NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of Plan

The following description of the Arnet Pharmaceutical Corp. 401(k) (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 2016 as a non-standardized defined contribution plan covering all employees of Arnet Pharmaceutical Corp. (the Employer) who have completed three months of eligible service and attained age twenty-one years as defined in the Plan adoption agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants in the Plan may voluntarily contribute up to 90% of their pre-tax annual compensation, as defined by the Plan, within the limits prescribed by the Internal Revenue Service (IRS). Participants may also roll over amounts representing distributions from other qualified defined-benefit or contribution plans. For the year ended December 31, 2016, individual participants' contributions were limited to $18,000. Participants who are age 50 and older may also contribute an additional $6,000 on an annual basis.

The Plan provides for Employer matching contributions. The Employer's matching contribution for the year ended December 31, 2016 was 25% of individual participants' contributions up to a maximum of 4% of the participant's salary for the year. The Employer may also make a non-elective contribution. Employer contributions, if any, are recorded in the year for which the contributions apply. Aggregate employer contributions applicable to the year ended December 31, 2016 amounted to $27,047. Employer contributions are invested in funds in accordance with the participant's direction and the Plan's provisions.

Participant accounts

Each participant account is credited with the participant's contribution and allocation of: (a) the employers' matching contribution and discretionary non-elective contribution (if any) and (b) Plan earnings or losses, including market value adjustments on Plan investments. Allocations of earnings and losses are based on the proportion of the participant's account balance to the total account balances of all participants, as defined in the Plan document. All participant contributions are participant-directed and may be invested in one fund or allocated among different funds. Participants may change the allocation of contributions among funds pursuant to Plan provisions.

Allocation and vesting of benefits

Participants are immediately vested in their voluntary contributions plus actual earnings or losses thereon. Vesting in the Employers' matching contributions and non-elective contributions (if any), plus any earnings or losses thereon, is based upon the number of years of continuous service. Participants who become eligible and are enrolled in the Plan will receive vesting credit for years of service based only on the elapsed time method as defined by the Plan. A participant is 100% vested in the employer's contribution portion of their account after three years of credited service.

Note 1 – Description of Plan, Continued

Forfeitures

Forfeitures are used to reduce the Employers' elective contributions and/or used to pay Plan administration expenses. Forfeitures are allocated to participants' accounts in the same manner as the Employers' matching contributions. At December 31, 2016, there were no unallocated forfeitures included in the net assets available for plan benefits.

Payment of benefits

On termination of service due to death, disability, or retirement, or qualifying under certain "hardship" rules, as prescribed by the IRS, a participant may receive distributions from the Plan equal to the value of the participant's vested interest in his or her account. Distributions may be in the form of a lump-sum payment or a rollover into another qualified plan. Additionally, participants reaching the age of 59½ years of age may receive in-service distributions from the Plan.

Participant notes receivable

Plan participants may borrow from their account a minimum of $500 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan originations and repayments are treated as transfers between investment funds and the participant's loan fund. A participant may only have one existing loan at any given time. Loan terms may not exceed five years, except in the case of loans for the purchase of a primary residence. The loans are secured by the balance in a participant's account and bear interest at prime rate plus 2%. The interest rate shall remain fixed throughout the duration of the loan. Principal and interest are collected ratably through monthly payroll deductions.

Plan administration

The Plan is administered by the Employer pursuant to the terms and conditions of the Plan. The Plan's assets are maintained by Reliance Trust Company, the Trustee.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan have been prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisor and Trustee. See Note 4 for a discussion of fair value measurements.

In accordance with the policy of stating investments at fair value, unrealized appreciation or depreciation for the year is reflected in the statement of changes in net assets available for plan benefits.

Note 2 – Summary of Significant Accounting Policies, Continued

Investment valuation and income recognition, continued

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis.

Management estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets and changes in net assets and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and such differences could be material.

Risks and uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the high level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near-term would materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Concentration of credit risk

The Trustee maintains the Plan's investments with high credit-quality institutions and attempts to limit the credit exposure of any particular investment. Participant notes receivable are secured by the balance of the participant's account.

Payment of benefits to withdrawing participants

The Plan records benefit payments to withdrawing participants when paid.

Uncertain tax positions

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) FASB ASC Topic 740, *Income Taxes*, requires the Plan to assess its uncertain tax positions for the likelihood they would be overturned upon examination by the IRS. In accordance with this guidance, the Plan has determined it does not have any positions at December 31, 2016 that it would be unable to substantiate.

Fully benefit-responsive investments

While Plan investments are presented at fair value in the statement of net assets available for plan benefits, contract value is the relevant measurement attribute for that portion of the Plan's net assets available for plan benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals, and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 2 – Summary of Significant Accounting Policies, Continued

New accounting pronouncements

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: *Defined Benefit Pension Plans* (Topic 960), *Defined Contribution Plans* (Topic 962), *Health and Welfare Benefit Plans* (Topic 965): (Part I) *Fully Benefit Responsive Investment Contracts,* (Part II) *Plan Investment Disclosures and* (Part III) *Measurement Date Practical Expedient*. The ASU requires an employee benefit plan to use contract value as the only measurement amount for fully benefit-responsive investment contracts, and simplifies and increases the effectiveness of plan investment disclosure requirements for employee benefit plans. The guidance is effective for fiscal years beginning after December 15, 2015, and must be applied retrospectively to all periods presented in the financial statements for the fiscal year of adoption, with early adoption permitted. The Plan has adopted the provisions of ASU 2015-12 and has concluded that the adoption did not have a significant impact on the Plan's financial statements.

Note 3 – Investment Information Prepared and Certified by the Plan Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and participant notes receivable as shown on the statement of net assets available for plan benefits as of December 31, 2016;
- Net investment activity and interest income on participant notes receivable as shown in the statement of changes in net assets available for plan benefits for the year ended December 31, 2016;
- Investment information included in the footnotes and supplemental schedule of assets held for investment purposes at year end as of December 31, 2016.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

The following investment information was obtained from data prepared and certified to as complete and accurate by the Trustee as of December 31, 2016:

Investments, at fair value:	
Registered investment companies	$ 160,867
Common collective trusts	1,394
Total investments, at fair value	$ 162,261

Note 4 – Fair Value Measurement and Disclosures

Accounting guidance provides a framework for measuring fair value and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Note 4 – Fair Value Measurement and Disclosures, Continued

Registered investment companies are mutual funds registered under the Investment Company Act of 1940. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds are deemed to be actively traded and are therefore considered Level 1 investments within the fair value hierarchy.

The common collective trusts (CCT) are measured at the NAV of units of the collective trust. NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it were determined to be probable that the trust would sell its underlying investments for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily at NAV. The CCT is measured at net asset value and has not been classified in the fair value hierarchy in accordance with FASB ASC 820.

The preceding methods described may produce a fair value calculation that may not be indicative of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis consist of the following types of instruments as of December 31:

	Fair Value Measurements as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds and total assets in the fair value hierarchy	$ 160,867	$ -	$ -	$ 160,867
Investments measured at net asset value *	-	-	-	1,394
Investments at fair value	$ 160,867	$ -	$ -	$ 162,261

* In accordance with subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to present the reconciliation of the fair value hierarchy to line items presented on the statement of net assets available for plan benefits.

Note 5 – Fair Value of Investments in Entities that use NAV Practical Expedient

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2016:

Invesco Stable Asset Fund	$ 41
State St Intl Index Sec Lend Series Fund – Class VIII	56
State St Russ SC Idx Sec Lend Series Fund – Class	489
State St S&P 500 Idx Sec Lend Series Fund – Class IX	808
Total common collective trusts	$ 1,394

The Common Collective Trusts (CCTs) are composed primarily of fully benefit-responsive investment contracts and reports it's NAV at both fair value and contract value. The accompanying financial statements present these CCTs at the NAV based on contract value. These CCTs have no unfunded commitments and can be redeemed daily.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7 – Tax Status

As described in the Plan Administration Manual, the Company adopted word-for-word an approved prototype plan document beginning January 1, 2016. The IRS has already reviewed and issued a favorable opinion letter for the prototype document, and it is the IRS position that the employer may rely on this opinion letter, making a determination letter unnecessary.

Note 8 – Party-In-Interest Transactions

Parties-in-interest are defined under the DOL Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. Therefore, transactions in these investments qualify as party-in-interest.

Note 9 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for plan benefits as shown on Form 5500 at December 31, 2016 with the amount shown in the financial statements:

Net assets available for plan benefits – Form 5500	$ 163,911
Reconciling items:	
Participant and employer contributions receivable	3,675
Net assets available for plan benefits – financial statements	$ 167,586

Note 10 – Subsequent Events

Management evaluated activity of the Plan subsequent to December 31, 2016, through August 25, 2017, the date on which the financial statements were available to be issued, for events that require recognition in the financial statements or disclosure in the notes thereto.
