27 or the life of the spouse. This benefit is in lieu of the plan’s preretirement death benefit, but in no event shall it be less than that benefit. This optional benefit must be elected and paid for by the participant.

Severance Benefit

Upon the termination of employment after five or more years of service, a participant shall be vested in his accrued benefit which will be payable at normal retirement date. The percentage vested shall be:

Years of Service	Vested Percent
Fewer than 5	0%
5 or more	100%

	A participant who terminates with five or more years of service may elect to receive a reduced benefit as early as age 55.
Optional Methods of Settlement	All optional methods of settlement are actuarially equivalent to the normal form of annuity. If a married participant does not elect the normal form of annuity or does not elect one of the optional methods of settlement described below, then the participant's retirement benefit shall automatically be paid under option [1] below. The options are: (1) A benefit to be paid during the participant's lifetime with one half or three-fourths the reduced benefit to be continued to his beneficiary for the beneficiary's lifetime after his death. (2) A reduced benefit to be paid during the participant's lifetime with the same reduced benefit to be continued to his beneficiary for the beneficiary's lifetime after his death. All optional methods of settlement are actuarially equivalent to the normal form of annuity on a unisex basis based on the 1984 Unisex Pension Mortality Table and 8% interest. However, lump sum values will be calculated using the applicable mortality table and the minimum present value segment rates as of the October preceding the beginning of the plan year.

United Musical Instruments Employees

The following summary describes principal plan provisions assumed in calculating the cost of your pension plan.

Eligibility

All employees of the employer are eligible to participate in the plan on the first day of the plan year in which one year of participation service is earned. A year of participation service is a 12-month period beginning on the employee's date of hire (and later shifting to the plan year) in which the employee earns 1,000 hours of service.

Service

Service shall equal total years of service with the employer. A year of service is credited for each year in which an employee works 1,800 hours, with fractional years of service credited to the nearest one-tenth of a year, determined by dividing the total number of hours of service in a plan year by 1,800. No more than one year of service may be earned in any plan year.

No service for benefit accrual purposes will be guaranteed after December 31, 2011.

Normal Retirement Date

Normal retirement date is the first day of the month coincident with or next following attainment of age 65 and five years of participation.

Normal Retirement Benefit

The amount of monthly benefit to be paid for life, based on service to normal retirement date is $24 per year of benefit service for employees terminating prior to February 15, 2008. For termination on or after this date, refer to the table below:

On or After	But Before	Pension Rate
02/15/2008	02/17/2009	$25.00
02/17/2009	02/16/2010	$26.00
02/16/2010	12/31/2011	$27.00
12/31/2011		$28.00

Delayed Retirement

A participant may continue in the employment of the employer after his normal retirement date. In such event he will receive at actual retirement or death the accrued benefit as of the delayed retirement date based on creditable service and compensation to that date.

Accrued Benefit

The accrued benefit at any time prior to a participant's normal retirement date shall be the benefit as calculated in normal retirement benefit above, using compensation and service as of the date of determination.

Early Retirement Benefit

Upon the completion of five years of service and the attainment of age 60, a participant may elect to retire. He may receive a monthly benefit for life beginning at his normal retirement date equal to the benefit accrued at early retirement date. Payments may begin immediately, with the benefit being reduced 0.50% for each month by which the payment date precedes the normal retirement date.

Death Benefit

In the event of a married active participant's death, after having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming that the participant had retired on the day prior to death and elected a joint and one-half survivor benefit.

In the event of a married vested participant's death prior to having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming the participant had terminated on the date of death, survived to the earliest retirement age, elected a joint and one-half survivor benefit, and died the next day.

Severance Benefit

Upon the termination of employment after five or more years of service, a participant shall be vested in his accrued benefit which will be payable at normal retirement date. The percentage vested shall be:

Years of Service	Vested Percent
Fewer than 5	0%
5 or more	100%

A participant who terminates with five or more years of service may elect to receive a reduced benefit as early as age 60.

Optional Methods of Settlement	All optional methods of settlement are actuarially equivalent to the normal form of annuity. If a married participant does not elect the normal form of annuity then the participant's retirement benefit shall automatically be paid under option [1] below. (1) A benefit to be paid during the participant's lifetime with one half or three-fourths the reduced benefit to be continued to his beneficiary for the beneficiary's lifetime after his death. All optional methods of settlement are actuarially equivalent to the normal form of annuity on a unisex basis based on the 1984 Unisex Pension Mortality Table and 8% interest. However, lump sum values will be calculated using the applicable mortality table and the minimum present value segment rates as of the November preceding the beginning of the plan year.

Lancaster Mould Employees

The following summary describes principal plan provisions assumed in calculating the cost of your pension plan.

Eligibility	All employees whose employment was covered by the collective bargaining agreement between Lancaster Mould Co. and American Flint Glass Workers Union, AFL-CIO, Local No. 73 were eligible to participate on their date of employment. Entry into the plan was frozen July 1, 1991.
Service	Service shall equal total years of service with the employer. A year of service is credited for each year in which an employee works 1,000 hours. No service for benefit accruals shall be granted after January 1, 1992.
Normal Retirement Date	Normal retirement date is the first day of the month coincident with or next following attainment of age 65.
Normal Retirement Benefit	The amount of annual benefit to be paid in monthly installments for life, based on service to normal retirement date is $20 per year of benefit service However, no benefits will accrue after December 31, 1991.
Delayed Retirement	A participant may continue in the employment of the employer after his normal retirement date. In such event he will receive at actual retirement or death the accrued benefit as of the delayed retirement date based on creditable service and compensation to that date.
Accrued Benefit	The accrued benefit at any time prior to a participant's normal retirement date shall be the benefit as calculated in normal retirement benefit above, using compensation and service as of the date of determination. Accrued benefits were frozen at December 31, 1991.
Early Retirement Benefit	Upon the completion of 10 years of service and the attainment of age 55, a participant may elect to retire. He may receive a monthly benefit for life beginning at his normal retirement date equal to the benefit accrued at early retirement date. Payments may begin immediately, with the benefit being reduced 0.5% for each month by which the payment date precedes the earlier of age 60 and age 55 with 30 years of service.

Death Benefit

In the event of a married active participant's death, after having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming that the participant had retired on the day prior to death and elected a joint and one-half survivor benefit.

In the event of a married vested participant's death prior to having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming the participant had terminated on the date of death, survived to the earliest retirement age, elected a joint and one-half survivor benefit, and died the next day.

Severance Benefit

Upon the termination of employment after five or more years of service, a participant shall be vested in his accrued benefit which will be payable at normal retirement date. The percentage vested shall be:

Years of Service	Vested Percent
Fewer than 5	0%
5 or more	100%

A participant who terminates with 10 or more years of service may elect to receive a reduced benefit as early as age 55.

Optional Methods of Settlement

All optional methods of settlement are actuarially equivalent to the normal form of annuity. If a married participant does not elect the normal form of annuity or does not elect one of the optional methods of settlement described below, then the participant's retirement benefit shall automatically be paid under option [1] below. The options are:

(1) A benefit to be paid during the participant's lifetime with one half or three-fourths the reduced benefit to be continued to his beneficiary for the beneficiary's lifetime after his death.

(2) A benefit to be paid for 72 months certain and thereafter for life.

	All optional methods of settlement are actuarially equivalent to the normal form of annuity on a unisex basis based on the 1984 Unisex Pension Mortality Table and 8% interest. However, lump sum values will be calculated using the applicable mortality table and the minimum present value segment rates as of the November preceding the beginning of the plan year.
Amendment or Termination of Plan	The employer reserves the right to amend or terminate the plan at any time. Generally, the Pension Benefit Guaranty Corporation reserves the right to terminate the plan if the employer fails to meet the minimum funding standards, or is unable to pay benefits when due. If the plan is terminated, the plan assets will be distributed among the plan participants based upon a priority allocation procedure and the employer shall be liable for any unfunded vested benefits to the extent required by law. The above description is a summary only; for additional details, reference should be made to the formal plan document.

Plan Changes Since the Prior Year

The funding valuation does not reflect any plan changes.

Schedule SB, Part V—Statement of Actuarial Assumptions/Methods

Interest Rates for Minimum Funding Purposes	Based on segment rates with a four-month lookback (as of September 2015), each adjusted as needed to fall within the 25-year average interest rate stabilization corridor
1st Segment Rate	4.43%
2nd Segment Rate	5.91%
3rd Segment Rate	6.65%
Interest Rates for Maximum Tax Purposes	Based on segment rates with a four-month lookback (as of September 2015), without regard to interest rate stabilization
1st Segment Rate	1.34%
2nd Segment Rate	4.03%
3rd Segment Rate	5.06%
Retirement Age	
Active Participants	See Tables 1–2
Terminated Vested Participants	Age 65
Mortality Rates	
Healthy and Disabled	2016 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e)
Withdrawal Rates	See Tables 3–4
Disability Rates	See Table 5
Decrement Timing	Beginning of year decrements
Surviving Spouse Benefit	It is assumed that 80% of males and 80% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of $210,000.

Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2014 Plan Year	8.00%, limited to 6.99%
2015 Plan Year	8.00%, limited to 6.81%
2016 Plan Year	8.00%, limited to 6.65%
Trust Expenses Included in Target Normal Cost	Based on prior year's administrative expenses. PBGC premiums are assumed to not be paid from the trust.
Actuarial Method	Standard unit credit cost method
